The following table gives the percentages of total occupied population for the principal groups in the eight leading industrial countries prior to the war:

Occupation Group.	Great Britain.	France.	Germany.	Austria.	Hungary.	Italy.	Belgium.	United States.
Agriculture	12.66	41.42	35.11	60.80	70.15	59.06	21.90	See separate classification below.
Commercial occupations	11.39	6.54	6.30	3.34	2.56	3.43	11.79	
Conveyance of men, goods and messages	8.20	2.89	2.89	1.70	1.55	3.12	2.03	
Mines and quarries	5.00	1.59	3.25	1.56	.78	.89	6.46	
Metals, machines, implements and conveyances	7.89	4.35	6.99	2.78	2.15	2.14	5.95	
Building and works of construction	6.77	4.20	6.99	2.96	1.48	5.02	7.28	
Textile fabrics	6.92	4.55	3.75	3.26	.37	4.81	6.86	
Dress	7.23	8.05	5.39	3.92	2.85	6.64	7.86	

A distinct classification adopted by United States Census Bureau based on 1910 census is as follows: All occupations, 38,167,336 (consisting of 30,091,564 males and 8,075,772 females) with per cent. in parentheses showing distribution of total. Agriculture, forestry, and animal husbandry, 12,659,203 (33.2), extraction of minerals, 964,824 (2.5); manufacturing and mechanical industries, 10,658,881 (27.9); transportation, 2,637,671 (6.9); trade, 3,614,670 (9.5); public service (not elsewhere classified), 459,291 (1.2); professional service, 1,663,569 (4.4); domestic and personal service, 3,772,174 (9.9); clerical occupations, 1,737,053 (4.6).

CHINA'S FOREIGN POPULATION.

Nationality.	Persons. 1916.	Persons. 1917.	Nationality.	Persons. 1916.	Persons. 1917.	Nationality.	Persons. 1916.	Persons. 1917.
American	5,580	5,618	German	3,792	2,899	Russian	55,235	51,310
Austrian	296	317	Hungarian	34	18	Spanish	366	300
Belgian	286	324	Italian	400	416	Swedish	423	513
British	9,099	8,479	Japanese	104,275	144,492	Nontreaty powers	157	215
Danish	397	450	Norwegian	329	277			
Dutch	277	298	Portuguese	2,293	2,297	Total	185,613	220.485
French	2,374	2,262						

INDUSTRIAL POPULATION IN UNITED STATES IN 1917.

(As estimated by the Government in connection with the First Selective Service Draft. From the Statistical Abstract of the United States.)

INDUSTRIAL CLASSES.	Industrial Population.	Registered.	Called.	Accepted for Service.
Agriculture, forestry, and animal husbandry: Agriculture (farming, truck gardening, fruit raising, etc.)	18,843,518	2,439,246	782,503	205,731
Forestry (lumbering, etc.)	200,991	78,241	24,507	7,984
Animal husbandry (fishing; cattle and sheep raising, etc.)	227,325	46,646	15,642	4,570
Mines, quarries, and wells: Coal mines	600,148	225,109	74,109	18,710
Other mines, quarries, salt mines, etc	275,561	92,062	35,553	10,377
Oil wells and gas wells	51,223	33,040	10,610	3,026
Manufacturing industries: Building—House contractors, carpenters, blacksmiths, machin's, electric's, paint's, plaster's, plumb's, etc.	2,878,792	700,790	231,835	57,970
Chemical indust's—Powder, cartridge, dynamite, fuse, and firew'ks	10,307	25,999	9,692	2,310
Fertilizer, paint, and soap factories, etc	80,331	24,946	7,986	1,926
Clay, glass, and stone industries—Brick, tile, and terra-cotta; glass lime, cement, gypsum, marble, stone; potteries	246,072	74,580	24,928	6,022
Clothing indust's—Cloth'g, glove, hat, shirt, collar, and cuff fact's	754,062	114,687	44,952	7,370
Food industries—Bakeries; butter and cheese; candy; fish curing; flour and grain; fruit and vegetable canning; slaughter and packing houses; sugar; other food factories	396,519	160,709	50,929	11,687
Iron and steel indust's—Blast furn.; steel mills; iron; milit'y weap's	373,701	241,145	92,434	22,068
Shipbuilding and boat building	62,071	35,949	11,910	2,628
Agric. impl. fact's; automobile; wagon and carriage; car and railroad shops; other iron and steel factories	822,540	310,318	102,860	24,857
Leather indust's—Harness and saddle; shoe; tanneries; trunk	343,805	81,575	24,663	5,063
Liquor and beverage indust's—Breweries; other liq. and bev. fact's	89,190	17,669	5,752	1,472
Lumber and furniture indust's—Box fact's (wood); furn. fact's; piano and organ; saw and planing; other woodworking fact's	541,926	145,379	43,144	11,458
Metal indust's (exc. iron and steel)—Brass mills; clock and watch; copper; gold and silver, jewelry; lead and zinc; tin-plate; tinware and enamelware; other metal factories	268,537	123,992	46,480	10,182
Paper and printing—Blankbook, envelope, tag, paper-box fact's; paper and pulp mills; printing and publishing houses	507,986	101,750	30,711	6,745
Textile—Carpet, cotton, hemp and jute, knitting, lace and embroidery, linen mills; rope and cordage, sail and tent factories; silk, woolen and worsted, and sundry textile mills	919,800	155,938	52,462	9,833
Miscellaneous indust's—Broom and brush, button fact's; charcoal and coke works; cigar and tobacco fact's; electric; gas; oil refineries; rubber fact's; straw fact's; other misc. industries	1,254,361	275,679	87,780	22,089
Transportation: Steam railroads	1,236,867	277,018	85,063	21,557
Telegraph and telephone companies	297,067	66,119	20,128	4,955
Water transportat'n; construct'n and maint. of streets, roads, sewers, and bridges; elect. and street railways; livery stables; truck, transfer, cab, and hack compan's; express; postal service	1,297,132	400,513	128,262	34,565
Trade and merchandise in gen.: Bank'g and brokerage; insurance; real estate; wholesale and retail trades; grain elevators; stockyards; warehouses and cold-storage plants	4,708,908	364,151	111,541	24,892
Public service (not elsewhere classified): Public admin (U. S., State, county, city, and township employees); National Defense (Army and Navy); marshals, sheriffs, policemen, watchmen	529,315	335,053	106,068	23,606
Professional service: Actors, showmen, etc.; artists, sculpt's, teach's; clergy; officials of lodges, relig. and char. work's; legal profess'n; literary profes'ns (journal's, etc.); dentists, physic's and surg's; veterinary surgeons; musicians; students	2,202,609	383,140	119,448	30,082
Domestic and manual service in gen.: Barb's and hairdr's; bartend's; cooks; hotel keep's and manag's; janitors, port's, restaurant, cafe, and lunchr'm keep's; saloon keepers; servants; waiters; clerks; laundries; other occupations	4,208,862	977,853	297,348	78,221
Laborers (in general)	4,053,385	1,277,213	403,649	114,955

NOTE—The following adjustments must be made for unavoidable uncertainties: The census figures of 1910 (Thirteenth Census) had to be corrected by estimate for 1917 (column 1); and this estimate can only be approximate, owing to the shifting of industrial activities, etc. The marked instance in which the census projection appears as too low is that of the group "powder, cartridges, and dynamite." Obviously the large shift to this industry was impossible to estimate by any determinable percentage. The figures in column 2 are subject to some uncertainty.

POPULATION OF PRINCIPAL CUBAN TOWNS AND CITIES.

CITIES.	Population.	Miles From Havana	CITIES.	Population.	Miles From Havana	CITIES.	Population.	Miles From Havana
Antilla	551	516	Guanabacoa	14,368	4	Marianao	9,332	9

POPULATION OF PANAMA CANAL ZONE.

A census of the Canal Zone taken by the police and fire division as of June 30, 1918, shows a total civilian population of 21,707, a decrease of 1,588 as compared with a year before. Of the total population, 2,827 American men and 7,074 men of other nationalities (chiefly British West Indian negroes) were employed by the Panama Canal and Railroad. There were in the Canal Zone 1,776 American women and 2,040 American children and 3,073 women and 4,102 children of other nationalities.

INCORPORATED PLACES OF 5,000 OR MORE INHABITANTS.

(According to the 1910 Census unless otherwise indicated.)

For 1890 the rank of Arizona advances from 48 to 47 and that of Oklahoma advances from 46 to 39 when the population specially enumerated in Indian Territory and on Indian reservations is included.

North Dakota included in South Dakota in 1860, 1870, and 1880.

The ranking of Oklahoma in 1900 was 38 and Indian Territory 39. The present ranking for the same census is based on the combined population of Oklahoma and Indian Territory.

For 1890 the rank of South Dakota advances from 37 to 35 when the population specially enumerated on Indian reservations is included.

New England Division—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut. Middle Atlantic Division—New York, New Jersey, Pennsylvania. East North Central Division—Ohio, Indiana, Illinois, Michigan, Wisconsin. West North Central Division—Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, Kansas. South Atlantic Division—Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida. East South Central Division—Kentucky, Tennessee, Alabama, Mississippi. West South Central Division—Arkansas, Louisiana, Oklahoma, Texas. Mountain Division—Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada. Pacific Division—Washington, Oregon, California.

The population in 1917, according to United States Census Bureau estimates, of the outlying possessions was as follows: Alaska, 64,906; Hawaii, 219,260; Porto Rico, 1,230,564; Philippines, 8,918,177; Virgin Islands, 26,051. Samoa (1916) 7,426; Guam (1913) 12,866.

In 1890 the native population was 53,698,154; the foreign, 9,249,560.

DENSITY OF POPULATION PER SQUARE MILE.

[NOTE—In computing density of population for the United States, the areas and population of Alaska, Hawaii, and Porto Rico in 1900 and 1910, of Alaska and Hawaii in 1890, and of Indian Territory in 1860, 1870 and 1880, are not considered. The area of Indian reservations, outside of Indian Territory, is included in the area of the States and Territories in which they are severally situated, and in that of the United States, although the population of these Indian reservations was not ascertained, and for this reason cannot be considered in figuring density of population at the censuses prior to 1890.]

In 1910 the percentage of naturalized individuals among the foreign-born white males, 21 years and over, was: New York, 41.1; New Jersey, 41.5; Massachusetts, 41.7; Connecticut, 39.6; Iowa, 61.7; Maine, 30.9. These figures show the range. Approximately nine-tenths (89.4 per cent.) of the foreign-born white males of voting age were of European origin, 9.8% were natives of American countries other than the United States, and 0.8% were natives of other countries. Very nearly one-half (3,310,930) were natives of northwest Europe, and of these approximately two-thirds (2,151,421, or 65%) were naturalized. Of the 2,631,458 natives of the countries comprising the southern and eastern divisions of Europe, taken together, 581,306, or 22.1%, were naturalized.

In 1850 there were 3,200 slaves in the United States, of whom 1,467, or one out of more than 2,100, was freed by the owner during the year. In 1860 the number of slaves had grown to 3,953,696, of whom less than one per cent. were manumitted in that year. There were, in 1790, over 59,000 free colored persons, and 697,897 slaves. In 1850 the freedmen numbered 434,449; in 1860 they were 482,122.

POPULATION 1910, BY MOTHER TONGUE.

Linguistic Group and Mother Tongue.	Foreign-Born White.	Both Parents Foreign Born.	One Parent Foreign, One Native.	Total Foreign White Stock.	Linguistic Group and Mother Tongue.	Foreign-Born White.	Both Parents Foreign Born.	One Parent Foreign, One Native.	Total Foreign White Stock.

Wyoming	40	65.9	96	85.8	162	111.0	220	120.7

The increase in the number of insane in institutions between 1910 and 1917 was 148.47% in Oklahoma, 74% in Florida and 66% in Washington. In New York State the increase was 21.86%; in New Jersey, 25.65%; in Connecticut, 16.79%; in Illinois, 27.38%; in Massachusetts, 21.51%; in California, 45.79%. The rate of increase for the United States was 24.64%.

Average number of insane in each State hospital ranged from 4,009 in Georgia, 3,058 in the District of Columbia, 2,451 in New York, 2,163 in New Jersey and 2,013 in Illinois, down to 244 in Nevada and 220 in Wyoming.

Increase in number of feeble-minded in institutions, 1910-1917, was 506.45% in Maine; 488.33% in Virginia; 408.33% in Rhode Island; 305.26% in Texas; 61.50% in New York; 102.81% in New Jersey; 48.98% in Connecticut; 119.47% in Massachusetts; 82.21% in Illinois, and 51.52% in California. For whole United States, 79.54%.

CENSUS OF THE INSANE IN NEW YORK STATE—JULY 1, 1917.

(By Horatio M. Pollock, Ph D., Statistician, State Hospital Commission.)

DISEASE.	Males.	Females	DISEASE.	Males.	Females
Traumatic	47	4	Allied to manic-depressive	315	741
Senile	445	902	Involution melancholia	217	561

The figures of the criminal insane for 1900 cover Matteawan only; and in 1908 these figures include transfers.

In 1912, when the State Hospital Commission studied the problem of "Immigration and the Insane," it was found that 23.1% of the foreign-born patients came from Italy; 20.3% from Ireland; 17% from Germany. The percentages from other countries were: Austria, 5.3; Canada, 4; England and Wales, 5.5; France, 0.2; Hungary and Bohemia, 2.6; Russia and Poland, 12.6; Scandinavia, 1.8; Scotland, 0.2; all other countries, 7.3. Of the native-born patients in 1912 about 49% were males; of the foreign-born 43.3% were males. In 1911, of the first admissions from New York City, 1,195 were native-born, and 2,006 were foreign-born. Of the 5,660 first admissions in 1911 3,518 had a common school education, 1,427 being foreign-born.

* Estimated. In New York State, in 1910, there were 2,836,773 males and 2,755,823 females over 21 years. In New York City, by the Military Census, there are 798,000 male citizens of the military age.

EXTRACTS FROM THE NEW YORK STATE CONSTITUTION.

(Adopted November 6, 1894, as amended, and in force January 1, 1918.)

ARTICLE I.

Persons Not to Be Disfranchised—Section 1. No member of this State shall be disfranchised, or deprived of any of the rights or privileges secured to any citizen thereof, unless by the law of the land, or the judgment of his peers.

Trial by Jury—Section 2. The trial by jury in all cases in which it has been heretofore used shall remain inviolate forever; but a jury trial may be waived by the parties in all civil cases in the manner to be prescribed by law.

Freedom of Worship; Religious Liberty—Section 3. The free exercise and enjoyment of religious profession and worship, without discrimination or preference, shall forever be allowed in this State to all mankind; and no person shall be rendered incompetent to be a witness on account of his opinions on matters of religious belief; but the liberty of conscience hereby secured shall not be so construed as to excuse acts of licentiousness, or justify practices inconsistent with the peace or safety of this State.

Habeas Corpus—Section 4. The privilege of the writ of habeas corpus shall not be suspended, unless when, in cases of rebellion or invasion, the public safety may require its suspension.

Grand Jury; Bill of Rights—Section 6. No person shall be held to answer for a capital or otherwise infamous crime (except in cases of impeachment, and in cases of militia when in actual service, and the land and naval forces in time of war, or which this State may keep with the consent of Congress in time of peace, and in cases of petit larceny, under the regulation of the Legislature), unless on presentment or indictment of a grand jury, and in any trial in any court whatever the party accused shall be allowed to appear and defend in person and with counsel as in civil actions. No person shall be subject to be twice put in jeopardy for the same offense; nor shall he be compelled in any criminal case to be a witness against himself; nor be deprived of life, liberty or property without due process of law; nor shall private property be taken for public use without just compensation.

Freedom of Speech and Press; Criminal Prosecutions for Libel—Section 8. Every citizen may freely speak, write and publish his sentiments on all subjects, being responsible for the abuse of that right; and no law shall be passed to restrain or abridge the liberty of speech or of the press. In all criminal prosecutions or indictments for libels, the truth may be given in evidence to the jury; and if it shall appear to the jury that the matter charged as libelous is true, and was published with good motives and for justifiable ends, the party shall be acquitted; and the jury shall have the right to determine the law and the fact.

ARTICLE II.

Qualification of Voters—Section 1. Every citizen of the age of twenty-one years, who shall have been a citizen for ninety days, and an inhabitant of this State one year next preceding an election, and for the last four months a resident of the county, and for the last thirty days a resident of the election district in which he or she may offer his or her vote, shall be entitled to vote at such election in the election district of which he or she shall at the time be a resident, and not elsewhere, for all officers that now are or hereafter may be elective by the people; and upon all questions which may be submitted to the vote of the people, provided, however, that a citizen, by marriage, shall have been an inhabitant of the United States for five years; and, provided that in time of war no elector in the actual military service of the State, or of the United States, in the army or navy thereof, shall be deprived of his or her vote by reason of his or her absence from such election district; and the Legislature shall have power to provide the manner in which and the time and place at which such absent electors may vote, and for the return and canvass of their votes in the election districts in which they respectively reside.

Persons Excluded From the Right of Suffrage—Section 2. No person who shall receive, accept, or offer to receive, or pay, offer or promise to pay, contribute, offer or promise to contribute to another, to be paid or used, any money or other valuable thing as a compensation or reward for the giving or withholding a vote at an election, or who shall make any promise to influence the giving or withholding any such vote, or who shall make or become directly or indirectly interested in any bet or wager depending upon the result of any election, shall vote at such election; and upon challenge for such cause, the person so challenged, before the officers authorized for that purpose shall receive his or her vote, shall swear or affirm before such officers that he or she has not received or offered, does not expect to receive, has not paid, offered or promised to pay, contributed, offered or promised to contribute to another, to be paid or used any money or other valuable thing as a compensation or reward for the giving or withholding a vote at such election, and has not made any promise to influence the giving or withholding of any such vote, nor made or become directly or indirectly interested in any bet or wager depending upon the result of such election.

JEWISH STATISTICS.

(Compiled for the American Jewish Year Book by Samson D. Oppenheim, J. D., Director of the Bureau of Jewish Statistics and Research, New York.)

ACCORDING to various authorities cited by Mr. Oppenheim, the Jewish population of New York City in past years was as follows—(1790) 385; (1812) 400; (1824) 6,000; (1840) 15,000; (1880) 60,000; (1892) 250,000; (1905) 672,000; (1910, U. S. Census), 861,980; (1912, New York Kehillah), 1,250,000; (1918) 1,500,000. "New York City," adds Mr Oppenheim, "contains the largest Jewish community that has ever existed within the confines of a single municipality: It has over 2,200 congregations and 181 religious schools with 41,403 pupils, exclusive of about 14,000, who attend private hedarim. It has over 100 recreational and cultural agencies, more than 1,000 mutual aid societies, 965 lodges, 193 economic agencies, and 164 philanthropic and correctional agencies. Over $17,000,000 was expended in 1917 by all these activities, of which amount the two great philanthropic federations, that of Manhattan and the Bronx, and that of Brooklyn, expended during the year $2,500,000. In these figures are not included the $6,000,000 raised in the year 1917-1918 for Jewish War Relief abroad. Within the confines of the metropolis are printed and published 57 Jewish journals—Five dailies, 28 weeklies, 11 monthlies, 1 bi-monthly, 1 quarterly, 1 annual, 10 occasional publications. Of these, 23 are published in English, 3 in Hebrew, 2 in Judeo-Spanish, and 29 in Yiddish. The great majority of American Jews live in cities or towns, there being only about 20,000 Jewish farmers and other agriculturists in the United States; and even most of these 20,000 reside in little centers." He estimates the Jewish population of the large cities as follows.

PLACE.	Popula'n	PLACE.	Popula'n	PLACE.	Popula'n	PLACE.	Popula'n
New York:		Cleveland	100,000	Rochester	20,000	Kansas City	12,000
Manhattan	695,000	Boston	77,500	Milwaukee	20,000	Syracuse	12,000
Bronx	210,000	Baltimore	60,000	New Haven	18,000	Denver	11,000
Brooklyn	567,000	St. Louis	60,000	Los Angeles	18,000	Washington	10,000
Queens	23,000	Pittsburgh	60,000	Hartford	16,000	Atlanta	10,000
Richmond	5,000	Newark	55,000	Minneapolis	15,000	Indianapolis	10,000
		Detroit	50,000	Paterson	15,000	Worcester	10,000
Total	1,500,000	San Francisco	30,000	Providence	15,000	St. Paul	10,000
Chicago	225,000	Cincinnati	25,000	Jersey City	12,500	Omaha	10,000
Philadelphia	200,000	Buffalo	20,000	Bridgeport	12,000		

Chelsea, Mass., has a general population of 46,000, and contains 13,000 Jews, or a Jewish population of 28 per cent. Rosenhayn, N. J., has a general population of 600, and contains 300 Jews, or a Jewish population of 50 per cent., while Carmel, N. J., has a general population of 750, and contains 450 Jews, or a Jewish population of 60 per cent. Woodbine, N. J., is practically entirely Jewish in population.

SHIPBUILDING TERMS.

(From a Bulletin of the United States Emergency Fleet Corporation.)

Aft—at, near, or toward the stern.
After Perpendicular—a vertical straight line at the after edge of the rudder post.
Anchor—a heavy steel device attached to the end of a chain or hawser for holding the ship in position when not alongside dock.
Athwartships—across the ship, at right angles to the keel.
Ballast—any weight or weights (usually sea water) used to keep the ship from becoming "top heavy."
Beam—an athwartship member supporting a portion of a deck. Also the width of the ship.
Below—below a deck or decks (corresponding to "down stairs").
Berth—a place for a ship.
Bilge—the rounded portion of the hull between the side and bottom.
Bilges—the lowest portion of the ship inside of the hull.
Bilge Keel—a fore and aft member fitted to the outside of the shell plating running along the bilge, used to prevent excessive rolling of the ship.
Bitts—heavy steel castings fitted to the weather deck for securing mooring lines or hawsers.
Boom—a long, round, heavy spar, pivoted at one end, usually used for hoisting cargo, &c.
Boss—the curved swelling portion of the ship's hull around the propeller shaft.
Bow—the forward end of a ship.
Bridge—the athwartship platform above the weather deck from which the ship is navigated.
Bulkhead—a vertical partition extending either athwartships or fore and aft.
Bulwark—the ship's side above the weather deck.
Bunker—a compartment used for the stowage of coal or other fuel.
Buoyancy—ability to float.
Camber—the athwartship curvature of a deck. Sometimes called *round up*.
Calk—to make a joint water tight.
Capstan—a revolving device, with axis vertical, used for heaving in lines.
Centre Line—the middle line of the ship, from stem to stern.
Chock—a heavy fitting through which ropes or hawsers may be led.
Cleat—a fitting attached to the deck, having two fore and aft arms around which a rope may be secured.
Coaming—the vertical boundary of a hatch or skylight.
Cofferdam—the space between two bulkheads located very close together.
Davit—heavy vertical pillar of which the upper end is bent to a curve, used to support the end of a boat when hoisting or lowering.
Deadweight—the total weight of cargo, &c.
Deck—the part of a ship that corresponds to the floor of a building.
Displacement—the total weight of the ship when afloat, including everything on board.
Dog—a small bent metal fitting used to close doors, hatch covers, manhole covers, &c.
Double Bottom—Compartments at bottom of ship between inner and outer bottoms, used for ballast tanks, water, fuel, oil, &c.
Drag—the amount that one end of the keel is below the other when the ship is afloat but not on an even keel.
Draft—the vertical distance of the lowest part of the ship below the surface of the water afloat.
Even Keel—a ship is said to be on even keel when the keel is level, or parallel to the water.
Fairlead—a small fitting through which a rope may be led so as to change its direction without excessive friction.
Fender—a device to prevent damage to a ship's hull at or near the waterline by other vessels, &c.
Fidley Hatch—hatch around smokestack and uptake.
Fore and Aft—in line with the length of the ship, longitudinally.
Forecastle—the forward upper portion of the hull, usually the crew's quarters.
Fore Peak—a large compartment or tank just aft of the bow in the lower part of the ship.
Forward—near or toward the bow.
Framing—the support and stiffening of the shell plating, deck plating, &c.
Freeboard—vertical distance from the upper watertight deck or top of bulwarks to waterline, when ship is loaded.
Galley—the "kitchen" of a ship.
Gangway—a passageway or other means of boarding a ship.
Garboard Strake—the strake of shell plating next to the keel.
Gross Tonnage—a figure obtained by dividing the total volume of the ship, in cubic feet, by 100.
Gudgeon—fitting on which rudder swings. The gudgeons fit around the *pintles*, and form a part of the rudder post.
Gunwale—the side of a ship at the edge of the weather deck.
Hatch—an opening in a deck.
Hawse Pipe—a large fitting attached to the bow through which the anchor chain passes.
Hawser—a large rope.
Helm—the direction to which the tiller is put, or opposite to which the rudder is put. (When the rudder is to port the ship is said to carry starboard helm.)
Hogging—straining of the ship that tends to make the bow and stern lower than the middle.
Hold—a large compartment in the lower part of the ship for cargo.
Hull—the body of a ship, including shell plating, framing, decks, bulkheads, &c.
Inboard—inside the ship, toward the centre line.
Jackstaff—flag pole at bow of ship.
Keel—the fore and aft member, usually in the form of flat plates end to end, extending from stem to stern along the bottom of a ship on the centre line.
Keelson—an auxiliary keel or stringer, extending along and over, or parallel to the keel. The centre vertical keel.
Launching—the operation of placing the hull in the water by having it slide down the *launching ways*. During launching the weight of the hull is borne by the *sliding ways* which are attached to the hull and slide with it down the *ground ways*.
Length Between Perpendiculars—the length of a ship measured from the stem to the after perpendicular.
Length Over All—the length of a ship measured from the stem to the aftermost point of the stern.
Lines—the plans of a ship that show its form. From the lines, drawn full size on the mould loft floor, are made templates of the various parts of the hull.
Longitudinal—a fore and aft vertical member running parallel, or nearly parallel, to the centre vertical keel through the double bottom.
Magazine—a compartment or room in which ammunition is stored.
Main Deck—the principal deck of the main hull, being the highest, and giving strength to the main hull.
Mast—a large long spar, placed nearly vertical on the centre line of a ship.
Midship—at the middle of the ship's length.
Mould—a light pattern of a part of a ship. Usually made of thin wood or paper. Also called a *template*.
Mooring—securing a ship in position by lines so she cannot move or swing.
Net Tonnage—a figure obtained by making deduction from the gross tonnage to allow for space not available for carrying cargo.
On Board—on or in the ship.
On Deck—on the upper deck, in the open air.
Orlop Deck—the lowest deck.
Outboard—away from the centre line, toward the side of a ship.
Overhang—portion of the hull over and unsupported by the water.
Panting—in and out movement of shell plating.
Pillar—vertical member or column giving support to a deck. Also called *stanchion*.
Pintle—fitting or pin on the rudder which turns in a gudgeon.
Platform—a partial deck.
Poop—the after, upper portion of the hull, usually containing the steering gear.
Port—the left hand side of the ship when looking from aft forward. Also an opening.

SHIPBUILDING TERMS—*Continued.*

Porthole—a circular opening in the ship's side.
Propeller—a revolving device that drives the ship through the water, consisting of three or four blades, resembling in shape those of an electric fan.
Quadrant—a fitting on the rudder head to which the steering chains are attached.
Quarter—a side of the stern.
Quarter Deck—that portion of the weather deck nearest the stern.
Rail—the upper edge of the bulwarks.
Rigging—ropes, wire ropes, lashings, &c., used to support masts, spars, booms, &c.
Rise of Bottom—the amount that the flat portion of the bottom of the ship rises from the keel to the side of the ship.
Roll—motion of the ship from side to side,—alternately rising and lowering each side of the deck.
Rudder—a large, heavy fitting hinged to the rudder post. Used for steering the ship.
Rudder Post—heavy vertical post at after end of stern frame under water, which supports rudder.
Rudder Stop—fitting to limit the swing of the rudder.
Sagging—straining of the ship that tends to make the middle portion lower than the bow and stern.
Samson Post—a heavy vertical post that supports cargo booms.
Scantlings—the dimensions of various parts of the ship.
Scupper—a drain from the edge of a deck discharging overboard.
Seam—fore and aft joint of shell plating.
Seam Strap—butt strap of a seam.
Shaft—long, round, heavy forging connecting engine and propeller.
Shaft Tunnel—inclosed alley-way around shaft extending from engine room to after peak tank.
Sheer—fore and aft curvature of a deck.
Sheer Plan—side elevation of ship's form.
Sheer Strake—the upper strake of the main shell plating, just below the bulwarks.
Shell Plating—the plates forming the outer skin of the hull.
Shore—a large round wooden brace.
Spar Deck—upper deck.
Stability—tendency of a ship to remain upright.
Stanchion—a pillar or upright post, a pillar.
Starboard—the right-hand side of the ship when looking from aft forward. Opposite to port.
Stealer—a strake of shell plating that does not extend completely to the bow or stern.
Stem—forging or casting forming extreme bow of ship, extending from keel to forecastle deck.
Stern—after end of ship.
Stern Frame—large casting attached to after end of keel to form ship's stern. Includes rudder post, propeller post, and aperture for propeller.
Strake—a fore and aft course or row of shell or other plating.
Stringer—a fore and aft continuous member used to give longitudinal strength.
Tank Top—the inner bottom.
Template—a mould.
Tie Plate—a single fore and aft course of plating attached to deck beams under wood deck to give extra strength.
Tiller—arm attached to rudder head for operating rudder.
Transom—the aftermost transverse frame.
Transverse—athwartships, at right angles to the keel.
Transverse Frames—vertical athwartship members forming the ship's "ribs."
Trim—amount ship is off from an even keel.
Tumble Home—an inboard sloping of the ship's side above the level of greatest beam.
Upper Deck—the highest complete deck.
Vertical Keel—row of plating extending vertically along centre of flat plate keel. Sometimes called *centre keelson.*
Water Line—the line of the water's edge when the ship is afloat.
Weather Deck—a deck with no overhead protection.
Winch—a small hoisting engine.
Windlass—the machine used to hoist the anchors.
Yard—a horizontal, thwartship, spar fitted to a mast.

ABBREVIATIONS OF TITLES AND DEGREES.

A. R. A.—Associate of the Royal Academy.
B. A.—Bachelor of Arts.
Bart.—Baronet.
B. D.—Bachelor of Divinity.
B. Sc.—Bachelor of Science.
C. B.—Companion of the Bath.
C. E.—Civil Engineer
C. I. E.—Companion of Order of Indian Empire.
C. J.—Chief Justice.
C. M. G.—Companion of Order of St. Michael and St. George.
C. V. O.—Companion of Victorian Order.
D. D.—Doctor of Divinity.
D. Sc.—Doctor of Science.
D. S. O.—Distinguished Service Order.
F. R. G. S.—Fellow of the Royal Geographical Society.
F. R. S.—Fellow of the Royal Society.
J. P.—Justice of the Peace.
K. C.—King's Counsel.
K. C. B.—Knight Commander of the Bath.
K. C. M. G.—Knight Commander of Order of St. Michael and St. George.
K. C. V. O.—Knight Commander of the Victorian Order.
K. G.—Knight of the Garter.
L. H. D.—Doctor of Humanities.
LL. B.—Bachelor of Laws.
LL. D.—Doctor of Laws.
Litt. D.—Doctor of Literature.
M. A.—Master of Arts.
M. C.—Member of Congress.
M. D.—Doctor of Medicine.
M. P.—Member of Parliament.
M. V. O.—Member of the Victorian Order.
N. A.—National Academician.
O. M.—Order of Merit.
P. C.—Privy Councilor.
Ph. D.—Doctor of Philosophy.
R. A.—Royal Academician.
S. J.—Society of Jesus.
S. T. D.—Doctor of Sacred Theology.
U. S. A.—United States Army.
U. S. N.—United States Navy.
V. C.—Victoria Cross.

LIGHTHOUSES ON THE AMERICAN COAST.

(By the Lighthouse Service, Department of Commerce.)

Illuminating apparatus consists of a source of light placed in an optical apparatus. Usually, for the purpose of concentrating the light and directing it toward the horizon or in horizontal beams to sweep the horizon, there is an arrangement of lenses, prisms, and reflectors in various combinations. The lenses act as refractors of the light, and the prisms may act as refractors or reflectors, or both. The system of reflectors is named catoptric; of refractors, dioptric; and the combination of the two, catadioptric. To vary the characteristics of lights, there are flashing and occulting mechanisms by which lens panels or screens are revolved, or the light is periodically obscured by shutters, or, in the case of gas or electric lights, the supply of gas or current is cut off. Lights are also distinguished by the number of lights or by showing either a fixed color over a definite area or a colored flash, this being effected by the use of colored glass. The source of light for the greater number of lights is a special form of kerosene-oil wick lamp, but in recent years other more powerful lamps and illuminants have been introduced. The oil-vapor lamp, burning vaporized kerosene oil under an incandescent mantle, gives a much more powerful light. Oil or Pintsch gas is extensively used, particularly for lighted buoys. Acetylene gas is used for lighted buoys and unattended lighted beacons. Electric arc lights, electric incandescent lights, and coal-gas lights are used in special instances.

Character of lights—In order to avoid the likelihood of confusion between lights, endeavor is made to give the lights distinct characteristics. As much of the coast was lighted before the introduction of modern lighthouse apparatus, the lights were originally mostly fixed lights; the more important of these have been replaced by flashing or occulting apparatus, and such improvements will be continued. The characteristics of the lights are indicated by abbreviations, as follows:

Lights Which Do Not Change Color.	Characteristic Phases.	Lights Which Do Change Color (Showing Alternately White and Red in Various Combinations).
F. = Fixed	A continuous steady light	Alt. = Alternating.
Fl. = Flashing	(*a*) Showing a single flash at regular intervals. (*b*) A steady light with total eclipses.	Alt. Fl. = Alternating flashing.
F. Fl. = Fixed and flashing	A fixed light varied at regular intervals by one or more flashes, usually of greater brilliancy. A flash is preceded and followed by a diminution of light or an eclipse.	Alt. F. Fl. = Alternating fixed and flashing.
Gp. Fl. = Group flashing	Showing at regular intervals groups of flashes	Alt. Gp. Fl. = Alternating group flashing.
Occ. = Occulting	A steady light suddenly and totally eclipsed at regular intervals.	Alt. Occ. = Alternating occulting.
Gp. Occ. = Group occulting.	A steady light suddenly and totally eclipsed by a group of two or more eclipses.	

W = White; R = Red; G = Green.

A flash is always shorter than the duration of an eclipse. An occultation is shorter than, or equal to, the duration of light. Lights are characterized as flashing or occulting solely according to the relative durations of light and darkness, and without reference to the type of illuminating apparatus employed or relative brilliancy. In approaching a light of varying intensity, such as fixed varied by flashes, or alternating white and red, due allowance must be made for the inferior brightness of the less powerful part of the light. The first-named light may, on account of distance or haze, show flashes only and the true characteristic will not be observed until the observer comes within the range of the fixed light; similarly the second named may show as occulting white until the observer comes within the range of the red light. Also, where there are two fixed lights, one white and one red, the latter may be obscured, and the station may appear to show only a fixed white light. At short distances and in clear weather flashing lights may show a faint continuous light.

Visibility of lights—The distances given in this list at which lights of sufficient power may be seen in clear weather are computed in statute miles for a height of the observer's eye of fifteen feet above the water level. These distances may at times be increased by abnormal atmospheric refraction, and of course may be greatly lessened by unfavorable weather conditions, due to fog, rain, haze, or smoke. Weak lights and colored lights are easily obscured by such conditions. Under certain atmospheric conditions, especially with the more powerful lights, the glare of the light may be visible beyond the computed geographic range of the light. When approaching a light it evidently may be seen earlier from aloft. The table below gives the approximate geographic range of visibility for an object which may be seen by an observer whose eye is at lake level; in practice, therefore, it is necessary to add to these a distance of visibility corresponding to the height of the observer's eye above lake level. In some instances the actual or luminous range given in the Light List may be less than the geographic range because the light is not of sufficient power to be seen to the limit of the geographic range.

DISTANCES OF VISIBILITY FOR OBJECTS OF VARIOUS ELEVATIONS ABOVE LAKE LEVEL.

Height, in Feet.	Distance, in Statute Miles.	Height, in Feet.	Distance, in Statute Miles.	Height, in Feet.	Distance, in Statute Miles.	Height, in Feet	Distance, in Statute Miles.	Height, in Feet.	Distance, in Statute Miles.
5	2.96	45	8.87	85	12.20	150	16.20	550	31.02
10	4.18	50	9.35	90	12.55	200	18.71	600	32.40
15	5.12	55	9.81	95	12.89	250	20.92	650	33.73
20	5.92	60	10.25	100	13.23	300	22.91	700	35.00
25	6.61	65	10.67	110	13.87	350	24.75	800	37.42
30	7.25	70	11.07	120	14.49	400	26.46	900	39.69
35	7.83	75	11.46	130	15.08	450	28.06	1,000	41.83
40	8.37	80	11.83	140	15.65	500	29.58		

Example.—Twin River Point Light seen just at the horizon, what, under ordinary conditions of the atmosphere, is its distance from the observer?

Height (according to Light List), 110 feet; distance visible (according to table), 13.87 statute miles; add distance corresponding to height of observer's eye above lake level, 15 feet = 5.12 statute miles; distance of light, 18.99 statute miles.

Distances corresponding to heights not included in the table may be found approximately by the formula $D = \frac{1}{2}$ sq. rt. of seven times the height, in feet, of the object above lake level, and D = the corresponding distance of visibility, in statute miles. The formula is based on the mean curvature of the earth and is corrected for ordinary atmospheric refraction, and should be used only for moderate distances and elevations.

LIGHTHOUSES ON THE AMERICAN COAST—*Continued.*

Candlepowers of lights are stated approximately in English candles, but the intensity of the light as seen from a vessel may be greatly lessened or the light may be made invisible by unfavorable conditions due to fog, haze, rain, or smoke. When the power of a light varies, as in the case of a white light with a red sector, or a fixed light varied by flashes, the candlepower of both white and red, or fixed light and flash, is given. The candlepowers now given in the list are in general estimated, and are subject to future revision. In many cases the candlepowers now stated are less than those formerly given, due to ratings based on actual measurements and not to any reduction in the intensities of the lights.

Light sectors—In some conditions of the atmosphere white lights may have a reddish hue; the mariner, therefore, should not trust solely to color where there are sectors, but should verify the position by taking a bearing of the light. On either side of the line of demarcation between white and red there is always a small sector of uncertain color; in flashing lights with revolving illuminating apparatus this sector increases with the width of the flash panels and is therefore usually greatest in the case of the more brilliant flashing lights. It should also be remembered that the edges of a sector of visibility cannot be cut off sharply, and that instead of suddenly disappearing the light fades gradually away after the line given as the limit of visibility has been crossed, and that the fading will be more gradual in the cases of flashing lights, as stated above. When a light is cut off by adjoining land, and the arc of visibility is given in the Light List or Chart, it must be remembered that the bearing on which the light disappears will, in many cases, vary with the distance of the ship observing it. When the light is cut off by a sloping point of land or hill the light will be seen over a wider arc by a ship far off than by one close-to.

Fog signals—Mariners are cautioned that, while every endeavor will be made to start fog signals as soon as possible after signs of fog have been observed, they should not, when approaching the land in a fog, rely implicitly upon these fog signals, but should always use the lead, which in most cases will give sufficient warning. A fog often creeps imperceptibly toward the land and a vessel may have been in it some time before it is observed at a lighthouse. As sound is conveyed irregularly through the atmosphere, mariners are strongly cautioned that they must not place dependence on judging their distance from a fog signal by the power of the sound. Under certain conditions of the atmosphere the sound may be lost a short distance from the station, as there may be silent areas or zones, or the sound may carry much farther in one direction than in another, and these conditions may vary in the same locality within short intervals of time. Mariners must never assume that the fog signal is not in operation because they do not hear it, even when in close proximity. The above applies particularly to fog signals sounded in air, as steam or air whistles, sirens, horns, or ordinary bells. Attention should be given to observing a fog signal in positions where the noises of the ship are least likely to interfere with the hearing, as experience shows that though such a signal may not be heard from the deck or bridge when the engines are running, it may be heard when the ship is stopped or from a quiet position; it may sometimes be heard aloft though not on deck.

Time of extinguishing lights in the winter and relighting them in the spring—All lights of the United States on the northern lakes and rivers and adjacent navigable waters will be exhibited from sunset to sunrise at all seasons when vessels can enter the ports or are navigating in their vicinity. The dates of discontinuing and relighting lights will vary with the seasons, but keepers will be careful to exhibit lights whenever of use to navigators. Some of the lights are maintained throughout the year. All gas buoys and light vessels are placed on their stations as early as practicable in the spring and are replaced by unlighted buoys in the fall when endangered by ice conditions.

LIGHT SHIPS.

The light ships mostly mark shoals, and have small candle power and low visibility, compared with the primary coast lights. There are several exceptions. The Ambrose Channel light vessel, in 13 fathoms, off entrance to New York Bay, has 60,000 candle power; but usually the candle power ranges 300-400. Following is a list of these craft, with their location, kind of light and depth of water in fathoms (indicated by final figures).

ATLANTIC COAST.

Maine—Portland, occ. w., 2 sec., f. r., 25.

Massachusetts—Boston, f. w., 18; Pollock Rip Slue, f. w., f. r., 7¾; Pollock Rip, 2 f. r., 5¼; Stone House Shoal, f. w., 4½; Handkerchief, fl. w., 3 sec., 8¼; Great Round Shoal, 2 f. w., 12; Nantucket Shoals, occ. w., 15 sec., 30; Cross Rip, fl. r., 3 sec., 7; Hedge Fence, 2 f. w., 9; Vineyard Sound (Sow and Pigs), 2 f. r., 17; Hen and Chickens, f. w., 10.

Rhode Island—Brenton Reef, 2 f. w., 14.

Connecticut—Ram Island Reef, f. w., 10; Bartlett Reef, 2 f. w., 11; Cornfield Point, occ. w., 2 sec., 27.

New York—Fire Island, occ. w., 30 sec., 16;

New Jersey—Ambrose Channel, occ. w., 15 sec., 13; Scotland Light, gp., fl. w., 18 sec., f. r. on mast, 10½; Northeast End 5, Fathom Bank, occ. w., 2 sec., 14; 5-Fathom Bank, 2 f. w., 15½.

Delaware—Overfalls, entrance Delaware Bay, 2 occ. w., 15 sec., 11; Fennick Island Shoal, f. w., f. r., 14.

Virginia—Winter-quarter Shoal, gp., fl. w., 20 sec., 12; Cape Charles, occ. w., 4 sec., 6½; Tail of Horse Shoe, 2 f. w., 6; Bush Bluff, fl. w., 10 sec., 5; 35-Foot Channel, f. w., f. r., 6½.

North Carolina—Diamond Shoal, 2 occ. w., 30 sec., 30; Cape Lookout Shoals, f. w., f. r., 15; Frying-Pan Shoals, f. w., 10.

South Carolina—Charleston, 2 gp., fl. w., 6 sec., 6½; Martin's Industry, f. w., f. r., 8¾.

Georgia—Brunswick, gp., fl. w., 20 sec., 8¼.

GULF.

Louisiana—Southwest Pass, Mississippi River, gp., fl. w., 15 sec., 17.

Texas—Heald Bank, 2 f. w., 7.

PACIFIC.

California—San Francisco, fl. w., 15 sec., 18.

Oregon—Columbia River, 2 f. w., 35.

Washington—Umatilla Reef, 2 f. w., 25; Swiftsure Bank (Juan de Fuca Strait), f. w., f. r., 26.

British Columbia—Sand Heads, entrance Fraser River, 2 f. w., 16.

GREAT LAKES.

(Depth of water is in feet.)

Lake Erie—North side-Southeast Shoal, occ. w., 6 sec., 39.

Detroit River—Bar Point Shoal, Mich., f. w., 23.

Lake St. Clair—Lake St. Clair, f. w., 20.

Lake Huron—Lake Huron (south end of lake), f. w., 20; Poe Reef, Mackinac Straits, gp., fl. w., 10 sec., 30.

Lake Michigan—Gray's Reef, Mackinac Straits, f. w., 20; North Manitou Shoal, f. w., 21; Milwaukee, gp., occ. w., 15 sec., 50; Lansing Shoal, f. r., 33; Eleven-Foot Shoal, north end Green Bay, f.w., 60; Pishtigo Reef, Green Bay, f.w., 72.

* Shore line scaled in steps of 5 miles and excludes islands.

LAKES IN NEW YORK STATE.

The great northern lakes, viz.: Ontario, Erie and Champlain, are partly in this State. Lake George, south of Lake Champlain, communicates with it by a short outlet. It is 37 miles long, and from one to seven broad, and embosoms more than 200 islets. Its waters are so clear and transparent that the bottom is visible at almost any depth; and on each side it is skirted with mountains, abounding in romantic scenery. There are numerous small lakes in the western part of the State which discharge their waters into Lake Ontario, either directly or indirectly through the Seneca and Oswego Rivers, and being connected by canals and railroads, afford facilities to transportation. These, with their extent, &c., are as follows:

Lake.	Length Miles.	Breadth Miles.	Lake.	Length Miles.	Breadth Miles.	Lake.	Length Miles.	Breadth Miles.
Oneida	22	4 to 6	Skaneateles	15	½ to 1	Crooked	22	1½
Cazenovia	4	1	Owasco	12	1	Canandalgua	14	1 to 1½
Otsego	9	1 to 2	Cross	4	½	Hemlock	6	1
Canaderaga	5	1½	Cayuga	40	1½ to 3½	Conesus	9	1
Otisco	5	2	Seneca	40	2 to 4	Chautauqua	13	1 to 3

HUDSON RIVER ICE HARVEST, 1901-1917.

(Compiled by the Natural Ice Association of America, New York.)

Years.	Tons.	Years.	Tons	Years.	Tons.	Years.	Tons.	Years.	Tons.
1917-18	2,537,482	1913-14	1,202,166	1909-10	1,876,502	1906-7	1,672,188	1903-4	2,595,110
1916-17	2,001,150	1912-13	2,853,120	1908-9	2,539,941	1905-6	3.572,371	1902-3	3,934,100
1915-16	1,398,591	1911-12	2,262,593	1907-8	3,549,354	1904-5	3.661,800	1901-2	4,606,800
1914-15	1,938,149	1910-11	2,206,984						

The figures include the harvest at Rockland Lake, Dykeman's, Lake Mahopac, and New Rochelle. The lakes and ponds average 100,000 tons a year, and the cut of ice above Albany approximates 100,000 tons a year. Most of the crop is gathered on the Hudson, between Rondout and Beaverwyck Island.

DAILY CAPACITY OF ARTIFICIAL ICE PLANTS IN NEW YORK CITY.

Manhattan, 4,510 tons; Bronx, 1,950 tons; Brooklyn, 4,960 tons; Queens, 1,405 tons; Richmond, 275 tons; total for City, 13,100 tons.

According to H. W. Cole, Secretary-Treasurer of the Natural Ice Association of America: "No ice has been harvested on the rivers of Maine for other than local use during the past ten years. The cost of transportation from Maine to New York and Philadelphia forbids the use of the ice in those places."

PRINCIPAL AMERICAN RIVERS.

Names.	Sources.	Mouths.	Length Miles.
Alabama	Junction of Coosa and Tallapoosa Rivers, Ala.	Mobile River	350
Alleghany	Near Raymond, Pa.	Ohio River	350
Androscoggin	Umbagog Lake, Me.	Kennebec River	160
Arkansas	Rocky Mountains, Col.	Mississippi River	2,000
Big Horn	Rocky Mountains, Wyo	Yellowstone River	500
Brazos	In the Staked Plain, Tex.	Gulf of Mexico	850
Canadian	Northeastern New Mexico	Arkansas River	900
Chattahoochee	In Habersham County, Ga.	Apalachicola River	500
Cheyenne	Eastern Wyoming	Missouri River	500
Cimarron	Raton Mountains, N. Mex.	Arkansas River	650
Colorado	In the Staked Plain, Tex.	Matagorda Bay	650
Colorado	Junction of Green and Grand Rivers, Utah	Gulf of California	1,360
Columbia	Upper Columbia Lake, B. C.	Pacific Ocean	1,400
Connecticut	Connecticut Lake, N. H.	Long Island Sound	410
Cumberland	Junction of Poor and Straight Forks, Ky.	Ohio River	650
Delaware	Catskill Mountains, N. Y.	Delaware Bay	375
Des Moines	Lake Shetek, Minn.	Mississippi River	450
Gila	Tuscan Mountains, N. Mex.	Colorado River	550
Great Kanawha	Blue Ridge Mountains, N. C.	Ohio River	450
Green	Lincoln County, Ky.	Ohio River	350
Gunnison	Saguache Range, Col.	Grand River	200
Hackensack	Rockland County, N. Y.	Newark Bay	50
Housatonic	Taghanic Mountains, Mass.	Long Island Sound	150
Hudson	Lake Sanford, Adirondack Mountains, N. Y.	New York Bay	350
Humboldt	Elko County, Nev.	Humboldt Lake	375
Illinois	Des Plaines River, Wis.	Mississippi River	435
James	Formed by Jackson's and Cowpasture Rivers, Va	Chesapeake Bay	450
Kanawha	See "Great Kanawha."		
Kansas	Junction of Smoky Hill Fork and Solomon River, Kan.	Missouri River	(a) 300
Kaskaskia	Champaign County, Ill.	Mississippi River	320
Kennebec	Moosehead Lake, Me.	Atlantic Ocean	175
Kentucky	Cumberland Mountains, Ky.	Ohio River	250
Merrimac	White Mountains, N. H.	Atlantic Ocean	150
Minnesota	Big Stone Lake, S. Dak.	Mississippi River	475
Missouri-Miss'pi	*Rocky Mountains, Mont., and †Itasca Lake, Minn.	Gulf of Mexico	‡4,200
Mobile	Junction of Tombigbee and Alabama Rivers, Ala.	Mobile Bay	50
Mohawk	Lewis County, N. Y.	Hudson River	160
Monongahela	Formed by West Fork and Tygart's Valley Rivers, W. Va.	Alleghany River	300
Neosho	Morris County, Kan.	Arkansas River	400
Neuse	Person County, N. C.	Pamlico Sound	300
Ocmulgee	Northern Georgia	Altamaha River	280
Ohio	Junction of Alleghany and Monongahela Rivers, Pa.	Mississippi River	950
Osage	Lyon County, Kan.	Missouri River	460
Passaic	Morris County, N. J.	Newark Bay	100
Pearl	Winston County, Miss.	Gulf of Mexico	350
Pecos	Rocky Mountains, N. Mex.	Rio Grande River	800
Pedee (Yadkin)	Blue Ridge Mountains, N. C.	Winyaw Bay, S. C.	300
Penobscot	Somerset County, Me.	Penobscot Bay	350
Platte	Sweetwater River, Wyo.	Missouri River	1,260
Powder	Big Horn Mountains, Wyo	Yellowstone River	400
Potomac	Alleghany Mountains, W. Va.	Chesapeake Bay	450
Red	In the Staked Plain, Tex.	Mississippi River	1,200
Red (of North)	Lake Traverse, Minn.	Lake Winnipeg	700
Rio Grande	San Juan Mountains, Col.	Gulf of Mexico	1,800
Roanoke	Formed by Dan and Staunton Rivers, Va.	Albemarle Sound	240
Sabine	Northern Texas	Gulf of Mexico	460
Sacramento	Goose Lake, Cal.	Suisun Bay	600
St. Croix	Douglas and Bayfield Counties, Wis.	Mississippi River	200
St. Francis	St. Francois County, Mo.	Mississippi River	460
St. John's	Brevard and Osceola Counties, Fla.	Atlantic Ocean	400
San Joaquin	Sierra Nevada Mountains, Cal.	Sacramento River	350
Santee	Junction of Wateree and Congaree Rivers, S. C.	Atlantic Ocean	150
Savannah	Formed by Tugaloo and Kiowee Rivers, S. C.	Atlantic Ocean	450
Schuylkill	Near Pottsville, Pa.	Delaware River	130
Scioto	Auglaize County, Ohio	Ohio River	225
Shenandoah	Northern Virginia	Potomac River	200
Snake	Yellowstone National Park, Wyo.	Columbia River	950
Susquehanna	N. or E. Branch, Lake Schuyler and Otsego Lake, N. Y.	Chesapeake Bay	256
Susquehanna	West Branch, near Raymond, Pa.	Susquehanna River	250
			506
Suwanee	Okefinokee Swamp, Ga.	Gulf of Mexico	200
Tallahatchee	Northern Mississippi	Yazoo River	240
Tallapoosa	Paulding County, Ga.	Coosa River	250
Tennessee	Formed by Clinch and Holston Rivers, Tenn.	Ohio River	1,200
Tombigbee	Prentiss County, Miss.	Mobile River	475
Trinity	Northern Texas	Galveston Bay	550
Wabash	Mercer County, Ohio	Ohio River	550
Washita	Western Arkansas	Red River	550
White	Northwestern Arkansas	Mississippi River	800
Willamette	Cascade Range, Ore.	Columbia River	275
Wisconsin	Northern Wisconsin	Mississippi River	400
Yazoo	Junction of Tallahatchee and Yalobusha Rivers, Miss.	Mississippi River	300
Yellowstone	Rocky Mountains, Wyo.	Missouri River	1,100
Yukon	Lake Lindeman, Yukon District, Canada	Bering Sea	2,200

* Source of Missouri River. † Source of Mississippi River. ‡ Total length from source of Missouri River to Gulf of Mexico. The Missouri River connects with the Mississippi 3 miles below Alton, Ill.
(a) Exclusive of affluents.

TRAFFIC IN NEW YORK AND LONDON.

A COMPARISON of seventeen of London's busiest corners, as compared with an equal number in New York; compiled by Dr. John A. Harriss, Special Deputy Police Commissioner, in charge of traffic:

LONDON.

Piccadilly, Ritz Hotel	28,735	Bishopgate Hounsditch	13,666	Kensington Rd., Q'ns Gate	12,004
Gray's Inn, Holborn	18,858	Vauxhall Bridge	12,981	London Road, Walsworth	11,262
Westminster Bridge	18,691	Waterloo Bridge	12,761	Putney Bridge	11,077
London Bridge	18,387	Park Road, Kensington	12,680	High St., Camden Town	10,515
Blackfriars Bridge	17,550	Shep. Bush. Hool, Park. Av.	12,549		
Oxford St. W. of Ox'd Cir.	16,070	Tower Bridge	12,233	Total	235,832
Gray's Inn, High Holborn	15,823				

NEW YORK.

Columbus Circle	39,210	Queensboro Bridge	14,530	Park Ave. & 60th St	12,220
Broadway & 42d St	19,650	5th Ave. & 34th St	14,360	8th Ave. & 110th St	11,664
Central Pk. W. & 72d	18,710	Flatbush & 4th Aves	13,075	Madison Ave. & 44th St	11,560
5th Ave. & 42d St	18,800	Broadway & 86th St	13,042	7th Ave. & 125th St	10,565
5th Ave. & 57th St	17,830	Broadway & 34th St	12,800		
Pier 25, North River	17,512	4th Ave. & 23d St	12,365	Total	274,305
Lafayette & Bleecker Sts.	16,412				

London rated on basis of number of vehicles passing in 10 hours—New York in 12 hours.

CHIEF CANALS IN THE UNITED STATES.

Canals.	Cost.	Len'h Miles	Depth Feet.	Location.
Albemarle and Chesapeake	$1,641,363	11½	12	Norfolk, Va., to Albemarle Sound, N. C.
Augusta	1,500,000	7	10	Savannah River, Ga., to Augusta, Ga.
Beaufort	502,078	20	10	Beaufort Inlet, N. C., to Pamlico Sound.
Black River	3,581,954	35	4	Rome, N. Y., to Lyons Falls, N. Y.
Black Rock Channel	3,000,000	3¼	22	Connects Lake Erie and Niagara River at Buffalo.
Brazos River	255,000	32	5	Brazos River to Matagorda Bay, Tex.
Caloosahatchee	425,000	28	6	Fort Myers to Lake Okeechobee, Fla
Cape Cod (ship canal)	12,000,000	8-13	25-30	Connects Buzzards Bay and Barnstable Bay.
Cayuga and Seneca	2,232,632	25	12	Montezuma, N. Y., to Cayuga and Seneca Lakes.
Champlain	4,044,000	81	12	Whitehall, N. Y., to Watervliet, N. Y.‡
Channel	450,000	32	5	Bet. Apalachicola River & St. Andrews Bay, Fla.
Chesapeake and Delaware	4,000,000	14	9	Connects Chesapeake and Delaware Bays.
Chesapeake and Ohio	11,290,327	135	6	Cumberland, Md., to Washington, D. C.
Colbert Shoals	2,350,000	8	7	Colbert Shoals, Tennessee River, Ala.
Company	90,000	23	4½	Miss. Riv. at New Orleans, La., to Bayou Black.
Dalles-Celilo	4,800,000	8½	7	Columbia River, Big Eddy to Celilo Falls, Oreg.
Delaware and Raritan	4,888,749	66	7	New Brunswick, N. J., to Bordentown, N. J.
Delaware Division	2,433,350	60	6	Easton, Pa., to Bristol, Pa.
Erie	52,540,800	387	12	Albany, N. Y., to Buffalo, N. Y.
Estherville-Minnu Creek	174,619	5	6	Winyaw Bay, S. C., to Santee River.
Fairfield	50,000	4½	5	Alligator River to Lake Mattamuskeet, N. C.
Florida Coast Line	3,500,000	370	5	Mayport, Fla., to Miami, Fla.
Galveston and Brazos	340,000	38	5	Oyster Bay, Tex., to Brazos River, Tex.
Harlem River (ship canal)	2,700,000	8	15	Connects Hudson River and Long Island Sound.
Hillsboro	1,302,000	50	6-8	Deerfield to Lake Okeechobee, Fla.
Illinois and Michigan	6,339,098	96	5	Chicago, Ill., to La Salle, Ill.
Illinois & Mississippi (Hennepin)	7,320,000	75	7	Illinois River to Miss. River, near Rock I., Ill.
Inland Waterway (Lewes Canal)	356,000	12	6	Rehoboth Bay to Delaware Bay, Del.
Lake Drummond	2,800,000	22	9	Connects Chesapeake Bay with Albemarle Sound.
Lake Landing	25,000	4	5	Lake Mattamuskeet to Wysocking Bay, N. C.
Lake Washington-Puget Sound	5,000,000	6½	36	Connects Lake Washington and Puget Sound.
Lehigh Coal and Navigation Co.	4,455,000	108	6	Coalport, Pa., to Easton, Pa.
Louisville and Portland	5,716,686	2½	9	At Falls of Ohio River, Louisville, Ky.
Mattamuskeet Out Fall	600,000	7	6	Hyde County, N. C.
Miami and Erie	8,062,680	274	5½	Cincinnati, Ohio, to Toledo, Ohio.
Miami	1,765,000	79	6-8	Lake Okeechobee to Miami, Fla.
Morris	5,100,000	103	5	Jersey City, N. J., to Phillipsburg, N. J.
Muscle Shoals and Elk R. Shoals	3,156,919	16	5	Big Muscle Shoals, to Elk River Shoals, Tenn.
North New River	581,504	59	5-8	Lake Okeechobee to Ft. Lauderdale, Fla.
N. J. Coastal Inland Waterway	450,000	114	6	Cape May to Bay Head, N. J.
Ohio	4,695,204	70	4	Cleveland, Ohio, to Dresden, Ohio.
Oswego	5,239,526	38	12	Oswego, N. Y., to Syracuse, N. Y.
Pennsylvania	7,731,750	193	6	Columbia, Northumberland, Wilkes-Barre, Pa.
Portage Lake and Lake Superior	1,725,000	25	20	From Keweenaw Bay to Lake Superior.
Port Arthur (ship canal)	.....	7	26	Port Arthur, Tex., to Gulf of Mexico.
Sabine-Neches	1,081,000	16	26	Port Arthur Canal to mouth Sabine River, Tex.
Salem	.....	2	5-8	Salem River to Delaware River.
Santa Fé	70,000	10	5	Waldo, Fla., to Melrose, Fla.
Sault Ste Marie (ship canal)	4,000,000	1⅓	18	Connects Lakes Superior and Huron at St. Mary's River.
Schuylkill Navigation Co.	12,461,600	108	6¼	Mill Creek, Pa., to Philadelphia, Pa.
South New River	792,400	25	6-8	Ft. Lauderdale to Lake Okeechobee, Fla.
Sturgeon Bay and Lake Mich'n	287,000	1¼	20	Between Green Bay and Lake Michigan.
St. Clair Flats	1,180,000	3	20	Canal through delta at mouth of St. Clair River.
St. Lucie	2,075,000	25	8-12	Stuart to Lake Okeechobee, Fla.
St. Mary's Falls	9,400,000	1½	18½	Connects Lakes Superior and Huron at Sault Ste Marie, Mich.
St. Mary's Falls (parallel canal)	9,475,000	1½	24½	Connects Lakes Superior and Huron.
West Palm Beach	474,988	42½	5-8	Lake Okeechobee, Lake Worth, West Palm Beach.

CANALS IN CANADA.

Chambly	$728,999	12	6½	This canal overcomes the rapids between Chambly and St. Johns.
Cornwall	7,242,804	11	14	Cornwall to Dickinson's Landing.
Lachine	13,404,970	8½	14-18	Montreal to Lachine.
Rideau	5,531,332	133¼	5	Connects River Ottawa with Lake Ontario.
Sault Ste Marie (ship canal)	5,000,000	1⅓	18¼	Connects Lakes Superior and Huron at St. Mary's River.
Soulanges	8,000,000	14	15	Cascade Point to Coteau Landing.
Trent	13,611,000	236	6-8½	Connects Lake Ontario and Lake Huron via Trent River.
Welland (ship canal)	29,250,951	26¾	14-25	Connects Lake Ontario and Lake Erie.
Williamsburg	10,499,184	12¼	9-14	Along St. Lawrence River.

SOME FOREIGN CANALS.

	Length, Miles.	Depth, Feet.	Bottom Width, Feet.	Estimated Cost
Suez—Mediterranean and Red Seas	103	35	108	$127,000,000
Cronstadt—Petrograd	16	20½		10,000,000
Manchester—Manchester and Liverpool	35½	28	120	85,000,000
Kaiser Wilhelm (Kiel Canal)—Baltic and North Seas	61	36	72	40,000,000
Elbe and Trave	41	10	72	6,000,000
Berlin-Stettin (Hohenzollern Canal)	136	9.8	32-39	12,500,000
Marseilles—River Rhone	60	...	82	20,000,000

The distances given between cities of the United States are computed by the Government, and are measured by land. In some instances the distances by water routes, or by land and water routes combined, are shorter than those which are entirely by land.

MAIL DISTANCES AND APPROXIMATE TIME TO FOREIGN CITIES FROM NEW YORK.

THE war cut off direct railroad communication across Central Europe and greatly lengthened many important mail, passenger and freight routes.

DISTANCES BETWEEN EUROPEAN CITIES.

These were the mail-train route distances before the outbreak of the war. Many of the direct routes have been cut off since hostilities. The airline distances, used by aviators are, on the average, from three-quarters to four-fifths the railroad distances.

VELOCITY OF SOUND.

IN undisturbed air, at a temperature of 32° Fahrenheit, the velocity of sound is approximately 1,090 feet a second. The velocity increases about one foot a second for each degree as the temperature rises. This amounts, approximately, as follows:

FAHRENHEIT.	Feet Per Sec.	Mile Per Sec.	Mile.	Seconds.	FAHRENHEIT.	Feet Per Sec.	Mile Per Sec.	Mile.	Seconds.	FAHRENHEIT.	Feet Per Sec.	Mile Per Sec.	Mile.	Seconds.
30°	1,030	0.1951	1	5.13	20°	1,080	0.2045	1	4.88	70°	1,130	0.2140	1	4.68
20°	1,040	0.1970	1	5.08	32°	1,092	0.2068	1	4.83	80°	1,140	0.2159	1	4.63
10°	1,050	0.1989	1	5.03	40°	1,100	0.2083	1	4.80	90°	1,150	0.2178	1	4.59
0	1,060	0.2008	1	4.98	50°	1,110	0.2102	1	4.78	100°	1,160	0.2197	1	4.55
10°	1,070	0.2027	1	4.93	60°	1,120	0.2121	1	4.73	110°	1,170	0.2216	1	4.51

Wind reduces the velocity of sound much more than fog or rain does. Explosions cannot be distinguished separately when but 1-16 second apart. Sound in water travels 4,708 feet a second; in wood it goes at least 10,000 feet a second; in metals, at least 4,000 feet a second.

NORMAL BLOOD-PRESSURE.

(From a N. Y. City Health Department Bulletin.)

FAUGHT suggests that the normal average systolic pressure for a male at the age of twenty be considered 120 mm. and that for every additional two years of life one millimetre be added. Taking the figures thus obtained, a variation of 17 mm. above and below the average may be regarded as permissible. Fisher gives the following table of average systolic pressures for the different age periods and allows a variation of about 12 mm. to each direction:

AGE PERIODS.	Average	AGE PERIODS.	Average	AGE PERIODS.	Average
15–19 years	120	35–39 years	126	55–59 years	134
20–24 years	122	40–44 years	128	60–64 years	135
25–29 years	123	45–49 years	130	65 years and over	138
30–34 years	124	50–54 years	132

Figures for 1917 withheld by the Government.

MANCHESTER SHIP CANAL TRAFFIC FOR 1917.

During the year ended December 31, 1917, the weight of sea-borne traffic on the Manchester Ship Canal, on which tolls were paid, amounted to 3,843,324 tons (ton = 2,240 pounds), a decrease of 696,843 tons, compared with 1916, due to restrictions on imports and exports owing to war conditions. The total receipts from ship canal tolls, ships' dues, and miscellaneous receipts received during the year 1917 amounted to $4,194,903, an increase compared with the previous year of $147,513.

VESSEL TONNAGE OF UNITED STATES PORTS.

(THE figures cover American and foreign sailing and steam craft cleared from all ports of the United States for foreign countries. The "net ton" equals 100 cubic feet of carrying capacity, exclusive of deductions for space occupied by cabins, machinery, etc.)

INVENTORY OF NORWEGIAN MERCHANT MARINE.

An official report inventories Norwegian ships as follows: January, 1915—2,137, of 2,490,136 tons; January, 1916—2,159, of 2,576,218 tons; January, 1917—1,669, of 1,996,214 tons· January, 1918—2,036, of 2,562,395 tons. New ships launched in Sweden during 1917 aggregated 29,000 gross tons, compared with 25,000 tons in 1916 and 20,000 tons in 1915. According to the harbor master of Copenhagen the number of ships entering the harbor in 1917 was, for 11 months, as follows: Steamships—4,404, of 1,658,500 registered tons; sailing vessels—5,268, of 262,803 registered tons.

TAKING OVER OF HOLLAND SHIPPING BY THE UNITED STATES.

UNDER powers conferred on him by the Military and Naval Establishments Act of June 15, 1917, President Wilson, on March 20, 1918, took over, by proclamation, many of Holland's ships lying in American harbors; to be manned, equipped and operated by the Navy Department and the United States Shipping Board; the owners to receive full compensation. Among the vessels were the following, the figures showing gross tonnage: Alkaid, 3,028; Ameland, 3,511; Ball, 6,694; Barendrecht, 3,704; Bellatrix, 3,552; Besoeki, 3,778; Biesbosch, 484; Buitenzorg, 7,098; Bussum, 3,683; Gooiland, 3,839; Gorredyk, 6,463; Jobshaven, 3,528; Kralingen, 1,379; Maartensdyk, 6,483; Magdalena, 2,173; Merak, 3,024; Merauke, 6,674; Mercurius, 2,836; Mirach, 3,263; Neptunus, 1,580; Noord-Brabant, 2,332; Pheeda, 2,637; Prins Frederik Hendrik, 2,164; Prins Willem I., 2,121; Rondo, 7,549; Ryndam, 12,527; Ryndyk, 3,557; Sassenheim, 2,158; Triton, 1,883; Veendyk, 6,874; Veerhaven, 3,003; Vesta, 1,835; Waalhaven, 3,551; Westerdyk, 8,261; Woudrichem, 2,015; Wieldrecht, 3,560; Yselhaven, 3,558; Zeelandia, 7,995.

THE PANAMA CANAL.

(Opened for navigation August 15, 1914.)

THE government of the Canal Zone and Canal is under the supervision of the Secretary of War, subject to the President's approval.

Executive Department—Headquarters, Balboa Heights; Col. Chester Harding, U. S. A., Governor; M. B. Stevens, Secretary; C. A. McIlvaine, Executive Secretary; W. P. Copeland, Chief Clerk, Executive Office; Guy Johannes, Chief, Division of Police and Fire; Crede H. Calhoun, Chief, Division of Civil Affairs; A. R. Lang, Superintendent, Division of Schools; T. S. Booz, General Secretary, Bureau of Clubs and Playgrounds; Frank Feuille, Special Attorney, Ancon; Walter F. Van Dame, Assistant to the Special Attorney and Acting Land Agent, Ancon; Charles R. Williams, District-Attorney, Ancon.

Joint Commission—Ricardo J. Alfaro, Panama City; Burt New, Ancon; Federico Boyd, Panama City, Ancon; George A. Connolly, Ancon; G. E. Bliss, Secretary.

The Canal has a summit elevation of 85 feet above the sea. It is 50 miles long from deep water in the Caribbean to deep water in the Pacific. The distance from deep water to the shore line in Limon Bay is 4½ miles, and from the Pacific shore line to deep water 4 miles; hence the length of the Canal from shore to shore is approximately 41½ miles. The channel ranges in width from 300 to 1,000 feet. The average bottom width of the channel in this project is 649 feet, and the minimum width is 300 feet. The Canal has a minimum depth of 41 feet. The time required for the passage of a ship of medium size through the entire length of the Canal is estimated at from 9½ to 10 hours, and for larger vessels from 10½ to 11 hours. The Gatun Dam along the crest is 8,000 feet long, including the spillway, or about 1½ miles, and 2,100 feet wide at its greatest width. The crest of the dam is at an elevation of 115 feet above sea level, or 30 feet above the normal level of Gatun Lake, and 100 feet wide. The width of the dam at the normal water level of the lake, *t. e.*, 85 feet above sea level, is about 388 feet.

CONSTRUCTION COST OF THE CANAL.

The construction cost of the Canal is estimated at somewhat over $378,000,000. This does not include over $28,000,000 for fortifications, $50,000,000 for Canal rights, and other items not actually for construction, which make the total appropriations by Congress for the Canal slightly over $439,000,000 up to the end of the 1917 fiscal year.

The total number of ships making the transit of the Canal during the fiscal year ending June 30, 1917, in seagoing traffic was 1,876. In the fiscal year 1916 the total was 787; in 1915, it was 1,088. The aggregate gross and net tonnages of the 1,876 ships in the year 1917, according to the rules of measurement for the Panama Canal, were 8,530,121 and 6,009,358 tons, respectively. The cargo carried through the Canal amounted to 7,229,255 tons of 2,240 pounds. Tolls amounted to $3,677,695.

Ships making the passage of the Canal without cargo, including naval ships and pleasure craft which did not carry cargo, as well as merchant ships in ballast, aggregated 284. Of these, 187 were in transit from the Atlantic to the Pacific, and 97 from the Pacific to the Atlantic; net tonnages were 574,881 and 219,907, respectively. The average net tonnage of all ships was 3,203 tons. The average net tonnage of the ships carrying cargo was 3,275 tons. The average loading of the ships with cargo was 4,541 tons of 2,240 pounds.

In 1914 there were only four and one-half months of traffic. In 1915 traffic was suspended from the middle of September to the close of the year. In 1916 it was suspended three and one-half months, until April 15. The cost for operation and maintenance in the same period was $7,142,124.05.

Distances from New York to San Francisco by water, former route, 13,135 miles; via Panama Canal, 5,262 miles. New York to Hawaii, former all-water route, 12,800 miles; by Canal, 7,000 miles. New York to Manila via Hawaii, former route, 17,800 miles; by Canal, 12,000 miles.

The Canal brings Callao 4,320 miles nearer Liverpool by steamer, reducing the distance from 10,230 miles to 5,910 miles and saving about 14 days in time. To Valparaiso the shortening in distance is 1,813 miles, making it 7,185 instead of 8,998, and the saving in time is about 6 days. By its means the United States has an all-sea route, which is from 2,500 to 3,000 miles shorter than routes from Europe. New York, via the Canal, is 3,779 miles from Callao, instead of 9,769 as formerly, while New Orleans is only 3,264 miles from Callao.

Between New York and Yokohama the reduction is 3,729 miles, and that Japanese city is brought nearer to New York than Liverpool by 1,805 miles. Shanghai is 1,629 miles nearer to New York. Sydney, Australia, is 3,806 miles nearer to New York, and the distance between the two cities is 2,382 miles less than the distance between Sydney and Liverpool. Wellington, New Zealand, is 2,542 miles nearer New York, and the distance between them is 2,759 miles less than between Wellington and Liverpool. Between New Zealand and Europe there is an average saving of 1,600 miles.

PANAMA CANAL TOLL RATES.

1. On merchant vessels carrying passengers or cargo, one dollar and twenty cents ($1.20) per net vessel ton—each one hundred (100) cubic feet—of actual earning capacity.

2. On vessels in ballast without passengers or cargo, forty (40) per cent. less than the rate of tolls for vessels with passengers or cargo.

3. Upon naval vessels, other than transports, colliers, hospital ships, and supply ships, fifty (50) cents per displacement ton.

4. Upon Army and Navy transports, colliers, hospital ships and supply ships, one dollar and twenty cents ($1.20) per net ton, the vessels to be measured by the same rules as are employed in determining the net tonnage of merchant vessels.

Panama Canal tolls and receipts, by months, 1917—May, $634,421; June, $415,644; July, $171,687; August, $584,477; September, $648,787; October, $277,158; November, $122,208; December, $626,568. 1918—January, $302,895; February, $585,348; March, $1,047,330; April, $635,705; May, $378,705; June, $655,481. Total for fiscal year ending June 30, 1918 (not including May and June, 1917), $6,036,349.

Panama Canal disbursements, by months, 1917—May, $2,030,451; June, $919,445; July, $1,511,814; August, $2,019,363; September, $1,364,980; October, $1,623,392; November, $1,200,022; December, $1,914,433. 1918—January, $1,315,909; February, $1,838,793; March, $1,512,840; April, $1,674,638; May, $1,103,627; June, $2,188,282. Total for year ending June 30, 1918 (not including May and June, 1917), $19,268,093.

SEASONAL DISTRIBUTION OF FOG.

A study of the number of hours of fog and thick weather that are to be observed in each month at selected typical stations in various general localities on the Atlantic and Pacific coasts has been made by the United States Bureau of Lighthouses.

The figures indicate the following general facts: Fog is most prevalent along the New England coast in the Summer months, and on the South Atlantic coast during the Winter months. On the Middle Atlantic coast fog is more evenly distributed, the minimum amounts occurring during the late Summer and early Autumn. On the Pacific coast of the United States proper the distribution of fog is fairly uniform in all portions from north to south, the minimum amounts being observed in the Spring and the maximum in the late Summer and early fall, resembling, in general, the same seasonal distribution as obtains in New England.

PACIFIC MAIL'S SEVENTIETH ANNIVERSARY.

THE seventieth anniversary of the founding of the Pacific Mail Steamship Company was celebrated at Shanghai, China, on April 12, 1918, with a banquet, attended by 200 prominent business men, mostly American. The local agent of the company, who presided, referred to the fact that it was exactly 134 years ago that the first American ship, the Empress of China, a boat of 360 tons, sailed from a port of the United States for Canton, China. The Pacific Mail Steamship Company was incorporated in New York, April 12, 1848. Its first steamer in the China trade was the Colorado, a side-wheeler of 3,000 tons, which was despatched from San Francisco for Hongkong on January 1, 1867, touched at Yokohama and Honolulu, and returned to San Francisco in exactly 78 days. The California, a picture of which appeared on the menu, operated between New York and San Francisco around Cape Horn. In one of the addresses attention was directed to the fact that, while at the time of the organization of the Pacific Mail Steamship Company, and for many years thereafter, Japanese tonnage was not represented at the port of Shanghai, the returns for 1917 show that the tonnage of Japanese vessels entering and clearing approximated 5,000,000, being second only to the British tonnage, which was over 5,500,000. Ten years ago the British tonnage was greater than that of all other nationalities represented, the American tonnage then being 848,650, as against 409,492 for 1917. The Japanese tonnage 10 years ago was about 3,000,000, but Japan was not represented at all 50 years ago, when the total tonnage of American and British vessels entering and clearing at Shanghai aggregated 691,086 and 911,171, respectively.

The first records obtainable date back 62 years, and were collected by the Chinese customs authorities from the newspapers then published. Thus in 1856 the available statistical data show that American vessels entering and clearing at Shanghai for that year numbered 120, aggregating 74,678 tons. For the same year the number of British vessels entering and clearing is given as 610, with the aggregate tonnage of 182,215. Roughly estimated, the average tonnage of American sailing vessels of that day was about 600 tons, while the average tonnage of the British vessels was about 300 tons.

SUEZ CANAL TRAFFIC FOR 1916.

(There are no later official figures.)

THE number and net tonnage of vessels of all nationalities passing through the canal in the past three years are:

FLAG.	1914.		1915.		1916.

THE NEW YORK STATE CANAL SYSTEM.

(Communicated by W. W. Wotherspoon, New York State Superintendent of Public Works.)

THE route of the improved Erie Canal, commonly known as the Erie Barge Canal, was placed in commission for the entire distance between Troy and Buffalo on May 15, 1918. The Champlain Barge Canal, from Troy to Whitehall, was completed May 15, 1917. The Oswego Barge Canal, connecting with Lake Ontario at Oswego, also has been completed and is in commission. The improvement of the Cayuga and Seneca branches was still under way in 1918.

Since May, 1918, the movement of freight on the Erie Canal has been under the control of the National Government, through the United States Railroad Administration.

The moneys expended up to July 1, 1918, for canal improvement under recent bond issues are as follows: Erie, Champlain, and Oswego Canals, under bond issue of 1903 and 1915, $118,691,962. Cayuga and Seneca Canal improvement, under bond issue of 1909, $7,053,863. For construction of terminal docks with warehouses, and freight-handling machinery on all canals, under bond issue of 1911, $10,469,656. The above figures include land damages and adjusted claims of all kinds. The new Champlain Canal, from Troy to Whitehall, has been fully completed. The new Erie-Oswego route, from the Hudson River, at Troy, to Lake Ontario, at Oswego, also has been completed.

The improved Erie Canal is the main waterway and extends across the State from Troy to Buffalo. Officially, the route commences at Congress Street, Troy, and follows the line of the Hudson River to Waterford, where the westward turn is made. From Waterford the line of the Mohawk River, canalized, is generally followed to a point beyond Little Falls. Westerly from this point the new channel follows the route of the old canal in part, but passes the northerly outskirts of the City of Utica on a new line, thence to the south of Rome and then into and across Oneida Lake. Passing out of Oneida Lake, the Oneida River is used to its junction with the Seneca River at Three River Point; thence through the Seneca River to and through the Clyde River to a point east of Lyons; thence following the old canal, deepened and enlarged, to a point beyond Pittsford. Here the channel leaves the old route, crossing the Genesee River about a mile south of Rochester on a pool created by the construction of a dam, joining the line of the old canal a few miles westerly, and continuing thence in the former channel, deepened and widened, to and through Tonawanda Creek, canalized, to Tonawanda, where the Niagara River is entered and followed to Lake Erie, at Buffalo. The length of the Erie Canal is approximately 340 miles.

A section of the old Erie Canal has been retained for use, without enlargement, between its junction with the improved Erie Canal at Waterford and Albany. Boats may enter this section of the canal at its northern end at Waterford from the Hudson River by means of the upper or lower side cut locks at Watervliet, or at its southern end from the Hudson River, at Albany. This canal passes through the City of Watervliet.

The section of the old canal between Mohawk and Rome also has been retained without enlargement. This passes through the City of Utica. It may be entered either at Mohawk or Rome by means of junction locks. The old Erie Canal, through the cities of Syracuse and Rochester, has also been continued in use during 1918, together with the section between Tonawanda and Buffalo.

The dimensions of boats using the above sections of the old canal will be limited to the following: Length, 98 feet; width, 17 feet 5 inches; draught, 6 feet, and height above water line, 11 feet 6 inches; excepting, however, that the draught of boats using the unimproved Champlain Canal between Waterford and Watervliet is limited to 4 feet 6 inches.

The improved Champlain Canal commences in the Hudson River at Waterford, where the improved Erie Canal starts westward, and follows generally the channel of the Hudson River, canalized, as far northward as Fort Edward, where a new route has been established to Whitehall on the inlet of Lake Champlain.

The improved Cayuga and Seneca Canal branches off in a southerly direction from the improved Erie Canal at a point near Montezuma. The Cayuga branch follows the valley of the Seneca River to Cayuga Lake; thence through Cayuga Lake to the Cayuga Lake inlet at Ithaca. The Seneca branch follows the Seneca River in a westerly direction from the Cayuga branch near the foot of Cayuga Lake, and connects with Seneca Lake near Geneva; thence through Seneca Lake to Watkins, with an extension to Montour Falls.

The improved Oswego Canal branches northerly from the improved Erie Canal at Three River Point and follows generally the line of the Oswego River, canalized, to Lake Ontario at Oswego.

The Black River Canal has been retained without enlargement and extends from its junction with the Erie Canal at Rome northerly to Carthage, although it is not navigable further north than Lyons Falls.

The width of the new canal channel varies according to the section traversed. Through canalized rivers and lakes the channel is at least two hundred feet wide. Through rock cuts in land lines a minimum bottom width of ninety-four feet has been provided, and through earth sections the minimum width at the bottom of the channel is seventy-five feet.

The improved Champlain Canal is connected with Lake Champlain by means of the Lake Champlain inlet at Whitehall. A boat of the proper dimensions may proceed to the St. Lawrence River from New York Bay via the Hudson River, the improved Champlain Canal, Lake Champlain inlet, Lake Champlain, Richelieu River, Chambly Canal and Richelieu River through St. Ours lock. Lake Champlain and its inlet are under the jurisdiction of the United States Government, and the Richelieu River and Chambly Canal are under the jurisdiction of the Dominion of Canada. There is no water connection between the Champlain Canal and Lake George.

*Western Division of the Canal opened May 25, 1914.

TELEGRAPH RATES FROM NEW YORK CITY.

(These are the rates in force to all the principal points. They are approximately the same for both the Western Union and Postal companies.)

DAY TELEGRAMS of 10 words or less, address and signature free, are transmitted immediately upon reception.

NIGHT TELEGRAMS of 10 words or less, address and signature free, are sent during the night at the convenience of the company.

Words over 10 in Day Telegrams and Night Telegrams are 2 cents each where rate is 25, 30, or 35 cents; 3 cents each where rate is 40 or 50 cents; 4 cents where rate is 60 cents; 5 cents where rate is 75 cents; 7 cents where rate is $1.00, and 8 cents where rate is $1.25.

NIGHT LETTERS of 50 words or less, address and signature free, filed up to 2 o'clock A. M., are delivered the next morning at the same rate as that shown for "Day Telegrams of 10 words."

DAY LETTERS of 50 words or less, address and signature free, filed at any hour during the day, are transmitted and delivered subject to the priority of Day Telegrams. Rates for Day Letters are one-half higher than rates for Night Letters.

Words above 50 in Night Letters or Day Letters are one-fifth the 50-word rate for each additional 10 or fraction of 10 words.

HOW PEOPLE WORK THE TELEPHONE.

THE following table, compiled from official sources, shows for 1914, except as otherwise stated, the average number of local calls per pay 'phone, per year in the cities named:

CITY.	Calls	CITY.	Calls	CITY.	Calls	CITY.	Calls
New York, Manhat.	962	Washington, 1917	1,099	Cleveland	2,000	Rochester	2,940
Brooklyn	875	Baltimore	993	Indianapolis	2 238	Plattsburg	2,090
Washington, 1914	823	Philadelphia	1,445	Spokane	2,155	Buffalo	2,710
Washington, 1915	888	Pittsburgh	1,998	Kansas City	3,366	Louisville	4,027

The figures cover the Bell telephone in New York, Brooklyn, Washington, Baltimore, Pittsburgh, and Spokane; independent telephone in the other places.

TELEPHONE DEVELOPMENT OF PRINCIPAL CITIES OF THE WORLD.

(Compiled by the American Telephone and Telegraph Company from latest records.)

THE DIXIE HIGHWAY.

The Dixie Highway, officially launched at the conference of Governors of the States interested at Chattanooga, Tenn., April 3, 1915, consists of two divisions and one loop each in Michigan and Florida, with connecting links. The western division starts at Chicago, and is routed through Danville, Ill.; Indianapolis, Louisville, Nashville, and Chattanooga; Rome, Atlanta, and Macon, Ga.; Tallahassee, Kissimee, Bartow, and Jupiter, Fla., where it connects with the eastern division. Indianapolis is connected with a loop around Michigan at South Bend, Ind. Joining the eastern end of the Michigan loop, which follows Lake Huron to Detroit, the eastern division of the highway is routed through Monroe, Mich.; Toledo, Dayton, and Cincinnati, Ohio; Lexington, Ky.; Cumberland Gap and Knoxville, Tenn., to Chattanooga; thence to Atlanta, Ga., via Dalton; thence to Macon, via McDonough; thence to Jacksonville, Fla., via Fitzgerald and Waycross, Ga., and along the east coast of Florida to Miami. A connecting link from Indianapolis on the western division to Dayton, Ohio, on the eastern division, and from Tallahassee, Fla., on the western division to Jacksonville, Fla., on the eastern division has also been designated. The Dixie Highway has a total mileage of 4,206. In the eight States it traverses 163 counties. It will serve a territory with a population of more than forty million. The headquarters of the Dixie Highway Association are at Chattanooga, Tenn.

RAILWAY DEVELOPMENT IN CENTRAL AFRICA.

Two long routes, by rail and steamer, have been completed. The West-East route from the mouth of the Kongo River to Dares-Salaam was finished by the opening, in 1915, of the Kabalo-Albertville Railway, from the Kongo River to Lake Tanganyika. The spinal route, from Cape Town to the Kongo River, was completed in the latter part of 1917 by opening traffic on the section connecting Tshilonga to Sankishia. It was the original intention to carry the Cape-to-Cairo Railway to the southern end of Lake Tanganyika and thence through German territory to Uganda, but this proposal was defeated, and the line has been carried into the Katanga district of the Belgian Kongo. The railhead for some time has been Tshilonga, about 200 miles north of Elizabethville, leaving a gap until the railway commenced again at Sankishia and continued until Bukama was reached. This gap has been closed and from Cape Town to Bukama one can proceed 2,700 miles by a through train without changing carriages. Bukama is situated on the Lualaba River, the main tributary of the Upper Kongo, and this place will be the distributing centre for goods from South Africa to the vast territories of Central Africa. The completion of the railway between Tshilonga and Sankishia has brought Cape Town and Dar-es-Salaam, on the east coast of Africa, into an almost continuous rail communication. The only exceptions are the 400 miles from Bukama to Kabalo, connected by river steamers plying on the Kongo River, and the 60 miles across Lake Tanganyika, from Albertville to Ujiji. Above Kabalo, the terminus of the railway to Albertville is Kongolo, where commences the first of the three links that skirt the rapids of the Kongo River. This line, which is 200 miles in length, and terminates at Kindu, was built to avoid the Nyangwe cataracts. Navigation is possible for about 200 miles to Ponthierville. A railway, 75 miles long from here to Stanleyville, avoids the rapids ending in the Stanley Falls. From this latter river port there is steamer communication for a distance of 1,000 miles, to Stanley Pool. Three cities, in close proximity to each other, are located on the Pool—Leopoldville and Kinshasa, in Belgian Kongo, and Brazzaville, in French Kongo. To avoid the cataracts in the Kongo, below the pool, a railroad 260 miles long has been built from Kinshasa through Leopoldville to Matadi, whence, to the mouth of the Kongo, the river is navigable by ocean going steamers.

A railway of interest, from an economic standpoint, is the Benguella Railway from Lobito Bay, in Angola, on the west coast of Africa. This railway is now open for 325 miles. This road has been surveyed as far as the Cape Town-Bukama Railway, 1,160 miles. The gauge of the line will be 3 feet 6 inches. It will be located along the watershed, dividing the tributaries of the Kongo River from those of the Zambesi, and will join the Cape Town-Bukama line about 90 miles north of Elizabethville, Belgian Kongo. This will give an Atlantic outlet to the mineral fields of Katanga, which are being exploited.

INTERSTATE COMMERCE COMMISSION.

THE Federal act to regulate commerce, passed by Congress, and approved February 4, 1887, established a commission of five, since increased to nine, members. The original act, with its amendments, applies to common carriers (except water), including railroads, sleeping car companies, other private cargo-car lines, petroleum pipe lines, and telephone, telegraph, cable and express companies. The act requires all rates to be reasonable and just; prohibits preferential rates, or undue or unreasonable preferences, or advantages in rates or facilities; forbids the charging or a higher rate for a shorter than for a longer haul over the same line in the same direction when the shorter is included within the longer haul. The commission has inquisitorial powers; it may prescribe rates, rules and regulations, including methods of keeping the accounts, records and memoranda required of the carriers by law; and, it has supervision over the issuance of railroad stocks and bonds. The Overman act, in 1918, put the commission under the direct control of President Wilson, along with all other departments of the Government. The commission defined the zones under the Daylight Saving Act.

The act known as the Overman or Federal Control Act, approved March 21, 1918, provides that the commission shall ascertain and certify to the President the average annual railway operating income to be used by the President in making agreements for compensation for the use of the transportation systems of the country; that, in case the amount of compensation is not adjusted, claims may be submitted to boards of referees appointed by the commission, and the finding of such boards shall be a maximum of compensation which may be paid to the carriers; that the President, in executing the Federal Control Act, may avail himself of the advice, assistance, and co-operation of the commission, its members and its employés; that the President may initiate rates, fares, charges, classifications, regulations, and practices by filing same with the commission; that the commission shall, upon complaint, enter upon a hearing and determine the justness and reasonableness of any rate, fare, charge, or regulation initiated by the President, taking into consideration the fact that the railroads are operated under unified control, and such recommendations as the President may make as to the necessity of increasing railway revenues.

FEDERAL RAILROAD REFORM LEGISLATION SINCE 1893.

A safety appliance act was passed (approved March 2, 1893), amended in 1903, and supplemented in 1910, providing for automatic couplers, drawbars of a standard height, grab-irons or handholds on sides and ends of freight cars, sill steps, handbrakes, ladders, running boards, roof holds, and other safety appliances; also regulations as to limiting the consecutive hours on duty in twenty-four, the carrying of explosives, etc. It is the duty of the Interstate Commerce Commission to report to the proper District-Attorneys infractions or violations of the provisions of these various acts, and to investigate accidents.

$350,000,000 ADVANCE IN RAILROAD WAGES.

BY an order of May 25, 1918, the Director General of Railroads made a general advance of wages to the 2,000,000 operating employés of the lines under his management. The increase to those paid on a monthly basis ranged from 43 per cent. to those already earning $50 or less, down to 8.73 per cent. for those already earning $197, and to 4.56 per cent. for those already getting $239 or more. All increases stopped with wages of $250 a month. To those paid on a daily basis, the increase ranged from 77 cents to the man already earning 75 cents, down to 65 cents for the one already receiving $7.60. To those paid by the hour, the raise varied from 13¼ cents to the man already getting 62 cents, down to one-half cent to the man already getting 119½ cents. For common labor paid by the day, the minimum advances were 20 cents per 8-hour day, 22½ cents per 9-hour day, 25 cents per 10-hour day, 27½ cents per 11-hour day, and 30 cents per 12-hour day. For common labor paid by the hour, the minimum raise was 2½ cents.

When the amount of the increase in wages was put in the June, 1918, balance sheet of the railroads it was found that the back payments on account of the increase, covering six months, amounted to $133,000,000 for 164, or about three-fourths of the roads. The whole increase in wages was later estimated at $350,000,000 a year.

AVERAGE MONTHLY EARNINGS OF EMPLOYEES OF AMERICAN RAILROADS THE FISCAL YEAR ENDED JUNE 30, 1917, AND THE CALENDAR YEARS ENDED DEC. 31, 1916, AND 1917.

Net of last three above items	52,476,722	76,513,516	1,221	2,024	101,454,260	205,941,258	777	1,584
Ratio opratng. exp. to opratng. rev's	80.83%	68.03%	.....	.....	82.78%	67.75%	.....	.....

Equipment rents and joint facility (dr. bal.) items exclude figures for Colorado Midland, Missouri Pacific, and St. Louis, Iron Mountain and Southern lines for five months ended May 31, 1917.

The operating expenses for June, 1918, include wage increases representing back pay since December 31, 1917. The reported increase of 164 roads for January to May, inclusive, not previously included in operating expenses are: Maintenance of way and structures, $17,505,902; maintenance of equipment, $29,726,086; traffic, $1,442,531; transportation, $79,302,542; miscellaneous operations, $849,636; general, $4,216,504; total, $133,043,201. If the foregoing amounts were excluded, the operating expenses for June, 1918, would be: Maintenance of way and structures, $50,185,159; maintenance of equipment, $76,670,235; traffic, $4,030,950; transportation, $159,114,343; miscellaneous operations, $3,315,194; general, $9,189,297; transportation for investment—Cr., $452,074; total, $302,053,104. The railway operating income for June, 1918, would then be $74,083,538, or $318 per mile of road, against $427 per mile for June, 1917, and against an average of $376 per mile for the months of June, 1915, 1916, and 1917.

The greatest items of increase in expenses of operation were due to the wage betterments, affecting 2,000,000 employés, allowed by Director General McAdoo in an order dated May 25, 1918, and retroactive to January 1, 1918. The sum total of the wage increases for 1918 was estimated at $340,000,000 to $350,000,000.

FREIGHT TRAIN OPERATION OF U. S. R. R.'S—JAN. 1-JUNE 1, 1918.

d Decrease. * The returns represent about 96 per cent. of the total operated mileage.

NOTE: Comparison with last year—The revenue ton miles and the averages based thereon (train load, car load and ton miles per locomotive and per car) in May, 1918, are somewhat understated, and to that extent the figures are not comparable with May, 1917, because of the adoption of the Universal Interline Waybill on May 1, 1918, which has increased the proportion of freight moving on through billing. The ton miles on such freight are ordinarily not taken into account until the revenue is reported back by the delivering carrier. Consequently the "lap-over" of tons actually moved by the train miles and car miles of May, but not taken into account until June, is larger this year than last year.

OVER 5,000,000 SOLDIERS CARRIED ON U. S. R. R.'S IN 14 MONTHS.

THE following figures, given out by the United States Railroad Administration, show that over 5,000,000 soldiers were transported on American railways from May 1, 1917, to June 30, 1918. The first figures after each item cover the period January 1 to June 30, 1918; the second figures are the total for the whole period of 14 months: Special trains operated, 4,323, 7,173; grand total cars used, 55,897, 95,246. Averages: Cars per train, 12.9, 13 3; hours per train, 47, 47.8; miles run per train, 934, 937; miles per hour, 20, 19.3; passengers per train, 439, 405. Persons handled: On special trains, 1,895,476, 2,902,099; on regular trains, 371,181, 1,079,855; drafted men, 892,930, 1,395,514; total, 3,169,587, 5,377,468.

Does not include mileage of switching and terminal companies. The figures exclude mileage as follows: For Alaska, 379.78 miles (unofficial); Hawaii, 256.27 miles. Total U. S. area is estimated for square-mileage ratio, at 2,973,890 sq. m., which covers land surface only and excludes Alaska and Hawaii. The population ratio is on the basis of 101,572,266, population for 1916.

RAILROAD DIVIDENDS SINCE 1893.

REPORT OF THE RAILROAD EIGHT HOUR COMMISSION.

This was the commission on a standard work day of railroad employés, created by Act of Congress approved September 3 and 5, 1916. Major Gen. George W. Goethals was chairman. His associates were Edgar E. Clark and George Rublee. The secretary was Dr. M. O. Lorenz. The commission was appointed by President Wilson, October 11, 1916; it rendered its report to the President and Congress under date of December 29, 1917. The purpose was to find out what it would cost American railways to apply the eight-hour day (put in effect by Congress on January 1, 1917), to the increased wage schedules agreed upon, March 19, 1917, by a conference committee representing, on one hand, the Council of National Defense, and, on the other, the four Brotherhoods of trainmen. Parts of the Eight Hour Commission's report are as follows:

"We find that the roads in actual practice have applied the eight-hour day as a basis for reckoning the compensation of the following classes of employés: Engineers, firemen, conductors, assistant conductors, baggagemen, brakemen, and flagmen in road and yard service, and generally, also hostlers. The average number of the employés in these classes, including a small number classified as 'Other road train employés,' in the calendar year 1916, was 308,373, which was 17.37 per cent. of the total number of railway employés. This refers to the large roads, having annual operating revenues of more than $1,000,000. The corresponding percentages in the three geographical districts are: Eastern, 17.69 per cent.; Southern, 17.45 per cent.; and Western, 16.86 per cent. The aggregate number of employés in the Eastern district is slightly in excess of those in the South and West combined. The aggregate compensation paid during the year 1916 to the employés above mentioned was $410,743,044, which was 28.11 per cent. of the compensation paid to all railroad employés. The corresponding percentages in the three geographical districts are: Eastern, 29.19 per cent.; Southern, 27.71 per cent.; and Western, 26.93 per cent.

"The table below covers 104,355 miles of road, of which 20,093 were in the Eastern district, 24,502 in the Southern, and 59,760 in the Western.

COMPENSATION UNDER EIGHT-HOUR LAW AND UNDER 1916 SCHEDULES, BY DISTRICTS, JANUARY, 1917.

Dist. and Service.	Compensation 1916.	Increase 8-hour.	Per Cent.	Dist. and Service.	Compensation 1916.	Increase 8-hour.	Per Cent.
Passenger:				Western	$2,974,305	$394,168	13.252
Eastern	$1,131,579	$48,048	4.246	Total	$7,604,313	$1,142,773	15.028
Southern	554,186	10,027	1.809	Yard:			
Western	1,260,141	22,349	1.774	Eastern	$2,139,249	$531,940	24.866
Total	$2,945,906	$80,424	2.730	Southern	651,590	153,287	23.525
Freight:				Western	1,218,136	300,576	24.675
Eastern	$2,955,414	$567,046	19.187	Total	$4,008,975	$985,803	24.590
Southern	1,674,594	181,559	10.841				

"If the percentages shown in the preceding table are applied to the total compensation paid to these same classes of employés for the calendar year 1916, the following estimate of total increase in wage cost results: Passenger service, $2,532,097; freight service, $31,668,998; yard service, $27,333,437; total for the United States, $61,534,532. This does not include increases paid to hostlers, which would amount to about $1,875,000 additional, if all roads paid hostlers on the eight-hour basis, the increase for this occupation being generally nearly 25 per cent for January, 1917."

The commission thought the roads would find ways to adjust schedules so as to reduce overtime and thus lessen cost of operation, adding: The estimated increase in wage cost may be compared with the total railway operating revenues and the freight revenue for the calendar year 1916:

Dist.	Wage Inc. Due to 8-hr. Law.	Total Operating Revenue.	Freight Revenue.	Dist.	Wage Inc. Due to 8-hr. Law.	Total Operating Revenue.	Freight Revenue.
Eastern.	$35,531,110	$1,603,972,521	$1,142,813,083	West'n..	$19,248,976	$1,439,925,920	$1,021,385,343
South'n.	6,754,446	522,065,232	382,672,045	Total.	$61,534,532	$3,565,963,673	$2,546,870,471

NUMBER IN FREIGHT SERVICE RECEIVING SPECIFIED WAGES FOR JANUARY, 1917.

"The typical earnings of an Eastern freight engineer," says the commission, "was around $180 a month, and that of the Eastern freight brakemen $100 a month, but there were many who received more and many who received less. It is not enough to show how many persons received the specified earnings. It is desirable to know also the amount of service rendered in each of these classes. It may be noted here that the very low earnings indicate that work was performed for only a fraction of the month and the high earnings imply large mileage or long hours."

*Coast lines. †Western lines. ‡Eastern lines.

For a smaller number of trains a study was made of those having fewer than 50 cars as compared with those having 50 cars or more per train. It was necessary to take the number of cars as a basis for classification rather than the gross weight, as not all roads could give data as to gross ton-miles. The general result follows:

SPEED AND DELAYS OF LONG AND SHORT TRAINS IN SLOW FREIGHT SERVICE FOR TWO WEEKS ENDED MARCH 17, 1917.

UNITED STATES GOVERNMENT ADVANCES $242,000,000 TO RAILWAYS.

DIRECTOR GENERAL MCADOO, of the United States Railroad Administration, authorized the following statement on September 2, 1918: "The total amount of money which the United States Railroad Administration has advanced since April 1, 1918, to all railroad companies (exclusive of the current earnings of the roads, applied directly by the individual roads to their current expenses and corporate needs), was $241,851,420, to 64 different roads or systems, of which the amount advanced during the month of August was $38,137,370. Of the total amount advanced from April 1 to September 1, $202,297,660 was taken from the $500,000,000 revolving fund, and $39,553,760 was taken from the surplus earnings turned over to the Director General by the limited number of roads whose receipts for the period exceeded their needs. The total amount of money turned over to the Director General April 1 to September 1 by roads reporting surplus earnings was $62,845,699, but of the amount thus turned over $29,200,699 was returned to roads temporarily making the deposits, these same roads having subsequently called upon the Director General to advance to them considerable sums in addition to the return of the deposits which they had temporarily made with the Railroad Administration.

"The only railroads or systems which have deposited funds with the Director General and have not asked for the return of any portion of the funds thus deposited were the following: Atlantic Coast Line and Louisville & Nashville, $3,450,000; Atchison, Topeka & Santa Fé, $3,300,000; Northern Pacific, $2,500,000; Duluth, Missabe & Northern, $2,400,000; Union Pacific System, $2,100,000; Norfolk & Western, $1,500,000; Bessemer & Lake Erie, $1,500,000; Chicago & Northwestern, $1,500,000; Elgin, Joliet & Eastern, $1,500,000; Duluth & Iron Range, $900,000; Fort Worth & Denver City, $700,000; Pere Marquette, $500,000; El Paso & Southwestern, $500,000; Chicago & Eastern Illinois, $300,000; Spokane, Portland & Seattle, $300,000; Richmond, Fredericksburg & Potomac, $300,000; Lehigh & New England, $300,000; International & Great Northern, $150,000; Grand Rapids & Indiana, $100,000. Among the other railroads depositing funds with the Director General, which have not already got back sums as great or greater than those thus deposited, were: Southern Pacific Lines, $2,000,000; Chicago, Burlington & Quincy, $400,000; St. Louis-San Francisco, $382,000; Colorado & Southern, $1,109,000; Hudson & Manhattan, $100,000; Vicksburg, Shreveport & Pacific, $364,000; Alabama & Vicksburg, $490,000.

"The total amount advanced by the Director General to all railroad companies from April 1 to September 1, 1918 (exclusive of the current earnings immediately applied by the respective companies), was $241,851,420. The advances were made to the following roads: New York, New Haven & Hartford, $46,964,000; New York Central Lines, $46,300,000; Pennsylvania Lines, $40,000,000; Chicago, Milwaukee & St. Paul, $15,725,000; Baltimore & Ohio, $13,500,000; Illinois Central, $12,450,000; Erie, $8,400,000; Chicago, Rock Island & Pacific, $6,000,000; Seaboard Air Line, $4,350,000; Denver & Rio Grande, $4,100,000; Southern Railway Lines, $3,940,000; Southern Pacific Lines, $3,800,000; Chesapeake & Ohio, $3,750,000; Lehigh Valley, $3,500,000; Wabash, $3,225,000; Chicago, Burlington & Quincy, $3,100,000; Missouri Pacific, $2,750,000; Missouri, Kansas & Texas, $2,645,000; Buffalo, Rochester & Pittsburgh, $2,600,000; Delaware & Hudson Company, $2,000,000; Philadelphia & Reading, $1,400,000; Minneapolis & St. Louis, $1,350,000; Chicago, Indianapolis & Louisville, $1,325,000; Chicago, St. Paul, Minneapolis & Omaha, $1,200,000; St. Louis-San Francisco Lines, $1,118,000; Hudson & Manhattan, $1,000,000; Central of Georgia, $750,000; Indiana Harbor Belt, $720,000; Wheeling & Lake Erie, $700,000; Grand Trunk Western Lines, $621,000; Chicago & Alton, $600,000; Norfolk Southern, $540,000; Terminal Railroad Association of St. Louis, $525,000; Chicago, Great Western, $507,660; Hocking Valley, $500,000; Florida East Coast, $500,000; Kansas City Southern, $500,000; St. Louis Southwestern, $500,000, New York, Ontario & Western, $480,000; Ann Arbor, $330,000; Central New England, $300,000; Kansas City, Mexico & Orient, $300,000; Central Vermont, $285,000; Detroit, Toledo & Ironton, $238,775; Chicago, Terre Haute & Southeastern, $229,201; Gulf, Mobile & Northern, $200,000; San Antonio & Aransas Pass, $200,000; Chicago Junction, $200,000; Atlanta, Birmingham & Atlantic, $189,000; Western Maryland, $169,509; Illinois Southern, $160,000; Belt Railway of Chicago, $155,000; Duluth South Shore & Atlantic, $150,000; Vicksburg, Shreveport & Pacific, $136,000; New York, Chicago & St. Louis $132,275; New Orleans, Great Northern, $120,000; Chicago & Western Indiana, $116,000; Pittsburgh & Shawmut, $110,000; Old Dominion Steamship Company, $95,000; Washington, Brandywine & Point Lookout, $50 000; San Antonio, Uvalde & Gulf, $45,000; Colorado & Southern, $41,000; Franklin & Pittsylvania, $35,000; Alabama & Vicksburg, $10,000. Of the funds thus advanced to date, over 52 per cent. went to three systems, the New Haven, the New York Central, and the Pennsylvania.

"The Director General desires to correct an impression which prevails in some quarters to the effect that the United States Railroad Administration is withholding, or has been withholding, the standard rentals due to the various railroads under Government control, pending the execution of the contracts between the railroads and the Government, and that the omission of any railroad corporations to settle their debts or claims is due to any omission by the Railroad Administration to pay the accrued rentals. The fact is that the equivalent of the standard rentals, which for the first eight months of the current year amounted to approximately $650,000,000, has already very largely been paid to every railroad company in the United States under Government control, and in many cases the Director General, in addition to paying these roads an amount equal to 90 per cent. of their standard rental (which payments in advance of the execution of contracts are permissive and not compulsory under the railroad act), has advanced large additional sums of money to these railroad corporations to enable them to meet maturing bond issues which they and their financial agents were unable, under existing conditions, to provide for, and to pay large sums for new equipment and additions and betterments.

"The total amount of money, therefore, which the Director General has disbursed, over and above all current expenses of operation, out of earnings of the railroad properties since January 1, and from current balances taken over on January 1, 1918, and from the Treasury's Revolving Fund, up to September 1, 1918, is estimated at between $800,000,000 and $900,000,000. In addition to the large sums which have been advanced directly to railroads, either on account of compensation or as loans, the Director General has advanced on account of orders placed by him for locomotives and cars now under construction, and which are being put in service as rapidly as completed, the further sum of $11,727,870."

SOME RESULTS OF FEDERAL RAILWAY CONTROL.

(Summarized from a report made September 3, 1918, to President Wilson by W. G. McAdoo, Director General of Railroads.)

THE railways came under Federal control January 1, 1918, in pursuance of a Presidential proclamation of December 26, 1917. On December 31, 1916, the total steam railway mileage in operation in the United States (all tracks), was 397,104 miles. This mileage was owned or controlled by 2,905 companies, employing some 1,700,814 persons. They had outstanding $10,875,208,565 of bonds and $8,755,403,517 of stock (par value). The inland waterways system includes some 57 canals, 3,057 miles in length, some of which were owned or controlled by the railroads, and many thousand miles of navigable rivers, lakes, bays, sounds, inlets, traversed by innumerable craft. Of the 2,905 railway companies 185 operated major systems, each of which had an annual operating revenue of $1,000,000 or more; 221 were switching and terminal companies; 1,434 were plant-facility roads, for serving some particular factory or industry; and 765 were "short line" railways dependent on larger systems for through connections.

Mr. McAdoo reduced to 2,061, from 2,325, the number of railway officials drawing $5,000 or over a year, and he also cut down the total annual salary list of these officials to $16,705,298, from $21,320,187.

SOME RESULTS OF FEDERAL RAILWAY CONTROL—*Continued.*

Expenses of railroad law departments were cut $1,500,000 a year; consolidation of ticket offices and curtailment of advertising saved $23,566,633 a year; 21,000,000 miles of passenger train travel west of the Mississippi, and 26,420,000 miles east of the Mississippi were cut from the schedules as unessential. Terminal stations were combined, and delays in loading and unloading the country's 2,400,000 freight cars were shortened. Standardization of locomotives and freight cars was begun. The new locomotives were shipped, at first, mostly to France, for use by the Americans there. Over 3,600 locomotives and 100,000 freight cars were contracted for at the shops in 1918 by the Director General. There were about 64,750 regular engines already in use, of many types.

Up to July 31, the sum of $1,151,967,240 had been authorized by the Government as expenditures for railway betterments and improvements. Of this, $441,604,460 was for additions and betterments; $666,824,180 was for equipment, and $43,538,600 for construction of extensions, branches, and other lines. Financial advances to the roads, up to July 31, 1918, totaled $203,714,050, including $43,964,000 at 6 per cent. to the New Haven road, $40,000,000 to the New York Central Lines, and $30,500,000 to the Pennsylvania.

General increases in the wages of railroad employés were made, including first, the train and yard men; next, the common labor, which was jumped 2½ cents an hour; and then 13 cents an hour extra was granted the 500,000 men in the mechanical departments. Freight rates were advanced 25 per cent., and passenger fares were fixed at a minimum of 3 cents a mile. An increase of 8.9 per cent. was achieved in freight movement, the revenue ton mileage being 34,250,247,814 miles in April, 1918, as against 31,464,837,365 in April, 1917. The average number of tons of freight hauled per train grew 6.9 per cent, from 651 to 696 tons; the average carload rose 14.4 per cent., from 25.7 tons to 29.4; and the revenue ton miles for freight locomotives increased 7.9 per cent., being 1,125,875 in April, 1918, as against 1,045,921 in April, 1917. On June 20, 1918, a record was broken when 9,531 freight cars passed a given point in 24 hours. This was at Columbia, Pa., on the Pennsylvania. On May 8 there were, at North Atlantic ports, 28,000 cars of export freight at piers and on the ground. From May 1, 1917, to July 31, 1918, the railroads moved 6,455,558 troops, of which 4,304,520, or nearly 68 per cent., were carried between January 1 and July 1, 1918. These figures do not include those traveling at their own expense. More than 177,000,000 feet of aeroplane and ship lumber were shipped from the Pacific to the Atlantic coasts for the Government.

THE ALASKA RAILROAD.

ON April 10, 1915, President Wilson announced the selection of the route for the Alaska Railroad to be built by the Government. The route adopted is known as the Susitna route and extends from Seward, on Resurrection Bay, to Fairbanks, on the Tanana River, a distance of 471 miles. This route includes the existing Alaska Northern Railway, which runs from Seward through the Kenai Peninsula, for a distance of seventy-one miles to Turnagain Arm, and has been purchased from its owners by the Government for $1,150,000. The contract for the purchase of this road was signed by Secretary Lane of the Interior Department, and under this contract, approved by the President, the road is taken over free from all debt or obligation of any kind.

From Turnagain Arm the route extends through the Susitna Valley and across Broad Pass to the Tanana River, and from there to Happy Station at Mile 460, where it connects with the Tanana Valley Railroad and from there on to Fairbanks. A side line extends from Matanuska Junction into the Matanuska coal fields, a distance of thirty-eight miles. A spur three miles in length extends from this branch up Eska Creek to the Eska coal mine, and a short spur up Moose Creek to the Doherty mine.

The Tanana Valley Railroad is being operated by the Government under lease, pending its purchase. It is a narrow-gauge line extending from Fairbanks to Chatanika, a distance of thirty-nine miles, with a five mile branch from Chena Junction to Chena. This road will be connected with the main line, and will be used as a feeder, and permits of the delivery of coal to mines that are being developed northeast of Fairbanks.

The Alaska Northern Railroad from Mile 0, at Seward, to Mile 25 has been put in good condition, and from this point on is in usable condition. At Mile 50 the old trestle bridge across Placer River, in the vicinity of Spencer Glacier, has been replaced by a new structure. The entire line from Kern Creek to Seward, a distance of seventy-one miles, is in operation. From Kern Creek northward along Turnagain Arm to Mile 85, a distance of sixteen miles, the grading has been completed. From Mile 85 through Anchorage and on to Montana Creek, Mile 211, and the branch line from Matanuska Junction to the Matanuska coal field, with spurs leading to mine, are all completed and being regularly operated. The coal from these mines is being used by the railroad. Grading has been completed from Mile 211 to Mile 248, with the exception of three stretches of about one mile each, upon which grading is under way. Clearing has been completed from Mile 248 to Mile 265, near the Junction of the Susitna and Indian River, and from this point through Broad Pass to Mile 360 no construction work has been done. From Mile 360 to Mile 400 grading is partly completed, and thence to Nenana, fifteen miles, the track has been laid. Northeast of Nenana into Happy Station, Mile 460, clearing is completed, but no further construction work is being done at this time. At Happy Station the line of the Alaska Railroad connects with the Tanana Valley Railroad, and from this point into Fairbanks, at Mile 470, the roadbed and track of the Tanana Valley Railroad is being used. Units of road in operation: Seward to Kern Creek, 71 miles; Mile 85 to Montana Creek, including Matanuska branch line, 164 miles; Tanana Valley Railroad, 44 miles; total, 279 miles.

WAGE SCALE OF NEW YORK CITY RAILROAD EMPLOYEES.

(The figures after each year show, respectively, cents an hour in 1914 and 1918, and per cent. of increase.)

New York Railways Company—First year, 24, 27, 12.5; second year, 25, 30, 20.0; third and fourth years, 26, 31, 19.2; fifth year, 27, 31, 14.8; sixth to tenth year, 27, 32, 18.5; eleventh to fifteenth year, 27, 33, 22.2; sixteenth year and after, 27, 34, 25.9.

Brooklyn Rapid Transit Company: Conductors, surface lines: First year, 24, 27, 12.5; second year, 24, 30, 25.0; third year, 25, 30, 20.0; fourth year, 26, 31, 19.2; fifth year, 26, 32, 23.1; sixth year, 27, 32, 18.5; seventh to ninth year, 27, 33, 22.5; tenth year, 28, 33, 17.9; eleventh to fifteenth year, 28, 34, 21.4; sixteenth year and after, 28, 35, 25.0. Conductors, subway lines: First year, 23, 26, 13.0; second year, 23, 27, 17.4; third year, 24, 28, 16.3; fourth year, 25, 29, 16.0; fifth year and after, 25, 30, 20.0. Guards, subway lines: First year, 20, 24, 20.0; second year, 21, 25, 19.0; third year, 22, 25½, 11.4; fourth and fifth years, 22½, 26, 15.6; after fifth year, 23, 26, 13.0.

SOUTH AFRICAN GOVERNMENT RAILWAYS.

THE following is a brief resumé for 1917: Mileage—3-foot 6-inch gauge, 8,958; 2-foot gauge, 521. Number of locomotives—3-foot 6-inch gauge, 1,526; 2-foot gauge, 54. Passenger cars—3-foot 6-inch gauge, 2,616; 2-foot gauge, 93. Passenger cars self-propelled (3-foot 6-inch gauge), 2. Freight cars—including vans, etc. (3-foot 6-inch gauge), 28,439; including vans, etc. (2-foot gauge), 468. Passengers carried (journeys), 49,699,579; gross tonnage revenue-earning traffic, 13,797,439.

Earnings: Passengers and parcels, $19,847,000; all other and total, $69,406,000. Gross working expenditure, $49,943,000; surplus of earnings over gross working expenditure, $19,463,000; net profit after payment of interest, $1,621,000; total number of employés, 60,704.

EXPRESS COMPANIES COMBINED BY THE GOVERNMENT.

DIRECTOR GENERAL MCADOO, of the United States Railroad Administration, announced on May 2, 1918, the unification of the Adams, American, Wells Fargo, and Southern Express Companies for the period of the war, adding: "Under this arrangement the new express company will be the Director General's agent for carrying on the express business. The character of the service and the character of the rates will be under the Director General's control and subject to initiation by him. An important feature of the arrangement is that the new company is to be capitalized only to the extent of actual property and cash put into the business, and that the Government will share on a progressively increasing scale in any profits derived from the business. The general method of determining the compensation is that the Director General will receive 50¼ per cent. of the operating revenues (or gross earnings), and out of the balance the express company will pay operating expenses and taxes and a dividend of 5 per cent. on its capital stock. Out of the next 2 per cent. available for distribution the express company will receive 1 per cent. and the Government 1 per cent.; out of the next 3 per cent. available for distribution the express company will receive 1 per cent. and the Government 2 per cent.; any further amounts available for distribution will be divided, one-quarter to the express company and three-quarters to the Government."

The Federal concern took the name "American Railway Express Company," and it began operations on July 1, taking in also the Great Northern, National, Northern, Southern, and Western Express Companies.

NUMBER OF AUTOMOBILES IN OPERATION IN UNITED STATES.

(The figures are as of January 1.)

THE estimated number of automobiles in use in the United States is as follows: (1899) 10,000; (1905) 85,000; (1910) 400,000; (1911) 600,000; (1912) 677,000; (1913) 1,010,483; (1914) 1,253,875; (1915) 1,754,570; (1916) 2,225,000; (1917) 3,000,000; (1918) 3,500,000.

Various authorities estimate that the average consumption of gasoline per automobile equals from 10 to 14 barrels per annum. This figure has been checked against inspection figures of States inspecting all gasoline sold.

SURVIVAL OF THE HORSE.

(By the United States Department of Agriculture.)

SUBSTITUTIONS for the horse have so far failed to diminish his number on farms, where he is mostly bred. Since he was first separately counted in the Census of 1850, his number has grown from 4,336,719 on farms in that year to 10,357,488 in 1880, to 18,267,020 in 1900, and to 19,833,113 in 1910, and the recent estimate of the United States Department of Agriculture for 1918 makes the number 21,563,000. The railroad did not verify the common prophecy of the horse's gloomy future nearly a century ago, and many years elapsed before the heyday of the bicycle arrived with its expected menace to the horse. That machine of pleasure and toil diverted attention from the first real antagonist of the horse, the electric street railway, and this was a formidable one. It is roughly estimated that 2,000,000 horses would be required to move the street cars now in city service and that farmers would need to keep a stock of perhaps 3,000,000 horses to produce this supply. Yet, horses kept on increasing.

Apparently the most effective foe of the horse has appeared in the last ten years in the motor vehicle, although its importance in this respect is popularly exaggerated. According to statistics collected by the United States Department of Agriculture, the total State registrations of motor cars were 48,000 in 1906, about 500,000 in 1910, over 1,000,000 in 1912, over 2,400,000 in 1915, and 3,512,996 in 1916. Automobiles do not mostly displace horses, but many are used by men in occupations dependent on either horses or automobiles for personal movement, such as real estate agents, builders, and some merchants and manufacturers, and there is also the large public automobile passenger service in cities and, again, the large number of automobiles owned by farmers in place of driving horses. The bulk of the automobile owners, off farms, however, would not be owning horses as the alternative. It is the opinion that every motor truck on the average displaces three horses. It is known that 118,682 motor trucks were registered in 1916. Probably the displacement of horses by motor trucks and commercial vehicles represents a stock on farms of a few million horses, and to these must be added the stock eliminated by the automobile. Last of all, the farm tractor has appeared, with conjectural possibilities, but as yet with no perceptible displacement of horses in the country at large.

Of the 10,485 miles of surfaced roads in the Middle Atlantic States in 1904, approximately 60 per cent. was plain macadam and 40 per cent. was gravel. In 1909, of the 19,532 miles of surfaced road, 51 per cent. was macadam, 47 per cent. gravel, 1 per cent. bituminous macadam, and 1 per cent. other materials. In 1914, however, of a surfaced mileage of 24,482, 39.3 per cent. was macadam, 36.3 per cent. gravel, 15.4 per cent. bituminous macadam, 3.8 per cent. brick and concrete, and 5.2 per cent. of other materials.

New Jersey was the first to adopt the policy of State aid. The first work was done in 1892.

Of the 134,141.74 miles of surfaced roads, at the close of 1914, in the Central, Pacific, and Mountain States, 78,825.34 miles, or 58.77 per cent., were of gravel; 31,882.24 miles, or 23.77 per cent., macadam; 13,192.02 miles, or 9.84 per cent., sand-clay; 2,949.64 miles, or 2.20 per cent., bituminous macadam; 1,789.20 miles, or 1.33 per cent., concrete; 794.82 miles, or 0.59 per cent., brick.

Of the 18,038.78 miles of surfaced roads in the New England States at the close of 1914, 10,896.08 miles or 60.40 per cent., were gravel; 2,229.81 miles, or 12.36 per cent., macadam 1,771.20 miles, or 9.83 per cent. bituminous macadam, including roads built by the mixing and penetration methods and surface treated; 1,113.43 miles, or 6.17 per cent., sand-clay; 41.80 miles, or 0.23 per cent., concrete; 1.38 miles, or 0.01 per cent., brick, and 1,985.08 miles, or 11 per cent., surfaced with other materials.

Of the 73,594.78 miles of surfaced roads in the Southern States at the close of 1914, 29,287.88 miles, or 39.80 per cent., were sand-clay; 21 377.37 miles, or 29.05 per cent., were macadam; 17,440.02 miles, or 23.7 per cent., were gravel; 1,994.36 miles, or 2 71 per cent., were bituminous macadam; 1,924.68 miles, or 2.61 per cent., were shell; 379.81 miles, or 0.51 per cent., were brick; 273.24 miles, or 0.37 per cent., were concrete; and 917.42 miles, or 1.25 per cent., were surfaced with other materials.

TONNAGE AT U. S. PORTS BY CHIEF NATIONALITIES—NET TONS.

THE net ton equals 100 cubic feet of carrying capacity, exclusive of deductions for space occupied by cabins, machinery, etc. Lack of uniformity in rules for the measurement of tonnage probably affects the accuracy of the figures presented.

Norwegian and Swedish figures represent net tonnage of vessels entered and cleared at all ports of the United States, and in some instances this may prevent the items by countries from footing to agree with the totals, which represent seaports only.

The figures of imports include gold and silver prior to 1830.

The relative percentages of the various classes, etc., of imports in 1917 were: Free of duty, 71.92; average ad valorem rate of duty, based on imports for consumption, 6.28. Free of duty imports were divided thus—51.78% crude materials; 14.22% crude foodstuffs and animals; 21.05% manufactures for further use in manufacturing; 8.28% goods ready for use. Of the dutiable imports, 15.75% were crude, for use in manufacturing; 7.25% were crude foods, etc.; 36.82% were partly manufactured foods; 12.81% were manufactures for further use in manufacturing; and 26.49% were manufactures ready for use.

The statistics since 1913 represent the commerce of the districts named as rearranged July 1, 1913. The former limits in almost all cases were more restricted, and the statistics are accordingly not strictly comparable. Prior to 1914 the statistics given in this table for Massachusetts and Maryland were returned as for the (former) districts of Boston and Baltimore, respectively.

The total 1918 exports by customs districts were valued at $5,928,285,641, as against $6,290,048,394 in 1917, and $4,333,482,885 in 1916. The total 1918 imports by customs districts were valued at $2,946,059,403, as against $2,659,355,185 in 1917, and $2,197,883,510 in 1916.

The statistics since 1913 represent the commerce of the districts named as rearranged July 1, 1913. The former limits in almost all cases were more restricted, and the statistics are accordingly not strictly comparable. Prior to 1914 the statistics given in this table for Massachusetts and Maryland were returned as for the (former) districts of Boston and Baltimore, respectively.

UNITED STATES EXPORTS, BY GRAND DIVISIONS.

WORLD'S PRODUCTION OF COTTON IN 1917.

(By the United States Department of Commerce.)

THE world's production of commercial cotton, exclusive of linters, grown in 1917, as compiled from published reports, documents, and correspondence, was approximately 17,410,000 bales of 500 pounds net, while the consumption of cotton (exclusive of linters in the United States) for the year ending July 31, 1917, was approximately 20,180,000 bales of 500 pounds net.

WEIGHT OF A FARM HORSE.

THE weight of a mature farm horse, average for the United States, is 1,203 pounds. Washington, the most northwestern State of the Union, has the highest State average, 1,350 pounds, seconded by Maine, the most northeastern State, with 1,325 pounds. Lightest weight horses are found in Florida, the most southeastern State, with an average weight of 850 pounds. Mature mules on farms of the United States average 956 pounds. Washington again leads, with 1,110 pounds, followed by Oregon, with 1,100 pounds. Lightest mules are found in Mississippi, where the average is 865 pounds.

Prior to 1866 the figures of import values represent net general imports, the amount of duty collected being the annual amounts collected on merchandise only. For 1867 and later years the figures of import values represent imports for consumption, the average ad valorem rates on dutiable merchandise being based on ordinary duties, and those on free and dutiable merchandise being based on total duties collected. The total duties collected include duty equivalent to internal revenue tax, and drawback on articles exported from the United States returned.

Imports entered for consumption are imports on which duties are paid (or which are registered as entered free), within a named period. Thus, goods may be imported to the value of $2,000,000,000 in a given period, but 75 per cent. of them go into bonded warehouses, to be held until needed for consumption. When such goods come out of storage they are recorded as imported and not till then.

EXPORTS OF BREADSTUFFS, MEATS, ETC., FOR 1918.

(By the Department of Commerce. Fiscal year ending June 30.)

Exports by Groups.		1918.	1917.

American foreign trade fell off slightly in the fiscal year 1918, the total being $8,874,000,000, compared with $8,949,000,000 in 1917, according to figures made public by the Bureau of Foreign and Domestic Commerce, Department of Commerce. The imports for 1918 show an increase of $287,000,000, reaching a total of $2,946,000,000. Exports show a decrease of $362,000,000, the total for 1918 being $5,928,000,000, as compared with $6,290,000,000 in 1917. The excess of exports over imports amounted to $2,982,000,000 in 1918, against $3,631,000,000 in 1917.

Imports of gold during the fiscal year ending June 30, 1918, amounted to $124,000,000, as compared with $977,000,000 in 1917, while exports were valued at $191,000,000, compared with $292,000,000 in 1917. Silver imports amounted to $70,000,000 in 1918, against $35,000,000 in 1917 and silver exports increased from $78,000,000 in 1917 to $139,000,000 in 1918.

Includes Mexico, Central America, South America, and the West Indies, with exception of British, Danish, Dutch, and French.

Imports of United States from and exports of United States to the separate Latin American countries in year ended June 30, 1918, were: Imports from—Costa Rica, $7,615,482; Guatemala, $7,822,960; Honduras, $5,437,809; Nicaragua, $4,590,037; Panama, $7,845,390; Salvador, $6,870,432; Mexico, $140,801,097; Cuba, $264,024,006; Dominica, $8,061,412; Hayti, $4,815,544; Argentina, $195,633,348; Bolivia, $122,917; Brazil, $113,511,954; Chile, $141,075,704; Colombia, $25,975,988; Ecuador, $10,887,968; Paraguay, $69,797; Peru, $41,439,218; Uruguay, $23,530,682; Venezuela, $13,287,738.

Exports from United States to Costa Rica, $1,903,224; Guatemala, $6,292,760; Honduras, $4,618,729; Nicaragua, $4,377,688; Panama, $23,638,116; Salvador, $3,479,332; Mexico, $106,893,653; Cuba, $235,682,045; Dominica, $16,011,019; Hayti, $3,359,922; Argentina, $109,444,001; Bolivia, $3,581,395; Brazil, $66,270,046; Chile, $63,529,124; Colombia, $10,992,199; Ecuador, $4,830,468; Paraguay, $672,454; Peru, $22,011,583; Uruguay, $18,061,880; Venezuela, $7,823,007.

URUGUAY'S FOREIGN TRADE.

Exports and imports, value in Uruguayan pesos (1 peso = $1.034):

Year.	Imports.	Exports.	Year.	Imports.	Exports.	Year.	Imports.	Exports.
	Pesos.	*Pesos.*		*Pesos.*	*Pesos.*		*Pesos.*	*Pesos.*
1913	50,353,000	68,496,000	1915	34,980,000	73,291,000	1917	38,700,720	96,216,925
1914	37,235,000	52,419,000	1916	33,803,000	68,341,000			

Of the imports in 1917, those from United States were valued at $18,401,941; of the exports, those to United States were valued at $33,175,381. Uruguay's imports of alcoholic beverages totalled 1,945,018 gallons in 1915.

Chief crops (in bushels) 1916-17: Wheat, 5,390,228; linseed, 121,916; oats, 1,926,253; barley, 110,308; rye, 1,134; canary seed (pounds), 1,286,600.

Uruguayan live stock has suffered from weather in recent years. The rains in 1914 caused disease and mortality among animals. An investigation in 1914 showed over 700,000 cattle and more than 5,000,000 sheep died. The drought of 1916 caused the death of 1,500,000 cattle. Estimates based on the amount of sheep dip consumed would put the number of sheep in the country on January 1, 1916, at 13,000,000, as against over 26,000,000 in 1908.

The figures show the tonnage and nationality of the 3,333 steam and sailing vessels arriving in the foreign trade at Montevideo during 1917, and do not include vessels calling merely to take on or leave a pilot: American 413,068; Argentine, 880,062; Bolivian, 89; Brazilian, 136,531; British, 1,814,490; Danish, 60,074; Dutch, 53,046; French, 377,576; Greek, 30,978; Italian, 173,988; Japanese, 3,503; Norwegian, 195,473; Paraguayan, 794; Portuguese, 1,751; Russian, 12,422; Spanish, 279,199; Swedish, 20,031; Uruguayan, 354,253; total, 4,807,328.

TRADE OF DOMINICAN REPUBLIC.

Year.	Imports.	Exports	Year.	Imports.	Exports.	Year.	Imports.	Exports.
1905	$2,736,828	$6,896,098	1910	$6,257,691	$10,849,623	1914	$6,729,007	$10,588,787

The figures for 1917 are actual values; those for prior years, nominal or tariff values.

The exports (in tons, except as noted), were as follows for 1916 and 1917:

ARTICLES.	1916.	1917.	ARTICLES.	1916.	1917.
	Tons.	*Tons.*		*Tons.*	*Tons.*

Imitation butter	2,367	13,312	Quebracho logs	161,734	133,170
Cheese	228	2,728			

The chief imports in 1917 were: Spices and condiments; substances for infusions and hot beverages; tobacco, textiles, oils, wooden ware, paper and paper goods, machinery and agricultural implements, earthenware, electrical materials, vegetables and cereals. Most of the flour exports go to Brazil. The value of the 1917 meat exports was 137,000,000 gold pesos. The cane harvest of 1917 yielded 88,076 long tons of sugar. Over $4,000,000,000 of foreign capital, half of it British, is invested in Argentina. The railroads, in 1917 (fiscal year), carried over 21,000,000 passengers and 13,000,000 metric tons of freight.

Of the 1917 imports, $133,251,949 came from the United States; $80,080,322 from the United Kingdom; and $36,549,985 from Brazil. Of the 1917 exports, $155,626,288 went to the United States; $155,217,373 to the United Kingdom; and $70,029,308 to France.

The banks of Buenos Ayres, on June 30, 1918, had a total capital of $194,000,000, with deposits of more than $1,040,000,000. The average percentage of cash to deposits was 46 per cent.

NATIONAL WEALTH OF ARGENTINA.

(As of January 1, 1916, estimated by Dr. Alejandro E. Bunge, Director General of the National Bureau of Statistics, Buenos Ayres.)

FORM OF WEALTH.	1908.	1916.	FORM OF WEALTH.	1908.	1916.

ARGENTINE EXPORTS DURING FIRST HALF OF 1918.

Cereals exports, figures in parenthesis being the exports in first half of 1917: Wheat, 1,531,332 tons (743,535); corn, 195,786 tons (646,210); linseed, 246,550 tons (44,044); oats, 191,777 tons (109,614); flour, 52,987 (37,722). Exports of butter for 1918 established a record with 303,879 cases of 25 kilos (55 pounds) each, or 7,597 metric tons—nearly double the shipments for corresponding periods of the preceding two years. Quebracho-extract shipments declined during the first six months of 1918 as compared with the like period of 1917, amounting to 41,224 tons, against 49,751 tons. Shipments of ox hides were on a smaller scale in 1918. Up to the end of June, 615,940 ox hides were shipped, as against 897,556 for the corresponding period in 1917. This for dry hides. Salt hides also fell off, with 1,097,087, against 1,455,899 last year. Exports of wool were 143,200 bales, as against 216,446 for the first half of 1917. Argentina shipped 2,811,434 quarters of frozen beef, as against 2,511,406 quarters in January-June, 1917. Chilled-beef figures are 23,544 quarters, comparing with 352,146. Exports of frozen mutton amounted to 454,755 carcasses, as compared with 665,797; and frozen lamb to 93,842, as against 287,082 last year.

RISE OF LIVING COSTS IN ICELAND.

An increase of 4 per cent. in the average prices of necessaries at Reykjavik in July of this year as compared with April, 1918, but one of 211 per cent. when contrasted with their cost in July, 1914, is shown by data appearing in the July issue of *Hagtidindi*, the journal of the Icelandic Statistical Department. If coal and petroleum, which show increases over prices in July, 1914, of 1,051 and 217 per cent. respectively, be omitted, and the comparison be limited to articles of food alone, it is stated that the average increase in July, 1918, was 3 per cent. as compared with April last and 190 per cent. as compared with July, 1914.

1907.....	360,245,363	481,572,426						

The milreis is valued at about 54 cents. During 1917 Brazil had a favorable trade balance of nearly $75,000,000. The total foreign import and export trade in 1917 was as follows: Exports, 1,960,164 metric tons; imports, 1,986,144 metric tons. In the same year, 10,605,000 bags of coffee, 132 pounds each, were exported, almost 3,000,000 bags less than in 1916, and a decline of nearly 7,000,000 bags as compared with 1915. The following table shows the exports in 1917 of the principal products of Brazil by quantities:

Articles.	1917.	Articles.	1917.	Articles.	1917.
Cotton.....met. tons	5,941	Fruits.....met. tons	38,452	Jerked beef.....met. tons	4,157

The value of the principal exports for 1917 follows:

Articles.	1917.	Articles.	1917.	Articles.	1917.
Cotton	$3,859,000	Tobacco	$6,132,000	Potatoes	$161,000
Sugar	17,636,000	Hardwoods	1,202,000	Mandioca flour	$1,353,000
Rubber	36,397,000	Manganese	14,901,000	Beans	10,463,000
Cacao	12,341,000	Herva matte	8,176,000	Oil-bearing fruits	1,703,000
Coffee	112,183,000	Gold	2,302,000	Corn	1,022,000
Refrigerated meat	15,252,000	Skins	5,168,000	Other products	13,661,000
Carnauba wax	2,146,000	Jerked beef	1,158,000		
Hides	15,582,000	Rice	6,141,000	Total	$291,382,000
Fruits	2,443,000				

The value of the imports of merchandise into Brazil is: (1913) $326,862,000; (1914) $172,628,000; (1915) $164,423,000; (1916) $196,056,000; (1917) $216,608,000.

UNITED STATES TRADE WITH BRAZIL.

The following table shows the trade of the United States with Brazil for the years 1913-1917; for comparative purposes there is also given the trade between Brazil and Great Britain:

Year.	Exports to United States.	Exports to Great Britain.	Imports From United States.	Imports From Great Britain.	Year.	Exports to United States.	Exports to Great Britain.	Imports From United States.	Imports From Great Britain.
1913.....	$100,947,735	$48,640,663	$39,901,203	$63,282,531	1916.....	$132,067,378	$43,918,566	$47,669,050	$34,564,017
1914.....	95,000,622	38,776,151	23,275,894	32,081,884	1917.....	145,274,931	48,361,641	66,207,970	35,941,717
1915.....	120,099,305	40,129,431	33,952,551	27,120,821					

Of the sugar exports from Brazil in 1917, totalling 131,517 tons, Argentina took 62,785 tons; Uruguay, 34,973 tons; and the United Kingdom, 23,308 tons.

The following statement indicates the coffee position up to May, 1918:

	Bags.		Bags.
In hands of Sao Paulo Gov. Apr. 30, 1918.	2,788,875	Less stock on June 30, 1917	1,100,000
In hands of commissarios and exporters, inclusive of 600,000 bags bought by Sao Paulo Government	4,150,416	Net total	13,445,956
Shipped coastwise	281,000	To come down to complete estimated crop	3,554,044
Exported up to Apr. 25, 1918	7,325,665	Total crop	17,000,000
Total	14,545,956		

BRAZILIAN TRADE BALANCE AND FOREIGN EXCHANGE.

(By the Latin American Division, Bureau of Foreign and Domestic Commerce.)

In practically all South American countries the situation created by the war has been basically the same. Exports have grown extraordinarily in response to war-stimulated demand from abroad. Imports have been restricted, mainly by reason of the scarcity of shipping and the need of distributing tonnage with a view to war requirements. A large balance of trade has thus been created in favor of the Latin American countries. The effect is seen in the rise of exchange. The purchases of exchange to pay for the imports have been insufficient to meet the supply of exchange represented by the exports. Exports, indeed, have exceeded the sum of imports and of all other outgoings, such as interest charges on foreign capital, and other items. At the same time, the normal corrective of such a situation—gold imports from abroad—has been removed by the Allied embargo on exports of that metal. Exchange has risen to spectacular heights.

CUBA'S FOREIGN TRADE.

Year (Fiscal)	Imports.	Exports.	Year (Fiscal)	Imports.	Exports.	Year (Fiscal)	Imports.	Exports.
1907...	$97,334,000	$114,813,000	1911...	$108,098,000	$129,199,000	1915...	$128,132,000	$219,447,000

Of the 1917 imports, $63,534,755 came from the United States; $23,565,591 from the United Kingdom; and $10,176,271 from Peru. Of the 1917 exports, $155,006,103 went to the United States; $55,388,670 to the United Kingdom; and $11,657,554 to France.

The value of the chief imports from the United States in 1917 was: Automobiles, $3,274,880; coal, $1,827,416; rice, $1,171,307; explosives, $1,754,487; iron and steel bars, $2,031,278; machinery (principally mining and electrical), $5,431,707; steel rails, $972,131; printing paper, $707,585; pig iron, $531,773; cotton thread and yarn, $646,917; empty sacks, $555,270; cotton textiles, $672,180; osnaburgs, $785,547; hosiery, $575,465.

The value of the chief exports to the United States in 1917 was: Beans, $3,581,310; copper bars, $42,300,000; hides, $736,000; nitrate of soda, $40,500,000; wool, over $3,000,000.

The total production of nitrate in Chile in 1917 was 65,100,000 Spanish quintals, of 101.4 pounds.

MEXICO'S TRADE AND COMMERCE.

Mexico's exports of merchandise to the United States in the fiscal year ended June 30, 1918, amounted, in value, to $140,801,097, as against $112,138,677 in fiscal year 1917, and $97,676,544 in fiscal year 1916. Mexican imports of merchandise from the United States in fiscal year 1918 totalled, in value, $106,893,653, as against $79,004,597, and $47,945,519 for 1917 and 1916.

The exports from Mexico, at United States border points, amounted in 1918, in value, as follows: Nogales, Ariz., $20,077,045; El Paso, Tex., $2,034,366; San Antonio, Tex., $24,541,245; total, $46,652,656. Mexican imports at these border places were as follows: Nogales, $10,439,296; El Paso, $4,790,179; San Antonio, $17,909,740.

Vessels from Mexico to the United States engaged in carrying merchandise in 1918 totalled 2,835,702 tons, of which a tonnage of 2,465,757 was owned in the United States. The net tonnage of ships clearing from the United States for Mexico in 1918 was 2,798,138 tons, of which 2,448,549 was American owned.

Exports of mineral oil (crude petroleum), from Mexico to the United States in 1918, fiscal year, were 1,346,666,866 gallons, valued at $17,901,639; exports of lead to the United States were 157,662,600 pounds, worth $8,954,884; exports of rubber, 1,033,087 pounds ($451,915); exports of goatskins, 2,629,706 pounds ($1,356,813); cattle hides, 23,851,700 pounds ($4,586,316); coffee, 31,118,513 pounds ($3,336,131). Sisal exports during the calendar year 1917 were 733,832 bales, of 378 pounds, valued at $19,612,000. Mexico City shipments to the United States in 1917 were valued at $12,934,928, including bullion and $50,000 in securities.

VENEZUELA.

In 1917 Venezuela's chief exports were: Gold, 902,510 grams; copper ore, 43,701 tons; asphalt, 47,124 tons; petroleum, 8,651 tons. Production of gold amounted to 958,304 grams; copper ore, 42,271 tons; petroleum, 54,072 tons; and coal, 20,165 tons.

The public debt of Venezuela, January 1, 1918, was $27,817,700.

FOREIGN TRADE OF BELLIGERENT AND NEUTRAL COUNTRIES.

(By the United States Department of Commerce, July, 1918.)

THE foreign trade of the belligerent countries and the principal neutrals from 1913 to 1917 is given in the table below for the years for which statistics are available. Imports into the United States increased from $1,792,596,000 in 1913 to $2,952,468,000 in 1917, while exports increased from $2,484,018,000 in 1913 to $6,231,245,000 in 1917.

In comparing the figures given in the following table showing the imports and exports of the principal neutral and belligerent countries, consideration should be given to the general increase in prices that has occurred since the outbreak of the war.

COUNTRIES.	1913.	1914.	1915.	1916.	1917.
IMPORTS.

Switzerland	265,645,000	229,069,000	322,321,000	472,409,000	.....

NOTES.—The Swiss figures of trade include bullion but not coin. In all other cases trade in merchandise only is shown. Special trade—imports for consumption and exports of domestic merchandise—is shown for France, Italy, Russia and Austria-Hungary. In all other cases the figures represent total imports and exports. The value of imports into the United States, as shown, represents the foreign market value of the goods, exclusive of freight, insurance and other charges. In all other cases "value on arrival" is shown. The official valuation of imports and exports in the Netherlands is largely arbitrary, and the totals are probably larger than the actual values. The Spanish peseta has been converted at the following rates: 1913, $0.18; 1914, $0.186; 1915 and 1916, $0.20; 1917, $0.2275. The official values of the Spanish schedule appear to be below the level of war-time prices. The España Económica y Financiera for March 2, 1918, estimates the imports in 1917 at $334,898,000, and the exports at $586,982,000.

The British figures of imports for the period preceding July, 1917, include all articles of food but not other goods which at the time of importation were the property of the British or other Allied Governments. The export figures for the same period include goods bought in the United Kingdom by or on behalf of the Allied Governments, but do not include goods taken from British Government stores and shipped on Government vessels. The figures for 1917 include, for the latter half of the year, merchandise imported and exported in public as well as private ownership, except exports for the use of the British forces in active service. Since the beginning of the war no trade reports have been published by Germany or its allies.

WORLD'S TONNAGE ESTIMATE.

THE Repertoire General de la Marine Merchande of the French Bureau Veritas for the year 1917-18 gives the figures below concerning the world's estimated tonnage in 1917. In tables steam vessels of 100 tons and upward are included and all sailing vessels in excess of 50 tons gross.

COUNTRIES.	Steamers.	Sailing Vessels.	COUNTRIES.	Steamers.	Sailing Vessels.	COUNTRIES.	Steamers.	Sailing Vessels.
	Net tons.	*Net tons.*		*Net tons.*	*Net tons.*		*Net tons.*	*Net tons.*

Gross tonnage—Steamers, 42,215,249; sailing, 4,861,106.

PROGRESS IN AMERICAN SHIPBUILDING.

During August, 1918, merchant ships built in the United States and officially numbered, including also those built for foreign owners, aggregated 295,849 gross tons. For the twelve-month period ended August 31, 1918, the total output was 1,787,730 gross tons. Before the European war our largest output was 614,216 gross tons for the fiscal year ended June 30, 1908. The corresponding output for recent twelve-month periods was as follows:

The fisheries of Canada in 1917 were valued at $39,208,378. The ship arrivals and departures at the various ports totaled 65,712,544 tons. The merchant marine in 1916 numbered 8,660 vessels of 942,598 tonnage; 308 ships were wrecked in that year of 242,996 tonnage, with $1,377,442 damage and 67 lives were lost. Steam railway mileage in 1917 was 38,604, as against 37,434 miles in 1916. From canals the Dominion Government got $461,423 revenue. Electrical energy developed at power plants in 1917 totaled 2,888,748,123 units. Immigration added 75,374 to the population, as against 48,537 in 1916. Of the aliens 3,312 were Chinese who have entered Canada to the number of 68,525 since 1886. In 1917 the time lost in strikes was 1,134,970 days. There were 37,889 teachers and 1,281,043 pupils in the public schools.

The gold production 1862-1875 is valued at about $39,000,000. The value of the production, by provinces, in 1916, was: Nova Scotia, $94,305; Quebec, $21,375; Ontario, $10,180,485; Alberta, $1,695; British Columbia, $4,500,216; Yukon Territory, $4,396,900.

FOREIGN TRADE OF CANADA, 1868-1917—*Continued.*

CANADIAN EXPENDITURE ON ACCOUNT OF WAR APPROPRIATION.

THE total expenditure on account of war appropriation for the year ended March 31, 1917, was $306,488,815, of which $298,291,031 was expended by the Department of Militia and Defence and $8,197,784 was expended by other departments. To these sums may be added the expenditure on account of war appropriation prior to April 1, 1916, viz., $226,948,231, of which $213,610,030 was expended by the Department of Militia and Defence and $13,338,201 by other Departments. Altogether, therefore, the grand total to March 31, 1917, amounted to $533,437,046, of which $511,901,061 was expended by the Department of Militia and Defence and $21,535,985 by other Departments.

The war expenditures by the Canadian Militia Department for the fiscal year ended March 31, 1917, were $298,291,031, of which $186,465,303 was for pay allowances and subsistence, including assigned pay and separation allowance. The next largest item was $41,366,667 for maintenance of troops in France. Other totals were: clothing (except boots) $14,598,456; small arms and ammunition, $8,161,306; travelling and transport, $11,245,494; bedding, furniture, etc., $4,769,191. According to A. K. Maclean, Acting Minister of Finance, the Canadian expenditures on war account for the fiscal year ended March 31, 1918, were $345,000,000, making a total war outlay, to then, of $878,000,000. The net debt of Canada was $336,000,000 before the war; and on March 31, 1918, it was $1,200,000,000. The commitments of Canada for 1918-19 fiscal year are: For civil budget, $230,000,000; war expenditure, $425,000,000; advances to the Imperial Government, financing export trade with Great Britain, $325,000,000; making a total of $980,000,000. To discharge this Mr. Maclean estimated a revenue of $270,000,000; advanced by Great Britain for maintenance of Canadian troops overseas, $300,000,000; and unexpended balance Victory Loan, $130,000,000; making a total of $700,000,000, with a balance of $280,000,000 to be provided for by loans. This does not include commitments for expenditure on account of the purchase of railway equipment or Canadian Northern securities. An estimated $40,000,000 of additional revenue is provided for by the extension of the business profits war tax, increase in income tax, increase in excise taxes on manufactured tobacco, a customs tax at $0.10 per pound on tea, increased customs tax on green coffee and chicory, and the increase of the customs duty on temperance beers to 40 per cent. ad valorem. There is increased taxation on sleeping-car berths and parlor-car seats, and excise taxes of $0.01 per 100 on matches, $0.08 per pack on playing cards, customs duty of $0.05 per lineal foot moving picture films, and a special war excise tax of 10 per cent. upon the selling price of automobiles, jewelry, gramophones, phonographs, talking machines, mechanical pianos, organ players, and records when imported into or manufactured in Canada.

CANADIAN WAR PENSIONS.

A Board of Pension Commissioners for Canada, consisting of three members, was created by Order in Council of June 3, 1916, with exclusive jurisdiction and authority to deal with the granting and payment of naval and military pensions and other allowances to persons in the Canadian Naval Forces and the Canadian Expeditionary Force and to their dependents. There is no appeal from the decisions of the commission but applicants may appear in person or by counsel before the commission to present complaints. The scale of pensions was revised by Order in Council of October 22, 1917. Under the new scale twenty classes are provided ranging from 5 per cent. disablement up to 100 per cent. or total disablement. The pensions range for the rank and file, according to the class of disablement, from $30 up to $600 per annum and for disablement from $600 for rank and file up to $2,700 for persons of and above the rank of commodore or brigadier-general. A further annual allowance is made for each child, which for all men below the rank of commander or lieutenant-colonel, ranges according to class of disablement, from $6 up to $96. Married men, not above the rank of naval sub-lieutenant or lieutenant of militia, receive an additional allowance which ranges, for all ranks, from $4.80 to $96. Men of these same ranks may also receive an addition not exceeding $300 if totally disabled and helpless. In the case of dependents of deceased sailors and soldiers, payments to widows are made only until remarriage, and to dependent parents and brothers and sisters only when there is no widow or child. The age limit for the payment of pensions to children is 16 for boys and 17 for girls.

The following statement gives particulars of the loans issued by the Dominion Government up to the end of 1917:

According to figures compiled by the *Monetary Times*, Canada's war orders from the outbreak of war to the end of 1917 totaled $1,812,000,000, and during 1917 the value of munition orders totaled $338,000,000. The value of munition orders placed up to September 30, 1917, was $262,000,000, of shipbuilding orders $46,730,000, and of all orders since the outbreak of the war, including shipbuilding, $972,000,000. The number of people engaged in the munitions industry in Canada was approximately 225,000.

FOREIGN TRADE OF SPAIN.

THE value of Spain's imports in 1917 was $239,110,098, compared with $230,664,231 in 1916. Imports of gold bullion and coin amounted to $106,339,378, compared with $63,968,257 in 1916. Aside from gold and silver bullion and coin, the imports decreased from $164,424,496 in 1916 to $132,488,042 in 1917. The falling off was greatest in the value of raw materials, followed by alimentary products and manufactured articles, while the value of live animals imported increased. The value of all exports from Spain amounted in 1917 to $234,602,052, against $249,008,091 in 1916, the heaviest decrease being in the export of alimentary products, followed by manufactured articles and raw materials. Eliminating the import and export of gold and silver in bullion and coin, the balance of trade was in Spain's favor by $99,723,795.

The declared exports from Spain to the United States and possessions in 1917 were valued as follows: To United States, $35,733,492, against $33,768,822 in 1916; Philippines, $985,330, against $1,022,757; Porto Rico, $887,593, against $851,601; total, $37,606,415, against $35,643,180.

Cereal crops, in metric tons, in 1917 were: Wheat, 3,883,020; barley, 1,697,324; oats, 479,877; rye, 614,790; corn, 746,023. From an area of 3,198,407 acres devoted to viniculture, a crop of 4,069,314 metric tons of grapes was gathered in 1917; 3,856,691 tons were devoted to wine-making and 627,333,273 gallons of must were produced.

The population returns are from the official census of Great Britain and Ireland taken in the Spring of 1911. The total population of the United Kingdom, a month before the outbreak of war, was officially estimated at 46,089,249. The number of persons to the square mile was in 1911: England, 618.0; Scotland, 156.5; Ireland, 135.6.

EXTENT OF SICKNESS AMONG HUMAN BEINGS.

(By the National Industrial Conference Board.)

A BRITISH statistician, Farr, estimates that for every death there are, on the average, two persons constantly sick. On the basis of the annual death rate in the United States in recent years—about 14 per 1,000—such an estimate indicates that about 3 per cent. of our population is constantly disabled by sickness, and that on the average every man, woman, and child loses more than ten days per year through illness. The National Conference on Industrial Diseases, held in Chicago in 1910, estimated that a total of 284,750,000 days were lost through sickness by the 33,500,000 men, women, and children then engaged in gainful occupations in the United States, an average of eight and one-half days per worker. This is in agreement with sickness surveys made by a large New York insurance company among policyholders and others. Seven community surveys have been made by the company in widely separated localities, which included a large variety of community types. A fair percentage of the total population of each place was studied, embracing a large proportion of the wage-earning population, and covering in most instances periods of either one or two weeks. The percentages of those sick and the percentages of those who were so sick as to be unable to work are given in the following summary:

COMMUNITY.	Survey Made.	% Sick.	% Unable to Work.	COMMUNITY.	Survey Made.	% Sick.	% Unable to Work.
Rochester, N. Y.	1915	2.31	1.92	Cities in Penn. and W. Va.:			
Trenton, N. J.	1915	2.55	1.98	(white and colored)	1917	1.96	1.85
State of North Carolina	1916	2.85	2.29	(Colored)	1917	2.31	2.18
Boston, Mass.	1916	1.96	1.80	Pittsburgh (white)	1917	1.62	1.55
Chelsea Neighborh'd, N.Y.C.	1917	1.48	1.38	Kansas City, Mo.	1917	2.52	2.39
Cities in Pennsylvania (white)	1917	1.75	1.65	Average, all surveys	.....	2.02	1.88
Cities in W. Virginia (white)	1917	3.30	3.11				

This shows that on the average 2.02% of the population studied were sick and that 1.88% were unable to work, the proportions varying considerably in different localities. With respect to the duration of illness, the Rochester survey showed that 50% of those who were sick had been incapacitated a year or more; the Boston survey showed 41.2%; and the surveys made in Pennsylvania cities, 24.7%. In Rochester 59.3% of individuals too sick to work were found to have been ill for more than 26 weeks; in Boston, 50.1%; in Pennsylvania (white persons), 28.9%; in North Carolina, 32.9%; in most of the other surveys, over 30%.

GREAT BRITAIN'S TRADE, PRODUCTION, REVENUE, ETC.

AGGREGATE value of declared exports during 1917 from United Kingdom to United States, $262,891,937, against $305,414,269 in 1916. Exports declared at London decreased $33,000,000, Liverpool $6,000,000, Nottingham nearly $5,000,000. Exports from Dundee increased by about $2,000,000.

BRITISH TRADE FIRST HALF OF 1918.

The total values of all imports into the United Kingdom during the first six months of 1918 were $3,173,851,129. British merchandise exported aggregated $1,201,211,086 for the same period, while foreign and colonial merchandise re-exported totaled $81,650,921. In imports of food, drink, and tobacco, meat increased by $192,521,782 in the first six months of 1918, compared with the corresponding period in 1917; non-dutiable food and drink increased by $41,438,505 over the 1917 period; dutiable food and drink increased by $34,743,496 compared with the first half of 1917. Tobacco imports increased by $15,738,731 over 1917, which was approximately the increase over 1916 also. On the other hand, imports of grain and flour in the 1918 period were valued at $35,734,608 less than in 1917. Of raw materials imported, the chief increases occurred in raw cotton, which rose by $157,324,000 over the 1917 period; oil seeds, nuts, oils, gums, and greases showed gains of $69,580,360, and wood and timber $30,552,000. Wool imports declined by nearly $44,000,000 compared with the 1917 period. The principal increases in imports of articles wholly or mainly manufactured occurred in metals and manufactures thereof, which rose by $37,344,553; and chemicals, drugs, dyes, and colors showed gains of $32,606,360. In the exports of British merchandise, food, drink, and tobacco showed an aggregate decrease of $15,937,792. Exports of tobacco alone showed a small increase of about $340. In exports of raw materials there was a total decrease of $25,923,163, due mainly to a decrease in coal, coke, and manufactured fuel. Of exports of wholly or mainly manufactured articles, cotton yarns and fabrics rose by $116,686,168, while iron and steel and manufactures thereof decreased by $27,100,059. Re-exports declined by over $143,000,000, compared with the first six months of 1917, or rather more than 60 per cent.

Imports of raw rubber for the first six months of 1918 were 564,716 centals, valued at $32,683,122. Re-exports of raw rubber fell from 594,889 centals, valued at $44,668,956, for the 1916 period to 239,047 centals, valued at $10,166,221 in 1918; and tin decreased from 8,354 tons ($7,597,506) to 3,827 tons ($5,240,252) in the same half yearly periods, respectively.

LONDON'S EXPORTS TO UNITED STATES, JANUARY-JULY, 1918.

The aggregate of declared exports from London to the United States for the seven months ending July 31, 1918, totalled $39,671,453, compared with $96,768,793 for the same period in 1917. The principal items entering were:

cluding super tax)	997,793,100	1,090,096,000			
Excess-profits duty	630,920,675	973,300,000	Total	2,790,587,350	3,107,746,900

British national revenue in 1913-14 was $991,617,000; in 1914-15 it was $858,793,000; in 1915-16 it was $1,686,694,000.

England's war expenditures in the year that closed in March were $12,400,000,000 and 20.3 per cent. were met from revenues. This percentage was 7.8 in 1914-15, and 18.8 in 1916-17. On April 22 England's budget for 1918-19 was announced. Expenditures were estimated at $14,800,000,000; of this sum the Ministry of Munitions will lay out $4,000,000,000. Taxes are increased in England by $500,000,000, and amount to 28.3 per cent. of expenditures. The increase comes mostly in the income tax. The excess-profits tax, 80 per cent., was left as it is, on the ground that it already tends to curtail business, but it is nevertheless expected to raise $1,500,000,000. England's "normal" income tax remains as it is on smaller incomes, but rises until on incomes exceeding $12,500 it is 30 per cent., instead of 25 per cent. The super-taxes, which begin at $10,000, are increased until on incomes over $50,000 they are 23 per cent. instead of 17 per cent. Consequently, incomes over $50,000 will pay at a rate approximating 53 per cent. In the new budget direct taxes are not so prominent, and indirect taxes are relatively more important. The postage rate is made three cents, checks have a tax of four cents instead of two, higher taxes go on beer, tobacco, matches, and sugar. The tax on luxuries is 16⅔ per cent. on the retail sale price. The British Cabinet estimate of necessary expenditure in the first year of peace puts it at $3,250,000,000: Interest on debt, $1,900,000,000; pensions, $250,000,000; ordinary governmental expenditures, at pre-war rate, $865,000,000; additional expenditures, $235,000,000.

New stock offerings on the London market in 1917 were $6,416,947,425. In the year beginning April 1, 1918, beer was allowed to be brewed to the amount of 10,720,442 barrels, as against 16,133,800 barrels in the year before. The maximum price is 8 cents a pint. This beer is weaker than ever.

			From Japan		13,203,384

What is called "competitive merchandise" forms from 70 to 80 per cent. of Australia's gross imports. This term is applied to those lines that compete in the southern Commonwealth with goods from the United Kingdom. Timber, bags, and sacks, oils, tea, tobacco, sugar, fertilizers, rice, fruit, vegetables, and other articles noncompetitive with British trade are omitted from the calculations. In the fiscal year 1916-17 the United States slightly increased its share of this "competitive" trade, supplying 20.26 per cent. of Australia's purchases of such goods as contrasted with 19.06 per cent. in 1915-16, 15.2 per cent. in 1914-15, 11.8 per cent. in the calendar year 1913, and 11.76 per cent. in 1912. The value of these imports was $58,056,561, against $51,559,560 in 1915-16, $36,158,922 in 1914-15, $34,674,518 in 1913, and $35,037,189 in 1912. The chief articles that make up Australia's "competitive" trade are metals, textiles, apparel, paper (these four classes form nearly 70 per cent. of the United States total in 1916-17); jewelry, timepieces, fancy goods, etc.; spirits, foodstuffs, leather and leather goods, rubber goods, ammunition and explosives, chemicals, paints and varnishes, unmanufactured vegetable substances, surgical and scientific instruments, and nonalcoholic beverages. The total exports from Australia to the United States and possessions increased from $25,291,415 in 1916, to $37,464,606 in 1917, as follows:

DESTINATION OF EXPORTS.	1916.	1917.	DESTINATION OF EXPORTS.	1916.	1917.
United States	$24,504,283	$34,139,529	American Samoa	$678	$189

Metals, manufactures of	2,234,818	Lubricating	1,620,344	All other and total	77,260,602

The total does not include imports from United States possessions, valued as follows: Philippines, $699,369; Hawaii, $3,095; Alaska, $131,560. New South Wales imports from United States in 1917 were valued at $37,852,225, the principal items being timber, tobacco, tools of trade, motor cars, rubber tires, kerosene, lubricating oil, benzine, printing paper, iron and steel products, enameled leather, kinematograph materials, including films. The export of frozen rabbits from Australia has assumed large proportions. In New South Wales alone 1,500,000 crates containing 24 rabbits each were packed for export in 1917, making a total of 36,000,000 rabbits, valued at $7,299,250. The total exported from the Commonwealth was about 70,000,000, valued at $14,599,000.

The total export of wheat from Australia since the organization of the Wheat Board up to December 31, 1917, was 109,177,188 bushels. Other sales made by the Board, such as to local millers, other States in the Commonwealth, and for manufacture into flour for the Far Eastern markets, amounted to 89,969,674 bushels. The estimated crop for 1917-18 is 115,000,000 bushels. There was on hand up to December 31, 1917, old wheat amounting to 118,812,500 bushels.

Tasmanian crops in 1916-17 were, in bushels: Wheat, 348,330; oats, 1,005,293; barley, 88,696; peas, 296,787; hay (tons), 103,141; potatoes (tons), 67,038. Live stock: Horses, 42,620; cattle, 179,360; sheep, 1,702,579; pigs, 53,033.

SIAM'S FOREIGN TRADE.

THE declared value of the imports from foreign countries in 1917 was $33,855,306, against $31,819,376 in 1916, $27,937,063 in 1915, $30,393,316 in 1914 and $33,670,000 in 1913; exports of Siamese products were valued at $47,482,165, against $43,152,234 in 1916, $38,183,919 in 1915, $39,296,073 in 1914 and $43,290,000 in 1913. The imports for 1917 included $30,106,756 articles of foreign manufacture, $752,997 alcoholic liquors, $1,460,626 gold leaf and treasure, and $1,534,927 opium. Of the total value of the exports, rice and rice products accounted for $38,291,748, teak for $2,032,131 and other goods for $7,158,286. The bulk of Siam's rice exports goes to the Straits Settlements, Hongkong and Netherlands India. The total shipments to these countries, including China and Japan, amounted to 19,505,260 piculs (1 picul equals 133⅓ pounds), and of the remainder of the total distribution to foreign countries during last year, 20,632,571 piculs, 1,022,961 piculs were shipped to Europe, including Port Said (for orders) and Alexandria, and 104,350 piculs to other countries. The teak shipments for 1917 amounted to 47,285 tons, as compared with 47,906 tons for 1916, 41,081 tons for 1915 and 52,912 tons for 1914, and the distribution of the consignments for 1917 were: 1,206 tons to Europe, including Port Said (for orders); 28,230 tons to India and Colombo; 13,374 tons to Hongkong, China, and Japan; and 4,475 tons to other countries.

SEA-BORNE TRADE OF BRITISH INDIA.

CALENDAR YEAR.	Imports.	Foreign Exports.	Indian Exports.	CALENDAR YEAR.	Imports.	Foreign Exports.	Indian Exports.
1913.....	$584,465,452	$14,861,999	$782,253,879	1916.....	$475,486,383	$22,667,266	$728,804,590

In 1916 imports totaled $128,180,121; exports, $161,990,879.

A further decrease in quantities of imports occurred in 1918, though rise in prices made the values greater. The chief imports are benzine and kerosene, preserved fish, tea, tobacco, whiskey, leather, and candles.

Live stock in New Zealand, 1917: Pigs, 278,176; horses, 367,167; dairy cows, 760,108; cattle, 1,742,592; sheep, 24,753,324.

Exports of dairy products from New Zealand in the year ended March 31, 1918, were valued at $33,917,086.

Imports by parcel post in 1917 totaled about $3,000,000.

New Zealand Government receipts for the fiscal year ended March 31, 1918, were $97,334,467, a gain of $8,000,000.

UNION OF SOUTH AFRICA.

THE total values of imports into the Union of South Africa were as follows: 1913, $208,272,000; 1914, $177,101,000; 1915, $164,651,000; 1916, $200,427,000; 1917, $186,706,000. Of the total for 1917, $169,115,000 represents the value of imported merchandise; $8,397,000, articles imported for South African Government; and $9,194,000, specie. About 67 per cent. of the imports are from the British Empire, mostly from the United Kingdom. Germany was the next largest supplier, before the war. The total values of exports from the Union were as follows, gold not being included in the figures for 1915, 1916, and 1917: 1913, $324,399,000; 1914, $195,747,000; 1915, $82,046,000; 1916, $116,535,000; 1917, $139,414,000. Of the total for 1917, $125,517,000 represents the value of exported merchandise of domestic origin; $12,686,000, imported goods reexported; $465,000, over-sea exports through general post office; and $746,000, specie, more than 60 per cent. went to the United Kingdom.

In 1917, over 1,351,000 tons of cargo were landed at, and 2,840,149 tons were shipped from, the Union ports. Imports at Durban in 1917 were valued at $58,631,301; exports at $31,674,262. Of the imports, those from the United States were worth $10,412,208, or $1,000,000 increase in 1916. Wool was the chief export.

BURMA'S RUBBER PRODUCTION.

ACCORDING to Rangoon figures, the production of rubber at the plantations has been as follows, in pounds: 1913, 456,017; 1914, 591,974; 1915, 800,594; 1916, 979,613; 1917, 1,347,523. These plantations produce most of the rubber in Burma. Customs statistics give the exports of rubber from Burma during the five fiscal years ending with March 31, 1917, as follows: 1912-13, 526,176 pounds; 1913-14, 765,072; 1914-15, 987,392; 1915-16, 1,285,984, and 1916-17, 2,301,157 pounds.

INCREASED EXPORTS FROM CEYLON TO UNITED STATES.

THE American purchases of Ceylon tea increased from 8,309,369 pounds, valued at $1,596,041, for 1916, to 25,583,891 pounds, valued at $5,051,242, for 1917, and the purchases of rubber increased from 30,473,588 pounds, valued at $18,947,782, to 34,686,143 pounds, valued at $19,106,329. Other exports to United States were: Cardamon, 136,225 pounds; cinnamon, 254,220 pounds; citronella oil, 785,032 pounds; cocoa, 808,099 pounds; cocoanut, desiccated, 12,414,655 pounds; cocoanut oil, 335,801 pounds; crude drugs, 1,519,487 pounds.

FRANCE'S TRADE AND PRODUCTION—1917.

THE total declared exports from France to the United States and possessions during 1917 were valued as follows: To United States, $93,458,224, against $110,240,031 in 1916; Philippines, $944,073, against $573,337; Porto Rico, $141,110, against $146,689; Hawaii, $1,449, against $9,246.

The total value of the declared exports from the Paris consular district to the United States for the first six months of 1918 was $16,492,283, against $28,546,225 for the same period in 1917. The principal decreases were in cigarette papers, cotton, feathers, furs, mushrooms, perfumery, pearls, precious stones, seeds, silk, and wool.

Earnings of the railways in 1917 were $303,920,767, as against $297,071,197 in 1916.

Production of apples and pears was 3,486,560 tons (as against 882,610 tons in 1916), from which 582,994,342 gallons of cider were made. Other crops, in tons, were: Table apples, 214,122; Table pears, 84,030; chestnuts, 133,090; walnuts, 41,793; olives, 170,600; peaches, 29,498; apricots, 7,430; cherries, 30,234; plums, 29,791; prunes, 11,209; oranges, 481; mandarines, 113; lemons, 145; strawberries, 8,903; black currants, 449; currants, 1,506; almonds, 2,675; hazelnuts, 88; figs, 3,339; truffles, 93.

Cotton receipts at Havre totalled 683,173 bales in 1916-1917, as against 756,008 bales in 1915-1916.

Coffee stocks at Havre totalled 1,674,496 bags on December 31, 1917, as against 2,569,245 bags on December 31, 1916.

Total imports at Havre, 1917, amounted to 3,726,504 tons, as against 4,075,640 tons in 1916. The exports were 285,552 tons, as against 440,702 tons in 1916.

NEW FRENCH WAR TAXES.

January 1, 1918, marked the introduction of a series of new and increased taxes in France, expected to yield during the year 1,266,500,000 francs ($244,434,500 at normal exchange), above and beyond the previous tax receipts of the French Republic. It is anticipated that in 1919 these taxes will yield an increase of 1,774,000,000 francs ($342,382,000). The modified system of taxation comprised heavy increases in the tax on inheritances and in the tax on war profits. The tax on war profits amounts to 50 per cent. on profits of less than 100,000 francs ($19,300); 60 per cent. upon that part of the war profits between 100,000 and 250,000 francs (between $19,300 and $48,250); 70 per cent. upon the fraction between 250,000 and 500,000 francs (between $48,250 and $96,500); and 80 per cent. upon the portion exceeding 500,000 francs. An important feature of the new system consists in taxes upon the acquisition of articles of luxury. Such taxes were applied on and after April 1, 1918, and yielded about 1,000,000,000 francs ($193,000,000) in 1918 and will bring in 1,300,000,000 francs ($250,900,000), in 1919. After April 1, 1918, every payment of a sum exceeding 150 francs ($29), representing the retail sale or the consumption of a commodity, was subject to a tax of 20 centimes ($0.0386) per 100 francs or fraction of 100 francs. The same tax was applied to receipts given for amounts exceeding 10 francs ($1.93), and amounting to less than 150 francs. Likewise, beginning April 1, 1918, there was a tax of 10 per cent. upon the price paid for any object or article of merchandise designated by law as an article of luxury, and for expenditures made in establishments (hotels, restaurants, etc.), which a departmental committee named as an establishment de luxe. The law classified some articles as outright luxuries and others as luxuries when they sell for more than a stated price. In the first class is included such a wide range of articles as cameras, gold jewelry, silk stockings, rouge, square pianos, riding horses, and canoes. A lamp shade or a toilet article becomes a luxury when it costs more than $2; a man's hat exceeding $4, a dog or a pair of women's shoes that fetch more than $8, a frock coat that entails expenditure of more than $40, an upright piano costing over $240, and dining-room furniture exceeding $300 fall into the same category.

BREAD RATIONING IN FRANCE.

The following bread rations were established in 1918 throughout France: Children less than 3 years old, 3½ ounces per day; children from 3 to 13 years old, 7 ounces; persons from 13 to 60 years old, 10½ ounces (hard workers in this age class may receive 3½ ounces more); persons over 60 years old, 7 ounces. This ration was about two-thirds of the bread allowance theretofore maintained. All fancy bread was prohibited except the small 75-gramme (about 2½ ounces) loaf and the long 700-gramme (about 24½ ounces) loaf. Making of pastries, biscuits, and confectionery was prohibited. Public eating houses were forbidden to serve or consume fresh or packed butter otherwise than in the preparation of food. Curdled or sour milk was prohibited, also cream in every form, cream cheese and soft cheese and all light cheeses containing more than 36 grammes of fats to each 100 grammes of dry substance. The public eating places were forbidden to serve sugar, but customers could bring their own supply. The food upon which restrictions had been placed could not be eaten in these establishments, even if the patrons had bought elsewhere. In no public eating place, except in dining cars, canteens, and railroad refreshment station rooms, was fresh or condensed milk or cream served after 9 o'clock in the morning, even by itself or mixed with any preparation, such as tea, coffee, or cocoa. No solid foods were served between 9 and 11 in the morning or between 4.30 and 8.30 in the evening. When the price of a meal, whether a la carte or table d'hote, exceeded 6 francs—about $1.20—the restaurateur was forbidden to serve at the same meal or to the same customer more than two dishes with or without vegetables, or more than one small loaf of ordinary bread. The bread was limited to 100 grammes, about 3½ ounces. Aside from these two dishes, a customer could have soup, oysters, or hors d'oeuvre, and a simple dessert, such as fruits, compote, preserves, marmalade, or an ice made without milk, cream, sugar, eggs, or flour. Consumption of cheese was prohibited. These restrictions upon patrons of public eating places applied also to persons living in an apartment or in hotel rooms, and to clubs and other places where the consumption of food and drink was not entirely free. All grain for making bread was reserved for human food.

WAR FLUCTUATIONS OF FRENCH POPULATION.

Marseilles (1913) 550,000, (1918) 947,000; Bordeaux (1913) 261,000, (1918) 325,000; Nantes (1913) 170,000, (1918) 190,000; Bourges (1913) 49,000, (1918) 110,000; Angoulême (1913) 35,000, (1918) 55,000; Orléans (1913) 72,000, (1918) 110,000; Le Mans (1913) 69,000, (1918) 98,000; Tours (1913) 67,000, (1918) 103.000.

Before the war Germany led among the countries with which Italy traded, ranking first as both a buyer and a seller. The United Kingdom was a close second, and the United States came third. Now the United States is first among the countries from which Italy imports, but in 1917 ranked fourth among those to which it sent exports, as the following table shows:

The value of exports of diamonds amounted approximately to $15,000,000 in 1915, $25,000,000 in 1916, and $20,000,000 in 1917. The value of the bulbs exported is not definitely known, but is estimated at $1,000,000 a year.

Exports from Amsterdam to United States in 1917 were valued at $20,383,113, as against $37,070,830 in 1916. The number of vessels leaving that port in 1917 was 758, as against 1,622 in 1916.

On January 1, 1918, Holland's stocks of imported grain consisted of 77,889 metric tons of wheat, 14,754 tons of flour and 4,000 tons of maize, a total for the three of 96,643 tons. (Metric ton = 2,204.6 pounds).

The highest average value of farm land is in South Holland, which has The Hague, Rotterdam, Leyden, and Delft—2,875 florins per hectare ($468 per acre). The next highest is in North Holland, which has Amsterdam and Haarlem—2,690 florins per hectare ($438 per acre).

The catch and selling value of the sea fisheries were as follows: (1915) 148,060 metric tons, valued at 52,267,000 florins ($21,011,334); (1916) 165,513 tons, valued at 79,627,000 florins ($32,010,054); (1917) 33,759 tons, valued at 16,498,000 florins ($6,632,196).

The product of the coast fisheries is as follows: (1916) 69,205 metric tons, valued at 5,276,227 florins ($2,121,043); (1917) 66,201 tons, valued at 5,033,528 florins ($2,023,478).

In 1917 a State law resulting from war conditions reduced the area sown to sugar beets to 116,000 acres. The product of sugar was about 160,000 metric tons—practically the quantity of sugar annually consumed by the Dutch people.

HOLLAND'S COMMERCE WITH UNITED STATES.

The value of the declared exports to the United States from the various consular districts in the Netherlands is:

HOLLAND (NETHERLANDS) FOREIGN TRADE——*Continued.*

COLONIAL HOLLAND TRADE.

Exports from the Netherlands to the Philippines amounted to $135,432 in 1916 and $75,658 in 1917; to Hawaii, $13,883 in 1916 and $9,727 in 1917; and to Porto Rico, $4,551 in 1916 and $5,620 in 1917.

Dutch East Indies exports to United States in 1917 included 23,663,831 liters of cocoanut oil, 12,907,013 lbs. of kapok, 64,186,022 lbs. of copra, 6,706,405 lbs. of coffee, 544,526 lbs. of cocoa, 28,139,753 lbs. of fibre, 9,558,915 lbs. of gum copal, 3,152,399 hats, 8,469,829 lbs. of jelotong, 21,759,294 lbs. of pepper, 3,125,886 lbs. of rice, 68,363,144 lbs. of rubber, 2,289,359 goat skins, 87,609,150 lbs. of tapioca, 25,032,866 lbs. of tea, 28,559,997 lbs. of tin, and 11,658,154 lbs. of tobacco.

Java's tea exports in 1917 totaled 72,942,000 lbs., of which 32,568,000 lbs. came to North America.

EXPORTS FROM AMSTERDAM TO UNITED STATES, FIRST HALF 1918.

The declared value of all articles exported to the United States during the first six months of 1918 was as follows:

Tungsten ore production—(1917) 216,680 pounds.

Exports to United States from Vladivostok—(1917) $3,525,000.

GERMANIC TRADE AND COMMERCE.

No authentic or official figures covering the foreign trade of Germany, Austria or Hungary have been made public since the outbreak of the war.

AUSTRIA-HUNGARY—The chief productions are wine, grains, salt, coal, iron, lead, sulphur and copper. The chief manufactures are wool and cotton goods and glass articles. The imports in 1914 were valued at $695,000,000, and the exports at $501,000,000. Austria was heavily in debt when war began, the balance of trade having been against her for several years. War loans have added to the burden. Austrian national expenditures for the year ending June 30, 1918, was estimated by the Minister of Finance at $4,600,000, as against revenues of $870,000,000. The ordinary revenues of Hungary are about $400,000,000. The Hungarian debt exceeded $1,000,000,000 in 1912.

GERMANY—In the fiscal year ended June 30, 1913, covering the last full year of peace, Germany's merchandise exports to the United States were valued at $188,963,071, and her merchandise imports from the United States at $331,684,212. In the year ended June 30, 1917, the figures were, respectively, $1,524,693 and $2,199,449. In the first named period, Austro-Hungarian exports to the United States were valued at $19,192,414, and her imports from the United States at $23,320,696. In the second period named these figures were, respectively, $225,452 and $0.

Germany's trade with other chief countries was valued as follows: Argentina (1913), $124,705,000; (1914), $68,252,000; (1917), practically nothing. Brazil (1913), $101,572,000; (1916), $86,000. Chile (1913), $60,351,000; (1915), $3,584,000. German exports to Holland and Scandinavia have decreased by 50 per cent., and her imports therefrom have doubled since the war began.

The imports in 1914 were valued at $2,400,000,000, and the exports at $2,000,000,000. Since 1907 (when 32 per cent. of the population were in agriculture, and 37 per cent. in mining and manufacturing), the nation has grown more to industry. According to British authorities Germany normally supports 90 per cent. of her inhabitants by the products of her own soil. In 1912 the mine products were valued at $2,900,000,000, and included 190,000,000 tons of coal, 87,000,000 tons of lignite, and over 28,000,000 tons of iron ore. Other chief earth products are salt, lead, graphite, and petroleum. Chemicals are a large industry, also the making of garments.

In 1913, before the war, Germany had 2,098 sea-going steamers (4,000,000 gross tonnage), and 2,420 sailing vessels (448,000 gross tonnage). German shipyards in 1912 built 659 ships for themselves, and 124 for other countries, totalling more than 400,000 gross tonnage.

The ordinary revenues in the year ending March 31, 1918, were $1,235,000,000, and the expenditures were: Ordinary, $1,235,000,000; other, $7,520,000. The estimates for the year ending March 31, 1919, were: Revenues—Ordinary, $1,830,000,000; from certain loans, $25,000,000. Expenditures—Ordinary, $1,830,000,000; other, $105,000,000. The total funded debt of the German Empire, October 1, 1917, was over $17,000,000,000; and on January 1, 1918, the total loan credits considerably exceeded $19,000,000,000.

Sugar production in 1918 is officially estimated at 33,000,000 quintals.

Potash production in 1918 was limited by the Imperial Government to 9,186,000 metric quintals for home use, and 1,375,000 for export. A metric quintal equals 220.46 pounds. The gradual consolidation of the potash mines, commenced in peace time, became all the more urgent in war time, as the number of mines in operation had increased from 191 on August 1, 1914, to 209 on January 1, 1918. Under this policy 99 mines have been shut down. The number of operatives decreased from 34,316 on July 1, 1914, to 31,740 on January 1, 1918, the latter number including 11,361 prisoners of war and 2,336 women. The general average wage in the fourth quarter of 1917 was 6.20 marks, as against 4.37 marks in 1914, 4.30 marks in 1915, and 4.83 marks in 1916. (The par value of the mark is $0.238.) The exports of potash from Germany in 1913 were 294,000,000 pounds, valued at $5,703,000.

DECREASED EXPORTS FROM DENMARK TO UNITED STATES.

THERE was a large decrease in the value of the exports invoiced at the American Consulate General at Copenhagen, Denmark, for the United States during 1917, compared with 1916, according to figures transmitted by Consul General William H. Gale. The total value of the exports decreased from $2,961,696 to $765,829. The following were the principal articles, with their value:

Chalk, $53,075; diamonds, $63,109; flint pebbles, $115,435; frames, photo, $39,981; fur skins, $1,031; hides, $119,463; machinery, $48,718; paper, $39,100; porcelain and pottery, $32,660; rags, $32,230; rennet, powder, extract, etc., $23,954; seeds, $92,532.

The production of strong beer in 1917 amounted to about 27,367,000 gallons, compared with about 31,383,000 gallons in 1916. During the years 1911-1915 the average annual production was 27,367,000 gallons, or the same as for the year 1917. The consumption of strong beer in Denmark in 1917, i. e., the amount taxed for domestic consumption, was 26,285,000 gallons; the difference between the production and the consumption is due partly to waste in bottling, but mostly to exportation and sale to ships. Of the total consumption of strong beer for the year 1917, only 1,342,000 gallons were keg beer and the remaindor was bottled beer. The production of weak beer amounted in 1917 to 32,836,000 gallons, compared with 36,798,000 gallons in 1916 and an average of 38,833,000 gallons during the years 1911-1915.

Deposits in the Danish savings banks were $298,444,800 on January 1, 1918. The official valuation for taxes of real estate and landed property in the Danish country districts for 1916 was $119,260,000, divided into about 333,000 properties. The land itself constituted 55 per cent. of the total sum; this is an increase of 35.1 per cent. since 1909.

In Denmark, February, 1918, were 510,615 horses, 2,141,684 cattle, 247,213 sheep, and 788,814 swine.

On January 1, 1918, Denmark had 538 steamships (577,882 gross tonnage); 488 motor ships (97,316 gross tonnage); and 711 sailing vessels (103,575 gross tonnage).

The estimated taxes on excess incomes in all Denmark for the year 1917-1918 totals $43,000,000. The taxes on excess personal incomes amounts to $15,000,000 in the city of Copenhagen and $6,500,000 outside; on excess corporation incomes the taxes amount to $17,500,000 in the city of Copenhagen and $3,000,000 outside. Besides this excess-income tax there is a super-excess income tax on the very large incomes, which yielded about $500,000 from personal incomes and an insignificant amount from corporations in the city of Copenhagen, and also about $500,000 from incomes outside of Copenhagen. Taxable property in Copenhagen, 1918, totalled $435,000,000.

DAUGHTERS OF THE CINCINNATI.

President—Miss Ruth Lawrence. *Vice-President*—Miss Eleanor de Graff Cuyler. *Secretary*—Mrs. Russell Evans Tucker, 1125 Madison Avenue, New York City. *Treasurer*—Miss Annie Clarkson. Incorporated in 1894. The objects are "to renew, foster and develop among its members the friendships formed and cemented amid the trying ordeals of the War of the Revolution, in the camp, and on the battle-field by their ancestors; to advance and encourage investigation and study of the history of the Revolution, its causes and results; to cherish the memory and record the deeds of the noble women who encouraged and assisted the patriot cause; to commemorate by celebrations and tablets the achievements of our ancestors in the Revolution, and to gather and carefully preserve documents and relics relating to the Revolutionary period."

The great work of the society is the education of a daughter of a Naval or Army officer, with a view to self-support in Teachers' College.

SPAIN'S FOREIGN COMMERCE, JANUARY-JUNE, 1918.

THE following table shows the value of imports into Spain, by groups of articles, in the first six months of 1916, 1917, and 1918:

ARTICLES.	1916.	1917.	1918.	ARTICLES.	1916.	1917.	1918.
	Pesetas.	*Pesetas.*	*Pesetas.*		*Pesetas.*	*Pesetas.*	*Pesetas.*
Animals, living.	2,000,000	3,100,000	4,000,000	Foodstuffs.....	115,600,000	75,800,000	60,000,000
Raw materials..	220,400,000	217,400,000	134,600,000				
Manufact. goods	119,800,000	120,000,000	79,200,000	Total.....	457,700,000	416,200,000	227,400,000

The exchange value of the silver peseta in the first six months of the three years was approximately as follows: 1916, $0.196; 1917, $0.2268; 1918, $0.2704.

The value of the chief imports, stated in pesetas, was: Raw cotton, 40,758,000; coffee, 13,811; cocoa, 12,142,000; wheat, 10,715,000; fibres, 10,249,000; fish, 10,463,000; hides and skins, 11,717,000; tobacco leaf, 19,747,000.

The following table shows the value of exports from Spain, by groups of articles, in the first six months of 1916, 1917, and 1918:

ARTICLES.	1916.	1917.	1918.	ARTICLES.	1916.	1917.	1918.
	Pesetas.	*Pesetas.*	*Pesetas.*		*Pesetas.*	*Pesetas.*	*Pesetas.*
Animals, living.	9,300,000	2,800,000	300,000	Foodstuffs.....	278,300,000	274,100,000	128,800,000
Raw materials..	130,600,000	114,700,000	87,500,000				
Manufact. goods	265,500,000	279,200,000	187,800,000	Total.....	683,700,000	670,800,000	404,400,000

The value of the chief exports, stated in pesetas, was: Cotton textiles, 34,736,000; lead, 24,936,000; iron ore, 23,643,000; oranges, 12,230,000; cork stoppers, 10,987,000; red wine, 16,194,000; shawls, 9,529,000; copper, 13,910,000.

SPANISH BANKING INSTITUTIONS.

In the year 1772 was founded the Banco de San Carlos, subsequently reorganized in 1829, with a capital of 80,000,000 reales (20,000,000 pesetas, equivalent to $3,860,000 at normal exchange of $0.193, at which rate all conversions herein have been made), under the name of Banco Espanol de San Fernando. By royal decree of January 25, 1844, there was created in Madrid the Banco de Isabel II., which, three years later, was absorbed by the Banco Espanol de San Fernando. By a law of January 28, 1856, the name of Banco de Espana was accorded to this institution, and under this name it began operations with a capital of 200,000,000 pesetas ($38,600,000). In 1874 the exclusive privilege of issuing bank notes was accorded to the Banco de Espana, which at the present time has a paid-in capital of 150,000,000 pesetas ($28,950,000). A law of December 2, 1872, created in Madrid the Banco Hipotecario de Espana, and by a royal decree of August 10, 1875, this bank was accorded exclusive rights to issue mortgage script. The oldest existing private bank in Spain is the Bank of Barcelona (1844), which has a paid-in capital of 10,000,000 pesetas. The largest is the Spanish American Bank (1900), 50,000,000 pesetas capital.

SWEDISH COMMERCE.

THE exports from Stockholm to the United States for the first half of 1918 were valued at $693,890, a total which is much reduced by reason of the American embargo and tonnage difficulties. The most important items were measuring tools, $165,308; cream separators, $157,440; steel products, $138,329; machinery and parts, $84,105; and rough iron bars, $74,254. Official figures have been published for the import and export of the principal commodities in Sweden for the first half of 1918. Some of the important changes from 1917 are given below:

ARTICLES.	JANUARY-JUNE—		ARTICLES.	JANUARY-JUNE—	
	1917.	1918.		1917.	1918.
IMPORT.			Chile saltpeter.....tons	16,565	1,012
Salt herring.....tons	14,265	33,237	Potash salts.....tons	11,688	62,257
Eggs.....dozen	490,000	3,500,000	Coal.....tons	578,140	1,116,309
Corn.....tons	23,799	12,232	Coke.....tons	199,591	339,455
Wheat.....tons	26,893	.....	Briquettes.....tons	122,281	27,145
Illuminating oil.....tons	40,665	2,483	EXPORT.		
Oil cake.....tons	24,798	.....	Iron ores.....tons	2,169,602	1,746,372

The exports of iron ore from Sweden in 1917 showed an increase over the previous year of 135,184 tons, the total aggregating 5,702,808 tons. Various kinds of iron were exported to the amount of 495,701 tons, a decrease of 77,366 tons from the total for 1916. Imports of iron fell by 201,879 tons to 102,006 tons. Of pig iron the 1917 production was 837,184 tons, an increase over 1916 of 88,088 tons. Bessemer ingots were produced to the amount of 78,130 tons, an increase of 1,118 tons, while martin ingots amounted to 497,332 tons, a decrease of 36,568 tons.

The aggregate capital stock of the Swedish banks during 1917 increased by $28,498,000, or 25.5 per cent., and was at the end of the year $139,628,000, the reserve funds at the same time having increased by $24,438,000 to $102,376,000. The savings accounts grew during the year from $669,000,000 to $863,000,000. The aggregate net profits of the banks in 1917 were $23,530,400, as against $24,602,400 in 1916, thus nominally a decrease of $1,072,000, but in reality this means much more, considering that the capital of the banks was somewhat less in 1916 than in 1917.

BULGARIA'S TRADE.

THE chief Bulgarian exports are wheat, cattle, dairy products, silk cocoons, and tobacco. The chief imports are clothing, implements and machinery, petroleum, fish, coal, and rice. The exports in 1913 were valued at $18,600,000, the imports at $35,000,000. The revenues in 1914 were $51,000,000, and the debt, January 1, 1915, approximated $175,000,000.

TURKEY—ITS REVENUES AND COMMERCE.

TURKISH revenues in the year ended March 31 1918, approximated $128,000,000, and the expenditures $265,000,000. The total debt, January 1, 1918, was $1,385,000,000, of which $810,000,000 represented war obligations, practically all of the obligations being loans by the Central Powers. Agriculture is the main industry. The imports in the year ended March 31, 1914, were valued at $183,000,000, and the exports at $96,000,000. The chief exports are dried fruit, opium, barley, tobacco, raisins, and wool.

Japan—Its Commerce and Industries.

(From data furnished by Akira Den, Japanese Financial Commissioner.)

For the years subsequent to 1914 inclusive in the case of Japan Proper and for the years subsequent to 1915 inclusive in the case of Taiwan, Chosen, and Karafuto, the figures of the estimated population are given here respectively. The figures for the population of Chosen, Taiwan, and Karafuto represent the number of persons actually domiciled or resident there. The figures for the population of Chosen in 1909 represent the number of persons actually domiciled or resident there on May 10, 1910. The reliable figures prior to 1908 inclusive are not procurable.

The national debt in 1917 totalled yen 2,467,701,938, of which yen 1,370,207,560 was foreign, and yen 1,097,494,378 was internal.

The yen for all practical calculations equals 50 cents.

The financial years from 1876-77 to 1884-85 consist of 12 months each, from July 1 to June 30; the financial year 1885-86 comprises 9 months, from July 1 to March 31; and those subsequent to 1886-87 inclusive consist of 12 months each, from April 1 to March 31. The figures for the financial years from 1875-76 to 1914-15 represent the settled accounts, those for the financial year 1915-16 the actual account on October 31, 1916, and those for the financial years 1916-17 and 1917-18 the budget estimates. As a sum of yen 1,324,575 is to be left unused of the total expenditure for 1916-17, in consequence of the disbursement of the special war expenditure, the net expenditure amounts to yen 600,938,397.

The chief sources of revenue in 1917-18 are, in yen: Taxes, 320,434,489; land levy, 72,815,747; income tax, 36,880,640; on liquors, 89,874,723; sugar excise, 25,174,187; on business, 22,257,000; from public undertakings, 176,346,659; from textiles, 17,459,341; stamp receipts, 30,790,718; postal, telegraph, and telephone service, 70,228,229; tobacco monopoly, 59,061,606; public loans, 19,430,963.

Chief expenditures 1917-18 were, in yen: Finance, including interest on debt, 139,686,874; army, 80,240,568; navy, 49,810,653; justice, 12,037,811; public instruction, 9,812,159; agriculture and commerce, 7,548,322; communications, including railways and postal, 71,257,657; total ordinary, 437,261,322; chief extraordinary, home affairs, 41,092,130; finance, 114,829,842; army, 19,244,207; navy, 59,760,070; agriculture and commerce, 17,774,514; communications, 22,498,687.

Railways of Japan in 1916 totaled over 7,500 miles; carried 125,795,388 passengers and 24,745,142 tons of freight; had a paid up capital of 130,000,000 yen; and the construction cost had averaged, per mile, 90,931 yen for state lines and 86,978 yen for private lines.

The merchant marine in 1916 totalled 3,759 steam craft, with 1,716,104 tonnage, and 20,301 sailing vessels, with 741,094 tonnage.

Banks in 1916 numbered 2,094, not including 52 special banks, and had 486,689,926 yen paid-up capital, with 23,141,377,450 yen deposits. The Bank of Japan was founded in 1882, and in 1916 had 60,000,000 yen capital. The Yokohama Specie Bank, founded in 1880, had in 1916 a capital of 48,000,000 yen.

Factories in 1915 numbered 16,809, with 910,799 employes.

Japanese fisheries yielded 94,836,004 yen in 1915. Salt production was valued at 11,246,562 yen.

Coinage in 1916 in yens: Gold, 41,949,700; silver, 4,883,044; coins in circulation, yens 181,400,071; bank notes in circulation, yens 601,224,411; deposits in postal savings banks number 12,700,105, yens 226,989,937. Insurance in force in 1916 in yen: Life, 1,072,228,842; conscription, 43,766,307; fire, 1,564,627,681; marine, 153,109,553. Bourse transactions in stocks and bonds in 1915 in yens, 2,388,410,500.

Letters, etc., posted in 1916 numbered 1,910,305,481; parcel post packages, 26,387,563; telephone messages, 1,212,977,361.

JAPANESE EMIGRATION.

Investigations made by the Tokio Foreign Office show that at the end of June, 1917, the total number of Japanese residents abroad was 450,773. These figures indicate an increase of 50,357 as compared with those of the corresponding period of the preceding year. The following table shows the number of residents abroad at the end of June, 1917:

Country.	Men.	Women.	Country.	Men.	Women.
United States	151,606	76,572	Brazil	3,050	2,688
Manchuria and Kwantung	60,492	51,766	Other States of South America	24,235	2,621
China and Tsingtao	25,937	21,189	Europe	978	130
Australia and So. Pacific countries	21,441	8,067			

CHINA'S FOREIGN TRADE—1916-1917.

(By the Chinese Maritime Customs.)

COUNTRIES.	Imports, 1916.	Imports, 1917.	Exports, 1916.	Exp'ts, 1917.
Austria-Hungary	$19,670	$1,056	$73	.....

Iron ore production in Hunan Province, 1915, was 7,295 tons; crude antimony, 7,824 tons.

UNITED STATES-CHINA TRADE, YEAR ENDED JUNE 30, 1918.

(From United States Customs Returns. Values expressed in dollars.)

United States imports from China—Merchandise, $116,644,981; gold, $176; silver, $0.0.
United States exports to China—Merchandise, $43,480,623; gold, $0.0; silver, $16,479,746.
The imports from China included raw silk, $23,663,263; tea, $4,361,557.

The following table shows the import and export trade of China, by ports, in 1917:

PORTS.	Imports.	Exports.	PORTS.	Imports.	Exports.	PORTS.	Imports.	Exports.

Thibet	700,000	1,500,000	Total	4,376,000	331,042,000

* 18 provinces.

Railways—In 1915 there were about 6,500 miles open, inclusive of the Manchurian lines, while 2,500 miles more are projected or under construction.

Telegraphs—The total length of line in operation at the end of 1914 was 36,339 miles, with 49,963 miles of wire.

The latest estimates of the foreign residents in the open ports of China are: Americans in China (1917), 5,600. Other foreign residents in 1916—British, 9,099; Russians, 55,235; French, 2,374; Japanese, 104,275; Germans, 3,792; Portuguese, 2,293; other nationalities, 2,965; total, 185,633.

THE VIRGIN ISLANDS.

THE following table shows the commerce between the United States and the Virgin Islands (Danish West Indies):

YEAR (Fiscal.)	Exports to Virg. Isl.			Impts. from Virg. Isl.			YEAR (Fiscal.)	Exports to Virg. Isl.			Impts. from Virg. Isl.		
	Total.	Domestic	For'n (Re-expts)	Total.	Free.	Dutiable.		Total.	Domestic	For'n (Re-expts)	Total.	Free.	Dutiable.

The principal exports of merchandise from the United States to the Virgin Islands are breadstuffs, cereals, etc.; bituminous coal, iron and steel products, boots and shoes, meat and dairy products, oils, lumber and refined sugar. The principal imports to the United States from the Virgin Islands are sugar and rum, hides and skins and cabinet woods.

MINERALS, FLORA AND FAUNA.

While it is reported that minerals are to be found on the islands, so far as known no attempts at mining or exploration have been made. These resources are yet to be determined by geological examination. Nearly all of the original forests have been cut down and the timber made into lumber or charcoal. Charcoal is even now the universal fuel, and the burning of this from the scanty timber growth furnishes employment to approximately 100 persons in the rural districts of the islands. There are still mahogany trees of indigenous growth, principally on St. John Island, and some attempts at reforestation have met with success, the most notable efforts being those of the Danish West India Plantation Company. This company owns a number of estates, and a few years ago planted over 50,000 mahogany and cedar trees, principally on the Island of St. Croix.

The fauna of the islands is very limited, although on St. Croix a species of deer is plentiful. Noxious reptiles are scarce. Several years ago, for the purpose of exterminating rodents, the mongoose was imported from India, and this little animal, by destroying the eggs of birds and fowls and by the wholesale destruction of poultry, has caused a scarcity of domestic fowls and an absence of bird life in the islands. Fish in great number and variety abound along the coasts, and the annual catch furnishes a very important part of the food supply.

CLIMATE AND RAINFALL.

Although the northernmost of the islands, St. Thomas and St. John, are below latitude 18° 30' and thus well within the tropics, the entire group has the advantage of possessing a fine climate. This is due in part to the northeast trade winds, which blow briskly with great regularity from the north-northeast for nine months during the year. These winds vary in velocity from a light to a moderate breeze and attain their greatest strength usually around 4 o'clock in both the afternoon and morning. Owing to the relatively small size of the islands and the lack of hot land breezes, due to the ever-present northeast trade winds, the temperature is equable. The climate is delightful for a winter resort, and the trade winds also furnish an equable mean for the summer months. The mean temperature at Charlotte Amalie on St. Thomas, covering a period of three years, ranged from 78° F. in March to 84° F. in October, while the mean temperature at Christiansted, St. Croix, covering a period of 28 years, ranged from 76.3° F. in February to 82° F. in August.

The Virgin Islands were discovered by Columbus, 1493, on his second voyage. St. Thomas was first colonized, 1666, by the Danes, who planted a permanent settlement in 1672, and who held on until the United States bought the islands for $25,000,000 and took possession March 31, 1917 (except that the English kept them, by force, April, 1801, to February, 1802, and from 1807 to 1815). St. Croix was occupied by Dutch and English settlers in 1625, Denmark not getting it till 1733. The United States first tried to buy the islands January, 1865, under President Lincoln. As early as 1688 there were slave colonies on St. Thomas.

The population of the Virgin Islands by the first United States Census, November 1, 1917, was 26,051, as against 27,086 on February 1, 1911; 43,178 in 1835, and 38,231 in 1860. Of the 1917 population St. Croix had 14,901, St. Thomas 10,191 and St. John 959. The 1835 census gave St. Croix 26,681, St. Thomas 14,022 and St. John 2,475. The 1917 population of the cities was: (St. Croix), Christiansted, 4,574; Frederiksted, 3,144. (St. Thomas), Charlotte Amalie, 7,747. Of the total population of the Virgin Islands in 1917, 1,922, or 7.4 per cent., were whites; 19,523, or 74.9 per cent., were negroes; 4,563, or 17.5 per cent., were of mixed white and negro blood; and 43, or two-tenths of 1 per cent., were of other races. Of the 43 persons of "other races," 15 were returned as Chinese, 7 as Filipinos, 8 as Indians, 8 as "coolies," 2 as Hindus, 1 as Burmese, and the color of 2 was not specified. At no census of the Virgin Islands prior to that of 1917 was inquiry made as to the color or race. The proportion of whites is largest on St. Thomas, due to marine camps and fishermen. Of the 1917 population of the islands 11,999 were males and 14,052 were females. Common law marriages prevail. There were 7,186 males over 21 years. About half the population of school age (5 to 20 years) attend school. In the Virgin Islands in 1917 there were 14,590 persons 10 years of age and over engaged in gainful occupations. The gainful workers thus formed 56 per cent. of the total population and 68.8 per cent. of the population 10 years of age and over. In the male population the gainful workers numbered 7,936, which was 66.1 per cent. of all males and 82.3 per cent. of the males 10 years of age and over. In the female population the gainful workers numbered 6,654, which was 47.4 per cent. of all females and 57.6 per cent. of the females 10 years of age and over.

The value of farm property for the islands amounted to $3,706,911, including the value of land and buildings, $3,017,341; implements and machinery, $106,649, and the value of live stock, $582,921. The average value of all farm property per farm was $8,621; of land and buildings, $7,017; of implements and machinery, $248; of live stock, $1,356; and the average value of farm land per acre was $34.37. The total area of the islands is approximately 84,781 acres, and the land in farms is about 69,892 acres. Of the acres in farms, 49,206 are reported for the island of St. Croix, the principal agricultural island; 10,003 acres are reported for St. John, and 10,683 acres for St. Thomas. The Island of St. Croix, because of its physical nature, leads in every phase of agriculture. Of the 430 farms on the islands 102 were operated by whites, and 29.5 per cent. of all the farms were run by owners, 13 per cent. by managers and 57.5 per cent. by tenants. There were 219 farms under five acres, and 16 of 1,000 acres and over. The live stock was—12,322 cattle, 2,129 horses, 1,600 mules, 974 asses, 2,329 swine, 1,096 sheep, 2,259 goats, 13,966 poultry and 195 bee colonies. The 1917 crop values were: Sugar cane, $442,120; guinea grass, $63,886; vegetables, $6,537; cotton, $3,850. The fisheries netted $44,436.

UNITED STATES CENSUS OF DYES AND COAL-TAR CHEMICALS, 1917.

(By the United States Tariff Commission.)

DURING 1917, 190 firms (exclusive of coke-oven plants and gas houses) reported the manufacture of coal-tar chemicals. These firms employed 1,733 chemists and other technically trained men and 17,910 others not technically trained, who were engaged in manufacturing operations on coal-tar chemicals. Over $2,500,000 was spent during 1917 on research work alone. The coal-tar products are, from a technical or manufacturing point of view, divided into three groups: I. Crudes, II. Intermediates, III. Finished products. This division is recognized by the tariff law, which places crudes on the free list, makes intermediates dutiable at 15 per cent. plus 2½ cents per pound, and imposes on all finished products a duty of 30 per cent., and upon certain classes an additional duty of 5 cents per pound. The total imports of coal-tar products during the fiscal year ending June 30, 1917, were valued at $12,125,341. The total production in the United States during the calendar year 1917 was as follows: Crudes, $43,184,629; intermediates, $106,966,750; finished products, exclusive of explosives and synthetic phenolic resins, $68,790,857.

The crudes are substances naturally present in coal tar and obtained therefrom by simple processes, chiefly distillation and washing with acid and alkali. The most important of these substances are benzol, toluol, naphthalene, and anthracene. In 1914 the output of crude light oil was 8,464,274 gallons, sufficient for the production of about 4,500,000 gallons of benzol and 1,500,000 gallons of toluol. In 1917, the output of benzol was 40,192,930 gallons and of toluol 10,219,830 gallons. A further substantial increase during 1918 may confidently be expected, as there has been a further increase in productive capacity. The rapid growth has been due to the fact that these materials are used in the manufacture of explosives. The production of naphthalene, an important basic raw material for making dyes, exceeded 52,000,000 pounds during 1917. The development of the production of anthracene has been relatively backward. Only small amounts appeared in the American markets in 1917, but increased production during 1918 may be expected.

The intermediates are substances not contained in coal tar (or at least only in traces), but made from the crudes by chemical processes. They are converted into finished products by further chemical processes. One hundred and eighteen companies reported to the Tariff Commission that they had made these intermediates during 1917. Their returns show 134 different intermediates having a total weight of 322,745,858 pounds, valued at $106,966,750. The most significant features of this development are:

(1) The great increase in the number of companies and the variety of their products. The effect is to put the manufacture of dyes and other finished products on a firm foundation by supplying essential materials from American sources. (2) The creation of a large synthetic-phenol industry, an output of 64,146,499 pounds of phenol, valued at $23,715,805, by 15 different producers. Although the stimulus for this development has been primarily a military one, a use for a part of this productive capacity for peaceful purposes will be found. (3) The production of anilin oil to the amount of 28,806,524 pounds, valued at $6,758,535, by 23 different producers. (4) The production of 24,624,099 pounds of monochlorbenzol, valued at $4,923,848, by 8 different producers. This product is used for making the explosive, picric acid, and the dye, sulphur black, which ranks second only to indigo in importance. A new and large outlet for chlorine is supplied by this industry. (5) The appearance of betanaphthol and H acid and other naphthalene derivatives in considerable amounts and variety. (6) The conspicuous absence of anthraquinone and other anthracene derivatives.

The production of finished coal-tar chemicals during 1917, exclusive of explosives and synthetic phenolic resins, was 54,550,107 pounds, valued at $68,790,855, subdivided as follows: 45,977,246 pounds of dyes, valued at $57,796,228; 5,092,558 pounds of color lakes, valued at $2,764,064; 2,418,274 pounds of medicinal chemicals, valued at $5,639,867; 779,416 lbs. of flavors, valued at $1,862,456; 263,068 lbs. of photographic chemicals, valued at $602,281; and 19,545 pounds of perfume materials, valued at $125,961. There were 31 establishments engaged in the manufacture of coal-tar dyes in 1917, and their production during that year was practically the same in quantity as the annual importation before the war. The imports for the fiscal year 1914 amounted to 45,840,866 pounds, and the production in the United States in 1917 was 45,977,246 pounds. An analysis of this total, however, reveals that the domestic production, though equal in quantity to the preceding imports, differs in the relative amounts of the various classes of dyes. Only a small production was reported for indigo and the alizarin and vat dyes derived from anthracene and carbazol —classes of dyes which include some of the best and fastest colors known to the textile trade.

The United States produced only 2,166,887 pounds of these dyes in 1917; the elimination of 1,876,787 pounds of indigo extract, made from imported indigo, leaves only 290.100 pounds as the real output of these dyes. This is less than 3 per cent. of the pre-war imports. Dyes of this class are dutiable at 30 per cent. in the tariff act. In the classes of dyes which, if imported, would be dutiable at 30 per cent. plus 5 cents a pound, the American manufacturers have made remarkable progress, the production being 43,810,359 pounds, at a total value of $57,639,991. That this represents something of an excess over the American needs is evinced by the fact that during the fiscal year 1917 American-made dyes to the value of $11,709,287 were exported to other countries.

Coal tar is obtained as a by-product in the manufacture of coke in by-product ovens and in the manufacture of coal gas for city distribution. In both of these processes the essential chemical operation is to decompose certain special grades of bituminous coal by heating to a high temperature out of contact with air. The products obtained are coke, tar, ammonia, and gas, which are recovered by all plants. Some plants have equipment for recovering other products, including benzol, toluol, light oils, cyanides, sulphur, and gas carbon. Beehive coke ovens recover the coke only. The by-products obtained in 1917 from the manufacture of coke were valued at $206,789,163, and included $16,576,865 of benzol, $11,973,468 of ammonia sulphate, and $10,140,013 of toluol. In 1917 the illuminating gas by-products were valued at $2,088,915, and included 1,035,813 gallons of refined toluol and 305,928 gallons of refined benzol.

CANADIAN PAPER INDUSTRY.

ACCORDING to the Canadian Bureau of Statistics the output of the paper industry amounted to $96,248,824 for 1917. There are 80 concerns, of which 31 were employed in the manufacture of pulp only, 26 in the manufacture of paper only, and 23 manufacturing both paper and pulp. By Provinces the distribution of plants is as follows: British Columbia, 5; Manitoba, 1; Ontario, 33; Quebec, 31; New Brunswick, 5; Nova Scotia, 5. The total capital invested in the industry amounted to $186,374,905. The number of employees was 20,685 males and 20,344 females. The salary and wages bill was $20,344,286. The report covered altogether 36 products, of which the more important, with the output, are as follows: Pulp —Mechanical or ground pulp, 921,081 tons; sulphate pulp, 161,393 tons; sulphite pulp, 374,894 tons; soda, 4,136 tons; others, 63,467 tons. The production of paper follows:

PAPER.	Tons.	Value.	PAPER.	Tons.	Value.
Newsprint	689,847	$38,868,084	Boards	54,080	$3,543,164
Book and writing	45,234	9,310,138	Other paper products	900	1,382,205
Wrapping	50,360	5,646,750	All other miscell'ous products		3,543,024

LIST OF INDUSTRIAL POISONS.

(Translated by Wm. H. Rand, M. D., and including other substances injurious to health found in industrial processes.)

This list was prepared before the war at the request of the committee of the International Association for Labor Legislation by Prof. Th. Sommerfeld, and Industrial Councillor Dr.R. Fisher of Berlin, and edited and revised by the Permanent Advisory Council of Hygiene of the International Association.

LIST OF INDUSTRIAL POISONS.

Acetaldehyde, Ethyl Aldehyde—A colorless, very volatile fluid, of pungent odor. Used in the manufacture of vinegar; silver mirror manufacture. Enters body in the form of vapor, through the respiratory organs and mucous membranes. Symptoms: irritation of the mucous membranes of the nose, larynx, and bronchi; irritation of the mucous membrane of the eyes; acceleration of the heart's action; profuse night sweats.

Acridine—Crystallizing in colorless needles; contained in anthracene. Used in organic dyes industry. Exerts effect in any state of aggregation on skin and mucous membranes. Symptoms: Irritation and inflammation of skin and mucous membranes; severe burning and itching of the skin; violent sneezing.

Acrolein—A colorless, very pungent smelling fluid, of fiery taste. Used in the trying out of fat and fat-containing material, *e. g.*, in bone rendering plants; oilcloth and linoleum factories; varnish-boiling shops; tallow-rendering establishments; soap factories (sulphuric acid process), and stearic-acid factories. Enters body in vaporous form, through the organs of respiration and the mucous membranes. Symptoms: Itching in the throat; irritation of the eyes, exciting lachrymation, conjunctivitis; irritation of the air passages, bronchial catarrh.

Ammonia—A colorless gas of sharply penetrating odor. Used in coke ovens; mirror-silvering industry; coating iron plate with tin or zinc; manufacture of solidified ammonia, sulphate and chloride of ammonium (sal ammoniac) from ammonia water; manufacture of the carbonate of soda and of orselle dyestuffs; dyeing industry; sewer cleaning; manufacture of bone black; gas plants; varnish and lacquer manufacture; tanning; beet-sugar manufacture; manufacture of ice; refrigeration plants. Enters body in gaseous form, through the organs of respiration. Seldom pure, mostly in combination with other gases. Has immediate effect on the conjunctiva and the cornea. Symptoms: A proportion of more than 0.15 per cent. of ammonia in the air immediately causes an irritable condition of the mucous membranes. Chronic bronchial catarrhs are especially liable to follow long-continued inhalation of small quantities of the gas diffused in the air. From these are to be discriminated the acute conditions of transient illness: Intense irritation of the respiratory organs; violent sneezing; lachrymation, redness of the eyes, inflammation of the cornea and of the conjunctiva; increased secretion of saliva; burning in the pharynx, and a sense of constriction in the larynx; paroxysmal cough, with secretion of tenacious, viscid, even bloody, mucous; embarrassment of respiration, attacks of suffocation; vomiting of serous masses; ammoniacal odor of the perspiration; retention of urine, which may last many hours and even two or three days; acute inflammation of the respiratory organs, and scattered areas of inflammation in the lungs, in severe cases a fatal outcome. Protracted breathing of small quantities is apt to cause chronic bronchial catarrh.

Special measures of relief—Immediate removal from the poisonous atmosphere; artificial respiration: inhalation of steam; faradic stimulation of the phrenic nerve; free bloodletting; in case of obstinate spasm of the glottis, tracheotomy.

Amyl Acetate—Zapone, a solution of celluloid in amyl acetate and acetone. Used as a lacquering agent in metallic ware and jewelry factories; manufacture of metallic wire for incandescent electric lamps: oilcloth manufacture. Enters body in the form of vapor, through the respiratory organs. Symptoms: Nervous symptoms; headache; fulness of the head; giddiness; nausea; numbness; disturbances of digestion; palpitations of the heart.

Amyl Alcohol—A colorless, oily fluid, of very sharp taste and penetrating, disagreeable odor. Used in manufacture of fruit essences, nitrite of amyl, valeric acid, and aniline dyes; rectification of spirits. Enters body in the form of vapor, through the organs of respiration. Symptoms: Congestion of the head; headache; oppression of the chest; irritation of the air passages.

Aniline—A colorless oil which acquires a tint on exposure to air and light. Like aniline, all other amide compounds of benzol and its homologues, as toluol, naphthaline, xylol, etc., are poisons. Especially should be mentioned alpha and beta naphthylamine, benzidine, toluidine, paranitraniline, the diamines (phenylene and tolylene diamine) as well as the alphyl and aryl compounds of aniline, like their homologues (dimethyl and diethyl aniline, diphenylamine, etc.). Used in manufacture of aniline and its derivatives, as well as of aniline dyes; manufacture of photographic materials and the like. Enters body in absorption through the skin, by direct contact or by saturation of the clothing; through the digestive organs, absorption through the respiratory organs as volatile particles and impalpable dust. Symptoms: The toxicity of the separate products is very different in degree; the para compounds are usually more poisonous than the ortho and meta compounds. Acute Poisoning—(*a*) Mild cases: Pallor of the skin and mucous membranes, with slight cyanosis; a feeling of weariness and weakness; head symptoms—vertigo, reeling unsteady gait; deficient elasticity of movement; slow, labored speech; irritability (aniline "pip"); condition of slight inebriation, with loquacity, gaiety, and defective power of orientation; loss of appetite, constipation, and tense, rapid pulse. (*b*) Severe cases: Dark blue to swarthy cyanosis; formation of methaemoglobin; bounding pulse; "air-hunger," with great frequency of respiration, lowering of sensibility; obliteration of the reflexes; sometimes vomiting, strangury and bloody urine. (*c*) In the most serious cases: Sudden prostration; cold, pale skin, blue lips, nose and ears; diminution and even extinction of sensibility; moist, cold skin; small pulse; death in a comatose condition, sometimes after antecedent convulsions. Subacute and Chronic Poisoning—Anaemia; slowing of the pulse; disorders of digestion, such as eructations, loathing of food, vomiting, diarrhœa, and eczematous and pustular eruptions on various parts of the body, especially on the scrotum; nervous symptoms, as general debility, headache, ringing in the ears, vertigo, unrestful sleep, disturbances of sensibility, often also of motility; spasmodic muscular pain. Subacute and chronic poisonings are very rare. Anaemia and retarded pulse are early symptoms. The blood is of a brownish hue, but microscopically unchanged; occasionally the urine contains blood.

Measures of relief—At the first symptoms of poisoning, immediate removal from the workroom to a cool shady spot; change of clothing; cool affusions; administration of oxygen in connection with artificial respiration; in severe cases, bloodletting with subsequent infusion of physiological salt solution; copious ingestion of milk; in case of weak action of the heart, stimulants (black coffee, camphor, ether, but no alcohol); caution against the use of alcohol during and immediately after labor; abstinence is advisable.

Aniline Dyestuffs—The majority of the very numerous aniline dyes are non-poisonous. Generally the basic dyes are more dangerous than the acid dyes. Regarded as suspicious or injurious to health are:

(*a*) The various phenol nitrates, dinitrophenol, dinitrocresol (saffron yellow, aniline orange), picric acid (trinitrophenol). Used in aniline dye factories; dyehouses; also manufacture of explosives. Enters body through action on the skin; in the form of dust, through the respiratory organs; the digestive organs. Symptoms: Itching, dermatitis, efflorescent eruption, yellow discoloration of the cuticle and conjunctiva; sneezing and nasal catarrh; inflammation of the buccal mucous membrane; bitter taste; disturbances of digestion; irritation of the central nervous system and of the kidneys. Picric acid is a feeble former of methaemoglobin; industrial poisonings by it are extremely rare.

(*b*) The many naphthol nitrates, dinitronaphthol, Manchester yellow, dinitro and naphthol calcium, tetranitronaphthol. Used in aniline dye manufactories; dyehouses. Enters body through action on the,

skin; in the form of dust, through the respiratory organs; the digestive organs. Symptoms: Blood poisons, forming methaemoglobin. The morbid symptoms resemble those in poisoning by amido compounds; ailments of the central nervous system in great variety; paralyses.

(c) The nitroso dyes. Used in aniline dye manufactories; dyehouses. Enters body in the form of dust on the skin. Symptoms: Intense irritation of the skin, caused, it is asserted, partly by using excessive quantities of chloride of lime in cleansing the skin.

(*d*) The aurantia—hexanitrodiphenylamine; imperial yellow, its sodium salt. Used in aniline dye manufactories; dyehouses. Enters body in the form of dust on the skin. Symptoms: Intense irritation of the skin, caused, it is asserted, partly by using excessive quantities of chloride of lime in cleansing the skin.

(*e*) Etyhl and methyl violet. Used in dye manufactories; dyehouses; manufacture of colored pencils. Enters body as dust or fine particles in the eyes. Symptoms: Inflammation of the conjunctiva or the cornea.

(*f*) The Meidola dyes, corvulin, indulin, fast black. Used in aniline dye manufactories; dyehouses. Enters body as dust or atomized solution (in dyeing by the spraying process); action on the skin and respiratory organs. Symptoms: Eruptions; severe irritation of the mucous membranes; uncontrollable sternutation.

(*g*) Chrysoidin, fast black. Used in aniline dye manufactories; dyehouses. Enters body in form of dust; effect on the skin. Symptoms: Eruptions (probably superinduced by the use of excessive quantities of the chloride of lime in washing the hands).

(*h*) Bismarck blue. Used in aniline dye manufactories; dyehouses.

Antimony Compounds—Trioxide of antimony; antimony trichloride (antimonious chloride, butter of antimony, antimonial ore butter); tartar emetic (tartrate of antimony and potassium); golden sulphide (antimony pentasulphide), antimony colors. Used in extraction of antimony and its compounds; burnishing of rifle barrels and steel ware; manufacture of antimony alloys, type and stereotype metal, hard lead (ammunition factories), britannia, and white metal; remelting of old and scrap metal; manufacture of aniline dyes, fireworks; vulcanizing and red-dyeing of india rubber (antimony pentasulphide); mordants and fixing materials in cotton dyeing and textile printing. Enters body in the form of vapor (trioxide of antimony, antimonious acid, sulphide of antimony), through the organs of respiration; irritation of the skin; in the form of dust, in the manipulation of britannia and type metal. Symptoms: Intensely itching eruptions of the skin, caused by local irritation and aggravated in the case of a perspiring skin; inflammation of the mouth, throat, and stomach; constipation and intestinal colic; in acute cases, diarrhœa, albumin in the urine, loss of strength, weakness of the heart, vertigo, and faintness. It appears to be somewhat doubtful, however, whether all of the enumerated compounds of antimony are detrimental to the health of the workers in them.

Arsenic Compounds—Arsenic trioxide (arsenic, white arsenic, smelting dust); arsenous chloride; arsenic colors, *e. g.*, Scheele's green (Swedish green), arsenite of copper; Schweinfurt green (patent, original, new, moss, mountain, parrot, May, Kaiser, Cassel, Paris, Vienna, Kirchberg, Leipsic, Wuerzburg, Swiss green), compound of the arsenite and the sulphide of copper; Brunswick green, oxychloride of copper with copper oxide and sulphate of lime; Neuwied green (similar, only a larger proportion of arsenic trioxide); cochineal (Vienna red), arsenic acid with extract of Pernambuco wood. Used in arsenic mining; roasting of arsenic-bearing ores; manufacture of glass, colored chalk, chloride of arsenic for etching on brass; shot manufacture; metal working; manufacture of arsenic colors; preparation of organic dyestuffs, colored lights, textile printing and dyeing; manufacture of wall paper and colored paper; tanning; manufacture of oilcloth and artificial flowers; taxidermy, painting (outside and decorative); pyrotechnics (Indian white-fire). It is to be observed that zinc, silver, lead, bismuth, copper, and the commercial acids often contain more or less arsenic. Enters body in the forms of gas and dust, through the respiratory organs and mucous membranes, the stomach, and intestinal canal. Symptoms—The first usually appear half an hour or an hour, viz., constriction of the *esophagus*, pains in the stomach and bowels, vomiting, diarrhœa, debility, cold, bluish skin, sural cramp, lowering of heart's energy, vertigo, headache, faintness, illusions, loss of consciousness, convulsions; death, sometimes choleraic symptoms. In mild cases, burning in the pharynx, vomiting, salivation, difficult deglutition and indigestion. Chronic Poisoning—Constant and persistent headache combined with melancholia, disinclination to labor, and sleeplessness, which are sometimes the only symptoms; further, gastric disturbances, such as vomiting and diarrhœa, which result in emaciation and decline of strength; persistent symptoms of catarrh of the mucous membranes, such as coryza, pharyngitis and bronchitis; frequently skin diseases in varying form; erythematous, papular, and pustular cutaneous eruptions, which also produce abscesses with infiltrated and indurated borders; falling out of the hair and nails; melanosis—that is, the deposition of a brownish pigment, not containing arsenic, on the neck, trunk, and extremities. In severe cases, disturbances of the central nervous system; intense, lightninglike, lancinating pains; formication; furriness of the skin; impairment of the sensibility; chilliness; weakness of the muscles, also unilateral or bilateral paralysis, and often loss of the tendon reflexes; sometimes fever; albuminuria. The paralyses are transient, or they may last for years, leaving not infrequently permanent disturbances.

Special measures of relief—If arsenic has been ingested, thorough gastric lavage is necessary; then administer at once by the mouth five tablespoonfuls of a solution of calcined magnesia (70 g. to 500 g. of distilled water); afterward give a tablespoonful every five minutes until a movement of the bowels occurs; the internal use of lime water also is recommended for rinsing out the stomach and as an antidote; to counteract the exhaustion, cold affusions, rubbing, hyperdermic injections of ether and camphor.

In case of chronic arsenical poisoning—Electric vapor baths and electrical treatment are in order; the disturbances of the stomach are to be treated with calcined magnesia and unirritating liquid nourishment (milk, milk porridge, rice porridge, salep); the cachexia, by fresh air and nutritious diet; in paralyses, use iodine preparations and electricity.

Arseniureted Hydrogen—A colorless, extremely offensive gas with the odor of garlic. This gas is formed everywhere when, in the use of arsenical acids and metals, hydrogen is generated for technical purposes (*e. g.*, the filling of children's toy balloons); in soldering and etching with arsenic-containing metals or acids, *e. g.*, enamelware factories, tin, zinc, and lead plating works; impure iron silicate, by the absorption of water, develops arseniureted hydrogen. Enters body in the form of a gas, through the organs of respiration (generally mixed with hydrogen). Symptoms—At first no disturbances, or only slight indisposition; after some hours, chilliness, vomiting (food, bile, then blood), pain in the back, giddiness, ringing in the ears, faintness, small pulse, bluish discoloration of the mucous membranes; labored respiration; urine at times dark or even black, containing blood or haemoglobin. After 24 hours, yellow hue of the skin and mucous membranes, from absorption of biliary fluids, fetor of the mouth (resembling garlic), swelling and sensitiveness of the liver and spleen, headache, delirium, mortal anguish; death or slow convalescence.

Special measures of relief—Fresh air and oxygen; later bloodletting; use of an alkaline solution of common salt; mild alkaline drink; analeptics (coffee, camphor).

Benzine—A mixture of low-ebullition portions of petroleum, known commercially under various names, *e. g.*, petroleum, benzine, ligroine, gasoline. Used in benzine distillation; chemical cleansing plants, glove cleaning; removal of fat from bones, fat solvent; lacquer varnish, and india rubber industries; manufacture of waterproof materials (application of the rubber mass dissolved in benzine); ornamental feather factories; used as a source of power. Enters body in form of vapor, through the respiratory organs; to a less extent, probably through the skin also. Symptoms—Headache, vertigo, nausea, vomiting, cough, irregular respiration, weakness of the heart, drowsiness, and deep sleep with cyanosis of the countenance, coldness of the

skin and complete insensibility; on awaking, headache, vertigo and depression, fibrillar twitching of the muscles, trembling, especially of the musculature, as if from chilliness. Benzoic acid is found in the urine. Chronic Poisoning—Headache, flashes before the eyes, ringing in the ears, psychosis with excitement and a state resembling inebriation, sensory disturbances and hallucinations (but the prodromata of chronic benzine poisoning will also appear). The occurrence of chronic poisoning by benzine has been contested. The symptoms vary greatly because the benzine used technically is a complex mixture and not always of the same composition.

Special measures of relief—Removal of the patient into fresh air; in severe cases, stimulants, like coffee, camphor; then cold affusions.

Benzol—A very unstable, colorless fluid, burning with a bright, very sooty flame; extremely volatile; its homologues, *e. g.*, toluol xylol, and cumol. Used in manufacture of benzol, its homologues and numerous derivates; technical use of these products in the manufacture of colors, in carburizing illuminating and water gas, in refining and dissolving of caoutchouc, resins, fats, alkaloids, iodine, phosphorus, and sulphur; in the removal of grease from materials; dye works, laundries; lacquer and varnish factories; the rubber industry. Enters body in the form of vapor, through the respiratory organs; re-absorption through the skin. Symptoms—Benzol, its homologues and the rest of the hydrocarbons of coal tar, have a specific affinity for the central nervous system and a general action on the protoplasm of the organic cells (fatty degeneration). Female workers, particularly in their developmental years, are more susceptible than men to the poisoning, and in an extraordinary degree to the subacute and chronic forms of it. Acute Poisoning—(*a*) In mild cases: Cerebral disturbances, humming in the ears, giddiness, somnolence, a condition resembling inebriation, vomiting and irritant cough, slight flushing of the face. There is often euphoria. (*b*) In severe cases: Symptoms on the part of the central nervous system, muscular tremor, like chilliness from exposure to cold; trembling of the whole extremities; finally, tonic and clonic spasms; euphoria; pale, livid skin; lips remarkably scarlet hued; blood bright red, thin. Discolorations of the skin, like those in aniline and nitrobenzol poisoning, are wanting in benzol poisoning. (*c*) In the most violent cases: Hallucinations, delirium, protracted unconsciousness, and death in tonic convulsions. Subacute and Chronic Poisoning—Numerous spots of extravasated blood in the skin (petechiae) similar to those of morbus maculosus, together with severe anaemia; hemorrhage from the mucous membranes—in women; fatty degeneration of the internal organs (heart, liver, kidneys).

Special measures of relief—Prompt removal of the patient into the fresh air; inhalation of oxygen; exclusion of female workers from every employment in which benzol is used.

Carbon Dioxide—A specifically dense, odorless, colorless gas, collecting near the ground or floor. Generated in mines by the process of breathing, by the burning of miners' lamps, and by blasting; in lime and brickkilns and dolomite calcining kilns; in decomposition and putrefaction gases; in tanneries (tan pits); in sugar mills (saturation vesseis); manufacture of carbonic acid and of mineral waters; spirit distilleries, compressed yeast factories, breweries, fermenting rooms and wine cellars; in sewer and well gases; in firing and heating establishments; in the lighting of workrooms; by the exhaled air in closed workrooms and caissons. Enters body in the form of gas, by inhalation. Symptoms—Large quantities occasion sudden death by suffocation. With the inhalation of smaller quantities the symptoms of illness begin with pressure in the head, vertigo, ringing in the ears and sparks before the eyes, disturbances of respiration, such as hurried breathing and pain in the chest, sometimes psychic excitement and convulsions. Usually in case of more protracted effect there is loss of consciousness and of the power of motion (or even death by suffocation), with gradual decline of the pulse and respiration, and often with the occurrence of delirium. On prompt removal from the poisonous atmosphere there is a restoration of consciousness with subsidence of the symptoms of illness and recovery in a few days. The occurrence of chronic poisoning by carbon dioxide is doubtful.

Special measures of relief—Examination of the air of the suspected places before entering them; immediate removal from the poisonous atmosphere; artificial respiration to be persevered in for a long time; finally, inflation of the lungs with oxygen; cold affusions; stimulation of the skin; restoratives.

Carbon Disulphide (carbon sulphurate)—In a pure state it is a limpid, highly refractive, extraordinarily volatile fluid, having an odor like that of chloroform; imperfectly refined, its hue is pale yellow and its odor offensive. Used in manufacture of CS2, an agent for extraction of sulphur from the mass in the process of gas purification; disinfection; a solvent for caoutchouc, gums, fats, oils, etc.; in vulcanizing caoutchouc and rubber (patent-rubber factories); for the extraction of lanolin, the refining of tallow, stearin, paraffin, and wax; production of carbon chloride; assembling and setting up carriage-wheel rims and rubber tires; imitation-silk factories. Enters body in the form of vapor, through respiration; in fluid form, through the skin, e. g., at the dipping of the hands in the fluid. Symptoms—It causes heavy damage to the red blood corpuscles and to the central nervous system. Acute Poisoning—In mild cases, marked stupefaction and a sense of intoxication; in more intense poisoning, pallor of the countenance, flaccidity of the arms and legs, even complete insensibility, obliteration of all reflexes, loss of consciousness, due to paralysis of the central nervous system. With the inhalation of concentrated vapor there is a fatal result in a few minutes. Chronic Poisoning—The earliest symptoms (first becoming manifest, sometimes after employment for a few weeks, but, for the most part, after months or even years) are headache, extending from the root of the nose to the temples, a sensation of giddiness and stupefaction, particularly at evening after the close of labor; later, pain in the extremities, muscular weakness with trembling, spasms or fibrillar twitching, also contractures, transient and permanent paralyses, with atrophy of the muscles; deafness; itching and formication on the skin, reduction of the reflexes, circumscribed and more extensive areas of anaesthesia and analgesia; acceleration of the heart's action, nausea, vomiting, colic, alternate diarrhoea and constipation, the latter condition prevailing in the later stages of the disease; emaciation, disturbance of the sense of vision, sometimes transient, but rare in the initial stage; retrobulbar neuritis, choroiditis, central scotoma, disturbances of the senses of smell and taste. In respect to the central nervous system there is at first a condition of excitement, followed by depression; subsequently very irritable, violent, and explosive temper. After several weeks or months, relaxation, melancholy, a dreamy manner, weakness of memory, puerile enunciation, obtuseness. According to Charcot, psychic disturbances occur in 87.5 per cent. of cases. Mental diseases under the semblance of acute mania and dementia occur with good prospect of recovery; the severer forms appear in cases where there is hereditary predisposition. There have been observed also local evidences of the paralyzing effect of the carbon disulphide upon the parts brought into contact with it, especially in the fingers. The prognosis, so far as the preservation of life is concerned, is favorable; as to the full restoration of health, it is unfavorable.

Special measures of relief—In acute poisoning, removal into the fresh air, warm baths, cold affusions; when there are symptoms of paralysis, electrical treatment; in disturbance of vision, potassium iodide and vapor baths; interdiction of the practice of dipping the unprotected hands into carbon disulphide.

Carbon Monoxide—A colorless, tasteless gas, and, when in a state of diffusion, odorless, burning with a blue flame in the air; coal vapor has from 0.5 to 5 per cent. of CO; illuminating gas, 6 to 10 per cent. of CO and 33 to 40 per cent. of mine gas; water gas, a mixture of 41 per cent. CO, 50 per cent. hydrogen, 4 per cent. CO, and 5 per cent. N; producer gas contains 34 per cent. CO, and 60 per cent. hydrogen gas. In industrial plants with defectively planned or ill-tended firing and heating arrangements; plants for the production of industrial gas; mining (mine gases); coal mines; blast furnaces (furnace gas); Cowper apparatus; gas purification; coke ovens, smelting furnaces; gas machines; lime and brick kilns, dolomite calcining kilns; iron and metal foundries (drying of the molds); soldering in tin shops; charcoal burning; resin distillation; ironing; heating with open coal brasiers or coke stoves (drying the plaster and walls of new buildings); drying chambers. Enters body in the form of gas, through the respiratory organs. Symptoms of Acute Poisoning—Increased blood pressure at first, with slowing of the pulse and pounding heartbeat; later, lowering of

the pressure, with rapid but small pulse, and, not infrequently, with discrete spots of dilation in the superficial blood vessels. Remarkably pale-red discoloration of the blood and of the dilated spots; formation of carbonmonoxide haemoglobin is demonstrable by the spectrum (*a*) Disturbances of the general health: In mild cases, dull headache, flashes before the eyes, giddiness, ringing in the ears, nausea and fullness in the gastric region. (*b*) In severe cases: Bluish discoloration of the skin; spasmodic, wheezing respiration; sometimes tonic and clonic convulsions, more often paralytic symptoms, either with weakness of all the extremities or of the lower only, or, indeed, of only single groups of muscles, including also the facial muscles. The convulsive stage, which may be altogether absent, is succeeded by the stage of asphyxia, with sensory and motor disturbances, involuntary voiding of urine, subnormal temperature; weak, slow and intermittent pulse; loss of consciousness. As sequels there have been observed pneumonia, inflammations of the skin, paralyses and psychoses, the last two often pursuing an unfavorable course. Chronic Poisoning (among ironers, firemen, cooks, etc)—Frequent headaches, dizziness, nausea, vomiting, coated tongue, weakness of memory; anaemia without chlorosis; "hot flushes," formication, palpitation of the heart, insomnia, general debility and feebleness of the psychic functions.

Special measures of relief—Removal from the poisonous atmosphere; admission of fresh air; artificial respiration, with inflation of the lungs by oxygen for hours, if necessary; keep head of the injured person slightly elevated; subcutaneous injection of ether; camphor; cold affusions; rubbing; mustard poultice; electrical treatment; insufflation of ammonia vapor; administration of black coffee; alkaline salt infusion; entering where CO may be generated only when protected by safety masks and by a constant supply of air.

Chloride of Lime—A white granular, somewhat desiccative powder, having the odor of hypochlorous acid, and containing 35 to 40 per cent. of chlorine. Used in the manufacture of the chloride of lime; use of the chloride of lime as an oxidizing and chlorinating agent in the chemical industry (for example, dyestuffs); disinfection; manufacture of chloroform, chlorine, oxygen; bleaching of linen, cotton, paper; cotton print works. Enters body in the form of vapor or dust, through the respiratory organs (inhalation of chlorine gas); direct action on the skin Symptoms: More or less severe, irritating cough, symptoms of inflammation in the upper air passages; difficulty of breathing, bronchitis, asthma, sometimes haemoptysis, irritation of the conjunctiva, lachrymation; skin hot from action of chlorine; hyperhidrosis; intensely itching and burning eruption on the skin, eczema, burns from the dust of lime and its chloride.

Special measures of relief—Admission to the employment of such, and only such, workmen as are sound and strong, and free from any predisposition to catarrhal affections; technical arrangements which permit the charging and emptying of the chambers from the outside.

Chlorine—A yellowish green, suffocating gas, of penetrating odor, which forms a solution of a greenish yellow color when dissolved in water. Used in the manufacture of chlorine, chloride of lime, and of organic chlorine products; bleacheries; paper mills; laundries; ironing; tinning works; manufacture and use of disinfecting agents containing chlorine Enters body in the form of gas, through the respiratory organs. Symptoms: The smallest quantities excite severe suffocative sensations and necessitate leaving the room, so that acute chlorine poisoning seldom occurs Symptoms of Cutaneous Disease—Burning, stinging, formation of nodules, blebs, and even open wounds of the skin. Effect on the Mucous Membranes —Lachrymation, coryza, cough, oppression of the chest and intense dyspnoea; bronchial catarrh with hemorrhage; sometimes, lobular pneumonia The concentrated vapor causes uncontrollable cough, spasm of the glottis, dyspnoea, cold sweats, cyanosis and small pulse; death occurs within a few minutes (sudden collapse). In the Chronic Effect—Distress in the gastric region; chronic catarrh of the stomach; pyrosis; pallid countenance; catarrh of the respiratory tract; lobular pneumonia; headache, vertigo, insomnia; gradual emaciation and premature senescence Chlorine Acne occasioned in the electrolytic production of chlorine by chlorinated carbureted hydrogen)—Inflammatory processes in the dermal glands; the occurrence of unusually diffuse, confluent comedones with indurated, dark-green heads; solid infiltration of the sebaceous follicles, their inflammation and suppuration causing pustules and boils.

Special measures of relief—Removal of the patient into the fresh air; inhalation of amyl nitrite; artificial respiration; on account of the paralyzing effect of the chlorine on the heart, stimulants are required (black coffee, subcutaneous injection of camphorated oil); to control the irritating cough, hypodermics of morphine or cautious inhalation of steam.

For the prevention of chlorine acne—Substitution of anodes made of molten metallic oxides for the carbon anodes.

Chlorodinitrobenzol—Forming yellow crystals. (See Nitrobenzol.)

Chloronitrobenzol—Forming yellowish crystals of aromatic odor. (See Nitrobenzol.)

Chromium Compounds—Chromic acid, anhydrous, chromates and bichromates, e g, sodium chromate, sodium bichromate, lead chromate; chromium colors: Chrome yellow (acid chromate of lead); chrome orange (basic and neutral chromate of lead); chrome red (chrome-cinnabar); acid chromate of lead oxide and lead hydrate; chrome green, poisonous only as a mixture of chrome yellow and paris blue. (See also under Lead.) Used in manufacture of chromium preparations, chrome colors, and hectograph composition; photography (color and carbon printing); oxydizing agent in the tar-color industry; manufacture of matches; wet batteries; bleaching fats, oils, and wax; mordant in Turkish red dyeing, textile printing (for neutralizing colors and for dyeing); chrome tanning (two-vat process); staining of wood. Enters body by absorption by the skin and mucous membranes; in the form of dust, through the respiratory organs. Symptoms: The chromates act very much like chromic acid itself; pitlike, phagedenic ulcers, burrowing deep and spreading wide, very difficult to heal and very painful, occur almost exclusively on the skin of the hands, more rarely on the arms, thighs; they also appear, though seldom, on the mucous membrane of the tonsils and of the hard and the soft palate With rare exceptions is there extension of the inflammation to, and perforation of, the nasal septum at the cartilaginous portion; eczematous eruptions Irritation of the conjunctiva. Irritation of the Bronchioles—Chronic bronchial catarrh, and small areas of inflammation in the lungs. In recent years the last-mentioned symptoms are hardly ever encountered in a remarkably wide field of observation. It is at least extremely doubtful if disease of the kidneys is ever caused by chromium. In handling chromium dyes containing lead there is danger of chronic lead poisoning.

Special measures of relief—Chromium ulcers are successfully overcome by careful treatment of the slightest injuries to the skin, and by the immediate, complete and skilful closure of the lesions.

Cyanogen Compounds—Dicyanogen; Prussic acid; hydrocyanic acid, a colorless, highly volatile fluid, of penetrating, pungent, and irritating odor. Natrium cyanide, cyanide of potassium, potassium cyanide; a colorless salt, forming crystals which, after fusion, recrystallize, but readily decomposes on exposure to the air, setting free hydrocyanic acid. Rhodanic (sulphocyanic), compounds; poisonous dose of the dilute hydrocyanic acid, 0.06 g. Used in the extraction of gold; silver and gold plating, galvanoplasty, electroplating; manufacture of cyanogen compounds and inorganic processes (when organic residua are heated with alkalies); reduction of residuum to gas; blast furnaces; gas works (purification process), dye works and printeries; photographic establishments; manufacture of celluloid. Enters body in the form of gas, through the respiratory organs; prussic acid also through the epidermis. Symptoms: Generally speaking, industrial poisonings by cyanogen are rare. Acute Poisoning—Moderate quantities of the gas cause vertigo, headache, rush of blood to the head, oppression of the chest, palpitation of the heart, a sensation of constriction at the throat with pharyngeal irritation and dryness, nausea and vomiting, difficult, gasping respiration, with retention of consciousness. To the stage of dyspnoea succeeds that of spasm with cold, perspiring skin, convulsions and involuntary micturition, with loss of consciousness. In the stage of asphyxiation there are temporary suspension of respiration, retardation of the heart's action, lividity of the skin and mucous membranes, lowering of the body temperature; with inhalation of large quantities, the stage of asphyxia supervenes immediately. Dilation of the pupils; loss of conscious-

ness; a few gasping inspirations; cyanosis of the skin and mucous membranes; collapse; death. Chronic Poisoning (very doubtful)—Headache, vertigo, unsteadiness of gait; nausea, loss of appetite, disturbances of the gastric and intestinal functions; slowing of the pulse; albuminuria.

Special measures of relief—Fresh air; artificial respiration; administration of oxygen; cold affusions and friction; hypodermic injection of ether, camphor; if the poison has been taken into the stomach, give emetics, then immediately rinse out that viscus with water, with the addition of one-quarter to one-half of 1 per cent. of potassium permanganate. Kobert recommends a 3 per cent. solution of hydrogen binoxide for subcutaneous injection, in doses of 1 cubic centimeter, at different points in the body. But on the other hand H_2O_2 is deemed unsuitable, and an alkaline solution of ferric sulphate, or an antidote for arsenic with some ferric salt, is indicated as the best remedy. To control the convulsions give morphia hypodermically.

Diazomethane—A very volatile yellow gas. Used in methylizing of every kind. Enters body as gas, through the lungs; effect on the skin. Symptoms: Acute Poisoning—Severe headache; great physical depression; grave lesions of the lungs; other effects like those of dimethyl sulphate.

Dimethyl Sulphate—A colorless oily fluid. Used in production of methyl ethers, methyl esters and methyl amines; manufacture of artificial perfumes. Enters body in the form of gas, through the respiratory organs; direct action on the skin. Symptoms: Strongly corrosive effect on the skin and mucous membranes; burns; pains in the nape of the neck and in the thoracic cavity; hoarseness; destruction of the mucous membrane and aspiration of the broken-down products into the lungs; lachrymation, conjunctivitis, formation of erosion-eschars, and oedema, photophobia and parenchymatous clouding of the cornea; even coma, convulsions, paralysis, and a fatal outcome.

Dinitrobenzol or Binitrobenzol—When pure, crystallizing as slender, colorless, rhombic needles; when impure, in yellow, crystalline cakes. (See Nitrobenzol.)

Formaldehyde—A liquid, volatilizing as a gaseous vapor of penetrating odor; 10 per cent. formaldehyde, formalin. Used in disinfection; manufacture of many organic preparations, especially in the coal-tar color-industry; preserving and hardening of human and zoological preparations. Enters body in the form of vapor, through the respiratory organs and mucous membranes. Symptoms: Intense irritation of the skin and mucous membranes.

Special measures of relief—Do not enter the disinfection chamber until after the introduction of ammonia and thorough ventilation.

Hydrochloric Acid—Pure, is a colorless gas that fumes when open to the air, forming a dense, acid white mist. The crude commercial hydrochloric acid is, for the most part, impure, containing arsenic among other admixtures. Treatment with chlorine of previously roasted ores; potteries (glazing), enameling works, glass factories, soldering; in the chemical industry, manufacture of chloride and sulphate of soda, of muriatic acid, stannic acetate, etc.; manufacture of artificial fertilizers; bleaching, shoddy industry, cotton-print works; carbonizing of materials; india rubber industry. Action is on the skin and nasal mucous membrane; seldom in vaporous form, affecting the respiratory organs. Symptoms: As a rule the rarefaction of the hydrochloric acid gas is so considerable in the industries where it is used to any extent worth mentioning that only in exceptional cases do injurious effects occur, such as irritation of the respiratory organs. A proportion of 0.05 per mille of hydrochloric acid in the air is well borne, but only for a short time. A greater concentration (as well as the often-repeated inhalation even of moderate quantities in manufacturing industries) causes chronic irritation of the mucous membranes to which the vapor has access. There result also catarrh of the conjunctiva, coryza, pharyngeal, laryngeal, and bronchial catarrh, together with dental caries. Concentrated vapor may cause unconsciousness and death.

Special measures of relief—Removal of the patient from the dangerous atmosphere; inhalation of a finely nebulized solution of sodium bicarbonate.

Hydrofluoric Acid or Fluoric Acid—A colorless gas, of pungent odor and forming a dense mist in the air. Used in chemical works; glass factories, etching on glass; laboratories of the pottery industry, extraction of the fluorides of antimony (substitute for tartar emetic in dyeworks); fertilizer factories (extraction of phosphorites); bleaching of cane for chair seats and extraction of its silicates. Enters body in the form of gas, through the respiratory organs. In a fluid state it has an immediate action on the skin and mucous membranes. Symptoms: Intense irritation of the eyelids and conjunctiva, coryza, bronchial catarrh with spasmodic cough, ulceration of the nostrils, gums, and oral mucous membrane; also painful ulcers of the cuticle, erosions and formation of vesicles; suppuration under the finger nails.

Lead—A bluish white, highly lustrous metal, which on exposure to the air acquires a gray tarnish. Lead alloys; lead colors (other lead compounds); lead sulphuret (galena) is held to be non-poisonous, and some lead polysilicates are regarded as nearly so. Used in smelting of lead and lead-bearing ores; manufacture and use of articles made of metallic lead (sheets, plates, boxes, pipes, wire, cans, flasks, pails, kettles, faucets, retorts); manufacture and use of lead alloys, as type metal, shot (tin foil), for example, in type foundries, tin shops, bottle-cap factories, composing rooms, file-cutting works, manufacture and use of lead colors and other lead compounds, as litharge, white lead, Krems white, red lead, lead chromates, acetate of lead, lead chloride in lead color works and storage-battery factories, in the trade of painter, house painter and varnisher; plants for installation of gas and water; in the ceramic industry, the textile industry, etc. It is to be observed that materials containing lead may occasionally be employed in every industry, and that lead colors and other lead compounds are often met with in trade under fanciful names. Enters body by absorption of lead and lead compounds occurs: (1) In isolated cases through the skin, whether through the uninjured skin is doubtful; (2) in the form of vapor (very finely divided oxide of lead), and as dust, through the respiratory organs; (3) by way of the digestive tract by means of contaminated food and drinks (for example, cigars, cigarettes, chewing tobacco). By inhalation the dust, laden with lead, finds lodgment in the upper respiratory tract, and, mixed with saliva, may reach the stomach. Industrial lead poisoning appears as a rule in the chronic form and arises from continuous absorption of the most infinitesimal quantities of lead during a protracted period of time (weeks, months, and even years). The beginning is insidious, with disturbances of the general health, a sense of weakness, decline of bodily strength; sallow, pale-yellowish hue of the skin. Distress in the region of the stomach, eructations, lack of appetite, metallic taste in the mouth and fetid breath. The blue line (blue-grey discoloration of the gums) which, however, may be absent, even in the course of a severe attack; lead colic with most obstinate constipation, retention of urine; plumbic arthralgia (lacerating, boring), occurring for the most part paroxysmally, chiefly in the lower extremities, more rarely in the upper, often interpreted as a symptom of rheumatism of the joints; frequently, fibrillar trembling of the fingers. Typical are the lead paralyses, of which disturbances of sensation (paraesthesia and anaesthesia) take the precedence. Paralysis generally affects the extensor muscles of the arm and hand, with atrophic manifestations; more rarely, the flexor muscles. Sometimes also there are paralyses of the extensors and flexors of the lower extremities or muscles of the shoulder. From experience it is known that those groups of muscles are especially affected which are most used in the occupational activity. Transient blindness, but also gradually progressive atrophy of the optic nerve; temporary loss of the special senses of smell and taste; violent, often fatally ending disease of the brain (saturnine encephalopathy), sometimes preceded only by slight premonitory symptoms, as irritability and headache, ringing in the ears, insomnia; more often, slowly increasing mental disturbances precede; epileptiform convulsions, hallucinations; morbid changes in the blood vessels and of the heart and kidneys (contracted kidney); increase of blood pressure and granular degeneration of the red blood corpuscles.

Measures of relief—Discontinuance of work in lead at the slightest symptoms of lead poisoning. In lead colic, give first, by the mouth or subcutaneously, morphia, opium, or atropine; afterwards, cathartics

(castor oil or podophyllin); in paralysis, electrical treatment, massage and baths; in every case, strengthening diet, iodide of potassium, and sudorifics.

Manganese Dioxide—Brown mineral (occurring chiefly as pyrolusite). Poison occurs in breaking and grinding of manganese ore; sifting out of the refuse. Enters body in the form of dust, through the respiratory organs. Symptoms: Produces cumulative effects. After protracted action of the toxin the symptoms begin with disturbances of the general sensibility, general debility, languor, lancinating pains in the extremities, in the small of the back and nape of the neck, creeping sensations in the legs and numbness in the feet; salivation; tremor of the head, tongue, and hands; later, locomotor disturbances with uncertain, stamping gait, and, ultimately, the impossibility of safe and sure progression. Affections of the voice (low, whispering) and of speech (indistinct, scanning) combined with flatness of tone; forced laughter and weeping and lowering of intelligence. Sometimes dropsical effusion into the cellular tissue of the lower extremities.

Mercury—A silver-white, shining metal, unchangeable in the air, but evaporating at house temperature; mercury compounds, amalgams (alloys with metals); cinnabar is non-poisonous. Used in mining and smelting of quicksilver; occupation of mirror plater, amalgam gilding and silvering; manufacture of thermometers, barometers, and manometers, incandescent electric lamps, Roentgen and Hittorf tubes, mercurial vapor lamps; manufacture of the salts of mercury, amalgams, and colors, pharmaceutic products, antiseptic dyes, inflammable materials, and explosives; employment of the salts of mercury, especially in the hare's fur business and felt-hat manufacture; photography and steel engraving. Enters body by absorption through the uninjured skin; absorbed in the form of vapor and as dust (amalgam dust, dust of the compounds of mercury). Symptoms: Industrial mercurial poisoning is a chronic poisoning occasioned by work in this metal for a long period, commonly weeks, months, years, or decades. The first symptom is generally increased ptyalism, with swelling and inflammation of the gums and of the buccal mucous membrane, often with the formation of rodent ulcers, besides, there are, frequently, disturbances of digestion, lassitude, and pallor. Associated with the further absorption of mercury, "erethism" supervenes—a peculiar psychic excitability (timorousness, bewilderment, irritability) aside from the characteristic mercurial tremor. In a state of complete repose this tremor is not noticeable, and manifests itself only on voluntary movement, causing a quite distinctive, irregular tremulousness of the fingers, hands, arms, and finally, also, of the legs and head. In strictly chronic cases the stomatitis and erethism are absent, and only the tremor is observable. Death may result in the worst cases in consequence of the violent tremor and spasms affecting the entire body; in other cases, increasing weakness. Cachexia.

Special measures of relief—Relinquishment of the employment; nutritious diet; vapor baths; potassium iodide.

Methyl Alcohol (wood spirit)—A colorless fluid, of faint odor. Produced by the dry distillation of wood; used in the preparation of varnish, lacquer, polish, and perfumes; for the denaturing of spirits; for the production of coal-tar colors and pharmaceutical preparations; a solvent for aniline dyes in cotton print manufacture; used in combination with shellac for coating the interior of casks; in cabinet-making and furniture polishing. Enters body by absorption through the digestive organs, also through the skin; in the form of vapor, through the organs of respiration. Symptoms: The effect is very persistent; nausea, headache, ringing in the ears, weakness of the muscles, insomnia, delirium, difficulty of breathing and, sometimes deafness; inflammation of the throat and the mucous membrane of the air passages extending to the finest ramifications of the bronchial tubes; finally, death by paralysis of the respiratory apparatus. Conjunctivitis; also serious affections of the retina and the optic nerve, resulting in blindness, even, from atrophy of this nerve. In chronic cases, fatty degeneration of the liver.

Special measures of relief—The substitution of innocuous media for methyl alcohol in the denaturing of spirits.

Methyl Bromide—A colorless, gaseous body of aromatic odor; methyl iodide, iodine methylate, an ethereal, colorless fluid, of somewhat penetrating odor, soon becoming yellow on exposure to the air. Employed in aniline dye factories. Enters body in the form of gas, through the respiratory organs and the mucous membranes. Symptoms: In mild cases, vertigo, headache, and transient stupor, with diplopia and a sensation of rigidity in the muscles of the eyes. In a severe case there was observed loss of consciousness continuing eight weeks, with staring look, pallor of the skin, retarded pulse, and obstinate constipation. During brief intervals of wakefulness there was unrest with increasing excitability (Grandhomme).

Nitranilline—Forming long, yellow crystals. See Aniline.

Nitrobenzol (mirbane oil, imitation bitter-almond oil)—A colorless, highly refractive fluid, having an odor like that of bitter almonds; and all nitro compounds of benzol and its homologues, *e. g.*, dinitrobenzol, dinitrochlorobenzol, nitrotoluol, nitrophenol, nitronaphthalene, etc. The most of the nitro and chloro compounds are the more poisonous. Used in the coal-tar color industry and those establishments in which its intermediate products are manufactured, as in explosives works, perfumery and soap factories, pharmaceutical laboratories, etc. Enters body by (1) absorption: first of all, through the skin, both the uninjured and especially the pathologically altered skin, particularly in the case of profuse perspiration; (2) through the respiratory organs; (3) through the digestive organs. Symptoms: Poisoning by all of the designated substances is pretty nearly the same, qualitatively; quantitatively, however, differences exist, so that the larger proportion they contain of the nitro groups the more virulent they are likely to be. The nitrochloro compounds are very much more dangerous than the simple nitro compounds. The first toxic symptoms may appear within a few hours (8 to 24) after absorption of the poison. Acute Poisoning—(*a*) In mild cases: Malaise, headache, giddiness, nausea, loss of appetite, costiveness, burning sensation of the skin and mucous membrane. (*b*) In severe cases: A feeling of anxiety, disturbances of sensation, like formication on the legs and furriness of the soles of the feet; ringing in the ears; disturbances of co-ordination (reeling gait, stammering speech), increased excitability of the reflexes, convulsions and a state of general spasm; later, with decline of sensibility, symptoms of paralysis; vomiting; odor of the vomitus and of the exhaled breath like that of bitter-almond oil; icterus of the skin; at first increased, afterward diminished activity of the heart, with lowered tension of the pulse; visual derangements (amblyopia, optic neuritis); blood viscid, brown to deep dun color; diminution of the red corpuscles and alterations in their form; in the advanced cases, formation of methaemoglobin. The course of severe cases is exceptionally varied; after intermissions, exacerbations may occur with a finally fatal result. Death may occur also in connection with deep insensibility, without other symptoms. The symptoms which point to blood changes predominate, in severe poisoning, over the nervous symptoms. Subacute and Chronic Poisoning—Icterical skin, which gradually becomes cyanotic; methaemoglobin formation; symptoms of degeneration and regeneration of the red-blood corpuscles; general debility, anaemia. The clinical picture is similar to that of pernicious anaemia. In the urine the poisoned corpuscles are sometimes demonstrable, and finally the presence of haematophorphyrin and of albumen.

Measures of relief—Immediate removal from the workroom; inhalation of oxygen; artificial respiration; eventually bloodletting; stimulants, non-alcoholic; prohibition of the use of alcoholic drinks during working hours; avoidance of the same, also, outside of employment.

Nitroglycerin, glycerin trinitrate—an oily, vaporable, colorless fluid, without odor. Used in manufacture of explosives (dynamite, nitro-cellulose); in the use of dynamite. Enters body by inhalation of the vapor; absorption through the uninjured skin, mucous membranes, and wounds of the skin. In the explosion of dynamite the action of carbon dioxide and nitrous monoxide, as well as that of undecomposed nitroglycerin is present. Symptoms: Extraordinary toxicity, somewhat like effects of prussic acid; just a few drops are deadly, and even mere contact with products containing nitroglycerin may cause poisoning; severe headache, disturbance of the intellect, facile syncope, vertigo, burning in the throat and stomach; nausea, vomiting, colic; symptoms of paralysis in the muscles of the head and eyes, as well as in the lower extremities; bradycardia and retarded respiration, stertorous breathing and dyspnoea; cyanosis, coldness

of the extremities; injection of the conjunctiva; reddening of the countenance. In the mixing and sifting of dynamite: Obstinate ulcers under the nails and on the finger tips, eruption on the plantar aspect of the feet and interdigital spaces of both hands, with extreme dryness and formation of fissures. Explosion of nitroglycerin with little gas: Trembling, determination of blood to the head, vomiting, headache. Explosion of nitroglycerin with much gas: Vertigo, asphyxia, cyanosis, motor paralysis and loss of consciousness; intermittent, stertorous respiration, coldness of the skin, small pulse; after recovery of consciousness, debility, nausea, vomiting, headache, intermittent pulse, and finally death. Chronic Poisoning—Disturbances of digestion, trembling, neuralgia.

Special measures of relief—Absolute avoidance of contact.

Nitronaphthalene—A yellow, friable, crystalline mass of strongly aromatic odor. (See Nitrobenzol.)

Nitrous Gases (low degrees of oxidation of nitrogen, which appear simultaneously)—Nitrogen protoxide, nitrogen deutoxide, nitrogen trioxide, anhydrous nitrous acid. Nitrous gases are produced by the action of nitric acid on deoxidating substances of various kinds, principally on metals (iron, lead, zinc, etc.), on organic substances (coal dust, wood, straw, paper, textile fabrics, woollen refuse, etc.) as well as many other substances (pyrites, sulphurous acid and its salts, soda sediment, hydrochloric acid, iron chlorides, sulphate of iron, etc.); in the preparation of nitric acid, its combinations and salts, among which the nitrous salts also are to be included; metal etching and metal refining; stamp mills and mints; galvanotechnics; nitrification in chemical works and manufactories of explosives; celluloid manufacture; sulphuric acid manufacture; production of picric acid, aniline colors, nitrocellulose (gun cotton, collodion cotton), xyloidine, nitrostarch, nitrojute dynamite, abelite, nitromannite, nitrosaccharose, viscosine, etc.; nitric acid manufacture and storage; preparations of thorium and cerium; bleaching materials (oils, etc.); hat making (maceration of the hair); etching and engraving on copper (etching of the plate); dyeing and printing (fixer and mordant). Enters body in gaseous form, through the respiratory organs. Symptoms: Susceptibility to the effects of nitrous gases fluctuates considerably. Persons who suffer from diseases of the respiratory organs are especially susceptible; not infrequently the continual inhalation of small quantities, for many consecutive years even, occasions no serious disturbances of the health. A pale, sallow complexion and chronic bronchial catarrh may be deemed, nevertheless, the usual consequences of occupational inhalation of very moderate quantities of nitrous gases. Often, however, larger quantities of the poisonous gases are borne for hours together (6 to 8 hours) without discomfort; when suddenly, after a long interval without disturbance, ominous symptoms appear. Symptoms of irritation in the air passages are manifest, as a feeling of constriction of the larynx, spasmodic cough, oppression in the chest, labored respiration, anxiety, cold perspiration on the face, protusion of the eyes, gasping speech, paroxysms of coughing, bluish discoloration of the countenance, coldness of the extremities. Consciousness is at first unimpaired, but with increasing difficulty of breathing it becomes dimmed; injury to the teeth. The urine is scanty, brown in color, containing haemoglobin and albumen. Death results from oedema of the lungs. In very severe cases methaemoglobin is observed, and then a general systemic poisoning may result.

Special measures of relief—Immediate removal from the noxious atmosphere; inhalation of oxygen; finally, bloodletting and infusion of normal salt solution.

Oxalic Acid—It forms large, pellucid crystals. Used in polishing of metals, especially of copper and brass utensils; used in dy works, chemical cleaning plants (rust and ink stains); straw hat manufacture and straw braiding. Enters body in the form of dust, through the respiratory organs. Symptoms: Opalescent or bluish discolorations (with brittleness) of the nails; blood stains in the hands; corrosive action on the mucous membrane of the oesophagus, of the stomach and bowels; weakness of the heart; convulsions and spasms. However, industrial poisonings by oxalic acid are exceedingly rare.

Petroleum—A mixture of various hydrocarbons of the methane, ethyl, and aromatic series. Present in refining of the crude oil; furniture polishing by use of so-called polishing oil. Enters body in the form of vapor, through the respiratory organs. As a fluid it has a direct action on the skin. The vapors of petroleum cause a profound acute poisoning with a condition of inebriation; shouting, reeling, and prolonged sleep without any recollection of what has happened; in severe cases, loss of consciousness, lividity of the countenance, staring look and contracted pupils, almost imperceptible pulse, asphyxia. The chronic effect of petroleum vapor causes numbness and irritation of the Schneiderian membrane. In general, the symptoms of the action of petroleum resemble those resulting from the action of benzine. By reason of the high boiling point of petroleum there are produced, in the extraction of paraffin butter, in the handling of crude paraffin, in the emptying of retorts, and in the filling of casks with petroleum, obstinate inflammations of the hand in the form of acne (nodules, pustules, and boils).

Special measures of relief—Removal into the fresh air; in collapse, a tepid bath with cold affusions; subcutaneous injections of camphorated oil.

Phenol (carbolic acid)—A white crystalline mass, and its homologues, *e. g.*, cresol, lysol, and their derivatives. Present in anthracite coal tar distillation; production of picric acid and of many organic aromatic compounds; used in dyeing, calico printing; manufacture of lampblack, in photogen factories; impregnating wood with tar and oil of tar; surgical dressing industry. Enters body by action on the epidermis and the digestive tract. Symptoms: Erosion of the skin, which by great extension may lead to severe internal injuries; symptoms of degeneration in the blood and in the internal organs (nephritis); gangrene, icterus, collapse.

Phenylhydrazine—A yellowish, oily fluid, shading into brown, of pungent odor. A by-product in the manufacture of antipyrine from aniline; manufacture of organic compounds. Enters body by absorption by the skin; action on the skin. Symptoms: Obstinate vesicular eruption on the skin, with itching and burning; diarrhoea, loss of appetite; granular degeneration of the blood corpuscles; formation of methaemoglobin; a sense of general malaise.

Phosgene (carbon oxychloride)—A colorless gas, of suffocating odor. Present in the manufacture of phosgene and its use for the production of organic compounds. Enters body in the form of vapor, through the respiratory organs. The first symptoms of illness sometimes appear only after many hours. By means of the hydrochloric acid arising from the decomposition of the gases in the lungs, destruction of lung tissue results, with difficulty of breathing, paralysis of the lungs, and pulmonary oedema. A fatal outcome is often observed.

Special measures of relief—Inhalation of oxygen and medical attendance immediately after breathing the phosgene gas.

Phosphorus—A colorless, transparent substance; on exposure to light, translucent and of a yellowish, waxy lustre. In the air it is luminous, and when heated in closed iron crucibles to a temperature ranging from 250 to 300 degrees C. it is converted into red or amorphous phosphorus, which is unaffected by the air. The yellow or white phosphorus is very poisonous; the red, non-poisonous. Found in extraction of phosphorus from phosphorites and coprolites, boneblack (refuse of sugar mills), boneash (refuse of meat extract manufacture); production of phosphorbronze, of phosphorus compounds, igniting agents, matches, and tar colors. Enters body in the form of vapor, through the respiratory organs; into the digestive canal by means of food contaminated by the fingers action on the skin. Symptoms: As industrial poisoning it occurs only in the chronic form, occasioned by the absorption of very minute particles of the poison for a period of months, generally, indeed, of years. Symptoms of the disease sometimes first appear long after relinquishment of the occupation. It is doubtful whether chronic phosphorism occurs (that is, general systematic poisoning by phosphorus). Chronic phosphorus poisoning uniformly affects the bones of the face, beginning with inflammation and sclerosis of the bones and of the periosteum; then, by extension of the suppurative process, necrosis results. This most frequently attacks that portion of the alveolar process of the jawbone which is least protected against infection. Swelling and ulcerations on the gums and the buccal mucous membrane, pain even in the sound teeth, loosening and falling out of the teeth, infiltration of board-like hardness occurs

in the soft parts surrounding the jaw; suppuration and destruction of the jawbone (necrosis) with numerous fistulous channels which here and there burrow through the cheek. Hand in hand with the ulcerative processes go osteoplastic formations, so that, while suppurative destruction of tissue takes place at one point, at another the formation of new bone is going on. The under jaw is more often affected than the upper; here the process goes on insidiously without formation of new bone but with local destruction of the part. The palatal and orbital bones may be attacked with ulceration and shrinking of the eyeball. By extension of the inflammation along the sheaths of the vessels there result meningeal inflammation and cerebral abscess. There is remarkable brittleness of the bones, decline of appetite, pallid complexion, diarrhoea, emaciation. Sometimes there is amyloid degeneration of the abdominal organs. Death by sepsis.

Special measures of relief—To the utmost possible extent the prohibition of the use of white or yellow phosphorus; exclusion of laborers that have dental caries, after extraction of a tooth at least two weeks' exclusion from the employment; change of occupation; improvement of the general health; there is no specific medical treatment; in appropriate cases, operative intervention.

Phosphorus Sesquisulphide—A grayish yellow, odorless and tasteless substance. Used in chemical factories. Enters body by inhalation of sulphureted hydrogen in the fusion of phosphorus and sulphur as well as in the drawing off of the molten mass from the kettles; dust in the grinding and sifting of the paste; bicarburet of sulphur vapors in the extraction of yellow phosphorus and regeneration of carbon sulphurate. Symptoms: Irritation of the mucous membranes, especially conjunctivitis. Through the influence of dust in the grinding and sifting of the composition there appear symptoms of poisoning. To be noticed also is the danger of poisoning by sulphureted hydrogen. (See under Sulphureted Hydrogen.)

Special measures of relief—Prevention of the contamination of phosphorus sesquisulphide with yellow phosphorus; precautions against injury from the effects of sulphureted hydrogen.

Phosphureted Hydrogen—A colorless gas of nauseating odor. Used in the extraction of phosphorus; in the preparation of red phosphorus and the sesquisulphide of phosphorus; in the reduction of iron silicate containing phosphorus by the action of moisture; in the production of acetylene with calcium carbide that contains an admixture of calcium phosphate. Enters body in the form of gas, through the respiratory organs. Symptoms: An anxious, oppressed feeling in the chest, changing to a burning, lancinating pain; affections of the head, vertigo, tinnitus aurium; general debility; loss of appetite; great thirst. Death occurs without convulsions, through the effect of the poison on the blood.

Picric Acid—Trinitrophenol in a pure state forms pale-yellow, bitter tasting, foliate, metallic crystals. Used in chemical works, dyehouses; manufacture of explosives and powder (lyddite, melinite); projectile factories, filling shops. Enters body in the form of dust, through the respiratory passages; direct action on the skin. Symptoms: Poisonings with picric acid are rare; when they occur there are itching, inflammation of the skin, vesicular eruption, yellow pigmentation of the epidermis and of the conjunctiva, inflammation of the buccal mucous membrane, bitter taste, disturbances of digestion, epigastric pain, nausea, vertigo, diarrhœa, and jaundice; picric acid decomposes the constituents of the blood. By the penetration of dust into the nostrils, sneezing and nasal catarrh are occasioned.

Pyridine—A colorless fluid of pungent and characteristic odor. Its homologues, pyridine bases. Used in its manufacture out of coal tar and bone tar; in the use of denaturing spirits (shops for wood-working, gilding, and hat manufacture). Enters body in the form of vapor, through the respiratory organs. In a fluid state it acts on the skin of the hands and arms. Symptoms: Catarrh of the mucous membranes; hoarseness, irritation, and choking sensation in the throat; headache, vertigo, flaccidity and trembling of the extremities; difficulty of breathing and clonic convulsions; eczema of the hands. Industrial poisoning by pyridine is very rare.

Sulphur Chloride—A thickish fluid, of brownish color and suffocating odor fuming on exposure to the air. Used as a solvent for sulphur and fats; caoutchouc and patent rubber industry. Enters body in the form of vapor, through the respiratory organs. Symptoms: In contact with water and atmospheric moisture, it is resolved into hydrochloric acid vapor. The vapor of sulphur chloride is suffocating; if ingested, it excites vomiting.

Special measures of relief—Wearing of rubber gloves; instant removal of the patient from the poisonous atmosphere.

Sulphur Dioxide, Sulphurous Acid (H_2SO_3)—Its anhydride is SO_2, in the form of gas; condensed, it becomes fluid. The gas is of pungent odor and suffocating effect. Present in roasting of sulphur-bearing ores; brick works, ceramic industry; manufacture of sulphuric acid, of ultramarine; extraction of bones, manufacture of glue and gelatine from bones; disinfection; refining of petroleum; manufacture of candles; bleaching of wax, silk, and wool; chromium tanning (two-vat process); bleaching of straw hats and bristles; preserving wine and fruits; fumigating hops and casks with sulphur; ice machines; heating plants (burning of pyrite-bearing coal). Enters body in the form of gas, through the respiratory organs. Symptoms: In moderate concentration sulphurous acid is borne without inconvenience or injury; persons accustomed to the gas bear very well a proportion of 0.003 to 0.004 per cent. in the air. Susceptible persons, at the beginning of their employment in an atmosphere containing sulphurous acid manifest a transient irritation of the mucous membrane of the respiratory organs and of the eyes. In its severe action there is spasmodic cough with secretion of tenacious, often blood-tinged, mucus. The protracted effect of a high degree of concentration is livid discoloration of the mucous membranes, bronchial catarrh, croupous angina of the bronchi and their branches, and inflammatory areas in the lungs; disturbances of digestion.

Special measures of relief—Removal from the noxious atmosphere; admission of fresh air; artificial respiration; infusion of weak alkaline solutions (0.05 to 0.1 per cent. liquor natrii caustici [solution of caustic soda].

Sulphureted Hydrogen, or Hydric Sulphide H_2S—A colorless gas having the fetid odor of rotten eggs. Present in blast furnace plants, in granulating the slag; distillation of sulphur waters; ultramarine works; Leblanc soda and chemical factories; in the manufacture of the compounds of sulphur and phosphorus; sulphur metals (manufacture and use); sulphide of soda and sulphide of barium industry (manufacture of sulphide colors and dyeing with these); the extraction of cellulose (straw and wood); in the waste waters of industries which make use of organic substances; sedimentation tanks of sugar works; precipitation of soda residua containing calcium sulphide; work in sewers, latrines, and dung pits; illuminating gas plants; flax retteries; tanneries. Enters body in the form of gas, through the respiratory organs, as pure hydric sulphide gas; often found in admixture with other gasses (with CO_2, N, NH_4, and carbureted hydrogen); direct action on the conjunctiva. Symptoms: In the less violent cases there are gastric distress, nausea, fetid eructations, irritation and inflammation of the conjunctiva; rarely, erosion of the cornea, formation of vesicles on the lips, irritating cough, headache, and a sensation of giddiness. In long continued inhalation convulsions and paralysis occur. In severe cases there are contraction of the pupils, slowing of the pulse, Cheyne-Stokes respiration, nystagmus, trismus, and tetanus. With a very high proportion of sulphureted hydrogen in the air a man suddenly falls, becomes unconscious, and dies without convulsions (apoplectic form). Chronic Poisoning—Conjunctival catarrh; a sense of pressure in the head and on the chest; headache, debility, vertigo, nausea, disturbances of digestion; sallow complexion and emaciation; slowing of the pulse; tendency to the formation of boils.

Special measures of relief—Before emptying of dung pits and the like, their contents should be thoroughly mixed with iron sulphate (5kg pro 1 cbm); the emptying should be effected by mechanical apparatus; safety ropes to be attached to the workmen; prompt hoisting out of the unconscious workmen; removal of the soiled clothing; artificial respiration; administration of oxygen; hypodermics of ether or camphor.

Sulphuric Acid H_2SO_4—A colorless, odorless, thick, oily fluid. Present in the manufacture of sulphuric acid; accumulator factories (mould and charging rooms); burnishing of iron, steel, etc.; textile industry

LIST OF INDUSTRIAL POISONS—*Continued.*

hat factories; petroleum distillation; factories for the manufacture of powdered fertilizers. Enters body in the form of vapor, through the respiratory organs. Symptoms: Inflammatory diseases of the respiratory organs (acute and chronic catarrh), inflammation of the lungs; anorexia; decalcification of the bones (according to Lewin); injury to the teeth through softening of the dentine. As a result of the bespattering of the skin there is severe pain, a whitish discoloration of the skin, becoming brownish, with reddening and swelling of the surrounding tissues; in cases of extensive scalds there are, ultimately, decomposition of the blood, formation of ulcers of the duodenum, somnelence, and even death.

Tar—A product obtained by dry distillation, particularly of anthracite coal and lignite. Used in manufacture of illuminating gas; coke ovens; tar works; tar product factories; plants for wood preserving; manufacture of roofing paper; used for concrete paving; painting of metals; as a fuel; briquet factories. It acts on the skin; in the form of vapor, on the respiratory organs. Symptoms: Tar itch under the form of diffuse acne, eczema or psoriasis, primarily on the upper extremities, later, also, on the other parts of the body; not infrequently on the irritated portions of the skin there appear cancroid ulcers (among chimney sweepers, paraffin and soot workers and briquet makers). Together with the effect on the greater portion of the skin, there are also general symptoms: Loss of appetite, nausea, diarrhea, headache, numbness, vertigo, besides disturbances of the urinary bladder (ischuria, strangury), also albuminuria and oedema.

Turpentine Oil—A mixture of various terebinthine hydrocarbons, $C_{10}H_{16}$, differing in odor and in composition according to the botanical species from which they are severally derived. Used in the manufacture of varnish, cement, lacquer, sealing wax, colors; tapestry printing; trade of decorator, lacquerer, and house painter; as a cleansing agent in various industries. Enters body in the form of vapor. It acts upon the mucous membranes; in a fluid state, it acts on the epidermis. Symptoms: Irritation of the mucous membrane of the eyes, of the nose (coryza), and of the upper air passages (hemming, cough, bronchial inflammation); salivation; besides, there are insensitiveness, giddiness, headache. Prolonged action of the oil causes irritation of the kidneys, and then these organs excrete urine having the odor of violets. Severe irritation of the skin is excited, especially by the so-called pine oil (Russian oil of turpentine).

HEAT PRODUCTION IN THE HUMAN BODY.

(From a Bulletin of the United States Department of Labor.)

THOUGH the temperature of the body in health fluctuates somewhat during the day, it is maintained in rather narrow limits by regulation of the amount of body heat produced and the amount lost. The normal temperature of the body (about 98.5° F.) is an expression of the resulting balance between heat production and heat loss. The heat produced by the body is the result of the chemical processes involved in vital activity in general or the metabolism, which is supported by the food, drink, and air consumed. Eighty per cent. of the food eaten goes to furnish body heat. All energy spent in the body finally becomes heat.

Variations in heat production—While the amount of heat produced within the body can never sink below a certain minimum, the amount will vary according to the character and extent of the metabolic processes taking place within the tissues. Muscular tissue exceeds all others in the amount of heat produced because of its mass and activity. Therefore, an increase in muscular activity, i. e., physical work, will add much to the amount of heat produced by the body. The increase in the amount of body heat produced by muscular activity is the most important from an industrial standpoint. Other sources of heat production, such as glandular activity, should be kept in mind. The amount of heat produced by such activity depends upon the quantity and composition of food eaten.

The loss of heat by the body is a physical process and takes place by conduction and convection, by radiation, and by evaporation. Heat is also lost to some extent in raising food and drink to the temperature of the body, though this loss is insignificant compared with the losses mentioned above. Without means by which the body heat could be lost as it is produced, the temperature of the body would soon rise to a degree at which bioplasm is destroyed and life must cease. When the loss of body heat is only partially prevented, severe symptoms rapidly ensue. Under ordinary conditions of temperature and humidity, the percentage of total heat loss is as follows: By radiation, convection, and conduction and cutaneous evaporation, about 80 per cent.; by pulmonary evaporation, about 15 per cent.; by heating the air inhaled, about 2.5 per cent.; while about a similar amount is lost in heating the food and drink. The amount lost by conduction will depend upon the relative temperature of the surface of the body and the substance with which it is in contact. Should this substance be air, another factor is introduced—its rate of motion. The rate of heat loss by radiation depends upon the specific radiating power of the surface of the body and upon the difference in temperature between the latter and surrounding objects, while that lost by evaporation will depend upon the amount of sweat evaporated, which in turn depends upon the temperature, relative humidity, and rate of motion of air. The rate of heat transfer, other conditions being equal, diminishes as the temperature of the air rises. The rate of heat loss by evaporation diminishes as the relative humidity increases. As a general effect of diminished heat loss the temperature of the skin is raised, i. e., its specific radiating power is increased, which, besides aiding in evaporation, facilitates heat transfer. A decrease in the amount of heat lost by one means is compensated, to a certain extent, by an increase in the rate of that lost by another. The effects of long continued exposure to this hazard are slow and insidious, and are evidenced in degenerative changes, such as arthritic and muscular rheumatism, chronic skin disorders, and arteriosclerosis. In addition, long-continued exposure to excessive heat will gradually but surely lower the general physical tone of a worker.

FATIQUE IN BRITISH MUNITION WORKS.

(Summary of Findings of the Royal Commission.)

FOR a group of 27 men engaged in heavy labor an increase in both hourly output and total output accompanied a reduction in actual hours of work from 61.5 to 56.2 per week. For a group of nine boys engaged in heavy labor a marked increase in both hourly output and total output followed a reduction in actual hours of work from 68.3 to 60.9 per week. For a group of 23 men engaged in moderately heavy labor an increase in the actual hours of work from 47.8 to 59.7 per week was accompanied by some decrease in the hourly rate, but by a decided increase in total output. For another group of 22 men engaged in moderately heavy labor a reduction in actual hours of work from 60.3 to 51.8 per week was accompanied by a substantial increase in the hourly rate, and by practically maintained total output. For a group of 100 women engaged in moderately heavy labor a reduction in actual hours of work from 68.2 to 59.7 per week was accompanied by a pronounced increase in the hourly rate and by a considerable increase in total output. For a group of 17 boys engaged in light labor a reduction from 75.6 to 59.4 actual hours per week brought only a moderate increase in the hourly output and caused a sharp decrease in total output. Total output under 70.9 actual hours was, however, practically as large as that under 75.6. For a group of 21 women engaged in light labor a reduction in actual hours from 67.4 to 53.1 per week was followed by a heavy decrease in total output; a subsequent increase to 59.8 hours, however, gave practically the same output as had been obtained from 67.4 hours.

MINERAL PRODUCTION OF THE UNITED STATES.

PIG IRON PRODUCTION, FIRST HALF OF 1918.

All kinds—18,227,730 gross tons (17,933,932 tons coke, 120,404 tons anthrac. and coke, 173,394 tons charcoal).

Basic Pig Iron—8,617,692 tons, divided as follows: New York and New Jersey, 658,750; Pennsylvania (Allegheny County), 1,694,024; other Pennsylvania counties, 2,157,676; Virginia, Alabama, Kentucky, 625,019; Ohio, 1,544,630; Indiana, Illinois, 1,617,329; Michigan, Minnesota, Missouri, Colorado, Washington, 319,764.

Bessemer and Low Phosphorus—6,006,607 tons, of which Pennsylvania had 2,663,066 tons and Ohio 1,897,869 tons.

Foundry Pig Iron and Ferro-Silicon—2,518,721 tons, of which Alabama had 592,581 tons.

Malleable Pig Iron—607,318 tons, of which Ohio had 212,567 tons.

Forge Pig Iron—197,636 tons, of which Pennsylvania had 74,457 tons.

Spiegeleisen and Ferro-Manganese—237,228 tons, of which 55,177 tons was spiegeleisen.

Zinc exports in the year ended June 30, 1917, were: Dross, 10,692,766 pounds; spelter, 367,311,387 pounds. Exports in year ended June 30, 1918: Ore, none; dross, 3,761,844 pounds; spelter, 13,662,143 pounds; rolled, 1,919,789 pounds.

ORE PRODUCTION OF LAKE SUPERIOR DISTRICT.

The following table shows the total production of the Lake Superior District, by ranges. The figures prior to 1872 were collected by A. P. Swineford, editor *Marquette Mining Journal;* those for 1872 to 1877, inclusive, are from the Michigan Mineral Statistics; those for 1878 to 1888, inclusive, were collected by W. J. Stevens; and the later figures were collected by the United States Geological Survey. The figures of ore shipped out are from the *Iron Trade Review.*

Rolled blooms and billets for forging purposes are included from 1905, while semi-finished products rolled for export are included for 1912 and subsequent years. Prior to 1892 structural shapes were included in "all other finished rolled products."

Two-thirds of the rails produced now weigh 85 pounds or over a yard, and one-quarter of the rails weigh 100 pounds or over a yard.

In 1905 the Lehigh & New England tonnage was credited to the Delaware, Susquehanna & Schuylkill road; in 1910 there was no separate note of the L. & N. E. shipments. The totals for 1915, 1916 and 1917 do not agree with additions of the several items because of subtraction of 550,344 tons in 1916 and 1,308,554 tons in 1917, due to duplication of tonnage reported by C. R. R. of N. J. and L. V. roads.

FEDERAL ALLOTMENTS OF COAL.

Compared with the actual distribution for the coal year beginning April 1, 1916, the allotment of domestic anthracite for all purposes was, in gross tons (2,240 pounds), as follows:

	1916–1917 Distribution.	Allotment 1918–1919 Coal Year.		1916–1917 Distribution.	Allotment 1918–1919 Coal Year.
New England	8,833,379	10,331,000	Railroad supply	2,481,754	2,481,754
Atlantic States	27,878,233	31,417,154	Canada	3,856,021	3,602,000
Central States	5,100,024	3,481,945	Miscellaneous exports	51,930	51,930
Northwest	2,710,188	2,380,000	Army and navy camps	.....	600,000
Trans-Mississippi	627,965	.....			
Remaining States	137,966	.....	Total	51,677,460	54,345,783

The war reduced the army of anthracite workers from 176,552 in 1915 to about 145,000 in the Spring of 1918.

Washington, 1916, 1917, includes Utah.

BENZOL AND THE UNITED STATES COAL RESERVES.

(By the Geological Survey.)

THE quantity of coal now made into coke is 60,000,000 to 70,000,000 tons annually, and as under present practice the yield of benzol is 2 gallons from the ton of coal, the universal use of by-product ovens would increase the present production of benzol to over 3,000,000 barrels. The coal reserves available for the future production of benzol are enormous, but production of benzol as a substitute for gasoline cannot be expected to draw on these reserves faster than the demand for coke and for by-products other than benzol justifies the coking or distillation of coal. The oil shales in Colorado and Utah constitute an undeveloped reserve of petroleum, to which attention was directed by the Geological Survey in 1901. Field investigations of these deposits are being carried on by the survey to ascertain the distribution, richness, and quantity of these shales, and tests made by the Bureau of Mines to determine the most efficient methods of their utilization.

These oil-producing shales in northwestern Colorado have been examined with sufficient detail to warrant the estimate that there are 39 townships (1,400 square miles) underlain by an average thickness of 53 feet of shale in beds 3 feet or more in thickness, which, according to field tests, will on distillation yield an average of 25 gallons of crude oil per ton of shale. The crude oil thus obtained will give under ordinary refining practice approximately 9½ per cent gasoline, and doubtless much larger amounts by modern cracking processes. There is in northeastern Utah an oil-shale area approximately equal to that in Colorado, and it is estimated that the shale in this State will have equal thickness and quality, thus doubling the total possible yield. Oil shale beds generally thinner or less rich are present also in southwestern Wyoming, and similar shales are known in the Eastern States.

CLASSIFICATIONS OF COAL.

THE Geological Survey gives to coal six classifications. They are: Anthracite, semi-anthracite, semi-bituminous, bituminous, sub-bituminous, and lignite. All of these various classes are produced in the United States. Most of the anthracite coal is mined in eastern Pennsylvania. Small areas in the West are placed in the anthracite classification, but are not identical with the Pennsylvania anthracite. Anthracite is an almost ideal domestic fuel, but is not well adapted to steam raising, although it is used for this purpose when an absolutely smokeless fuel is required. There is very little semi-anthracite in this country, hence it is but a small factor in the trade. Semi-bituminous is of higher rank than bituminous. It has a high percentage of fixed carbon, which makes it nearly smokeless. It is best adapted to raising steam and to general manufacture that requires a high degree of heat. It is regarded as the best coal for steamships, and is used almost exclusively by the navy. Being of a soft, tender quality, it is easily broken. This fineness is regarded by those accustomed to lump coal as detrimental, but it is not. It burns slowly and retains a high degree of heat. Bituminous coal is produced in a number of grades, but generally speaking, it describes a rank of coal having about equal proportions of volatile matter and fixed carbon. Bituminous coal is only slightly affected chemically by weathering unless it is exposed for many years. "Sub-bituminous" is a term adopted by the Geological Survey to describe a rank of coal more generally known as "black lignite." It is produced principally in the Western States. It is a clean, domestic coal, and ignites easily. Lignite is a product of North Dakota and Texas.

CENTURY OF ANTHRACITE.

(From the Public Ledger, Philadelphia.)

JAMES TILGHMAN of Philadelphia discovered anthracite in the Wyoming Valley in 1766. He sent a little chunk of it to Thomas and William Penn in London with this accurately prophetic message: "This bed of coal, situated as it is on the side of the river, may some day or other be a thing of great value." Thomas Penn, in giving thanks for the specimen, promised to have it "examined by some person skilled in that article" and to transmit the report. In 1800 an enterprising pioneer named William Morris brought a wagon load of Tamaqua coal nearly 100 miles to Philadelphia and couldn't find a purchaser. Three years later two "ark" loads of Lehigh anthracite—two hundred tons—were brought to this city via the Lehigh and Delaware Rivers. For the fifteen miles below Mauch Chunk, in a drop of about 300 feet, the rapid current swirling over hidden rocks made it an adventurous journey, and those who handled the boats, 90 feet long, 16 feet wide and 4 feet deep, took a sporting chance.

A flotilla of five boats started for Philadelphia on this first journey but only the two survived. And when they reached the city nobody was able to make the coal burn, and it was given away to be used for "graveling" pathways. But by the following year people had learned how to use it, and the coal brought here by boat at a total cost of $5 per ton could be sold at a profit of 100 per cent. for $10. It was by no means plain sailing (or at any rate boating) for the coal merchants even then. The Lehigh Coal Company brought 365 tons here in 1820 and had great difficulty in disposing of so large a quantity. But in four years it had increased the amount to 9,541 tons; 1825 found the figure set at 28,393 tons, and by 1832 it was delivering 70,000 tons. In 1839 it reached 221,850 tons, which was considered prodigious.

The credit for teaching Philadelphia how to burn anthracite is largely due to three citizens of Wilkes-Barre, named Miner, Cist, and Robinson. On the 9th of August, 1814, they started an ark laden with coal from Mauch Chunk for Philadelphia. It had gone about a quarter of a mile when it struck a rock. The boatmen stuffed the hole with their clothes and proceeded undismayed. After five days the ark reached Philadelphia on a Sunday morning at 8 o'clock. The owners had printed handbills in English and German and broadcast them among our householders. These handbills told how to make the coal burn, and presented testimonials from blacksmiths and others who had turned the trick. Moreover, stoves were set up in various places, coal fires were started in them, and the incredulous public was invited to behold the miracle. According to the Geological Survey, Pennsylvania produced 83,995,061 tons of anthracite in 1915. Some authorities estimate that the Pennsylvania deposits will last a century or so longer at the present rate of production.

COAL RESERVES OF THE WORLD, UNMINED.

United States and Alaska, 4,231,000,000,000 tons, of which 22,000,000,000 tons is anthracite, 2,155,000,000,000 tons is bituminous, and 2,054,000,000,000 tons is sub-bituminous and lignite; Canada, 1,361,000,000,000 tons, of which 2,000,000,000 is anthracite and 313,000,000,000 is bituminous; China, 1,097,000,000,000 tons, of which 427,000,000,000 is anthracite; Germany, 467,000,000,000 tons, of which 452,000,000,000 tons is bituminous and the rest sub-bituminous; Great Britain, 209,000,000,000 tons, of which 12,000,000,000 is anthracite; Siberia, 192,000,000,000 tons, no anthracite; Australia, 183,000,000,000 tons, all bituminous or sub-bituminous; India, 87,000,000,000 tons, no anthracite; Russia in Europe, 66,000,000,000 tons, of which 41,000,000 is anthracite; Union of South Africa, 62,000,000,000 tons, of which 13,000,000,000 is anthracite; Austria, 59,000,000,000 tons, no anthracite; Colombia, 30,000,000,000 tons, no anthracite; Indo-China, 22,000,000,000 tons, all anthracite; France 19,000,000,000 tons, of which 4,000,000,000 is anthracite; Belgium, 12,000,000,000 tons, no anthracite; Spain, 10,000,000,000 tons, of which 2,000,000,000 is anthracite; Spitzbergen, 9,000,000,000 tons, no anthracite; Japan, 9,000,000,000 tons, no anthracite; Holland 5,000,000,000 tons, no anthracite; other countries, 24,000,000,000 tons of which 3,000,000,000 is anthracite.

Total coal reserves, 8,154,000,000,000 tons, of which 548,000,000,000 is anthracite; 4,302,000,000,000 is bituminous, and 3,304,000,000,000 is sub-bituminous and lignite.

POWER USED IN THE UNITED STATES.

The figures, gathered in 1912 by the Census Bureau, show the horse-power then in use as follows: Steam, 24,339,819; water, 4,870,320; gas and oil, 1,238,107; total, 30,448,246. Of the steam-power, 16,233,733 horse-power was used in manufactures; 4,946,532 in public utilities, and 3,169,554 in electric railways. In 1912 the country produced 450,104,982 tons of bituminous coal and 84,361,598 tons of anthracite, of which about one-third or approximately 178,000,000 tons, was used in the development of industrial steam-power. Practically no coal is used in connection with the development of water-power or gas and oil-power. Steam railroads the same year used 125,000,000 tons and steamships 10,000,000 tons, while in steam heating plants 70,000,000 tons were used. About 70 per cent. of coal each year is used in peace times in steam-making, and the balance in hot-air and hot-water plants, cook stoves, the making of coke and gas, and exportations.

The Geological Survey has estimated that the waters of the United States, by their natural flow, exclusive of dams, can produce 27,943,000 horse-power at a minimum, of which 11,504,000 is in the Pacific States, 8,694,000 in the Mountain States, 2,346,000 in the South Atlantic States, 1,357,000 in the Middle Atlantic States, 1,087,000 in the East South Central States, 902,000 in the West North Central States, 832,000 in the East North Central States, 868,000 in the New England States, and 353,000 in the West South Central States.

CONTROL OF FUEL IN EUROPE.

The coal mines of Great Britain and Ireland were placed under Government control early in 1917. All dividends paid and all wage agreements must be approved by the Government. On account of the advance in cost of food and other necessities, figured to average 34 per cent., increases in prices of coal amounted to from $1.00 to $1.60 per ton have been authorized. Army and navy requirements and other Government industries, including munition plants and railroads, are given priority in the distribution of coal and the allotment of cars. At the beginning of the war 240,000 miners of the United Kingdom, out of a total of 1,000,000, enlisted in the army, and the industry was crippled for a time. The Government tried to have these men returned to the mines, but less than 20,000 were sent back. Then a regulation was put in force providing that no miner could enlist in the war without the approval of a local board established in each district to pass upon enlistments. The result was that men employed in various other occupations immediately applied for work in the mines. Conservation in Great Britain is governed by drastic rules. If cinders are found in the dust-bin of any consumer he is liable to six months' imprisonment. No one can consume more than 22½ tons per year without a special permit. For 1917 the winter ration scale allowed the use of 200 pounds per week for four rooms; one ton per month for seven rooms; and up to two tons per month for 15 rooms. Half rations are permitted in summer. If one person's ration is ten tons a year and he buys eleven he is liable to prosecution. England also curtailed the use of fuel oil as well as gasoline and gas for pleasure automobiles.

The French and Italian Governments have assumed complete control of distribution. In May, 1917 the Russian Provisional Government took over the coal mines of that country for the purpose of controlling distribution and prices. Fuel is so scarce in France that during the winter of 1917-18 the amount of coal allowed to domestic consumers was approximately 11 kilos, or 24 pounds, per month. Strict limitations were imposed on the consumption of gas and electricity. Since the loss of Alsace-Lorraine France produced before the present war, only about two-thirds of the coal she consumed.

BUILDING AND LOAN ASSOCIATIONS.

(By H. F. Cellarius, Cincinnati, O., Secretary United States League of Local Building and Loan Associations.)

THE following statistical table shows, by States, the number of associations, total membership, and total assets for States in which accurate statistics are compiled by State Supervisors. The data for other States are consolidated under "Other States," and the figures given are estimated. 1917-1918:

	STATES.	No. of Associat'ns	Total Membership.	Total Assets.		STATES.	No. of Associat'ns	Total Membership.	Total Assets.
1	Pennsylvania	2,089	677,911	$324,265,393	20	*Iowa	50	33,035	$9,638,852

* Reports issued biennially. Figures of 1916 used.

The aggregate receipts for 1917 from all sources were $1,220,600,658, which is an increase of $158,687,635 over the receipts of the previous year. The receipts from weekly dues were increased $37,647,516, from paid-up stock $6,783,893, and from deposits $23,196,571. There was an increase over the previous year in mortgage loans made of $78,805,481. Stock withdrawals increased $7,175,321, paid-up stock $15,519,998, and deposit withdrawals were $7,759,840 in excess of 1916. The total expense of management for the year was $9,810,744, or a little over eight-tenths of one per cent. of the total receipts. In detail, the receipts and disbursements for 1917 were as follows:

RECEIPTS, 1917.	
Cash on hand January 1, 1917	$58,018,034
Weekly dues	372,393,426
Paid-up stock	50,312,814
Deposits	116,054,988
Loans repaid	360,137,274

AMERICAN RED CROSS.

National Headquarters, Washington, D. C. National Officers: Woodrow Wilson, *President;* Robert W. de Forest, *Vice-President;* John Skelton Williams, *Treasurer;* John W. Davis, *Counsellor;* Stockton Axson, *Secretary;* William Howard Taft, *Chairman Central Committee;* Eliot Wadsworth, *Vice-Chairman;* Harvey D. Gibson, *General Manager;* George E. Scott, *Acting General Manager.*

Red Cross War Council—By appointment of the President of the United States—Henry P. Davison, *Chairman;* George B. Case, Harvey D. Gibson, John D. Ryan, Cornelius N. Bliss, jr., *Ex officio,* William Howard Taft, Eliot Wadsworth.

WORLD PEACE ASSOCIATION.

Headquarters, Northfield, Minn. *Secretary-Treasurer*—C. A. Ryan. "Organization was begun November, 1915, with Northfield, Minn., as international headquarters. During the ensuing period the association has acted as a distributing agency, having passed into the hands of the people throughout the world great quantities of peace and Christian literature. The association is a non-dogmatic, non-sectarian, moral and religious organization based upon the Divine conscience of mankind and the life and teachings of Jesus Christ ,which is included in its doctrine and creed, together with the Ten Commandments. It seeks to aid in bringing about the establishment of democratic world government and to surround mankind with a Christian influence. It recognizes that there is a common ground upon which all who are seeking for truth and justice can meet and that this common ground lies deeper and beyond the outer forms of dogmas, sectarianism, the belief or disbelief in the supernatural or hereafter."

NEW YORK BIBLE SOCIETY.

66 Bible House, New York. *President*—John C. West. *Treasurer*—James H. Schmeizel. *General Secretary*—Rev. George William Carter, Ph. D. The society has distributed 250,000 Bibles among the American soldiers.

Figures for 1916 and 1917 are from Bradstreet's. New York means Manhattan and Bronx, and the figures for 1917 do not include alterations: Manhattan, $13,669,644; the Bronx, $1,580,835. Manhattan, 1917, new buildings, $29,068,525; the Bronx, $8,545, 475.

BUILDING OPERATIONS IN U. S. IN 1917.

(From Bradstreet's.)

The total number of permits filed at 157 cities of the United States in 1917 was 233,101, and the total value was $704,674,761, decreases of, respectively, 19.7 and 29.3 per cent. Every group of cities showed a decrease in permits and values.

SECTION.	No. of Cities	No. of Permits. 1917.	Values 1917.	COMPARED WITH 1916. P'mts.	COMPARED WITH 1916. Values	SECTION.	No. of Cities	No. of Permits. 1917.	Values 1917.	COMPARED WITH 1916. P'mts.	COMPARED WITH 1916. Values
New Eng..	25	18,025	$70,987,172	D 19.9	D 24.2	Southern..	25	25,276	52,894,657	D 25.1	D.14.3

LOSSES BY FIRES IN UNITED STATES NATIONAL FORESTS.

(By the Forest Service.)

Forest fires burned over 962,000 acres of National Forest lands in 1917 and caused a loss of $1,358,060 to the Government in timber, forage, and young growth, according to figures compiled by the Forest Service. Protracted drought and periods of high winds made the conditions virtually the same as in 1910, when many persons were burned to death and 25 million dollars worth of timber on the National Forests was destroyed. In addition to the actual loss in timber and forage, the fires of 1917 entailed extra expenditures by the Government of $1,121,451. Of the 7,814 fires all but 2,132, set by lightning, were caused by human agencies and could have been prevented. There were 952 incendiary fires, mostly in Oregon, California, and Arkansas. Careless campers were responsible for 1,288. Railroads, partly through failure to comply with the law and use proper spark arresters, set 1,003.

THE AMERICAN FORESTRY ASSOCIATION.

The American Forestry Association, with headquarters at 1410 H Street Northwest, Washington, D. C., was organized in 1882 and incorporated in January, 1897. It is devoted to the conservation of private, State and National forests and to public education in the knowledge of trees, their care and development. It is a voluntary organization for the inculcation and spread of a forest policy on a scale adequate for economic needs, and any person is eligible for membership. It is independent, has no official connection with any Federal or State Department or policy, and is devoted to a public service conducive to National prosperity. It asserts that forestry means the propagation and care of forests for the production of timber as a crop; protection of watersheds; utilization of non agricultural soil; use of forests for public recreation. It declares that forestry is of immense importance to the people; that the latest available figures show that the forests annually supply over $1,500,000,000 worth of products; employ 830,000 people; pay $440,000,000 in wages, and that they cover 550,000,000 acres of land unsuited for agriculture; regulate the distribution of water; prevent erosion of lands, and are essential to the beauty of the country and the health of the Nation. It recognizes that forestry is an industry limited by economic conditions; that private owners should be aided and encouraged by investigations, demonstrations, and educational work, since they cannot be expected to practise forestry at a financial loss; that Federal and State Governments should undertake scientific forestry upon National and State forest reserves for the benefit of the public. It devotes its influence and educational facilities to the development of public thought and knowledge along these practical lines.

The membership of the association is 16,500 in every State in the Union, in Canada and all over the world. The subscribing membership is $3 a year; contributing membership $10 a year; sustaining membership $25 a year, and life membership $100. Members receive each month the *American Forestry Magazine* which contains articles pertaining to trees, forests, and birds.

President—Charles Lathrop Pack, Lakewood, N. J. *Treasurer*—John E. Jenks, Washington, D. C.
Executive Secretary and Editor-in-Chief—Percival S. Ridsdale, Washington, D. C.

FOREIGN COINS VALUED IN UNITED STATES MONEY.

(Proclaimed by the Secretary of the Treasury October 1, 1918.)

COUNTRY.	Legal Standard.	Monetary Unit.	Value in Terms of U. S. Money.	Remarks.
Argentine Rep..	Gold.....	Peso.....	$0.9648	Currency: Depreciated paper, convertible at 44 per cent. face value; exchange rate, $0.475.
Austria-Hung'y	Gold.....	Crown.....	.2026	Greatly depreciated; no quotations.
Belgium.....	Gold, silver	Franc.....	.1930	Member of Latin Union; gold is standard.
Bolivia.....	Gold.....	Boliviano.....	.3893	12½ bolivianos equal 1 pound sterling.
Brazil.....	Gold.....	Milreis.....	.5462	Currency: Government paper; exchange rate, 23 cents to a milreis.
Brit. Colonies, Austr. & Africa	Gold.....	Pound sterling....	4.8665	
Canada.....	Gold.....	Dollar.....	1.0000	
Cent. America:				
Costa Rica....	Gold.....	Colon.....	.4653	Exchange rate $0.25 = 1 colon.
Brit. Honduras	Gold.....	Dollar.....	1.0000	
Nicaragua....	Gold.....	Cordoba.....	1.0000	Exchange rate $1.00 = 1.01 cordobas.
Guatemala....	Silver....	Peso.....	.7234	Currency: Inconvertible paper; exchange rate 40 pesos = $1.00.
Honduras....	Silver.....	Peso.....	.7234	Currency: Bank notes; exchange rate about $0.55.
Salvador.....	Silver.....	Peso.....	.7234	Cur'ncy: Convert. into silver; exch. rate $0.40.
Chile.....	Gold.....	Peso.....	.3650	Currency: Inconvert. paper; exchange rate $0.32.
China.....	Silver...	Tael. Halkwan (customs).	1 2066	The tael is a unit of weight, not a coin. The customs unit is the Halkwan tael. The values of other taels are based on their relation to the value of the Halkwan tael.
		Dol.. Yuan.....	.7771	The Yuan silver dollar of 100 cents is the monetary unit of the Chinese Republic; it is equivlent to .644+ of the Halkwan tael.
		Dol.. British....	.7800	
		Dol.. Mexican...	.7857	
Colombia.....	Gold.....	Dollar.....	.9733	Currency: Government paper and gold; exchange rate 1.04 pesos to $1 gold.
Cuba.....	Gold.....	Peso.....	1.0000	
Denmark.....	Gold.....	Crown.....	.2680	Exchange rate $0.306 = 1 crown.
Ecuador.....	Gold.....	Sucre.....	.4867	Exchange rate $0.36 = 1 sucre.
Egypt.....	Gold.....	Pound (100 piast's)	4.9431	Standard is British pound sterling, legal tender for 97½ piasters.
France.....	Gold, silver	Franc.....	.1930	Member Latin Union; gold is actual standard. Exchange value $0.1828.
German Empire	Gold.....	Mark.....	.2382	Greatly depreciated; no quotation.
Great Britain..	Gold.....	Pound sterling....	4.8665	Exchange value $4.754.
Greece.....	Gold, silver	Drachma.....	.1930	Member of Latin Union; gold is standard.
Hayti.....	Gold.....	Gourde.....	.2500	Currency: Inconvert. paper: exch. rate $0.183.
India (British).	Gold.....	Rupee.....	.3244	(15 rupees equal 1 pound sterling.)
Italy.....	Gold, silver	Lire.....	.1930	Mem. Lat. Un'n; gold, stand.; exch. val., $0.1575.
Japan.....	Gold.....	Yen.....	.4985	Exchange value $0.5545.
Liberia.....	Gold.....	Dollar.....	1.0000	Cur'ncy: Deprec. silv. coins. Customs dut's in gold.
Mexico.....	Gold.....	Peso.....	.4985	Exchange value $0.535.
Netherlands...	Gold.....	Florin.....	.4020	Exchange value $0.4825.
Newfoundland.	Gold.....	Dollar.....	1.0000	
Norway.....	Gold.....	Crown.....	.2680	Exchange rate $0.308 = 1 crown.
Panama.....	Gold.....	Balboa.....	1.0000	
Paraguay.....	Silver.....	Peso.....	.7648	Currency: Deprec. paper; exch. rate 3,500 per cent.
Persia.....	Gold.... Silver...	Achreh..... Kran.....	.0959 .1332	Silver circulating above its metallic value; exchange value of silver kran $0.179.
Peru.....	Gold.....	Libra.....	4.8665	
Philippine Isls..	Gold.....	Peso.....	.5000	
Portugal.....	Gold.....	Escudo.....	1.0805	Currency: Inconvert. paper; exch. rate $0.62.
Roumania.....	Gold.....	Leu.....	.1930	
Russia.....	Gold.....	Ruble.....	.5146	Exchange rate $0.12 = 1 ruble.
Santo Domingo.	Gold.....	Dollar.....	1.0000	
Serbia.....	Gold.....	Dinar.....	.1930	
Siam.....	Gold.....	Tical.....	.3709	
Spain.....	Gold, silver	Peseta.....	.1930	Valuation is for gold peseta; currency, notes of Bank of Spain; exchange value $0.23.
Sweden.....	Gold.....	Crown.....	.2680	Exchange rate $0.335 = 1 crown.
Switzerland....	Gold.....	Franc.....	.1930	Mem. Lat. Un.; gold, stand'd; exch. value $0.225.
Turkey.....	Gold.....	Piaster.....	.0440	100 piasters equal to the Turkish £.
Uruguay.....	Gold.....	Peso.....	1.0342	Exchange rate $1.00 = 0.805 pesos.
Venezuela.....	Gold.....	Bolivar.....	.1930	

The coinage for the fiscal year ended June 30, 1918, included no gold pieces. The other coinage was as follows: Silver half dollars, 24,105,440 ($12,052,720); silver quarters, 45,223,400 ($11,305,850); silver dimes, 116,458,800 ($11,645,880); five cent nickels, 82,723,278 ($4,136,163.90); bronze pennies, 445,628,201 ($4,456,282.01). Also, there were coined for the Philippines: Silver 50-centavo pieces, 2,502,166; silver 20-centavos, 6,255,656; silver 10-centavos, 8,210,519; nickel 5-centavos, 3,000,000; bronze 1-centavos, 12,500,000.

The total gold coinage of the world in 1913 was 15,494,784 ounces ($320,305,619); in 1914 it was 12,025,303 ounces ($248,585,071); in 1915 it was 8,896,237 ounces ($183,901,541).

The world's silver coinage: 1913, 155,497,316 ounces ($201,047,035); 1914, 192,501,238 ounces ($248,890,489); 1915, 201,459,815 ounces ($260,473,296).

ANNUAL PRICE OF SILVER IN LONDON.

· Commercial values of silver for single years may be ascertained by multiplying fine ounces by annual average prices of silver as shown under "Prices."

For 1915 figures of the previous year are repeated for those countries from which no returns were received.

The totals are those of the Director of the Mint, but do not represent the footings of the respective columns, as that official, for the period from 1871 to 1885, employs Soetbeer's averages upon a somewhat different basis from that used in this table.

VALUE AND WEIGHT OF GOLD.

(By the United States Assay Office, New York.)

THE unit in weighing gold is the troy ounce. A "fine" ounce means an ounce of pure gold. The mint value of gold does not fluctuate, but remains constant at $20.67183462 per fine ounce. Troy measure is used in weighing gold. The grain is the same in both troy and avoirdupois measure, but the ounce and the pound are not the same. The troy ounce contains 480 grains and the troy pound 5,760 grains, there being 12 ounces to the pound. The troy pound is never used in weighing gold, even when the weights of large quantities are to be computed. The avoirdupois ounce contains 437½ grains and the avoirdupois pound contains 7,000 grains, there being 16 ounces to the pound.

UNITED STATES GOLD AND SILVER PRODUCTION, 1792-1917.

(The estimate for gold and silver for 1792-1873 is by R. W. Raymond, Commissioner of Mining Statistics, and since by Director of the Mint.)

MONETARY SYSTEM OF THE UNITED STATES.

(Revised by the Director of the Mint.)

GOLD COIN—Weight, 25.8 grains to the dollar; fineness, 900-1000, unlimited as to issue; denominations, $2.50, $5, $10, $20; legal tender, unlimited; receivable for all public duties; exchangeable for gold certificates and subsidiary and minor coin.

STANDARD SILVER DOLLARS—Weight, 412.5 grains; fineness, 900-1000; ratio to gold, 15.988 to 1; coinage ceased in 1905; legal tender, unlimited, unless otherwise contracted; receivable for all public duties; exchangeable for silver certificates and smaller coins.

SUBSIDIARY SILVER COIN—Weight, 385.8 grains to the dollar; fineness, 900-1000; ratio to gold, 14.953 to 1. Limit of issue, needs of the people. Denominations 10 cents, 25 cents, 50 cents; legal tender not to exceed $10; receivable for all dues up to $10; exchangeable for minor coin; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

MINOR COIN—Weight 5 cent piece, 77.16 grains, 75 per cent. copper, 25 per cent. nickel; 1 cent piece, 48 grains, 95 per cent. copper, 5 per cent. tin and zinc; limit of issue, needs of the people; legal tender not to exceed 25 cents; receivable for all dues up to 25 cents; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

GOLD CERTIFICATES—Limit of issue for gold bullion to two-thirds of the amount of gold certificates outstanding; for gold coin, unlimited, unless gold coin reserve against United States notes (greenbacks) falls below $100,000,000; denominations, $10, $20, $50, $100, $500, $1,000, $5,000, $10,000; gold certificates are not a legal tender; receivable for all public dues; redeemable in gold coin at the Treasury.

SILVER CERTIFICATES—Unlimited as to issue for standard silver dolars; denominations, $1, $2, $5, $10, $20, $50, $100; not a legal tender; receivable for all public dues; redeemable in sliver dollars at the Treasury.

UNITED STATES NOTES—Limit of issue, $346,681,016; denominations, $1, $2 $5, $10, $20, $50, $100, $500, $1,000; legal tender for all debts, public and private, except Customs and interest on the public debt; receivable for all public dues; redeemable in gold at the Treasury.

TREASURY NOTES OF 1890—No further issues; volume steadily diminishing by redemption in silver dollars; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; legal tender, unlimited, unless otherwise contracted; receivable for all public dues; redeemable in gold or silver dollars at the Treasury.

NATIONAL BANK NOTES—Limit of issue not to exceed capital of banks; denominations, $5, $10, $20, $50, $100, $500, $1,000; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE BANK NOTES—Limit of issue unlimited, except by the required security, and by the discretion of the Federal Reserve Board; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE NOTES—Limit of issue same as Federal Reserve Bank notes; denominations, $5, $10, $20, $50, $100, $500, $1,000, $5,000, $10,000; not a legal tender; receivable for all public dues; redeemable in gold at the Treasury, and in gold or "lawful money" at any Federal Reserve Bank.

PATRIOTIC ORDER SONS OF AMERICA.

State Camp of New York. *State President*—Lee J. Fuller, 213 South Third Avenue, Mount Vernon. *State Vice-President*—Henry Swartz, 51 Chambers Street, New York City. *State Secretary*—Dr. A. P. Yelvington, 28 Lewis Street, Binghamton. *National Prestident*—William J. Heaps, Baltimore, Md.

FEDERAL RESERVE DISTRICTS.

The boundaries, 1917 population, and June 29, 1918, banking resources of the 12 Federal Reserve Districts are as follows, the location of the F. Res. Bank in each district being in parenthesis:

District No. 1 (Boston)—The New England States: Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut (except Fairfield County).
Pop., 6,963,987. Bank resources, $1,813,836,000.

District No. 2 (New York)—The State of New York, and the New Jersey counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Passaic, Somerset, Sussex, Union, and Warren, and also Fairfield, Ct.
Pop., 13,111,816. Bank resources, $7,887,878,000.

District No. 3 (Philadelphia)—The State of Delaware; the State of New Jersey (including only the counties of Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Mercer, Ocean, and Salem); and all of Pennsylvania lying east of the western boundaries of the counties of McKean, Elk, Clearfield, Cambria and Bedford.
Pop., 6,632,611. Bank resources, $1,659,153,000.

District No. 4 (Cleveland)—The State of Ohio; the State of Pennsylvania west of Dist. No. 3; in West Virginia the counties of Marshall, Ohio, Brooke, Hancock, Wetzel, and Tyler; and all of Kentucky lying east of the western boundary of the counties of Boone, Grant, Scott, Woodford, Jessamine, Garrard, Lincoln, Pulaski, and McCreary.
Pop., 9,314,762. Bank resources, $2,239,511,000.

District No. 5 (Richmond)—The District of Columbia; the States of Md., Va., N. C., S. C.; and all of W. Va. not in Dist. No. 4.
Pop., 9,278,461. Bank resources, $978,007,000.

FEDERAL RESERVE BOARD—*Continued.*

District No. 6 (Atlanta)—The States of Alabama, Georgia, and Florida; all that part of Tennessee located east of the western boundary of the following counties: Stewart, Houston, Wayne, Humphreys, and Perry; all that part of Mississippi located south of the northern boundary of the following counties: Issaquena, Sharkey, Yazoo, Kemper, Madison, Leake, and Neshoba; and all of Louisiana south of the Parish of Avoyelles, and east of the western boundaries of the parishes of Pointe Loupe, Iberville, Assumption, and Terrabonne.
Pop., 10,055,640. Bank resources, $785,005,000.

District No. 7 (Chicago)—The State of Iowa; in Wisconsin the counties of Adams, Brown, Calumet, Clark, Columbia, Crawford, Dane, Dodge, Door, Fond du Lac, Grant, Green, Green Lake, Iowa, Jackson, Jefferson, Juneau, Kenosha, Kewaunee, Lafayette, Langlade, Manitowoc, Marathon, Marinette, Marquette, Milwaukee, Monroe, Oconto, Outagamie, Ozaukee, Portage, Racine, Richland, Rock, Sauk, Shawano, Sheboygan, Vernon, Walworth, Washington, Waukesha, Waupaca, Waushara, Winnebago, Wood; all of the southern peninsula of Michigan, viz., that part east of Lake Michigan; all of that part of Illinois located north of a line forming the southern boundary of the following counties: Hancock, Schuyler, Cass, Sangamon, Christian, Shelby, Cumberland, and Clark; and all that part of Indiana north of a line forming the southern boundary of the following counties: Vigo, Clay, Owen, Monroe, Brown, Bartholomew, Jennings, Ripley, and Ohio .
Pop., 14,154,175. Bank resources, $3,212,305,000.

District No. 8 (St. Louis)—The State of Arkansas; all that part of Missouri located east of the western boundary of the following counties: Harrison, Daviess, Caldwell, Ray, Lafayette, Johnson, Henry, St. Clair, Cedar, Dade, Lawrence, and Barry; all that part of Illinois not included in Dist. No. 7; all that part of Indiana not included in Dist. No. 7; all that part of Kentucky not included in Dist. No. 4; all that part of Tennessee not included in Dist. No. 6; and all that part of Mississippi not included in Dist. No. 6.
Pop., 9, 291,698. Bank resources, $945,401,000.

District No. 9 (Minneapolis)—The States of Mont., N. Dak., S. Dak., Minn.; in Wisconsin the counties of Ashland, Barron, Bayfield, Buffalo, Burnett, Chippewa, Douglas, Dunn, Eau Claire, Florence, Forest, Iron, La Crosse, Lincoln, Oneida, Pepin, Pierce, Polk, Price, Rusk, St. Croix, Sawyer, Taylor, Trempealeau, Vilas, Washburn; all that part of Michigan not in Dist. No. 7.
Pop., 5,164,426. Bank resources, $864,405,000.

District No. 10 (Kansas City)—The States of Kan., Neb., Col. and Wyo.; all of Missouri not in Dist. No. 8; in Oklahoma all the counties except Atoka, Bryan, Choctaw, Cool, Johnston, McCurtain, Marshall, and Pushmataha; and all that part of New Mexico north of a line forming the southern boundary of the following counties: McKinley, Sandoval, Santa Fe, San Miguel, and Union.
Pop., 7,404,443. Bank resources, $1,249,684,000.

District No. 11 (Dallas)—The State of Texas; all that part of New Mexico not included in Dist. No. 10; all that part of Oklahoma not included in Dist. No. 10; all that part of Louisiana not included in Dist. No. 6; and the following counties in the State of Arizona: Pima, Graham, Greenlee, Cochise, and Santa Cruz.
Pop., 5,637,290. Bank resources, $674,315,000.

District No. 12 (San Francisco)—The States of California, Washington, Oregon, Idaho, Nevada, and Utah, and all that part of Arizona not included in Dist. No. 11.
Pop., 6,631,164. Bank resources, $1,384,578.
Total pop., 12 districts, 103,640,473. Total bank resources, $23,694,078,000.

FEDERAL FARM LOAN BANK'S CONDITION.

(As of April 30, 1918, at close of first year's business.)

THE report covers the whole twelve banks.

EARNINGS.	*Dollars.*
Interest accrued on mortgage loans...	1,573,344.26
Interest received on bank balances and bonds and securities and premiums received on farm loan bonds sold...	301,433.62
Fees for appraisal and determination of title and other miscellan's earnings..	297,534.80
Total earnings.....	2,172,312.68
Less deductions (interest charges):

Borrowers through agents.....	10,240.00
Individual subscribers.....	107,870.00
Total.....	13,594,895.00
Farm loan bonds: Total issued.....	83,750,000.00
Less bonds on hand not sold or pledged.....	359,675.00
Tot. farm loan bonds outstand'g	83,390,325.00
Accr. int. on farm loan bonds....	950,444.94
Total.....	84,340,769.94
United States Government deposits..	4,250,000.00
Bills payable (money and bonds bor'd)	580,000.00
Accounts payable (due to bor's, def'd paym's on loans in proc. of closing)	1,597,340.38
Other liabilities.....	406,418.78
Total liabilities.....	104,769,424.10

FEDERAL RESERVE BANKING SYSTEM

THE banking and currency law, known as the Federal Reserve Act, was approved December 23, 1913, and amended June 21, 1917.

Under the system known as the National Banking System, which was inaugurated at the latter end of the Civil War, the National banknote currency was based upon Government bonds deposited in the Treasury, and the currency thus issued has been classed by economists as bond-secured currency. This plan was evolved not only to nationalize and unify the currency, which had theretofore consisted of notes issued by State banks, but as well to create a market for United States bonds, and in this way to sustain their value. It was entirely successful for the latter purpose, but has outworn its usefulness as a banking system because of its entire want of elasticity.

The Federal Reserve Act is the result of a long discussion by statesmen, financiers, economists and bankers, and is a constructive measure based upon and growing out of many bills which have been introduced within the past twenty years. Under it twelve cities, known as Federal Reserve cities, are established, and the (continental) United States is divided into twelve geographical districts, each district containing one of the reserve cities. The twelve districts and their respective reserve cities are as follows:

Dist. No. 1...	Boston, Mass.	Dist. No. 5...	Richmond, Va.	Dist. No. 9..	Minneapolis, Minn.
Dist. No. 2...	New York, N. Y.	Dist. No. 6...	Atlanta, Ga.	Dist. No. 10..	Kansas City, Mo.
Dist. No. 3...	Philadelphia, Pa.	Dist. No. 7...	Chicago, Ill.	Dist. No. 11..	Dallas, Tex.
Dist. No. 4...	Cleveland, Ohio.	Dist. No. 8...	St. Louis, Mo.	Dist. No. 12..	San Francisco, Cal.

There are branches of Federal Reserve banks in the following cities: Cincinnati, Pittsburgh, Baltimore, New Orleans, Birmingham, Jacksonville, Detroit, Louisville, Omaha, Denver, El Paso, Seattle, Spokane, Portland, Ore., Salt Lake City.

Every National bank is required to become a stockholder in the Federal Reserve bank of the district in which it is situated, and any State bank or trust company which complies with certain specified requirements is permitted to become a member bank. There were (June 29, 1918) 7,732 National Banks in the United States which have thus been required to become member banks, and 523 State institutions had become members.

The largest district, Chicago, has 1,167 member banks. The smallest, Boston, has 415.

Each member bank is required to subscribe to the stock of the Federal Reserve bank of its district in the amount equal to 6 per centum of its paid-up capital stock and surplus. The Federal Reserve bank does not do business with the public in the sense that banks usually do; it may better be described as a bank of banks. It is made a depositary for a certain proportion of the reserve of all the member banks, and in addition may also be a depository for Government funds.

Each Federal Reserve bank has nine directors, three of whom represent the member banks, three represent commercial, agricultural or other industrial pursuit (these six being chosen by the member banks), and finally three Government directors chosen by the Federal Reserve Board. These nine directors are charged with the duty of appointing all necessary officers, including the active manager of the bank, who is designated as its Governor.

The salary of the members of this board is $12,000 per annum each, which salaries, together with all other expenses of operating the system, are assessed against the Federal Reserve banks.

The paid-in capital and surplus of the Reserve banks (June 28, 1918), was:

DISTRICT NO.	Capital.	Surplus.	DISTRICT NO.	Capital.	Surplus.
1 (Boston)	$6,474,000	$75,000	8 (St. Louis)	$3,607,000	.....
2 (New York)	19,846,000	649,000	9 (Minneapolis)	2,802,000	$38,000
3 (Philadelphia)	6,939,000	.....	10 (Kansas City)	3,532,000	.....
4 (Cleveland)	8,561,000	.....	11 (Dallas)	2,991,000	.....
5 (Richmond)	3,824,000	116,000	12 (San Francisco)	4,448,000	.....
6 (Atlanta)	3,045,000	40,000			
7 (Chicago)	9,789,000	216,000	Total	$75,858,000	$1,134,000

THE MORRIS PLAN.

THE Morris Plan of industrial loans and investments—named for its originator, Arthur J. Morris—has been in operation in Norfolk, Va., since March, 1910, and to-day is operated in 104 cities throughout the country. Loans are usually made in the amount of $50 or multiples thereof. They are based on character and earning capacity, and are secured only by the borrower's note indorsed by two co-makers. If a loan is granted a small fee is charged toward the cost of investigation, and the note is discounted at the legal rate of interest. At the same time the borrower subscribes for one or more of the lending company's certificates of investment for an amount equal to his loan, and in purchase thereof pays $1.00 a week for fifty weeks on each $50 borrowed. At the end of the year he can cash in his certificate, and with the money thus obtained redeem his note. To encourage the habit of saving, Morris Plan companies sell certificates of investment, either for cash or on the instalment plan, to others than borrowers. These certificates begin to bear interest at 4 per cent. when twenty-five payments have been made, and at 5 per cent. when they are full paid. Holders of interest-bearing certificates can borrow on them, without indorsements or other securities, an amount equal to the total payments they have made in purchase of the certificates. At the close of the year 1918 over $88,500,000 had been lent to about 600,000 borrowers on the Morris Plan in sums averaging about $135. The subscribed capital of Morris Plan companies exceeds $12,450,-000. The largest auxiliary institutions are The Morris Plan Co. of New York, 261 Broadway, of which Henry R. Towne is President, and The Chicago Morris Plan Bank, each capitalized at $1,000,000.

These companies are organized throughout the United States by the Industrial Finance Corporation (52 William Street, New York), which has a subscribed capital of $3,700,000. Officers—Clark Williams, President; Arthur J. Morris, Vice-President; Charles H. Sabin, Treasurer; Joseph B. Gilder, Secretary.

From March 23, 1910, to September 30, 1918, Morris Plan loans throughout the country numbered 545,500, and amounted to more than $79,000,000. In New York City alone, in less than four years, ended September 30, the number was 84,286 and the amount $11,773,779. More than 216,000 persons, firms, and corporations of small means are borrowing at the rate of $36,000,000 annually on The Morris Plan.

NATIONAL BANK RESOURCES, AUGUST 31, 1918.

According to the Comptroller of the Currency, the resources of the national banks of the United States August 31, 1918, were $18,043,605,000, as against $16,144,403,000 on May 1, 1917; loans and discounts, $9,493,000,000; total deposits, $13,885,000,000, a reduction of $135,000,000 since June 29, 1918, but an increase of $651,000,000 over September 11, 1917; bills payable and re-discounts, $1,294,000,000; holdings of United States bonds and certificates of indebtedness, $2,455,000,000; cash on hand and due from Federal Reserve banks, $1,671,000,000. The cash which the national banks had on hand and with Federal Reserve banks on August 31, 1918, plus their holdings of United States bonds and certificates of indebtedness, amounted to $4,127,309,000. This amount, after deducting the United States bonds held as a basis for circulation, is nearly 25 per cent. of the total deposits of all the national banks, but allowance should be made for that portion of the bonds and certificates of indebtedness pledged against bills payable and re-discounts.

NEW YORK CLEARING HOUSE ASSOCIATION.

THE Association is now composed of 28 national banks, 13 State banks, and 15 trust companies. The Federal Reserve Bank of New York, and the Assistant Treasurer of the United States at New York, also make their exchanges at the Clearing House. The Clearing House Collection Department also exchanges at the Clearing House, making 59 clearing institutions. There are 19 banks and trust companies in the city and vicinity, not members of the Association, which make their exchanges through banks that are members, in accordance with constitutional provisions.

President—Gates W. McGarrah, President Mechanics & Metals National Bank. *Secretary*—Theodore Hetzler, President Fifth Avenue Bank. *Manager*—William J. Gilpin. *Assistant Manager*—Clarence E. Bacon. *Department of Inspection and Examination*—Charles A. Hanna, Examiner. *Conference Committee*—Richard Delafield, President National Park Bank; Charles A. Boody, President Peoples Trust Company; Walter H. Benuett, Vice-President American Exchange National Bank; Harvey D. Gibson, President Liberty National Bank; Charles Elliot Warren, President Lincoln National Bank. *Nominating Committee*—Willard V. King, President Columbia Trust Company; Herbert K. Twitchell, President Chemical National Bank; John McHugh, Vice-President Mechanics & Metals National Bank; Herbert P. Howell, Vice-President National Bank of Commerce; Henry Ollesheimer, President Metropolitan Bank. *Committee on Admissions*—John W. Platten, President United States Mortgage & Trust Co.; Walter M. Bennet, Vice-President Bank of America; Henry H. Powell, President Importers & Traders National Bank; Edward E. Watts, President Fifth National Bank; G. Foster Smith, President Nassau National Bank. *Arbitration Committee*—Ruel W. Poor, President Garfield National Bank; John T. Sproull, President Coal & Iron National Bank; Edwin P. Maynard, President Brooklyn Trust Company; Theodore E. Burton, President Merchants National Bank; Louis G. Kaufman, President Chatham & Phoenix National Bank.

NATIONAL WEALTH.

ESTIMATES of National wealth depend upon the theory behind the estimate. They vary considerably for that reason. In some countries, where the income of the nation is the basis of calculation, it is multiplied sometimes by 5, sometimes by as much as 7, to produce a total expressive of national wealth. Most countries found their calculation on the total valuation of all forms of property without regard to income therefrom. This is the custom in the United States. In Germany, France, and other European countries, foreign investments by the inhabitants are included in the total of property valuations. The argument against basing estimates of National wealth on income is that when crops, for example, are scarce, they rise in price out of proportion to their scarcity and give, for that and other fundamental reasons, a false notion of actual permanent national wealth. In 1900, 1904, and 1912 the Census Bureau at Washington estimated the national wealth of the United States on the following basis:

FORM OF WEALTH.	1904.	1912.	FORM OF WEALTH.	1904.	1912.
	Dollars.	*Dollars.*		*Dollars.*	*Dollars.*
Real property taxed	55,510,247,564	98,362,813,569	Priv. owned waterw'ks.	275,000,000	290,000,000
Real property exempt	6,831,244,570	12,313,519,502	Priv. owned central electric lt and pwr. stat's.	562,851,105	2,098,613,122

Pull. and private cars	123,000,000	123,362,701			
Shipping and canals	846,489,804	1,491,117,193	Grand total	107,104,211,917	187,739,071,090
Irrigation enterprises		360,865,270			

Including live stock on farms and ranges and in cities and towns.

United States National wealth in previous years: (1850), $7,135,780,000; (1860), $16,159,616,000; (1870), $30,068,518,000; (1880), $43,642,000,000; (1890), $65,037,091,000; (1895), $77,000,000,000; (1900), $88,517,306,775.

An unofficial estimate of the National wealth of the United States, as of December 31, 1917, was $220,000,000,000.

There has been no official Census appraisal of United States National wealth since 1912, but the Department of Commerce's estimate for 1916 was $228,000,000,000. In 1918 the Research Division of the Bureau of Foreign and Domestic Commerce, of the Department of Commerce, made the following statement:

UNITED STATES.

POPULATION.		NAT'L WEALTH.		PUBLIC DEBT.		GOVERNMENT FINANCE.			
Year.	Number	Year.	Dollars.	Date.	Amount.	Year.	Revenue.	Expend'ure.	D'bt chgs.

NOTES: United States—Estimates of the national wealth are by the United States Bureau of the Census. No estimate of income has been made. Figure of debt for June 30, 1917, includes $85,000,000 of loans to the Allies; the figure for November 30, 1917, includes $3,164,129,750 of such loans. The revenue includes $2,428,017,300 raised by borrowing; expenditure includes $677,544,782 of redemptions of public debt and $885,000,000 of loans to Allies. Debt charges represent interest on public debt.

France—Census figures of population are given for 1911, and an official estimate for 1913; later estimates not available. The two estimates of wealth are unofficial. The first is by A. de Lavergne et Paul Henry, in *La Richesse de la France*, Paris, 1908, who estimated the wealth of France at 225,000,000,000 francs, and the national income at 22,500,000,000 to 27,500,000,000 francs. The figure of income here given is a mean of the two amounts. The other estimate of wealth is quoted from an Argentine publication (287,000,000,000 francs). The figure of debt for May 31, 1917, is an estimate by the *Economiste Europeen* of September 7, 1917. The expenditure for 1916 is "authorized expenditure." The figures for 1917 are given as cabled here on February 18, 1918: official figures are not available. The data of revenue, expenditure, and debt charges for 1918 are budget figures, the expenditure representing civil expenditure only, as the war expenditure cannot be forecasted. The franc has been converted at the rate of 19.3 cents. The deficit in revenues for 1918 is to be made good by new taxation and increase of existing rates.

United Kingdom—The figure of population for 1915 is an estimate of the number of civilians on June 30, 1915. Later estimates not available. The estimate of wealth and income for 1905 is by L. G. Chiozza Money; that for 1903 is by Sir Robert Giffen in "The Wealth of the Empire and How It Should Be Used." The estimate for 1908, giving 13,770,000,000 pounds sterling, is quoted in an Argentine publication by Dr. Alejandro E. Bunge. The figures of public debt and expenditure include advances to Allies and British Dominions which amounted to 1,260,000,000 pounds sterling or $6,131,790,000, on September 29, 1917. Actual revenue and expenditure are shown. The pound sterling has been converted at the rate of $4.8665.

National wealth of other nations—Argentina (1916), $13,865,000,000; Denmark (1900), $2,000,000,000; Germany (1908), $83,000,000,000; Russia in Europe, $60,000,000,000; Italy, $20,000,000,000; Belgium, Serbia, Roumania, $15,000,000,000; Austria-Hungary, $55,000,000,000; Turkey, Bulgaria, $4,000,000,000. The figures for Russia and countries following that in the list were compiled by Prof. E. L. Bogart for the Carnegie Endowment for International Peace.

MOTOR CAR LAWS OF THE VARIOUS STATES.

MOTOR LAWS AS NOW WRITTEN

Compiled and issued, October 1, 1918, by the A. A. A. Touring Board, Riggs Building, Washington, D. C. Carl G. Fisher, Chairman, A. G. Sciler, Secretary.

STATE.	Registration and Fees for Passenger Cars and How Applied.	If Taxed as Personal Property.	Driving License.	Non-Resident.	License Plate (1st col. b'kgr'd, 2d color figures.)	Speed and Lights.
ALA....	Annually according to insurable horse-power. Payable to Probate Judge of county of residence. State registration record kept by State Board of Equalization, Montgomery, October 1st. To 24 H. P. $7.50; to 29 H. P. $12.50; to 39 H. P. $17.50; to 40 H. P. and over $20. Electrics $12.50. Half fee after April 1st. 40 per cent. to incorporated cities, otherwise to county. 60 per cent. to State.	Registration in lieu of all taxes but does not prevent the collection of an advalorem tax.	Chauffeur — Driving cars for hire—$5 annually; renewal $2.50. Badge provided. Local Ordinances prohibited.	Exempt for period granted by visitor's State—entire year or fraction thereof	Light Gray with Dark Blue letters. 1919 D. Green with white letters and figures, beginning October 1st, 1918. One license plate furnished for rear of car.	Reasonable and proper, not exceeding 30. Slow down, sound horn at cross roads. No State law covering non-glare lights. When approaching or passing horse or animal which appears badly frightened such persons shall cause the motor to cease running so long as shall be reasonably necessary to prevent accident and insure the safety of others. If necessary for the public safety a motor vehicle shall be brought to full stop when approaching a street car which has been stopped for passengers.
ARIZ...	Annually Secretary of State, Phoenix. 25 H. P. and less $5; to 40 H. P. $10; over 40 H. P. $15. Half fee after July 1. N. A. C. C. rating. $25 for administration, balance to State road fund.	Personal property.	None required for private individuals. $5 perpetual — for hire cars and employees only.	Exempt six months with home State tag.	Gray background — Blue letters and figures.	Reasonable and proper. Built up sections 10, elsewhere in cities and towns 15, outside municipalities 30. Local ordinances prohibited unless signs are placed. No State law covering non-glare lights or lights on horse-drawn vehicles.
ARK...	Annually, Com. State Lands, Highways and improvements. Little Rock. $10. All funds to State Treasurer.	Personal property.	Chauffeur $1. annually. Badge provided.	Exempt for period granted by visitor's State—entire year or fraction thereof.	Front and rear.	Reasonable and proper. Built-up sections 15; outside municipalities 20. No State law covering non-glare lights on horse-drawn vehicles.
CAL....	Annually, Motor Vehicle Dept., Sacramento. 40c per H. P. Trailers $2. Electrics $5. April 1 to June 30, three-fourths fee; July 1 to Sept. 30, one-half; Oct. 1 to Dec. 31, one-fourth. N. A. C. C. rating. To Motor Vehicle fund; construction and maintenance of County and State roads. Fines to municipal improvements.	Personal property.	Chauffeurs $2 annually; renewal $1. Badge provided. Operators $2 perpetual. Operators and chauffeurs must carry license certificates.	Exempt three months with home tags but must register with Motor Vehicle Dept. 24 hours after operating vehicle in State. No charge for permit.	Front and rear. White - Blue. New seal to be attached to plates each year.	Reasonable and proper, not to exceed 30. Built-up sections 20; business districts 15. Crossings and curves, etc., 15. Headlight rays shall not rise more than 42 inches above level surface at 75 feet ahead. Light required on horse-drawn vehicles. Local ordinances prohibited.
COL....	Annually, Sec. of State, Denver. Up to 20 H. P. $2.50; up to 40 H. P. $5; over 40 H. P. $10. Manufacturer's rating. Half to State road fund and half to County road fund.	Personal property	Chauffeur $1 annually. Badge furnished.	Exempt 90 days with home State tags. No fee.	Rear Black—White.	Reasonable and proper, no specified rate. State law requires non-glare lights, also lights on horse-drawn vehicles. City and county ordinances prohibited.

CONN..	Annually, Com. Motor Vehicles, Hartford. 50c per H. P., N. A. C. C. rating. Registration fees are chargeable from 1st day of month on which application is received. All fees to Highway Com. for use on State highways.	Personal property.	Owners and chauffeurs $2, for each year or fraction thereof. All driving licenses expire on the last day of February of each year. Examination for operator's license $2 (does not apply to renewal.)	Exempt entire year or fraction thereof. Operators must be over 18 years.	Front and rear. White—Green. No more than one set shall be displayed.	Reasonable and proper. Maximum 30. 20 through thickly settled. Curves, etc., 10. Passing cars, 5. Mirrors required when view of highway to rear is obstructed. State law requires that headlights shall not cast beams higher than 42 inches above ground at 85 feet in front of car. Spot lights must not shine beyond 30 feet in front and must cast rays to right of center of road. No local ordinances permitted.
DEL....	Annually, Sec. of State, Dover. $2 for every 500 lbs. or fraction thereof, gross weight. This includes weight of passengers, 125 lbs. Half fee after Sept. 1. All fees from registration paid into State Treasury for use of State Highway Dept.	Registration in lieu of all taxes.	Owners and chauffeurs $3; family $8 annually.	Exempt for period granted by visitor's State—entire year or fraction thereof. Special license to foreigners upon recommendation of A. A. A.	Front and rear. Brown—White.	Reasonable and proper. Built-up sections 15; curves, etc., 7½; in thinly settled section 12; elsewhere 25. State law requires non-glare lights on motor vehicles; must be properly coated, dimmed or deflected so as not to blind or dazzle.
DIST. OF COL....	District of Columbia Automobile Board, Washington, D. C. $3 for 24 H. P. or less; $5 for every 24 H. P. and not over 30 H. P.; $10 for over 30 H. P. N. A. C. C. rating. Registration year begins Jan. 1. Deposited in the U. S. Treasury to the credit of the District of Columbia.	Personal property.	Owners and chauffeurs $2 perpetual.	Exempt for same period granted by visitor's State, entire year or fraction thereof (except Maryland).	Yellow with black letters and figures. Rear.	Outside fire limits 20; fire limits 12, except 8 at crossings; 6 around corners; 4 at certain street car intersections. Must stop if within 15 feet of street cars loading or discharging passengers. District law requires non-glare lights, also lights on horse vehicles.
FLA....	Annually, Comptroller of the State, Tallahassee. Seating capacity of 5 or less, $5; 25 to 40 H. P., $12; 40 to 60 H. P., $15; over 60 H. P., $30. Any type seating 10 or more $100. N. A. C. C. rating. One-half fee after June 30. Fees to State Treasury; 15 per cent. for maintenance of State road dept., 85 per cent. to maintenance of State and State aid roads and bridges.	Personal property.	Chauffeur, annually $2. Half after July 1. Badge furnished.	Exempt for period granted by visitor's State—entire year or fraction thereof.	Front and rear. For 1918. Black—White. For 1919, Orange—Black.	Reasonable and proper. Maximum 25, Excess of 25 for one-eighth mile prima facie evidence of speed greater than reasonable and proper. Curves, crossings, etc., 10. Passing cars 3. Headlight rays must not shine above 48 inches at 200 ft. in front of car. Dimmers where used must be applied when within 200 feet of approaching vehicle.
GA.....	Annually, on or before March 1, Sec. of State, Atlanta. To 25 H. P. $3; to 40 H. P. $4; over 40 H. P. $5. Half fee after July 31. N. A. C. C. rating. Deduction for administration; balance apportioned among the counties on the basis of proportioned road mileage. 15 per cent. max. allowed for admin.; balance to State road fund, county apportionment.	Personal property.	Chauffeurs $2 annually, March 1. After July 31, $1. Badge provided.	Exempt 30 days with home State tags.	Rear. 1918 Green—Black; 1919 White—D. Blue.	Reasonable and proper, not to exceed 30; curves, bridges, etc., 10. Stop for standing street cars. No State law covering non-glare lights or lights on horse vehicles.

MOTOR CAR LAWS OF THE VARIOUS STATES—*Continued.*

STATE.	Registration and Fees for Passenger Cars and How Applied.	If Taxed as Personal Property.	Driving License.	Non-Resident.	License Plate (1st col. b'kgr'd, 2d color figures.)	Speed and Lights.
IDAHO.	Annually, Sec. of State, Highway Commissioner, Boise. Through county assessors, 2,000 lbs. or less, $15; to 3,000 lbs. $20; to 4,000 lbs. $30; over 4,000 lbs. $40. One-third off for machines owned or used for 5 years. One-half fee after Aug. 1; one-fourth after Nov. 1. 25 per cent. to State highway fund; 75 per cent. to County highway fund.	Registration in lieu of all taxes.	Chauffeur $2, annually. Badge provided.	Exempt for period granted by visitor's State—entire year or fraction thereof.	Front and rear, both for 1918, Brown—White. For 1919 D. Green—Yellow.	Careful and prudent, not exceeding 30. No State law covering non-glare lights or lights on horse vehicles.
ILL....	Annually, Sec. of State, Springfield. To 10 H. P. $4.50; to 25 H. P. $6; to 35 H. P. $9; to 50 H. P. $16; over 50 H. P. $20. Electrics up to 2 tons $10, reduced 25 per cent. quarterly. Increase in fees after Jan. 1, 1920. All fees to special road fund for use in improvement of State highways.	Personal property.	Chauffeur $5, renewal $3. Badge provided. Examination required. Owner's certificate free.	Exempt 60 days with home State tags, and reciprocity.	Front and rear. Gray with Blue figures.	Reasonable and proper. Built-up sections 10; residential 15. Elsewhere in cities 20; outside cities 25; curves, etc., 6. No local ordinances permitted. Headlights must be dimmed when within 250 feet from approaching vehicle.
IND....	Annually, Sec. of State, Indianapolis. To 25 H. P. $5; to 40 H. P. $8; to 50 H. P. $15; over 50 H. P. $20. One-half fee after August 1. All fees to State Treasury for road fund, less admin.	Personal property.	Chauffeur $2, annually. Photograph required. Badge provided to be worn conspicuously.	Exempt 60 days with home State tags.	Front and rear. Green—Black.	Reasonable and prudent. Built-up sections 10; towns and villages, residential sections 15; where view is obstructed 6; elsewhere 25. Local ordinances prohibited. Headlight rays must be diffused so as not to dazzle. Spotlight must not shine on passing vehicles.
IOWA..	Annually, Jan. 1, Sec. of State, Des Moines. To 20 H. P. $8; above 20 H. P. at rate of 40c per H. P. Penalty of 10 per cent. added if not paid by April 1 and 5 per cent. each month thereafter. Machines used for four years registered at half fee. 90 per cent. to counties; 10 per cent. to cities and towns for street connecting with country roads less 5 per cent. for admin. All remaining funds to county motor vehicle road fund.	Registration is in lieu of all taxes.	None required.	Exempt with home tags, provided home State grants reciprocity.	Front and rear, plates assigned for 3 years but fees payable annually. Dark Green—Cream.	Careful and prudent. Over 25 presumptive evidence of carelessness. No lighting device over 4 c. p. unless designed so that beams shall not rise above 42 inches at 75 feet in front of car. Spot lights not to shine in face of driver of approaching vehicle.
KAN...	Annually, July 1, County Treas., who forwards copy to Sec. of State, Topeka, $5. Less than 6 months, half rate. 50c each application to admin.; balance to counties and townships for road maintenance.	Personal property.	None.	Exempt 30 days with home State tag.	Rear Cream—Green.	Reasonable and proper, not over 40. Excess of 40 presumptive evidence in case of accident. Municipalities 12, curves, etc., 8; street intersections 6. Cities may regulate speed. State law requires non-glare lights. No State law for lights on horse vehicles. Spot lights must not shine on approaching vehicle.
KY.....	Annually, Com. Motor Vehicles, Frankfort. To 24 H. P. $6; to 49 H. P. $11; 50 H. P. and over $20. Proportionate reduction when cars are purchased after Jan. 1. All fees go to State road fund.	Personal property. Some cities charge registration fee.	Chauffeur $2, renewal annually $1. Badge for chauffeurs and demonstrators. Owners not required.	Exempt for period granted by visitor's State—entire year or fraction thereof.	Front and rear. Black—Yellow.	Reasonable and proper, not to exceed 20. Built-up sections 10; residential 15, curves, etc., 8. Stop for street cars. No headlights required on horse vehicles. Headlights must be arranged so that direct beams shall not rise at greater height than 42 inches at 75 feet in front of car.

LA.....	Annually, Secretary of State, Baton Rouge. 25 cents per H. P. minimum of $5, after August 1, one-half fee. N. A. C. C. rating. All fees paid pro rata to Parishes for construction and maintenance, less admin.	Personal property.	No State fee, local regulation.	Exempt for period granted by visitor's State—entire year or fraction thereof, if home State tag is displayed.	Front and rear. No vehicle shall display plates of more than one State at any time.	Reasonable and prudent. No State law covering non-glare lights or lights on horse vehicles.
ME.....	Annually, Sec. of State, Augusta. To 15 H. P. $5; to 35 H. P. $10; over 35 H. P. $15. N. A. C. C. rating. After Oct. 1, one-half fee. All fees to Treas. of State for repair, maintenance and construction of highways under direction of State highway commissioner.	Personal property.	Owners and chauffeurs $2, annually.	Exempt 30 days with home State tag.	Front and rear. White—Green. For 1919, Maroon-White.	Reasonable and proper. Not over 25 in open country. 15 for municipalities. Reduce speed at warning signs. State law requires that no bulb in any headlight shall be greater c. p. than 24. The glass shall be frosted or so arranged that no direct ray shall be higher than 42 inches at 75 feet ahead of vehicle. Spot lights must be turned off when vehicle is in motion and shall not be turned toward any approaching vehicle.
MD....	Annually, Commissioner of Motor Vehicles, Baltimore. 60c per H. P. deducted at the rate of one-fourth for each quarter year. N. A. C. C. rating. Transfer of ownership, etc., fee of $1 plus additional H. P. on quarterly basis. Fees go to State highway maintenance and repair, less 20 per cent. to Baltimore City, less admin. costs.	Personal property.	Operators $2 perpetual; chauffeurs $3 annually; instruction $1. Examination to all applicants.	Exempt for period granted by visitor's State—entire year or fraction thereof—(except District of Columbia.)	Front and rear. D. Gray—White.	Reasonable and proper; not to exceed 35, but above 25 is prima facie evidence of unsafe driving. Built-up sections 15, outlying sections 20. Reduce for curves. Regulations rigidly enforced. Do not pass cars at crest of hills. Do not pass standing street cars. No headlight shall be over 4 c. p. unless arranged so that light shall not rise over 42 inches at 75 feet in front of car. In cases of new registration, license fee is reduced $1 per month from April, i. e. a car registered in the month of April is charged $10 for registration fee and $9 for license for the remainder of the year; in May $10 registration and $8 license. In June $10 registration and $7 license, etc. Once registered the annual license fee is $10. Should license plates become defaced or lost a charge of $2 is made for new ones. No charge made for transferring license from one party to another	Personal property.	Chauffeur's license is $5, annually. Badge provided.	Touring permit granted for sixty days free. Automobiles must be registered with Supt. Provincial Police upon entering province. No fee.	Black background with Yellow figures.	Reasonable and proper. Open country 25 miles per hour. Wooded country 15. Municipalities 15. Stop back of street cars receiving or discharging passengers. No searchlight or intermittent flashlight to be carried on automobiles.

N. A. C. C. Horse-power Rating—The standard rating (formerly A.L.A.M.) has been adopted by the National Automobile Chamber of Commerce, Inc. The formula adopted is $D^2xN—2.5$. *D* is the cylinder bore in inches, *N* the number of cylinders, and 2.5 a constant based on the average view of eminent engineers as a fair conservative rating for a four-cycle motor at 1,000 feet per minute piston speed.

ENGLISH DERBY WINNERS—1780-1918.

YR.	Horse.	Owner.	Jockey.

FENCING.

Amateur Fencers' League of America Championships were not held in 1918 owing to the war. The Intercollegiate Championships, a few dual meets and some open competitions composed the season's schedule. Result:

Intercollegiate Championships held at New York, March 23. Team scores—Columbia won 13, lost 5 bouts; Yale won 9, lost 9; Pennsylvania won 5, lost 13. Individual Championship—won by Javier Horcasitan, of Chihuahua, Mexico, representing Columbia, who won all six bouts.

DUAL MEETS.

February 20—New York, N. Y. Columbia, 7; New York Turn Verein, 2.

February 24—New York, N. Y. Columbia, 5; Yale, 4.

March 1—Philadelphia, Pa. Columbia, 5; Pennsylvania, 0.

March 2—Annapolis, Md. Navy, 5; Columbia, 4.

March 9—Annapolis, Md. Navy, 6; Pennsylvania, 3.

March 16—Annapolis, Md. Navy, 7; Yale, 2.

DOG RACING.

The important Alaska dog races scheduled for 1918 were declared off owing to the war, many of the leading teams and drivers being engaged in special war service abroad. The various stake purses will be allowed to accumulate and added to the money put up when the events are resumed.

Wanderer, Commodore E. Steiner	16.15.00	15.31.00
Iliad, S. F. Miller	21.45.20	16.06.14

ROWING.

YALE VS. HARVARD—VARSITY EIGHTS.

YALE and Harvard eights have rowed fifty races, beginning in 1852 on Lake Winnepesaukee at two miles, when Harvard won. In 1855 the course was changed to Springfield and lengthened to three miles. Lake Quinsigamond was the scene for nine years, and Lake Saltonsall for 1869. After an interval of seven years the crews in 1876-77 went to Springfield, Mass., when the four-mile course was inaugurated. In 1878 the crews changed again to New London, Ct. The records:

1915-16-17-18, no races held. 1906, September 8, Cambridge beat Harvard University, U. S. A. (P. to M.), 19 minutes 18 seconds. * On March 30, 1912, in attempting the race, both boats were swamped, and the race was declared void.

Many of the best college oarsmen in Great Britain were killed in the progress of the war or else were so severely wounded as to be put permanently out of commission.

INTERCOLLEGIATE REGATTA.

Rowed at Poughkeepsie, N. Y., on the Hudson. Results since 1900:

VARSITY EIGHT-OARED—FOUR MILES.

June 30, 1900—Pennsylvania, 19m. 44 3-5s.; Wisconsin, 19m. 46 2-5s.; Cornell, 20m. 4 1-5s.; Columbia, 20m. 8 1-5s.; Georgetown, 20m. 19 1-5s.

July 2, 1901—Cornell, 18m. 53 1-5s. (record); Columbia, 18m. 58s.; Wisconsin, 19m. 6 4-5s.; Georgetown, 19m. 21s.; Syracuse, 19m. 49s.; Pennsylvania, 19m. 58 1-5s.

June 21, 1902—Cornell, 19m. 5 3-5s.; Wisconsin, 19m. 13 3-5s.; Columbia, 19m. 18 3-5s.; Pennsylvania, 19m. 26s.; Syracuse, 19m. 31 2-5s.; Georgetown, 19m. 32s.

June 26, 1903—Cornell, 18m. 57s.; Georgetown, 19m. 27s.; Wisconsin, 19m. 29 2-5s.; Pennsylvania, 19m. 36 2-5s.; Columbia, 19m. 54 4-5s.

June 28, 1904—Syracuse, 20m. 22 3-5s.; Cornell, 20m. 31 1-5s.; Pennsylvania, 20m. 42s.; Columbia, 20m. 45 2-5s.; Georgetown, 20m. 52 2-5s.; Wisconsin, 21m. 1 1-5s.

June 29, 1905—Cornell, 20m. 29 2-5s.; Syracuse, 21m. 47 2-5s.; Georgetown, 21m. 49s.; Columbia, 21m. 53 4-5s.; Pennsylvania, 21m. 59 4-5s.; Wisconsin, 22m. 6 1-5s.

June 23, 1906—Cornell, 19m. 36 4-5s.; Pennsylvania, 19m. 43 4-5s.; Syracuse, 19m. 45 1-5s.; Wisconsin, 20m. 13 4-5s.; Columbia, 20m. 18 3-5s.; Georgetown, 20m. 36s.

June 26, 1907—Cornell, 20m. 2 3-5s.; Columbia, 20m. 4s.; Annapolis, 20m. 13 4-5s.; Pennsylvania, 20m. 33 2-5s.; Wisconsin, Georgetown, Syracuse.

June 27, 1908—Syracuse, 19m. 34 1-5s.; Columbia, 19m. 35 1-5s.; Cornell, 19m. 39s.; Pennsylvania, 19m. 52 3-5s.; Wisconsin, 20m. 43 4-5s.

July 2, 1909—Cornell, 19m. 2s.; Columbia, 19m. 4 2-5s.; Syracuse, 19m. 15 1-5s.; Wisconsin, 19m. 24 1-5s.; Pennsylvania, 19m. 32 1-5s.

June 25, 1910—Cornell, 20m. 42 1-5s.; Pennsylvania, 20m. 44 1-5s.; Columbia, 20m. 54 1-5s.; Syracuse, 21m. 1 3-5s.; Wisconsin, 21m. 15 3-5s.

June 27, 1911—Cornell, 20m. 10 4-5s.; Columbia, 20m. 16 4-5s.; Pennsylvania, 20m. 33s.; Wisconsin, 20m. 34s.; Syracuse, 21m. 3 2-5s.

June 29, 1912—Cornell, 19m. 31 3-5s.; Wisconsin, 19m. 35 2-5s.; Columbia, 19m. 41s.; Syracuse, 19m. 47s.; Pennsylvania, 19m. 55s.; Stanford, 20m. 25s.

June 21, 1913—Syracuse, 19m. 28 3-5s.; Cornell, 19m. 31s.; Washington, 19m. 33s.; Wisconsin, 19m. 36s.; Columbia, 19m. 38 1-5s.; Pennsylvania, 20m. 11 1-5s.

June 26, 1914—Columbia, 19m. 37 4-5s.; Pennsylvania, 19m. 41s.; Cornell, 19m. 44 1-5s.; Syracuse, 19m. 59 2-5s.; Washington, 20m. 1 3-5s.; Wisconsin, 20m. 20s.

June 28, 1915—Cornell, 19m. 36 3-5s.; Leland Stanford, 19m. 37 4-5s.; Syracuse, 19m. 43 3-5s.; Columbia, 20m.; Pennsylvania, 20m. 10 1-5s.

June 17, 1916—Syracuse, 20m. 15s.; Cornell, 20m. 22 4-5s.; Columbia, 20m. 41 1-5s.; Pennsylvania, 20m. 52 4-5s.

1917-18, no races on account of war.

For previous results in varsity four-oared, junior eight-oared and freshman eight-oared races see 1917 ALMANAC.

BEST INTERCOLLEGIATE RECORDS.

Varsity eight-oared, four-mile race: Cornell, July 2, 1901, 18m. 53 1-5s. Varsity four-oared, two-mile race: Cornell, June 28, 1915, 10m. 1-5s. Freshman eight-oared, two-mile race: Cornell, July 2, 1909, 9m. 11 3-5s.

DUAL AND TRIANGULAR REGATTAS.

April 20—Annapolis, Md. 1 5-16 miles—Pennsylvania (2 lengths), 7m. 56½s.; Navy, ——; Pennsylvania Freshmen (2 lengths), 8m. 16½s.; Navy First Year Crew, ——.

April 20—Princeton, N. J. 1 5-16 miles—Princeton Freshmen (2 lengths); Philadelphia Central High School, second; Princeton Freshmen Second Crew, third.

April 27—Princeton, N. J. 1 7-8 miles—Harvard (1 length), 9m. 57s.; Princeton, 10m.; Harvard Freshmen (2 lengths), 10m. 6s.; Princeton Freshmen, 10m. 12s.

May 4—Princeton, N. J. 1 7-8 miles—Child's Cup Race, Pennsylvania (5 lengths); Columbia, second; Princeton, third. No time taken. Freshmen Race, 1 5-16 miles—Pennsylvania, 6m. 54s.; Princeton Freshmen, ——.

May 11—Philadelphia, Pa. 1 5-16 miles—Pennsylvania (4 lengths), 6m. 55s.; Yale, 7m. 12s. Freshmen Race—Pennsylvania (1 length), 7m. 14s.; Yale, 7m. 18 1-5s.

May 18—Princeton, N. J. 1 1-8 mile—Princeton Freshmen (1 length); Asheville, N. C. School. No time taken.

May 18—Annapolis, Md. 2 miles—American Henley, Navy (1 length), 11m. 26s.; Pennsylvania, 11m. 30s.; Columbia,——. Freshmen Race—Syracuse (½ length), 11m. 49s.; Navy, 11m. 51s.; Pennsylvania, 12m. 13s.

May 25—Princeton, N. J. 1 7-8 miles—Princeton (¼ length), 9m. 51s.; Cornell, 9m. 52s. Freshmen Race—Cornell (5 lengths), 10m. 7s.; Princeton, 10m. 29s.

May 28—Boston, Mass. 1 7-8 miles—Yale Second Crew (½ length), 10m. 2s.; Harvard Second Crew, 10m. 4s. Freshmen Race—Harvard (1½ lengths), 10m. 7s.; Yale, 10m. 15s.

June 1—Derby, Ct. 2 miles—Harvard (2 lengths), 10m. 58s.; Yale, 11m. 4s. Rowed in place of usual four-mile varsity race, held at New London, Ct.

June 1—Ithaca, N. Y. 1 5-16 miles—Cascadilla School defeated Stone School (Boston), by four lengths.

July 4—Boston, Mass. Thirty-second Annual Regatta New England Amateur Rowing Association. Results: Junior singles—Won by Stanley Dunham, West Lynn Boat Club; J. Shea, Riverside B. C., second; F. M. Curran, Rockrimmon B. C., third; John E. Geough, Metropolitan B. C. of New York, fourth. Time—10m. 2½s. Senior singles—Won by John J. Sullivan, St. Alphonsus B. C.; Carey Faulkner, Riverside B. C., second; Peter Scanlon, West Lynn B. C., third; G. H. Cumming, Lakeside B. C., fourth; Archie Mosher, Crescent C. C., fifth. Time—10m. 37s. Junior doubles—Won by West Lynn B. C. (T. O'Malley

ROWING—*Continued.*

and Stanley Dunham); M. I. T. (J. Falkenberg and E. Murdough), second. Time—10m. 20s. Junior eight-oared shells—Won by West Lynn B. C. (James Walsh, Joseph Cremer, Joseph Furrier, T. Grace, J. O'Connor, J. McBride, D. O'Leary, J. Walsh, Henry Wall, coxswain); Farraguts of Lynn, second. Time—9m. 19s. Race for cutters—Won by Radio First Crew (port stroke, Everett; starboard stroke, Younberg; Oady, Bell, Moyer, Maransey, Watson, Marlin, Beaney, Cavacau, with Chief Yeoman Southland, coxwain); Second Radio Crew, second; Third Radio Crew, third. Time—8m. 30s.

NEW YORK ROWING ASSOCIATION REGATTA.

Held at New York City (Harlem River), May 30. Summaries: Single shells—Won by George Froelich, Metropolitan Rowing Club; Albert Kalbac, First Bohemian B. C., second; D. Andras, Active B. C., reported to starter too late. Froelich's time—6m. 41 1-5s.; Kalbac's time—6m. 42 2-5s. Quadruple sculls—Won by Metropolitan Rowing Club; Nonpareil Rowing Club, second. Time—5m. 43 2-5s. Nonpareil's time—5m. 43 4-5s. High School double gigs—Won by Morris H. S. (H. Bruckner, 1; Dennis Mulligan, 2); Stuyvesant H. S. (Irving Kolansky, 1; Elmer Rubinstein, 2), second. Time not taken. High School eights—Won by New Rochelle H. S. (J. Schoop, 1; H. Octavet, 2; A. Benton, 3; G. Gray, 4; L. Green, 5; A. Aimone, 6; M. Le Count, 7; A. Hall, stroke; G. Valentine, coxswain); Stuyvesant H. S. (James F. Nilan, Jr., 1; W. Schoenfeidt, 2; William Coleman, 3; Paul Steinborn, 4; Matthew McKeon, 5; Hugh Rubinstein, 6; Hugo Tuter, 7; Ernest Wacher, stroke; Roy Brown, coxswain). Time—5m. 12 1-5s. Stuyvesant's time—5m. 15 2-5s. Naval cutters—Won by Pelham Bay Naval Training Station (J. Robinson, port stroke; D. DeNike, 4; J. Belasco, 3; J. Jorgrimsen, 2; H. Jete, bow; A. Holm, starboard stroke; C. Leidhimer, 4; W. Urbanski, 3; N. Bach, 2; S. Rando, bow; J. Montrose, coxswain); Granite State (Maloney, port stroke; Moore, 4; Blue, 3; Collins, 2; Beckley, bow; Atkins, starboard stroke; Berger, 4; Elsworth, 3; Klein, 2; Sposato, bow; Carey, coxswain), second; Pelham Bay No. 4 Crew, third; Granite State No. 1 Crew, fourth. Time—7m. 6 1-5s. Four-oared barge—Won by Woodcliffe Boat Club (G. Birrell, stroke; R. Warner, 3; E. Linholm, 2; L. Palmer, bow; E. Ford, coxswain); Active Boat Club (D. Andras, stroke; R. Pearsall, 3; N. Reiners, 2; E. Nickelsen, bow; J. Gunther, coxswain). Time—6m. 47 3-5. Actives' time—6m. 51 4-5.

YACHTING.

THE continuation of the European war prevented any effort toward holding the race for the America's Cup, originally scheduled for the Autumn of 1914. Sir Thomas Lipton's challenging yacht, Shamrock IV., remained in drydock at the Erie Basin, Brooklyn, N. Y., and neither the Resolute nor Vanitie, defending candidates, have been in commission since 1915. There was considerable activity in yachting circles along the Atlantic Coast and on the Great Lakes, races between the smaller type of craft being the feature of the Atlantic season. A record of the trial races between the Resolute and Vanitie during the season of 1915 is appended for reference purposes: Fifteen trials between the Resolute and the Vanitie were sailed, and the Resolute won on July 3 by 1m. 8s.; on July 7 by 1m. 6s.; on July 9 the Vanitie discontinued owing to the breaking of a gaff; on July 10 by 3m. 31s.; on July 13 by 4m. 16s.; on July 15 by 13s.; on July 17 by 26m. 12s.; on July 27 by 3m. 57s.; on August 5 by 1m. 36s. (corrected time, the Vanitie making 28s. faster actual time); on August 7 by 20m. 18s.; on August 10 by 4m. 15s., and on August 11 by 3m. 59s. The Vanitie defeated the Resolute on July 5 by 4m. 11s.; on August 3, the Resolute meeting with an accident, and on August 6 by 10m. 55s.

INTERNATIONAL RACES FOR THE AMERICA'S CUP.

DATE.	American Yacht.	Time. H. M. S.	English Yacht.	Time. H. M. S.	Result. M. S.

RACQUETS, SQUASH, ETC.

Few championships were played for in these departments of sport during 1918. Fillmore Van S. Hyde won the final round of the National Squash Tennis Association Championship Tournament at New York, February 7, defeating J. Victor Onativia, jr., 15—8, 15—4, 15—10. Dr. H. S. Mixsell won the Class B Championship at New York, March 9, defeating F. Jenkins, 5—15, 15—9, 15—9, 15—8, in the final round. Charles C. Peabody won the Massachusetts Patriotic Tournament at Boston, February 16, defeating W. V. Greenough, 15—3, 13—15, 15—10, 15—12.

COLLEGE ATHLETICS.

I. C. A. A. A. A.

THE annual Intercollegiate Amateur Athletic Association of America Championship Track and Field games were resumed in 1918, being held at Franklin Field, Philadelphia, May 31 and June 1. Results: won by Cornell with 47 points; second, Pittsburgh, 30; third, Dartmouth, 26; fourth, Princeton, 19; fifth, Pennsylvania, 18; sixth, Massachusetts Tech., 13; seventh, Columbia, 12; eighth, Johns Hopkins, Lafayette and Pennsylvania State tied at 5 each; ninth, Amherst, 3½; tenth, Brown and Yale tied with 3 each; eleventh, Rutgers, 2½; twelfth, Harvard, 2; thirteenth, Swarthmore, 1.

Individual events, finals only: 100-yard dash—Won by W. H. Ganzemuller, Pennsylvania State; second, C. Hammond, Pennsylvania; third, F. Davis, Pennsylvania; fourth, T. W. Bossert, Massachusetts Tech.; fifth, H. E. Shackelton, Cornell. Time—10 1-5s. 220-yard dash—Won by C. Hammond, Pennsylvania; second, F. J. Shea, Pittsburgh; third, Fred Davis, Pennsylvania; fourth, T. W. Bossert, Massachusetts Tech.; fifth, R. E. Brown, Princeton. Time—21 3-5s. 120-yard hurdle—Won by C. R. Erdman, Princeton; second, W. Smith, Cornell; third, G. A. Trowbridge, Princeton; fourth, W. H. Cleminshaw, Cornell; fifth, E. N. Pratt, Cornell. Time—15 2-5s. 220-yard hurdles—Won by C. R. Erdman, Princeton; second, W. Smith, Cornell; third, W. H. Cleminshaw, Cornell; fourth, E. B. Bickford, Cornell; fifth, G. A. Trowbridge, Princeton. Time—24 2-5s. 440-yard run—Won by F. J. Shea, Pittsburgh; second, J. M. Murray, Dartmouth; third, M. Gustafsen, Pennsylvania; fourth, H. Staub, Columbia; fifth, W. J. Carto, Dartmouth. Time—47 3-5s. Two-mile run—Won by I. C. Dresser, Cornell; second, D. F. Peck, Cornell; third, W. K. Macmahon, Massachusetts Tech.; fourth, R. E. Spear, Cornell; fifth, C. S. Seelbach, Cornell. Time—9m. 42 4-5s. Half-mile run—Won by C. Shaw, Columbia; second, K. A. Mayer, Cornell; third, G. W. Albrecht, Pittsburgh; fourth, S. Bowden, Massachusetts Tech.; fifth, F. L. Abreu, Cornell. Time—1m. 56 4-5s. One-mile run—Won by W. G. Kleinspehn, Lafayette; second, G. F. Halfacre, Massachusetts Tech.; third, Perry Addleman, Pittsburgh; fourth, K. D. Maynard, Cornell; fifth, Royal Shephard, Columbia. Time—4m. 24s. Shop put—Won by W. C. Beers, Dartmouth, 45 ft. 1 1-4 in.; second, R. F. Cleveland, Princeton, 41 ft. 5 in.; third, T. Sinclair, Brown, 39 ft. 9 1-2 in.; fourth, J. B. Sutherland, Pittsburgh, 39 ft. 9 in.; fifth, Paul Chandler, Swarthmore, 38 ft. 3 1-2 in. Hammer throw—Won by J. B. Sutherland, Pittsburgh, 152 ft. 7 1-4 in.; second, L. H. Weld, Dartmouth, 135 ft. 3 1-4 in.; third, K. C. Bevan, Dartmouth, 127 ft. 1 in.; fourth, Ames Stevens, Harvard, 124 ft. 10 in.; fifth, J. R. Bangs, Cornell, 112 ft. 5 in. High jump—Won by M. Firor, Johns Hopkins, 5 ft. 11 3-8 in.; J. E. Hugus, Pittsburgh, and M. Anderson, Amherst, tied for second at 5 ft. 10 1-2 in.; fourth J. F. Moriarty, Dartmouth, 5 ft. 9 1-2 in.; fifth, N. C. Beers, Dartmouth, 5 ft. 8 1-2 in. Pole vault—Roy Easterday, Pittsburgh, and J. Z. Jordan, Dartmouth, tied for first place at 12 ft. 3 in.; Joseph Breckley, Rutgers, W. W. Webber, Yale, E. A. Myers, Dartmouth, and D. B. Ford, Yale, tied for third place at 12 ft. Broad jump—Won by R. K. Felter, Cornell, 22 ft. 6 in.; second, H. Schulte, Columbia, 22 ft. 3-4 in.; third, H. E. Shackelton, Cornell, 21 ft. 5 1-4 in.; fourth, W. Smith, Cornell, 21 ft. 4 1-2 in.; fifth, J. M. Summerill, Rutgers, 21 ft. 1-4 in.

The annual indoor meet was not held on account of the war.

BEST I. C. A. A. A. A. RECORDS.

Houser, Minnesota; second, McCosh, Chicago; third, Roney, Missouri; fourth, Nash, Wisconsin. Time—1m. 59 1-5s. One-mile run—Won by McCosh, Chicago; second, Crump, Wisconsin; third, Connelly, Michigan; fourth, Stone, Ames. Time—4m. 29 2-5s. Two-mile run—Won by Sedgwick, Michigan; second, Atkins, Purdue; third, Moore, Chicago; fourth, Crump, Wisconsin. Time—2m. 51s. 120-yard hurdles—Won by Johnson, Michigan; second, Jones, Depauw; third, Andrews, Wisconsin; fourth, Osborne, Missouri. Time—15 3-5s. Sylvester, Missouri and Gilfillan, Notre Dame, second and third, respectively, disqualified for knocking down three hurdles. 220-yard hurdles—Won by Johnson, Michigan; second, Sylvester, Missouri; third, Jones, Depauw; fourth, Gilfillan, Notre Dame. Time—24 4-5s. One-mile relay—Won by Wisconsin; second, Missouri; third, Chicago; fourth, Northwestern. Time—3m. 29 3-5s. Grenade throw—Illinois and Michigan tied for first and second with 61 hits out of a possible 75; Minnesota and Wisconsin tied for third and fourth with 45 out of 75. Wilson of Illinois, was the highest individual scorer with 25 hits, and Haigh of Michigan, second with 24. Discus throw—Won by Gilfillan, Notre Dame, 135 ft. 6 1-2 in.; Weiss, Illinois, second, 131 ft. 3 in.; Tanhouser, Minnesota, third, 121 ft. 1 in.; Baker, Michigan, fourth, 119 ft. 2 in. Javelin throw, free style—Won by Wilson, Illinois, 177 ft. 2 1-4 in.; Grossman, Chicago, second, 165 ft. 3 3-4 in.; Griffith, Ohio State, third, 164 ft. 11 in.; Weiss, Illinois, fourth, 162 ft. 2 1-4 in. Hammer throw—Won by Jordan, Purdue, 134 ft. 1 in.; Anderson, Illinois, second, 128 ft. 3 in.; Davis, Minnesota, third, 124 ft.; Pike, Illinois, fourth, 121 ft. 11 in. High jump—Won by Osborn, Missouri; Later, Michigan and Rice, Kansas, tied for second and third; Linn, Northwestern, fourth. Height 5 ft. 11 3-4 in. Running broad jump—Won by Johnson, Michigan, 23 ft. 11 1-4 in.; Lang, Illinois, second,

22 ft. 7 1-2 in.; Rice, Kansas, third, 22 ft. 3 in.; Kriedler, Illinois, fourth, 22 ft. 1 1-2 in. Pole vault—Won by Cross, Michigan, height, 12 ft.; Kiefer, Purdue, Lang, Illinois, and Erwin, Drake, tied for second, third and fourth. Height, 11 ft. 6 in. Shot put—Won by Glifillan, Notre Dame, 40 ft. 8 7-8 in.; Baker, Michigan, second, 40 ft. 8 1-4 in.; G. Houser, Minnesota, third, 40 ft. 6 1-2 in.; Bohn, American School of Osteopathy, fourth, 40 ft. 4 5-8 in.

BEST CONFERENCE RECORDS.

100-yard dash—9 4-5s., W. W. May, Chicago, June 1, 1907, and June 6, 1908, and J. Ward, Chicago, Urbana, Ill., June 5, 1915. 220-yard run around a turn—22s., William Hogenson, Chicago, June 3, 1905; H. J. Huff, Grinnell, June 1, 1907. Straightaway— 21 3-5s., J. Ward, Chicago, Urbana, Ill., June 5, 1915. 440-yard run—47 2-5s., Binga Dismond, Chicago, Evanston, Ill., June 3, 1916. 880-yard run—1m. 53 1-5s., Don Scott, Mississippi A. and A., Evanston, Ill., June 3, 1916. One-mile run—4m. 15 4-5s., E. H. Fall, Oberlin, Chicago, Ill., June 9, 1917. Two-mile run—9m. 33 2-5s., A. H. Mason, Illinois, Urbana, Ill., June 5, 1915. 120-yard high hurdles—14 3-5s., Robert Simpson, Missouri, Evanston, Ill., June 3, 1916. 220-yard low hurdles—23 4-5s., Robert Simpson, Missouri, Evanston, Ill., June 3, 1916. Pole vault—12 ft. 8 1-4 in., J. K. Gold, Madison, Wis., June 7, 1913. Running high jump—6 ft. 5-8 in., W. French, Kansas, June 4, 1910. Running broad jump—23 ft. 11 3-4 in., Carl Johnson, Michigan, Chicago, Ill., June 8, 1918. Putting 16-pound shot—47 ft. 1-4 in., Ralph Rose, Michigan, June 4, 1904. Throwing 16-pound hammer—160 ft. 4 in., K. Shattuck, California, Madison, Wis., June 7, 1913. Throwing the discus—155 ft. 2 in., A. M. Mucks, Wisconsin, Evanston, Ill., June 3, 1916. One-mile relay (4 men)—3m. 21 4-5s., Chicago (Campbell, Stegemann, Cornwall, Dismond), Urbana, Ill., June 5, 1915. Javelin throw—194 ft. 11 in., C. G. Higgins, Chicago, Ill., June 9, 1917.

YALE-HARVARD-PRINCETON MEET.

The first triangular track meet ever held between Yale, Harvard and Princeton was staged at New Haven, May 25. Point scores: Princeton 49 1-3, Yale 41 2-3, Harvard 13.

Summaries, finals only: 120-yard hurdles—Won by C. R. Erdman, Princeton; G. A. Trowbridge, Princeton, second; G. C. Buzby, Princeton, third. Time—15 3-5s. 100-yard dash—Won by S. A. Stewart, Princeton; R. E. Brown, Princeton, second; F.P.Heffelfinger, Yale, third. Time—10 2-5 s. One-mile run—Won by Capt. E. B. Fisher, Yale; E. E. Lucas, Harvard, second; W. L. Savage, Princeton, third. Time—4m. 36 3-5s. 440-yard dash—Won by J. H. Barrett, Princeton; F. P. Heffelfinger, Yale, second; P. E. Stevenson, Harvard, third. Time—50 4-5s. 220-yard dash—Won by C. R. Erdman, Princeton; G. A. Trowbridge, Princeton, second; G. C. Buzby, Princeton, third. Time—25s. High jump—Won by B. M. Brock, Princeton; T. Y. Lin, Yale, second; third place tie between S. Vanderbilt, Yale, L. S. Hitchcock, Yale, and W. Baird, Princeton. Height—5 ft. 8 1-2 in. Shot put—Won by R. Cleveland, Princeton; A. Stevens, Harvard, second; A. Vorys, Yale, third. Cleveland's throw, 39 ft. 8 1-4 in. Half-mile run—Won by H. W. Cheel, Yale; D. J. Duggan, Harvard, second; H. D. Costigan, Harvard, third. Time—2m. 1 4-5s. Two-mile run—Won by Krauss, Yale; J. S. Montgomery, Princeton, second; H. G. Waterman, Yale, third. Time—10m. 7s. Hammer throw—Won by A. Stevens, Harvard; A. Vorys, Yale, second; R. Thompson, Yale, third. Distance—110 ft. 11 in. Pole vault—Won by G. F. Sweeny, Yale; W. W. Webber, Yale, second; D. B. Ford, Yale, third. Height—12 ft. 220-yard dash—Won by J. H. Barrett, Princeton; F. G. Thompson, Yale, second; F. P. Heffelfinger, Yale, third. Time—22 2-5s. Broad jump—Won by D. B. Ford, Yale; E. W. Munsell, Princeton, second; H. E. Frey, Princeton, third. Distance—20 ft. 10 in.

NEW ENGLAND INTERCOLLEGIATE A. A. MEET.

Thirty-second annual meet held at Cambridge, Mass., May 17-18. Point scores: Mass. Tech. 74, Brown 25, Holy Cross and Bowdoin 13 each, Amherst 8, Williams and Wesleyan 6 each, Boston College 5, Tufts and Middlebury 2 each.

Summaries, finals only: 120-yard hurdles—Won by O. A. Mills, Mass. Tech.; A. Thompson, Bowdoin, second; M. E. Goodridge, Mass. Tech., third; K. E. Low, Amherst, fourth. Time—16 3-5s. 100-yard dash—Won by T. W. Bossert, Mass. Tech.; R. W. Mullane, Brown, second; R. J. Keeler, Wesleyan, third; J. B. Ormon, Mass. Tech., fourth. Time—10 1-5s. One-mile run—Won by James B. Goodwin, Bowdoin; W. A. Herzog, Mass. Tech., second; F. Jones, Middlebury, third; H. R. Dorr, Mass. Tech., fourth. Time—4m. 33s. 440-yard run—Won by T. H. Mahoney, jr., Holy Cross; G. Bawden, Mass. Tech., second; L. C. Wyman, Bowdoin, third; P. Scott, Mass. Tech., fourth. Time—50 3-5s. 220-yard dash—Won by R. H. Mullane, Brown; T. W. Bossert, Mass. Tech., second; A. Saunders, Tufts, third; C. A. Newton, Mass. Tech., fourth. Time—22 3-5s. 880-yard run—Won by G. G. McCarten, Mass. Tech.; G. Bawden, Mass. Tech., second; G. E. Westland, Mass. Tech., third; E. G. Van Hoesen, Williams, fourth. Time—2m. Two-mile run—Won by S. F. Halfacru, Mass. Tech.; W. K. McApon, Mass. Tech., second; R. C. Stimson, Wesleyan, third; J. F. McKenna, Holy Cross, fourth. Time—9m. 53 4-5s. 220-yard low hurdles—Won by O. A. Mills, Mass. Tech.; R. W. Besser, Brown, second; K. B. Low, Amherst, third; M. E. Goodridge, Mass. Tech., fourth. Time—26 4-5s. Pole vault—Won by M. F. Sheldon, Mass. Tech.; 10 ft. 6 in., A. S. Thoren, Brown, second; K. M. Wooden, Brown, third; A. H. Fletcher, Mass. Tech., fourth. Running broad jump—Won by A. F. Keiser, Williams; 20 ft. 9 1-4 in., H. C. Peters, Brown, second; I. H. Wilson, Mass. Tech., third; G. L. Reinacker, Brown, fourth. Running high jump—Won by M. Anderson, Amherst, 5 ft. 9 1-4 in.; H. Ash, Mass. Tech., second; H. C. Hierse, Mass. Tech., third; L. R. Bliss, Brown, fourth. Sixteen-pound shot put—Won by T. G. Dignan, Holy Cross, 39 ft. 4 1-2 in.; J. Sinclair, Brown, second; R. M. Anderson, Wesleyan, third; J. W. Keller, Mass. Tech., fourth. Sixteen-pound hammer throw—Won by T. McNamara, Boston College, 110 ft. 9 1-2 in.; F. L. Raymond, Mass. Tech., second; J. K. Donaghy, Holy Cross, third; N. D. Stewart, Bowdoin, fourth. Discus throw—Won by C. W. Drew, Mass. Tech., 117 ft. 8 in.; J. W. Keller, Mass. Tech., second; N. D. Stewart, Bowdoin, third; A. T. Hindmarsh, Brown, fourth.

UNIVERSITY OF PENNSYLVANIA RELAY CHAMPIONSHIPS.

Held at Franklin Field, Philadelphia, Pa., April 26-27.

Results, championship events only: South Atlantic Intercollegiate A. A. Championship, one-mile relay—Won by Johns Hopkins; second, Georgetown; third, Virginia Military Institution. Time—3m. 36 2-5s. Middle Atlantic States Conference A. A. Championship. one-mile realy—Won by Lafayette; second, Swarthmore; third, Dickinson; fourth, New York University. Time—3m. 36 4-5s. Two-mile College relay, Championship of America—Won by Mass. Tech. (Herzog, Westlund, Bowden, McCarten); second, Chicago (Feurstein, Green, Spear, McCosh); third, Pennsylvania (Brooks, Stauffer, Zutter, Clayton). Time 8m. 19 2-5s. One-mile, freshman, College Relay Championship of America—Won by Pennsylvania State (Parent, Schollar, Grimes, Denning); second, Pennsylvania; third, Syracuse. Time—3m. 31 3-5s. One-mile Preparatory School Relay Championship of America—Won by Hill School, Pottstown, Pa.; second, Mercersburg, Mercersburg, Pa.; third, Exeter, Exeter, N. H.; fourth, St. Benedict's, Newark, N. J. Time—3m. 31s. One-mile High School Relay Championship of America—Won by Baltimore Poly Institution; second, Washington (D. C.) Central; third, Newark (N. J.) Central. Time—3m. 35 3-5s. One-mile relay, Army and Navy—Won by Camp Dix (Anderson, Finch, Kelley, Berry); second, Pelham Bay Naval Station; third, Charleston, S. C., Naval Station. Time—3m. 31 2-5s. One-mile College Relay Championship of America—Won by Pittsburgh (Speck, Peters, Albrecht, Shea); second, Missouri; third, Pennsylvania; fourth, Pennsylvania State. Time—3m. 29 1-5s. Four-mile College Relay Championship of America—Won by Iowa State College (Ried, Cromer, Stone,

COLLEGE ATHLETICS—*Continued*

Hawthorne); second, Columbia; third, Pennsylvania; fourth, Lafayette. Time—18m. 53 4-5s.

PENTATHLON EVENTS.

200-Metre Race—Won by Bechtel, Lafayette; time, 22 3-5s.; second, Haddock, Kansas, 23 1-5s.; third, tie, Shea, Dartmouth, and Demming, Pennsylvania State, 23 4-5s.; fifth, Bartels, Pennsylvania, 24s. Fourteen starters. Discus throw—Won by Bartels, Pennsylvania, 113 ft. 10 1-4 in.; second, Robeson, Rutgers, 112 ft. 4 1-2 in.; third, Shea, Dartmouth, 102 ft. 3 1-2 in.; fourth, Chandler, Swarthmore, 101 ft. 8 3-4 in.; fifth, Hammond, Univ. of South, 96 ft. 7 1-2 in.; sixth, Emery, Pennsylvania State, 96 ft. 1 1-2 in. 1500-metre race—Won by Bechtel, Lafayette; second, Shea, Dartmouth; third, Hammond, Univ. of South; fourth, Haddock, Kansas; fifth, Emery, Pennsylvania State; sixth, Bartels, Pennsylvania. Time, 4m. 56 3-5s. Throwing Javelin—Won by Bartels, Pennsylvania, 142 ft. 3 in.; second, Chandler, Swarthmore, 139 ft. 11 in.; third, Emery, Pennsylvania State, 139 ft.; fourth, Hammond, Univ. of South, 137 ft. 6 in.; fifth, Robeson, Rutgers; sixth, Wilthenn, Rutgers; seventh, Shea, Dartmouth. Fourteen starters. Broad jump—Won by M. B. Haddock, Kansas, 20 ft. 3 1-2 in.; second, J. Bartels, Pennsylvania, 20 ft. 2 1-2 in.; third, T. Farrell, Lafayette, 20 ft. 1-4 in.; fourth, Shea, Dartmouth, 20 ft.; fifth, Bechtel, Lafayette, 19 ft. 11 in.; sixth, Hammond, Univ. of South, 19 ft. 10 1-4 in.; seventh, Gilfillan, Notre Dame, 19 ft. 9 in. Fifteen starters.

Point Score—Bartels, 15; Shea, 19; Haddock, 24; Hammond, 25; Brechtel. 26; Emery, 30.

DUAL AND TRIANGULAR MEETS.

March 16—Michigan defeated Chicago, 52 points to 20 (indoor), at Ann Arbor. Mich.

April 14—Stanford defeated California, 69 points to 53, at Stanford, Cal.

April 20—Georgia Tech., 62 points, Davidson, 32. Sewanee, 16, Mississippi, 5, at Atlanta, Ga.

April 27—Wisconsin defeated Ripon College, 95 1-2 points to 56 1-2, at Ripon, Wis.

May 1—Lafayette defeated Stevens, 81 points to 31, at Easton, Pa.

May 4—Navy defeated Lehigh, 98 1-3 points to 5 2-3, at Annapolis, Md. Illinois defeated Notre Dame, 69 2-3 points to 56 1-3, at Champaign, Ill. Princeton defeated Columbia, 66 1-2 points to 41 1-2, at Princeton, N. J. Holy Cross defeated Springfield Y. M. C. A. College, 77 points to 49, at Springfield, Mass. Indiana defeated Depauw, 85 to 55, at Bloomington, Ind. Harvard freshmen defeated Andover Academy, 60 to 48, at Andover, Mass. Cornell defeated Massachusetts, 82 to 44, at Ithaca, N. Y.

May 8—Swarthmore defeated Haverford, 68 to 36, at Swarthmore, Pa. Holy Cross defeated Tufts, 79 to 47, at Worcester, Mass. Massachusetts defeated Harvard, 67 to 50, at Cambridge, Mass. Lafayette defeated Muhlenberg, 79 to 33, at Easton, Pa.

May 11—Georgetown defeated Johns Hopkins, 102 to 85, at Baltimore, Md. Pittsburgh defeated Navy, 73 1-3 to 43 2-3, at Annapolis, Md. Columbia defeated Brown, 64 to 53, at Providence, R. I. Minnesota defeated Wisconsin, 72 to 71, at Minneapolis, Minn. Dartmouth won the Connecticut Valley Intercollegiate Meet with 88 points; Holy Cross 29; Springfield Y. M. C. A. College 6, and Rensselaer Polytechnic 3, at Springfield, Mass. Georgetown Univ. won the South Atlantic track and field meet with 102 points, Johns Hopkins 85, at Baltimore, Md. Columbia defeated Brown, 64 to 53, at Providence, R. I. Wabash defeated Franklin, 74 to 39, at Crawfordsville, Ind. Notre Dame defeated Michigan Agri. College, 84 1-2 to 35 1-5, at South Bend, Ind. Stevens defeated New York Univ., 62 to 50, at New York, N. Y. Yale freshmen defeated Princeton freshmen, 52 1-2 to 51 1-2, at Princeton, N. J. Williams defeated Union, 71 1-3 to 45 2-3, at Schenectady, N. Y. Lafayette defeated Lehigh, 74 to 36, at Easton, Pa. Mercersburg won the Princeton meet with 48 5-6 points; Hill 48 1-3; Bethlehem Prep. 14 1-4; Lawrenceville 7 1-4; St. Benedict's 7; Blair 4 1-3; Pedle 4; Allentown Prep. 3; at Princeton, N. J. Cornell defeated Pennsylvania freshmen, 75 to 42, at Philadelphia, Pa. Stevens defeated New York Univ., 62 to 50, at New York, N. Y. Illinois defeated Chicago, 70 1-2 to 64 1-2, at Champaign, Ill.

May 18—Ohio State Univ. won the Ohio S. A. A. meet with 45 points; Ohio Wesleyan 28; Oberlin 27; Miami 24; Cincinnati 15 1-2; Denison 14 1-2; Case 11, at Columbus, Ohio. Phillips-Exeter won the Yale Interscholastic meet with 46 1-2 points; Hill 42 1-2; St. Benedict's 11; Hotchkiss 9, at New Haven, Ct. Navy defeated Pennsylvania, 68 to 48, at Annapolis, Md. Michigan defeated Notre Dame, 86 1-2 to 48 1-2, at Ann Arbor, Mich. Lafayette won the Middle States Intercollegiate meet with 45 points; Swarthmore 30 1-2; Delaware State 17; Rutgers 16; Stevens 15; New York Univ. 11.

May 25—Michigan defeated Chicago, 87 to 48, at Chicago, Ill. Princeton won Freshmen triangular meet with 49 1-3 points; Yale 41 2-3; Harvard 13, at New Haven, Ct. Williams and Amherst tied in their dual track meet with 63 points each, at Williamstown, Mass. Rochester defeated Hamilton, 60 to 57 points, at Utica, N. Y. Andover Academy won Harvard Interscholastic meet with 39 points; Worcester 38 1-2; High School of Commerce 19, at Cambridge, Mass. Yale freshmen defeated Harvard freshmen, 81 1-2 to 35 1-2, at New Haven, Ct. Union defeated Rensselaer, 71 to 55, at Troy, N. Y.

May 30—Phillips-Exeter defeated Phillips-Andover in annual dual meet, 72 1-2 to 23 1-2, at Exeter, N. H.

June 1—Wisconsin defeated Chicago, 100 to 44, at Madison, Wis. Rensselaer defeated Rochester, 66 to 50, at Troy, N. Y.

GOLF.

War activities and restrictions curtailed tournament golf play throughout the country in 1918. There was no national championship play and few State or sectional titular tournaments. Of those played the results in the more important events follow:

North and South open championship, Pinehurst, N. C., Walter Hagen, 293; Jim Barnes, 295; Emmet French, 295; Fred McLeod, 296. North and South amateur championship, final round, I. S. Robeson defeated R. S. Stranahan 1 up, 36 holes. Women's North and South championship, final round. Mrs. D. C. Hurd defeated R. H. Barlow 5 and 3. Florida West Coast open championship, Jock Hutchinson, 284; J. M. Barnes, 286; Fred McLeod, 292. Florida East Coast open championship, J. M. Barnes, 299; Walter Hagen, 300; P. J. Doyle, 307. South Florida open championship, Jock Hutchinson, 148; Emmet French, 156; Charles Hoffner, 159. Florida amateur championship, final round, L. T. Hopkins defeated General W. N. P. Darrow 3 and 2; women's championship, final round, Ethel Campbell defeated Mrs. C. J. Felber 2 and 1. Southern California open championship, Mike Brady, 299, John Black, 301. Women's Western championship, final round, Elaine Rosenthal defeated Frances Hadfield 4 and 3. Women's Metropolitan (New York and vicinity) championship, final round, Mrs. T. Hucknall defeated Mrs. S. A. Herzog 6 and 4. Trans-Mississippi championship at Kansas City, final round, G. L. Conley defeated Frank Griggs 6 and 4. Rhode Island State championship, at Providence, final round, Danny Fairchild defeated Jesse Linton 9 and 8. Connecticut State championship, New Haven, Conn., final round, H. S. White defeated R. D. Sanford 1 up. Minnesota State championship, St. Paul, final round, R. G. Hopwood defeated F. E. Mahler 2 and 1. Senior Golf Association championship, Apawamis course, won by W. E. Truesdell, 172; second, Edward Hasse, 173.

A feature of the American golf season was an international match for seniors between picked teams of United States and Canadian senior golfers played at Montreal, Canada. The Canadian team won 23 points to 19. The result of the match by points follows:

American—W. E. Truesdell, 0; C. J. Waldo, 1; J. A. Tyng, 2, D. P. Kingsley, 3; W. Clark, 3; Frank Presbrey, 0; J. H. Ottley, 2; G. Wright, 0; Justice Pitney, 0; M. W. Herbert, 0; G. P. Fiske, 0; J. A. Flynn, 2; Dr. C. Macdonald, 0; Dr. S. Elmendorf,

GOLF—*Continued.*

0; T. J. Wessels, 2; L. H. Folsom, 3; W. H. Canterbury, 0; O. Hochmeyer, 1. Total, 19.

Canadian—G. S. Lyon, 3; G. T. Brown, 2; P. D. Ross, 1; Hon. M. Burrell, 0; J. E. Caldwell, 0; E. A. Bernard, 3; W. R. Smyth, 1; A. A. Wilson, 2; D. R. F. Ruttan, 0; J. W. McGregor, 1; C. C. Holland, 3; G. E. Moberly, 0; W. N. Machan, 3; R. M. Greene, 3; T. A. Roiphe, 0; F. Reid, 0; Col. J. B. Miller, 1; Dr. Rons, 0. Total, 23.

College Golf—Team matches—Columbia defeated Pennsylvania, 10 to 6 and 13 to 4 in home and home matches. Georgia Tech defeated Yale 17 to 0 at New Haven, and Columbia, 15 to 0, at Englewood, N. J. Columbia defeated Williams 12 to 5 at Garden City, and Princeton 4 matches to 2 at Princeton. Harvard defeated Dartmouth 4 matches to 1 at Cambridge. Princeton defeated Pennsylvania 11 to 6 at Philadelphia.

PREVIOUS NATIONAL CHAMPIONSHIP WINNERS.

United States Open Championship, 1916, at Minikanda Club, Minneapolis, Minn. Final round, June 30. Won by Charles G. Evans, Jr., amateur, 286; J. Hutchinson, 288, second; J. M. Barnes, 290, third. 1915, at Short Hills, N. J., won by Jerome Travers, amateur, 297; second, T. L. McNamara, professional, 298; third, R. G. McDonald, 300. 1914, at Midlothian, Chicago, Ill., won by W. C. Hagen, score 290; Charles Evans, Jr., 291, second; George Sargent, third. 1913, at Brookline, Mass., won by Francis Ouimet, 72, with Harry Vardon, 77, second, and Edward Ray, 78, third, after a triple tie in final round of 304. 1912, at Buffalo, N. Y., won by Jack McDermott, 294, with Tom McNamara, 296, second, and Alex. Smith and M. J. Brady tied at 299 for third. 1911, at Wheaton, Ill., after a triple tie between J. J. McDermott, M. J. Brady and George O. Simpson at 307, J. J. McDermott won in the playoff, with Brady second and Simpson third. 1910, at Philadelphia, Pa., Alex. Smith, 298. 1909, at Englewood, N. J., George Sargent, 290. 1908, at Myopia, Fred McLeod, 322. 1907, at Philadelphia Cricket Club, Alexander Ross, 302. 1906, at Onwentsia, Alex. Smith, 295. 1905, at Myopia, W. Anderson, 314. 1904, at Glen View, W. Anderson, 303. 1903, at Baltusrol, W. Anderson, 307. 1902, at Garden City, L. Auchterlonie, 307. 1901, at Myopia, W. Anderson, 331. 1900, at Chicago, Harry Vardon, 313.

United States Amateur, 1916, at Merion Club, Philadelphia. Charles G. Evans, Jr., Chicago, defeated Robert A. Gardner, Chicago, 4 up and 3 to play. 1915, at Detroit, Mich., Robert A. Gardner, Chicago, defeated John G. Anderson, Mount Vernon, N. Y., 5 up and 4 to play. 1914, at Manchester, Vt., Francis Ouimet defeated Jerome D. Travers, 6 up and 5 to play. 1913, at Garden City, L. I., J. D. Travers defeated J. G. Anderson, 5 up and 4 to play. 1912, at Wheaton, Ill., J. Travers defeated Charles Evans, Jr., 7 up and 6 to play. 1911, at Rye, N. Y., H. H. Hilton, amateur champion of England, defeated F. Herreshoff, 1 up in 37 holes. 1910, at Brookline, Mass., W. C. Fownes, Jr., defeated W. K. Wood, 4 up and 3 to play. 1909, at Wheaton, Ill., R. A. Gardner beat H. Chandler Egan, 4 up and 2 to play. 1908, at Garden City, J. D. Travers beat Max Behr, 8 up and 7 to play. 1907, at Euclid, J. D. Travers beat A. Graham, 6 up and 5 to play. 1906, E. M. Byers beat G. S. Lyon, 2 up. 1905, at Wheaton, Ill., H. Chandler Egan beat D. E. Sawyer, 6 up and 5 to play. 1904, H. Chandler Egan; 1903, W. J. Travis; 1902, L. N. James; 1901 and 1900, W. J. Travis.

United States Ladies' Championship, 1916, at Waverly, Mass. Miss Alexia Sterling, Atlanta, Ga., defeated Miss Mildred Caverly, Philadelphia, Pa., 2 up and 1 to play. 1915, at Lake Forest, Ill. Mrs. Clarence H. Vanderbeck, Philadelphia, Pa., defeated Mrs. W. A. Gavin, England, by 3 up and 2 to play. 1914, at Glen Cove, N. Y., Mrs. H. Jackson, Boston, defeated Miss E. V. Rosenthal, Chicago, 1 up. 1913, played at Wilmington, Del., October 18. Miss G. Ravenscroft of England defeated Miss M. Hollins, 2 up. 1912, played at Essex Country Club, Manchester, Mass., Miss M. Curtis defeated Mrs. R. H. Barlow, 3 up and 2 to play. 1911, at Westchester County, N. Y., Miss M. Curtis. 1910, at Chicago, Ill., Miss Dorothy Campbell, Hamilton, Ont. 1909, at Philadelphia, Miss Dorothy Campbell, 1908, at Washington, Miss Kate C. Harley. 1907, at Midlothian, Miss Margaret Curtis. 1906, at Brae Burn, Miss Harriet Curtis. 1905, at Morris County. Miss Pauline Mackay. 1904, at Merion C. C., Miss G. Bishop. 1903, at Wheaton, Ill., Miss B. Anthony. 1902-01, at Brookline and Baltusrol, Miss G. Hecker. 1900, at Shinnecock, Miss F. C. Griscom.

UNITED STATES INTERSCHOLASTIC TRACK AND FIELD RECORDS.

50-yard run—5 3-5s., E. C. Jessup, St. Louis, Mo., July 4, 1904.

60-yard run—6 2-5s., S. Butler, Hutchinson (Kan.) High School, Evanston, Ill., March 28, 1914.

100-yard run—9 4-5s., Ernest E. Nelson, Volkmann School, Cambridge, May 2, 1908; Charles Hoyt, Greenfield High School, Chicago, Ill., June 7, 1913; W. J. Carter, Chicago University High, Ann Arbor, Mich., March 23, 1914; Evan Pearson, North Central High School, Spokane, Wash., May 20, 1916.

220-yard run—21 2-5s., W. J. Carter, Jr., Chicago University High, Ann Arbor, Mich., May 23, 1914.

400-yard run—42 3-5s., Frank Sloman, Polytechnic High School, San Francisco, Cal., October 16, 1915.

440-yard run (around turn)—48 4-5s., James E. Meredith, Mercersburg Academy, Philadelphia, Pa., May 18, 1912; 48 1-5s. (straightaway), Frank Sloman, Polytechnic High School, San Francisco, Cal., October 16, 1915.

880-yard run—1m. 55s., James E. Meredith, Mercersburg Academy, Princeton, N. J., May 4, 1912.

One-mile run—4 m. 23 3-5s., Ed. Shields, Mercersburg Academy, Port Deposit, Md., May 20, 1916.

Two-mile run—9m. 51 3-5s., C. Boughton, Newark Central H. S., Princeton, N. J., May 23, 1914.

120-yard hurdle—15 2-5s., H. Whitted, Citrus Union School, Chicago, Ill., June 8, 1912; H. Whitted, Citrus Union School, Stanford, Cal., April 13, 1912.

220-yard hurdle—24 2-5s., C. Cory, Chicago University High School, Ann Arbor, Mich., May 23 and 24, 1913; Frank Loomis, Oregon High School, Minneapolis, Minn., May 27, 1916.

Running high jump—6ft. 3 5-8in., W. M. Oler, Pawling School, Cambridge, Mass., May 25, 1912.

Running broad jump—23ft. 7 1-5in., P. G. Stiles, Culver Military Academy, Chicago, Ill., May 12, 1913.

Pole vault—12ft. 8in., S. Landers, Oregon High School, Minneapolis, Minn., May 27, 1916.

Pole vault, indoor—12ft. 1in., Eugene Schobinger, Harvard School, Chicago, Ill., February 18, 1911.

Putting 8-lb. shot, indoor—59ft. 3-8in., George Bronder, Poly Prep, Brooklyn, N. Y., January 16, 1915.

Putting 12-lb. shot—55ft. 9in., A. M. Mucks, Oshkosh High School, Oshkosh, Wis., January 19, 1912.

Putting the 16-lb. shot—45ft. 6 1-4in., Ralph Rose, San Francisco, May 2, 1903.

Throwing 12-lb. hammer—197ft. 1-2in., L. J. Talbott, Washington, Pa., May 25, 1907.

Throwing discus—139ft. 5 1-2in., B. L. Byrd, Champaign, Ill., May 21, 1910.

Throwing junior discus (7ft. circle)—155ft. 4in., R. G. Walker, Passaic High School, Ohio Field, New York City, April 18, 1914.

Throwing junior discus (8ft. 2 1-2in. circle)—158ft. 2 3-4in., R. G. Walker, Passaic High School, Castle Point, Hoboken, N. J., May 1, 1915.

One-quarter mile relay—46 4-5s., University High School, Chicago, Ill., June 11, 1910.

One-half mile relay—1m. 32 2-5s., Lewis Institute, at Northwestern University, May 23, 1903.

One-mile relay—3m. 27 1-5s., Los Angeles High School relay team, Los Angeles, Cal., 1910.

Pole vault record for boys under ten years—5ft. 10 1-2in., Robert E. Graves, eight years four months old, Marshfield, Oregon, July 3, 1912.

Throwing javelin—184ft. 9 1-2in., H. B. Liversedge, Stanford, Cal., April 11, 1914.

BOXING.

PROFESSIONAL.

Lack of space precludes the recording of bouts other than those between pugilists of prominence. Abbreviations: K. O., knockout; D., draw; R. D., referee's decision; P. V., popular verdict; F., foul.

January 1—Joe Lynch K. O. Andy Burns, three rounds, New York City. Bartley Madden K. O. Tommy McCarthy, five rounds, Pittsfield, Mass. Jack Britton defeated Jimmy Duffy, ten rounds, P. V., Buffalo, N. Y. Tommy Tuohey defeated Tommy Elm, ten rounds, P. V., New York City. Shamus O'Brien defeated Joe Hyland, ten rounds, P. V., New York City. Frankie Callahan defeated Eddie Wagond, six rounds, P. V., Philadelphia, Pa. Johnny Griffith vs. Bryan Downey, D., twelve rounds, Akron, Ohio.

January 7—"Baltimore" Dundee K. O. Joe Thomas, eleven rounds, Baltimore, Md. Lew Tendler defeated Willie Jackson, six rounds, P. V., Philadelphia, Pa.

January 9—Charley Weinert defeated Gunboat Smith, twelve rounds, R. D., Providence, R. I.

January 10—Fred Fulton K. O. Henry "Texas" Tate, two rounds, Joplin, Mo.

January 14—Harry Greb K. O. Battling Kopln, one round, Charlerol, Pa. Johnny Dundee defeated Pal Moran, twenty rounds, R. D., New Orleans, La. Patsy Cline vs. Johnny Tillman, D., six rounds, Philadelphia, Pa. Ted Lewis vs. Soldier Bartfield, D., twelve rounds, Columbus, Ohio

January 15—Battling Levinsky vs. Bill Brennan, twelve rounds, R. D., Boston, Mass.

January 16—Jack Britton defeated Tommy Robson, twelve rounds, R. D., Providence, R. I.

January 18—Joe Welling defeated Shamus O'Brien, ten rounds, P. V., New York City. Fred Fulton vs. Billy Miske, D., ten rounds, St. Paul, Minn.

January 21—Harry Greb defeated Augie Ratner, twenty rounds, R. D., New Orleans, La. Lew Tendler defeated Frankie Callahan, six rounds, P. V., Philadelphia, Pa.

January 23—Ted Lewis defeated Soldier Bartfield, ten rounds, P. V., Toronto, Can.

January 25—George Chip defeated Jack Dillon, ten rounds, P. V., Duluth, Minn. Jack Dempsey K. O. Homer Smith, one round, Racine, Wis. Jack Wolfe defeated Johnny Ertle, ten rounds, P. V., Cleveland, Ohio.

January 28—Frankie Burns K. O. Dutch Brandt, ten rounds, New Orleans, La. Joe Lynch K. O. Kid Williams, four rounds, Philadelphia, Pa. Sergeant Pat O'Keefe K. O. Bandsman Blake, two rounds, London, Eng. Charlie Weinert defeated Tom Cowler, two rounds, F., Boston, Mass.

January 30—Harry Greb defeated Zulu Kid, thirteen rounds, R. D., Bridgeport, Ct. George Chaney defeated Packey Hommey, nine rounds, stopped, Baltimore, Md.

February 2—John L. Sullivan, former heavyweight champion of America, died at Boston, Mass.

February 4—Jack Dempsey defeated Carl Morris, six rounds, F., Buffalo, N. Y. Ted Lewis defeated Johnny Tillman, six rounds, P. V., Philadelphia, Pa. Tommy Robson defeated Walter Mohr, twelve rounds, R. D., Chelsea, Mass.

February 5—Johnny Ertle defeated Arthur Simons, ten rounds, P. V., New Orleans, La. Tom Gibbons defeated George Chip, ten rounds, P. V., Pittsburgh, Pa.

February 7—Joe Eagan defeated Bryan Downey, ten rounds, P. V., Milwaukee, Wis.

February 11—Jack Britton defeated Marty Cross, twelve rounds, R. D., Providence, R. I. Patsy Cline vs. Johnny Dundee, D., twenty rounds, R. D., New Orleans, La. Fred Fulton K. O. Tom McMahon, four rounds, Denver, Col. Lew Tendler K. O. Tommy Tuohey, four rounds, Philadelphia, Pa. Tommy Gibbons defeated Clay Turner, ten rounds, P. V., Pittsburgh, Pa.

February 12—Jabez White defeated Pal Moore, ten rounds, P. V., Cleveland, Ohio.

February 14—Jack Dempsey K. O. Jim Flynn, one round, Chicago, Ill.

February 15—Frank Moran K. O. Sergeant Jones, two rounds, Greenville, S. C.

February 17—Harry Wills K. O. Sam McVey, six rounds, Panama.

February 18—Pal Moore defeated Jack Sharkey, ten rounds, R. D., Baltimore, Md. Ted Lewis K. O. Jimmy Duffy, one round, Toledo, Ohio.

February 18—Harry Greb defeated Bob Moha, ten rounds, R. D., Cincinnati, Ohio. George Chaney defeated Eddie Wallace, ten rounds, R. D., Baltimore, Md. Willie Jackson vs. Rocky Kansas, ten rounds, D., P. V., Buffalo, N. Y.

February 25—Mike O'Dowd defeated Harry Greb, ten rounds, P. V., St. Paul, Minn. Fred Fulton defeated Frank Moran, three rounds, stopped, New Orleans, La. Ted Lewis defeated Soldier Bartfield, six rounds, P. V., Philadelphia, Pa. Jack Dempsey K. O. Bill Brennan, six rounds, Milwaukee, Wis. Kid Williams defeated Joe Leopold, ten rounds, R. D., Denver, Col.

March 21—Cambridge, Mass., R. M. Sedgewick won Harvard University Boxing Championship, defeating F. C. Fishbeck in three rounds, heavyweight class.

PUGILISTIC CHAMPIONS AND RECEIPTS.

All attempts to designate and classify the pugilistic champions and title holders are more or less arbitrary because of the fact that few such champions won and defended the championships at the same weight. Among the lighter weight boxers it is not at all unusual for a pugilist to be forced from one class into the next higher by growth and increased weight. The following list, dating from 1890, is generally accepted by critics and boxers as being the correct classification, although holders did not always win title from previous champions.

HEAVYWEIGHTS (over 158 lbs.)—1890-1892, John L. Sullivan; 1892-1897, James J. Corbett; 1897-1899, Robert Fitzsimmons; 1899-1906, James J. Jeffries; 1906-1908, Tommy Burns; 1908-1915, Jack Johnson; 1915-1918, Jess Willard.

MIDDLEWEIGHTS (158 lbs.)—1890-1897, Robert Fitzimmons; 1897-1907, Tommy Ryan; 1907-1908, Stanley Ketchel; 1908, Bill Papke and Stanley Ketchel; 1908-1910, Stanley Ketchel; 1911-1913, claimed by Frank Klaus, Mike Gibbons, Ed McGoorty and Geo. Chip; 1914-1917, Al McCoy; 1917-1918, Mike O'Dowd.

WELTERWEIGHTS (145 lbs.)—1890-1893, no recognized champion; 1894-1896, Tommy Ryan; 1896-1897, Kid McCoy; 1898-1900, Billy Smith; 1900, Rube Ferns; 1901, Matty Matthews and Rube

BOXING—*Continued.*

Ferns; 1901-1904, Joe Walcott; 1904-1908, Dixie Kid; 1914-1916, Kid Graves; 1916, Jack Britton; 1917-1918, Ted (Kid) Lewis.

LIGHTWEIGHTS (133 lbs.)—1890-1893, Jack McAuliffe; 1893-1899, Kid Lavigne; 1899-1902, Frank Erne; 1902-1908, Joe Gans; 1908-1910, Battling Nelson; 1910-1912, Ad Wolgast; 1912-14, Willie Ritchie; 1914-1917, Freddie Welsh; 1917-1918, Benny Leonard.

FEATHERWEIGHTS (122 lbs.)—1890-1892, no recognized champion; 1892-1897, George Dixon; 1897, Solly Smith; 1898, Solly Smith and Dave Sullivan; 1898-1900, George Dixon; 1900-1901, Terry McGovern; 1901-1904, Young Corbett; 1904-1908, Tommy Sullivan; 1908-1911, Abe Attell; 1911-1918, Johnny Kilbane.

BANTAMWEIGHTS (116 lbs.)—1890-1892, George Dixon; 1892-1894, no recognized champion; 1894-1898, Jimmy Barry; 1898-1901, no recognized champion; 1901-1903, Harry Forbes; 1903-1905, Frankie Neil; 1905-1907, no recognized champion; 1907-1913, Johnny Coulon; 1914-15, Kid Williams; 1916-1918, Pete Herman.

Bevier, Lehigh, fall over Rose, Pennsylvania, 6:07, bar and chancery; second, Ackerley, Cornell, fall over Rose, Pennsylvania, 8:50, bar and chancery; third, Rose, Pennsylvania, decision over Kwong, Columbia, 9. 135 pounds—Winner, Capt. Long, Penn State, decision over Bullard, Cornell, 9; second, Bullard, Cornell, fall over Lourla, Columbia, 7:07; crotch and body hold; third, Ketterer, Pennsylvania, decision over Werz, Lehigh, 9. 145 pounds—Winner. Shultz, Penn State, fall over Loeser, Lehigh, 6, half Nelson; second, Tuttle, Cornell, fall over Loeser, Lehigh, 8:53, arm and neck hold; third, Hymen, Pennsylvania, decision over Loeser, Lehigh, 9. 158 pounds—Winner, Brown, Penn State, decision over Latimer, Lehigh, 15; second, Latimer, Lehigh, fall over Jensen, Columbia, 5:35, crotch and body hold; third, Webber, Cornell, fall over Jensen, Columbia, 6:23, bar and chancery. 175 pounds—Winner, Nelan, Penn State, fall over Huntington, Cornell, 11:49, arm and neck hold; second, Booth, Lehigh, fall over Huntington, Cornell, 5:08, half Nelson and body hold; third, Huntington, Cornell. Unlimited weight—Winner, Czenarchi, Penn State, fall over Manley, Lehigh, 6:33, crotch and arm hold; second, Manley, Lehigh, decision over Porter, Cornell, 9; third, Porter, Cornell.

DUAL MATCHES.

January 26, Philadelphia—Pennsylvania 4 bouts; Princeton, 3.

February 9, Annapolis—Navy, 26 points; Lehigh, 4 points.

February 16, South Bethlehem—Lehigh, 30 points; Virginia, 0 points.

February 16, New York City—Yale, 22 points; Columbia, 3 points.

February 19, New York City—Boys' Club, 17 points; Princeton, 4 points.

February 23, Andover—Andover, 14 points; Mass. Tech., 5 points.

February 23, State College—Penn State, 24 points; Cornell, 8 points.

March 1, New York City—Pennsylvania, 21 points; Columbia, 6 points.

March 2, New Haven—Yale, 25 points; Princeton, 0 points.

March 2, South Bethlehem—Philadelphia Y. M. C. A., 20 points; Lehigh, 14 points.

March 2, Annapolis—Penn State, 16 points; Navy, 14 points.

March 8, Philadelphia—Cornell, 22 points; Pennsylvania, 10 points.

March 9, State College—Penn State, 26 points; Lehigh, 5 points.

March 9, Annapolis—Navy, 30 points; Cornell, 0 points.

March 16, South Bethlehem—Lehigh, 23 points; Columbia, 9 points.

March 16, Ithaca—Penn State, 25 points; Cornell, 4 points.

AMATEURS.

National Amateur Athletic Union Championships, held at Chicago, Ill., April 12. Results, final matches only: 108-pound class—J. F. Meagher, Gary Y. M. C. A., first; Pete Petros, Greek-Olympic A. C., second; D. Harris, Chicago Hebrew Inst., third. 115-pound class—V. V. Vosen, unattached, first; S. Pammow, Chicago Hebrew Inst., second; S. Marion, Seward Park, third. 125-pound class—John Fellos, Greek-Olympic A. C., first; V. V. Vosen, unattached, second; H. E. Hohlsel, Joliet Steel Club, third. 135-pound class—Sypros Vorres, Greek-Olympic A. C., first; L. Frazee, Great Lakes, second. 145-pound class—A. Forst, Great Lakes, first; Geo. Metropoulos, Gary Y. M. C. A., second; Spyros Vorres, Greek-Olympic A. C., third. 158-pound class—Stephenson, Great Lakes, first; W. H. Wicker, Great Lakes, second. 175-pound class—Karl Kunert, Gary Y. M. C. A., first; Fred J. Meyer, Chicago Hebrew Inst., second; A. Minkley, Great Lakes, third. Heavyweight class—Karl Kunert, Gary Y. M. C. A., first; F. Larson, Swedish A. C., second; A. Minkley, Great Lakes, third.

AVIATION.

WHILE there was little or no competition in aviation during 1918, marvelous strides were made in aeronautics. The development of the Liberty Motor in this country and the wonderful improvement and use of the airplane for war purposes abroad marked the beginning of a new era in aviation after the signing of peace.

May 15—First regular airplane mail service in world inaugurated between New York and Washington, the actual flying time being 3h. 20m. By August 1, this time had been reduced to 2h. 30m.

May 28—In an experimental postal service trip, aviators flew from Paris to London and return with several sacks of mail in 3h. 10m.

June 1—Miss Katherine Stinson completed her Chicago to New York mail flight begun on May 24. She flew 783 miles to Binghamton, N. Y., without stop, between 7.37 A. M. and 6.40 P. M., on May 23, but in landing damaged her plane and was unable to continue the trip until June 1.

June 6—First mail flight New York to Boston accomplished, Lieut. T. H. Webb, carrying 4,000 letters, making the trip in 3h. 22m. The return flight was made June 11 without incident.

June 22—Mail airplane carrying three men and five bags of mail made trip from Philadelphia to Belmont Park, L. I., in 56 minutes.

June 24—First Canadian airplane mail service instituted with flight between Montreal and Toronto, a distance of about 300 miles.

June 26—Reports were received from Russia regarding the inauguration of Ukrainian air postal service. The plans called for routes radiating from Kiev to points as far distant as 1,100 miles.

July 4—Lieut. F. M. Bartlett arrived at San Antonio, Tex., after 2,500 mile flight from Belleville, Ill.

September 5—First mail service trip between New York and Chicago, made by Max Miller, who flew from Belmont Park, L. I., to Grant Park, Chicago, in 36h. 56m., including an overnight stop at Cleveland. The return trip was made on September 9, and he arrived in New York on September 10, his actual flying for the 1,000 miles being 8h. 2m.

September 18—Capt. R. W. Schroeder broke world's altitude flight record, rising 28,900 feet, at Wilbur Wright Field, Dayton, Ohio. He carried oxygen tanks and landed some 200 miles from his starting point.

September 27—Gabriele d'Annunzio, the Italian aviator, flew from Rome to Paris, crossing the Alps at high altitude.

October 21—Postal authorities took under consideration plans for New York to San Francisco mail service following the signing of peace terms.

October 24—Plans under consideration for airplane express and mail service between London, Cairo and Calcutta.

October 26—Sergt. Coombs won Belmont Park to Statue of Liberty and return race, a distance of 36 miles, in 15m 30s. In 1910, J. B. Moisant won a similar race in 34m. 38s.

October 27—Chauffeur R. W. Bottriell leaped from an airplane at an altitude of 4,800 feet at San Antonio, Tex., and with the aid of a parachute landed safely.

November 13—Lieut. W. T. Campbell looped the loop 151 times at Dallas, Tex., establishing what was considered to be a world's record for this feat.

AVIATION RECORDS.

No aviation records have been accepted by the International Aeronautical Federation since the beginning of the European War in 1914.

BASEBALL.

WAR conditions throughout the country curtailed the baseball season in both major and minor leagues during 1918. Many of the smaller circuits closed during the midsummer months as the result of failing patronage and the "Work-or-Fight" regulations, which placed professional baseball in the non-essential class, hastened the end of the larger leagues. Under this ruling many players were called for service by their draft boards and a test case was made by the Washington Club, of the American League, which appealed from the ruling in the case of catcher Ainsmith. The appeal was laid before Secretary of War Baker, who after careful consideration upheld the decision of the draft board.

As a result of this ruling the National, American and International Leagues closed their seasons on September 2 (Labor Day), and the pennant winning clubs of the National and American Leagues participated in the usual world series after receiving the consent of the proper Government authorities. The outcome of the series is appended.

WORLD CHAMPIONSHIP SERIES 1918.

Played between Boston, winner of the American League pennant, and Chicago, winner of the National League pennant. Boston defeated Chicago 4 games to 2.

RESULTS OF GAMES.

First Game, at Chicago, September 5. Boston—1 run, 5 hits, 0 errors. Chicago—0 runs, 6 hits, 0 errors. Batteries—Ruth and Agnew; Vaughan and Killifer.

Second game, at Chicago, September 6. Chicago—3 runs, 7 hits, 1 error. Boston—1 run, 6 hits, 1 error. Batteries—Tyler and Killifer; Bush and Agnew, Schang.

Third game, at Chicago, September 7. Boston—2 runs, 7 hits, 0 errors. Chicago—1 run, 7 hits, 1 error. Batteries—Mays and Schang; Vaughan and Killifer.

Fourth game, at Boston, September 9. Boston—3 runs, 4 hits, 0 errors. Chicago—2 runs, 7 hits, 1 error. Batteries—Ruth, Bush and Agnew, Schang; Tyler, Douglas and Killifer.

Fifth game, at Boston, September 10. Chicago—3 runs, 7 hits, 0 errors. Boston—0 runs, 5 hits, 0 errors. Batteries—Vaughan and Killifer; Jones and Agnew, Schang.

Sixth game, at Boston, September 11. Boston—2 runs, 5 hits, 0 errors. Chicago—1 run, 3 hits, 2 errors. Batteries—Mays and Schang; Tyler, Hendrix and Killifer, O'Farrell.

COMPOSITE SCORE OF SIX GAMES.

CHESS.

(By H. Helms.)

THANKS to the international tournament of the Manhattan Chess Club, the Western championship, the intercollegiates and the various State, league and club competitions, the year 1918 was far from being devoid of interest to chess players. The international contest demonstrated that J. R. Capablanca of Havana is without a peer as a chess player in this hemisphere.

Janowski versus Jaffe—finished in New York January 6; score—Janowski, 10; Jaffe, 4; drawn, 4.

Interborough High School League—Won by Boys' High, 8½ matches, 32 games; Commercial, 6½ matches, 25 games; Stuyvesant, 6 matches, 24 games; Richmond Hill, 6 matches, 23 games; Morris, 4 matches, 19½ games.

Brooklyn C. C. Championship—Won by R. T. Black (seventh time); score 7½—½; A. Schroeder, 4½—3½; C. Ruberl, 3—4.

"C. H. Y. P." Tournament—Won by Columbia, 9½—2½; Yale, second, 6—6; Harvard, 5—7; Princeton, 3½—8½.

Triangular College League—Won by Pennsylvania, 5—3; City College, 4½—3½; Cornell, 2½—5½.

Metropolitan League—Rice Progressive C. C. first, 6—0; Staten Island, 4—2; Central Y. M. C. A., City College, Columbia and West Y. M. C. A., each 2½—3½; Ocean Hill, 1—5.

Manhattan C. C. Championship—Won by Oscar Chajes, 6—1; G. Northrup, 5—2; O. W. Field, 4—3.

Empire City C. C. Handicap—First section, C. Ortenblad, 15½; Dr. A. Freundlich, 13½; L. Rosen, 12½. Second section, J. Phillips, 11; J. Morrison, 10; V. E. Selig and L. Wechsler, each 9½.

Intercollegiate Matches—Triangular League, 9; C. H. Y. P. League, 4; Columbia, 6; Pennsylvania, 2.

N. Y. State Association—Winter meet, New York City, February 22—O. Chajes and A. Kupchik each 5—0, tied for first and second; R. T. Black and A. Schroeder each 3½—1½, tied for third and fourth. College Tourney—H. E. Leede of Columbia, 4—0, winner of gold medal; R. Aebli, Columbia, 3—1, silver medal. High School Tourney—Gold medal won by Philip Wolfson, Boys' High, 8½—½; L. Denonn, Boys' High, 7½—1½, silver medal. First class—A Otten, 3—1; second class—Dana Brannan, 5—0; third class, A. L. Haltock, 3½—½. Summer Meeting at Rochester—Championship, K. S. Howard, Rochester, 3—1; class A, J. S. Morrison, Toronto, 7—0; class B, H. B. Reynolds, Rochester, and Frank Benedict, each 6—2; class C, E. Hazzard, Rochester, 6½—1½.

State Championships—New Jersey, W. Rissmiller, Paterson, 8½—1½; Pennsylvania, W. A. Ruth after tie with M. Freed; North Dakota, W. Widmeyer, Rolla, 9½—½.

Simultaneous Exhibitions—J. R. Capablanca at Manhattan C. C. played 38, won 33, drew 5; F. J. Marshall at Marshall's Chess Divan played 24, won 18, lost 2 and drew 4; H. Helms at Empire City C. C. played 18, won 16, lost 2.

Chajes versus Janowski—Manhattan C. C., March 16 to May 7; Chajes, 7; Janowski, 5; drawn, 10.

N. Y. A. C.—Prize winners: F. E. Pierce, George O. Seward, H. M. Prindle, F. S. Krag and Henry S. Schley.

Staten Island Championship—Winner, G. Klingspor, 7—1; W. T. Ryan, 6½—1½.

Black vs. Schroeder—At the Brooklyn C. C.; Black, 5; Schroeder, 3; drawn, 2.

Rye Beach Tournament—Rye Beach, N. Y., July 22-26; A. Kupchik, first, 7½—½; O. Chajes, 6½—1½; J. Bernstein, R. T. Black and C. Jaffe, each 5—3.

Western Championship—Chicago, September 22 to 28; B. Kostich, Gary, Ind., first, 9½—1½; H. Hahlbohm, Chicago, E. Lasker, Chicago, J. S. Morrison, Toronto, and N. T. Whittaker, Washington, D. C., each 7—4.

Correspondence Chess—Fourth national championship; won by E. Lasker of Chicago, 3—0; B. Altman, Brooklyn, 2—1. Simultaneous exhibitions: New York, September 21; J. R. Capablanca played 23, winning all; Philadelphia, September 28, Capablanca played 30, won 28, drew 2.

International Tournament—Manhattan C. C., October 23 to November 9, won by J. R. Capablanca, 10½—1½; B. Kostich, 9—3; F. J. Marshall, 7—5; O. Chajes, 6—6; D. Janowski, 4—8; R. T. Black, 3½—8½; J. S. Morrison, 2—10.

SURF CASTING RECORDS.

LONGEST single cast, any event, 435 ft. 10. in., made by J. Charles Elingshausen, Midland Beach F. C., at Newark, N. J., November 6, 1917.

Average of five casts, open field, 4-oz. lead, 419 ft. 4 3-5 in., made by J. Charles Elingshausen, Midland Beach F. C., at Newark, N. J., November 6, 1917.

Average five casts V-shaped court, 368 ft. 3 2-5 in., made by Howard Kaln, Asbury Park F. C., at Asbury Park, N. J., August 11, 1917.

Average five casts, 30-foot lane, 3-oz. lead, John C. Clayton, Asbury Park F. C., at Belmar, N. J., August 19. 1916.

Average five casts, 30-foot lane, 4-oz. lead, Wm. E. Sylvester, Belmar F. C., at Belmar, N. J., August 28, 1915.

Distance-accuracy, down a straight line, with distance lead falls aside of line deducted from length of cast, average five casts, 4-oz. lead, Howard Kain, Asbury Park F. C., at Ocean City, N. J., August 18, 1917.

Accuracy, nearest cast to stake 140 feet distant, Gus Wollman, Asbury Park F. C., touched stake at Belmar, N. J., August 25, 1917.

Longest cast of five in V-shaped court, 3 or 4 oz. lead, Dr. Carleton Simon, Midland Beach F. C., 341 ft. 8 in., at Ocean City, N. J., August 8, 1914.

Longest cast of five, open field, 3 or 4 oz. lead, J. Charles Elingshausen, Midland Beach F. C., 426 ft. 6 in., at Ocean City, N. J., August 18, 1917.

Women—Best average five casts, open field, Mrs. C. Y. Cooper, Belmar F. C., 204 ft. 7 in., at Belmar, N. J., August 28, 1915.

Women—Longest single cast of five, open field, Mrs. C. Y. Cooper, 238 ft. 10 1-2 in., at Belmar, N. J., August 28, 1915.

In 1918, the Ocean City Cup contest, a $1,000 perpetual trophy, known as the classic of the surf-casting world, was won by the Ocean City team of five men, consisting of Charles Maginnis, Dr. J. W. Pinkham, Harry Stelwagon, Dr. W. L. Magee and G. Ed. Cornman, with a team total of 7,759 ft. 7 in.; Asbury Park team was second with 7,558 ft. 2 in., and Midland Beach F. C. team third with 7,155 ft. 2 in.

Compiled by C. B. Holgate, Secretary-Treasurer, Association Surf Angling Clubs.

ROQUE.

RESULTS of the Seventh Annual Tournament of the American Roque League held the week of July 22, 1918, on the courts of the Washington Park Roque Association, 58th St., and Cottage Grove Ave., Chicago, Ill.

Winner: Champion Division—F. C. Turner, Pasadena, Cal. First Division—H. O. Walker, Chicago, Ill. Second Division—J. P. Shelley, Oxford, Ind. Third Division—H. Sime, Chicago, Ill. (14 years).

Results of the Third Annual Tournament of the Missouri Valley Roque Association held the week of August 24, 1918, on the public courts in Budd Park, Kansas City, Mo.

Winner: First Division—F. H. Selden, Kansas City, Mo. Second Division—E. T. Freeman, Kansas City, Mo. Third Division—J. M. Starling, Whiting, Kan.

Results of the Fifth Annual Tournament of the Interstate Roque Association held the week of September 2, 1918, on the courts of the New Paris Roque Club, at New Paris, Ohio.

Winner: First Division—C. W. Davis, Mahoningtown, Pa. Second Division—William Wisler, Milton, Ind. Third Division—C. W. Bennett, New Paris, Ohio.

TRACK AND FIELD ATHLETICS.

AMATEUR ATHLETIC UNION CHAMPIONSHIPS.

National Junior Championship held at Great Lakes Naval Station, Great Lakes, Ill., September 20: 100-yard run—Won by A. H. Henke, Great Lakes Naval Station; J. C. Hoskins, Chicago A. A., second; I. Mahl, Columbia A. C., third; Lieut. L. Wester, Camp Fremont, Cal., fourth. Time, 10 seconds. 220-yard run—Won by A. Smith, Pelham Bay Naval Station; J. Moore, Pittsburgh S. A. A., second; S. Rosen, Morris A. C., Chicago, third; J. Olsen, Federal Rendezvous, fourth. Time, 22 2-5 seconds. 440-yard run—Won by C. C. Shaughnessy, Federal Rendezvous, Brooklyn; J. J. O'Brien, Pelham Bay Naval Station, second; D. Rogers, Meadowbrook Club., third; H. T. Torkelson, Chicago A. A., fourth. Time, 49 seconds. 880-yard run—Won by J. J. McCabe, Pelham Bay Naval Station; G. C. Lewis, University of Chicago, second; G. Allen, Pittsburgh S. A. A., third; E. T. Marchal, Chicago A. A., fourth. Time, 2m. 1 1-5s. One mile run—Won by J. Schwartz, Meadowbrook Club; J. J. McCabe, Pelham Bay Naval Station, second; E. Mayo, Fort Slocum, third; W. N. Cummings, Meadowbrook Club, fourth. Time, 4m. 37s. Five mile run—Won by Earl Johnson, Camp Upton; W. B. Powers, Ferguson A. C., Buffalo, second; J. Probst, Columbian A. C., St. Louis, third; F. Kochanski, Illinois A. C., fourth. Time, 27m. 22s. 120-yard high hurdles—Won by Walker Smith, Chicago A. A.; R. M. Isaacs, Royal Air Force, Toronto, second; C. B. Savage, Jr., Chicago A. A., third; J. K. Norton, Camp Zachary Taylor, Ky., fourth. Time, 15 2-5s. 220-yard low hurdles—Won by Lieut. M. J. House, Camp Fremont, Cal.; G. Desch, Pelham Bay Naval Station, second; D. C. Leffler, Great Lakes Naval Station, third; C. Barron, Meadowbrook Club, Philadelphia, fourth. Time, 25 3-5s. 440 yard hurdles—Won by D. Hause, Great Lakes Naval Station; E. E. Traung, Swedish American A. C., second; A. C. Boeddeker, Great Lakes Naval Station, third; C. Dwyer, Chicago A. A., fourth. Time, 58 2-5s. Three mile walk—Won by L. Labowitz, Pastime A. C., New York; C. Mertens, Hillside A. C., Toronto, Ont., second; H. L. Schultz, Ferguson A. C., Buffalo, third; V. V. Vosen, Gary Y. M. C. A., fourth. Time, 23m. 57s. Pole vault—Won by K. S. Caldwell, Pelham Bay Naval Station, 11 ft. 6 in.; C. Bean, Los Angeles, 11 ft. 6 in., second; C. Piper, Royal Air Force, Toronto, 11 ft., third; J. E. Wilkin, Great Lakes Naval Station, 11 ft., fourth. 16-lb. shot put—Won by D. I. Allman, Great Lakes Naval Station, 40 ft. 1¾ in.; R. W. Becker, Illinois A. C., Chicago, 39 ft. 9½ in., second; S. S. Windrow, Great Lakes Naval Station, 39 ft. 5 in., third; V. Saranac, Kelly Field, Tex., 38 ft. ¼ in., fourth. Running high jump—Won by Carl Rice, Camp Zachary Taylor, Ky., 6 ft. ¼ in.; R. L. Treweeke, Chicago A. A., 5 ft. 11 in., second; C. C. Krogness, Jr., Chicago A. A., 5 ft. 10½ in., third; P. McGarry, Boston Navy, 5 ft. 10 in., fourth. 10-lb. hammer throw—Won by H. G. Franz, Illinois A. C., 130 ft. 5 in.; J. R. Walsh, Chicago A. A., 119 ft. 2 in., second; H. C. Gillo, Camp Dick, Tex., third; S. S. Windrow, Great Lakes Naval Station, fourth. Running broad jump—Won by D. Politzer, Mohawk A. C., New York, 22 ft. 2 5-8 in.; E. A. Anderson, Pelham Bay Naval Station, 22 ft., second; D. Brown, Pelham Bay Naval Station, 21 ft. 2¼ in., third; C. Way, Meadowbrook Club, Philadelphia, 21 ft. 1¼ in., fourth. Discus throw—Won by S. S. Windrow, Great Lakes Naval Station, 116 ft. 4¾ in.; H. C. Gillo, Camp Dick, Tex., 110 ft. 2¾ in., second; W. F. Bartels, Hog Island, Pa., 106 ft. 3½ in., third; C. B. Savage, Jr., Chicago A. A., 95 ft. 9¾ in., fourth. Throwing 56-lb. weight—Won by P. McIntyre, Illinois A. C., 25 ft. 11½ in.; P. Birmingham, 25 ft. 4¾ in., second; J. R. Walsh, Chicago A. A., 24 ft. 4¼ in., third; W. F. Bartels, Chicago A. A., 23 ft. 8 in., fourth. Running hop, step and jump—Won by W. B. Overbee, Chicago A. A., 45 ft. 5¾ in.; T. T. Hoskins, Chicago A. A., 43 ft. 5½ in., second; C. P. R. Arbene, Irish American A. A., Boston, 41 ft. 6½ in., third; E. A. Anderson, Pelham Bay Naval Station, 41 ft. 3½ in., fourth. Throwing the javelin—Won by R. Thompson, Illinois A. C., 167 ft. 8¾ in.; J. R. Fritts, unattached, New York, 147 ft. 8½ in., second; W. K. Hancock, Chicago A. A., 145 ft. 7½ in., third; H. C. Gillo, Camp Dick, Tex., 133 ft. 2½ in., fourth.

Point score—Chicago Athletic Association, 34; Pelham Bay Naval Station, 30; Great Lakes Naval Station, 28; Illinois A. C., 22; Meadowbrook Club, Philadelphia, 10; Camp Fremont, Cal., 6; Camp Zachary Taylor, Ky., 6; Camp Dick, Tex., 6; Federal Rendezvous, Brooklyn, 6; Royal Air Force, Toronto, 5; Pittsburgh S. A. A., 5; Pastime Athletic Club, New York, 5; Ferguson A. C., Buffalo, 5; Mohawk Athletic Club, New York, 5; Camp Upton, 5; Columbian A. C., St. Louis, 4; Hog Island, Philadelphia, 3; Hillside A. C., Toronto, 3; Los Angeles A. C., 3; Swedish American A. C., Brooklyn, 3; unattached, 3; University of Chicago, 3; Fort Slocum, New York, 2; Irish American A. A., Boston, 2; Morris A. C., Chicago, 2; Kelly Field, Tex., 1; Gary Y. M. C. A., 1; Boston Navy Yard, 1.

National junior records—Javelin—Racine Thompson, I. A. C., 167 ft. 8¾ in. Three mile walk—L. Labowitz, Pastime A. C., N. Y., 23m. 57s. 440 yard straightaway—C. C. Shaughnessy, Federal Rendezvous, 49s. Records tied—100-yard dash—T. T. Hoskins, C. A. A.; Irving Mahl, Columbian A. C., St. Louis; Arthur Henke, Great Lakes, 10s. 120-yard high hurdles—Walter Smith, C. A. A., 15 2-5s. 220-yard low hurdles—G. Desch, Pelham Bay, 25 1-5s.

National senior outdoor track and field, held at the Great Lakes Naval Station, Great Lakes, Ill., September 21. 100-yard run—Won by A. H. Henke, Great Lakes Naval Station; Jo. G. Loomis, Chicago A. A., second; T. T. Hoskins, Chicago A. A., third; W. Ganzemueller, Meadowbrook Club, Philadelphia, fourth. Time, 10s. 220-yard run—Won by L. Murchison, Great Lakes Naval Station; P. J. White, Salem-Crescent A. C., New York, second; F. Feuerstein, Illinois A. C., third; C. C. Shaughnessy, Federal Rendezvous, Brooklyn, fourth; Time, 22 2-5s. 440-yard run—Won by C. C. Shaughnessy, Federal Rendezvous, Brooklyn; M. Gustafson, Meadowbrook Club, Philadelphia, second; P. Hauser, Federal Rendezvous, Brooklyn, third; F. Feuerstein, Illinois A. C., fourth. Time, 49 2-5s. 880-yard run—Won by T. S. Campbell, University High School, Chicago; J. W. Ray, Illinois A. C., second; Lieut. E. Balestier, Royal Air Force, Toronto, third; J. Sellers, unattached, New York, fourth. Time, 1m. 56 4-5s. One mile run—Won by J. W. Ray, Illinois A. C.; W. F. Gordon, Pelham Bay Naval Station, second; C. J. Stout, Fort Worth, third; N. Brown, Pelham Bay Naval Station, fourth. Time, 4m. 20s. 120-yard high hurdles—Won by E. J. Thompson, Royal Air Force, Toronto; F. F. Loomis, Jr., Chicago A. A., second; W. Smith, Chicago A. A., third; E. S. Riedel, Great Lakes Naval Station, fourth. Time, 15 1-5s. 220-yard low hurdles—Won by F. F. Loomis, Chicago A. A.; Lieut. M. J. House, Camp Fremont, Cal., second; W. Smith, Chicago A. A., third; Lieut. W. H. Meanix, Camp Zachary Taylor, Ky., fourth. Time, 24 1-5s. 440-yard hurdles—Won by D. Hause, Great Lakes Naval Station; F. J. Sauer, Chicago A. A., second; C. D. Sutphen, Chicago A. A., third; G. Schmonn, Meadowbrook Club, Philadelphia, fourth. Three mile walk—Won by R. F. Remer, unattached, New York; A. Zeller, Chicago A. A., second; G. Mertens, Hillside Athletic Club, Toronto, third; H. L. Schultz, Ferguson A. C., Buffalo, fourth. Time, 22m. 17 4-5s. Pole vault—Won by C. Buck, Chicago A. A., 12 ft. 3 in.; E. E. Knourek, Great Lakes Naval Station, second; C. Bean, Los Angeles A. C., third; Lieut. Harwood, Belleville A. C., fourth. 16-lb. shot put—Won by Lieut. A. Richards, Camp Fremont, Cal., 42 ft. 3¾ in ; A. Brundage, Chicago A. A., 41 ft. 4¼ in., second; George A. Bronder, Jr., N. S. School Mil. A., 40 ft. 7½ in., third; D. I. Allman, Great Lakes Naval Station, 40 ft. 3 in., fourth. Running high jump—Won by Carl Rice, Camp Zachary Taylor, Ky., 6 ft. 1 in.; Jo. G. Loomis, Chicago A. A., second; E. J. Thompson, Royal Air Force, Toronto, third; Lieut. A. Richards, Camp Fremont, Cal., fourth. 16-lb. hammer throw—Won by M. J. McGrath, unattached, New York, 173 ft. 11½ in.; J. P. Hooker, Chicago A. A., 136 ft. 2½ in., second; A. Brundage, Chicago A. A., 132 ft. 5¾ in., third; O. R. Benson, Chicago A. A., 132 ft. 5 in., fourth. Running broad jump—Won by D. Politzer, Mohawk A. C., 22 ft. 4 in.; D. F. Ahearn, Illinois A. C., 21 ft. 10¼ in., second; E. A. Anderson, Pelham Bay Naval Station, 21 ft. 4 in., third; T. T. Hoskins, Chicago A. A., 21 ft. 1¾ in., fourth. Five

TRACK AND FIELD ATHLETICS—*Continued.*

mile run—Won by C. Pores, Pelham Bay Naval Station; E. Johnson, Camp Upton, second; F. Gillespie, unattached, third; F. G. Kochanski, Illinois A. C., fourth. Time, 24m. 36 4-5s. Discus throw—Won by E. J. Muller, Great Lakes Naval Station, 136 ft.; E. Gilfillan, Great Lakes Naval Station, 132 ft. 11¾ in., second; Lieut. A. Richards, Camp Fremont, Cal., 129 ft. 8 in., third; A. Brundage, Chicago A. A., 125 ft. 2 in., fourth. 56-lb. weight—Won by M. J. McGrath, unattached, New York, 34 ft. 9 in.; D. I. Altman, Great Lakes Naval Station, second; J. F. Shanahan, Illinois A. C., third; A. Brundage, Chicago A. A., fourth. Running hop, step and jump—Won by D. F. Ahearn, Illinois A. C., 46 ft. 3¾ in.; W. B. Overbee, Chicago A. A., second; S. Landers, Chicago A. A., third; T. T. Hoskins, Chicago A. A., fourth. Throwing the javelin—George A. Bronder, Jr., N. S. Sch. Mil. A., 169 ft. 10½ in.; R. Thompson, Illinois A. C., 168 ft. 10 in., second; J. B. Fritts, unattached, New York, 148 ft. 9¾ in., third; J. Helium, Pastime A. C., 148 ft 4½ in., fourth.

Point Score—Chicago A. A., 56; Great Lakes Naval Training Station, Chicago, 31; Illinois A. C., 25; Camp Fremont, California, 14; Pelham Bay Naval Training Station, New York, 11; Royal Air Force, Toronto, 8½; Federal Reudezvous, Brooklyn, 8; Naval Aeronautics, Princeton, 7; Camp Zachary Taylor, 7; Mohawk A. C., New York, 5; Meadowbrook Club, Philadelphia, 5; University High, Chicago, 5; Camp Upton, New York, 3; Salem-Crescent A. C., New York, 3; Los Angeles A. C., Cal., 2; Hillside A. C., Toronto, 2; Carruthers Field, 2; Swedish-American A. C., Brooklyn, 2; Scott Field, 1; Fegrsuon A. C., Buffalo, 1; Pastime A. C., New York, 1.

National A. A. U. Relay Championship, held at Great Lakes Naval Station, Chicago, Ill., September 23, 1918. 440-yard—Won by Great Lakes (Dover, Erickson, Cass and Murchinson); Chicago A. A., second; Pittsburgh Scholastic A. A., third. (Only three teams.) Time, 44 2-5s. Four mile—Won by Illinois A. C. (Kochanski, Gerald, O'Donnell and Ray); Pelham Bay, second; Great Lakes, third. (Only three teams.) Time, 18m. 26s. One mile—Won by Pelham Bay (Desch, Ferrick, Derneli, O'Brien); Meadowbrook Club, Philadelphia, secoud; Federal Rendezvous, Brooklyn, third; Pittsburgh Schoiastic A. A., fourth. Time, 3m. 26s. 880-yard—Won by Pelham Bay (Desch, Smith, Derneli and Clark); Federal Rendezvous, second; Chicago A. A., third; Great Lakes, fourth. Time, 1m. 31 3-5s. Two mile—Won by Illinois A. C. (Johnson, Feuerstein, O'Donneli, Ray); Pelham Bay, second; Meadowbrook Club, Philadelphia, third; Great Lakes, fourth.

National Senior Indoor Championships, held at 22d Regiment Armory, New York City, March 16, 1918. The summaries: five mile run—Won by Charles Pores, Millrose A. A.; Harold E. Weeks, First Naval District, Boston, second; Villar Kyronen, Millrose A. A., third. Time 25m. 28 1-5s. 1,000-yard run—Won by Joie Ray, Illinois A. C., Chicago; M. A. Devaney, Boston Navy Yard, second; Edwin H. Fall, Great Lakes Naval T. S., Chicago, third. Time, 2m. 14s. 60-yard dash—Final heat—Won by William Ganzemueller, Penn State College; Loren Murchison, Columbian A. C., St. Louis, second; F. S. Davis, University of Pennsylvania, third; Peter J. White, Salem-Crescent A. C., New York, fourth. Time 6 4-5s. 16-lb. shot put—Won by D. C. Sinclair, Princeton University, with 42 ft. 10¾ in.; Ensign Howard G. Cann, U. S. S. New Mexico, New York, 41 ft. 8 in., second; Harry Correli, Pastime A. C., New York, 41 ft. 5¾ in., third; G. A. Bronder, Jr., Aviation Sec. Sig. Corps, U. S. A., 40 ft. 1 in., fourth. Two-mile run—Won by Edward J. Garvey, Jr., Paulist A. C., New York; G. T. Nightingale, New Hampshire State College, second; Louis R. Kaufman, Brooklyn A. A., New York, third; E. Wienman, Morningside A. C., New York, fourth. Time, 9m. 40s. 300-yard run—Final heat—Won by Sherman G. Landers, University of Pennsylvania; Frank Shea, University of Pittsburgh, second; George W. Derneli, Boys' Club, New York, third; Dorsey Griffith, Georgetown University, fourth. Time, 32 2-5s. Standing high jump—Won by Leo Goebring, Mohawk A. C., New York, with 5 ft.; Sam Kronman, Clark House, New York, 4 ft. 9 in., second; T. S. Clark, Lafayette College, 4 ft. 9 in., third; Charles H. Crippen, Salem-Crescent A. C., New York, 4 ft. 8 in., fourth. 70-yard high hurdles—Final heat—Won by Harold Barron, Meadowbrook Club, Philadelphia; Walker Smith, Cornell, second; Arthur L. Engels, O. T. S., Camp Upton, third; W. Savage, Bowdoin, fourth. Time, 9 3-5s. 600-yard run—Won by M. Gustavson, Pennsylvania; Dave Caldwell, Boston A. A., second; John R. Sellers, unattached, third; John J. O'Brien, Loughlin Lyceum, New York, fourth. Time, 1m. 17s. Running high jump—Won by Egon Erickson, Bronx Church House, 5 ft. 10 in.; Charles L. Siebert, Chicago Turngemeinde, 5 ft. 8 in., second; Oliver N. Parry, U. S. Medical Reserve Corps, 5 ft. 6 in., third; Clinton Larsen, 35th Squadron, Aviation Section, U. S. A., 5 ft. 6 in., fourth. Two mile walk—Won by Richard F. Remer, unattached; Corp. Joseph B. Pearman, 105th Infantry, Spartanburg, S. C., second; W. Rolker, unattached, third; William J. McFadden, unattached, fourth. Time, 14m. 27 1-5s. Standing broad jump—Won by S. Fronman, Clark House A. A., 10 ft. 2½ in.; Leo Goehring, Mohawk A. C., 10 ft. 1½ in., second; Clinton Larsen, 35th Aviation Squadron, U. S. A., 9 ft. 3¼ in., third; S. Belsky, Morningside A. C., 9 ft. 2½ in., fourth. Medley relay race—Won by Cornell University (W. Smith, W. H. Cleminshaw, K. Mayer and I. Dresser); First Naval District, Boston (T. J. Halpin, C. E. Phillips, T. E. Burke and M. A. Devaney), second; Camp Dix Team A (Lieut. William Kelly, Lieut. O. C. Anderson, Lieut. C. M. Finch and Lieut. William Anderson), third; Millrose A. A. (W. Dickman, R. McComber, F. Safarowic and R. Crawford), fourth. Time, 7m. 43s. Point score—University of Pennsylvania, 12; Boston Navy Yard, 9; Cornell University, 8.

National Junior Indoor Championships—600-yard run—Held in connection with Meadowbrook Club games, Philadelphia, Second Regiment Armory, March 9, 1918—Won by Thomas Campbell, University High School, Chicago; John R. Sellers, unattached, N. Y., second; J. J. O'Brien, Vietrix C. C., Philadelphia, third; W. Albright, University of Pittsburgh, fourth. Time, 1m. 19s. 300 and 1,000-yard runs—Held in connection with John Wanamaker Commercial Institute games at Madison Square Garden, N. Y., March 20, 1918. 300 yards—Won by Loren Murchison, Columbian A. C., St. Louis, Mo.; James J. O'Brien, Loughlin Lyceum, Brooklyn, N. Y., second; Joseph P. Takach, Fordham University, third. Time, 33 3-5s. 1,000 yards—Won by John R. Sellers, unattached, New York; Charles Shaw, Columbia University, N. Y., second; Joseph P. Giorgio, Paulist A. C., third. Time, 2m. 23 1-5s. Two mile walk—Held in connection with Seventh Regiment games, New York City, April, 1918—Won by Kurt Zulch, American Walkers' Association; Frank Kieser, Morningside A. C., second; Louis Labowitz, Pastime A. C., third; G. A. Urlaub, American Walkers' Association, fourth. Time, 15m. 11 2-5s.

National All-round Championships, held at Great Lakes Naval Training Station, Great Lakes, Ill., September 23—Won by Avery Brundage, Chicago Athletic Association, 6,708.50 points; John Helium, Pastime A. C., New York, 6,419 points, second; Earl J. Thompson, Royal Air Force, Toronto, Can., 6,152 points, third; Earl Gilfillan, Great Lakes Naval Station, 5,133.25 points, fourth; E. Knoureck, 5,073.50 points, fifth; J. R. Fritts, 5,024.25 points, sixth; C. Buck, 4,877.50 points, Seventh; N. P. Bluett, 4,722.25 points, eighth; W. F. Bartels, 4,470.75 points, ninth.

Water polo—Held by Illinois A. C., April 4-5, won by Chicago A. A. first team; Chicago A. A. second team, second.

100 yards—Held by Central Y. M. C. A., Brooklyn, N. Y., April 12; won by Clark Leach, Hamilton Club, Chicago; Leo Geibel, unattached, New York, second; Leming Jelliffe, unattached, New York, third. Time, 60 2-5s.

500 yards—Held by Los Angeles A. C., April 25; won by Guy Sylvester, Los Angeles A. C.; Kenneth Carreher, Los Angeles A. C., second; W. P. Lyon, Jr., Los Angeles A. C., third; A. E. Summons, Los Angeles A. C., fourth. Time, 7m. 31 4-5s.

100-yard breast stroke—Held by Idora Swimming Club, Oakland, Cal., April 21; won by D. Julian, Olympic Club, San Francisco; I. Messenger, Los Angeles A. C., second; G. Barton, Piedmont A. C., third. Time, 1m. 19s.

100-yard back stroke—Held by Pittsburgh A. A., April 19; won by H. Q. Taylor, University of Pittsburgh; C. Leach, Hamilton Club, Chicago, second; A. Kistler, Civic A. C., Pittsburgh, third; W. J. Foster, University of Pittsburgh, fourth. Time, 1m. 17 2-5s.

WOMEN.

100-yard straightaway—Held by Meadowbrook Club, Philadelphia, on Schuylkill River, at Lafayette, Pa., August 31; won by Charlotte Boyle, Women's Swimming Ass'n of New York; Dorothy Burns, Los Angeles A. C., second; Gertrude Artelt, Philadelphia Turngemeinde, third; Bessie Ryan, First Regiment Pool, Philadelphia, fourth. Time, 1m. 11 3-5s.

440 yards—Held by Women's Swimming Ass'n of New York, at Brighton Beach, N. Y., August 21; won by Mrs. Claire Galligan, Women's Swimming Ass'n of New York; Miss Dorothy Burns, Los Angeles, second; Miss Charlotte Boyle, Sea Gate, third. Time, 7m. 20s.

880 yards—Held by Women's Swimming Ass'n of New York, at Inlet Terrace Lagoon, Belmar, N. J., August 17; won by Claire Galligan, Women's Swimming Ass'n of New York. Time, 13m. 31 4-5s.

One mile—Held by Neptune Swimming Club, at Neptune Beach, Alameda, Cal., September 22.

High dive—Held by Women's Swimming Ass'n of New York, at Throggs Neck, L. I., September 29; won by Josephine Bartlett, Women's Swimming Ass'n of New York.

Long distance (about three miles in Detroit River)—Held by Detroit A. C. and Detroit Boat Club September 7; won by Claire Galligan, Women's Swimming Ass'n of New York; Dorothy Burns, Los Angeles A. C. second; Grace Stewart, St. Louis, third. Time, 1h. 24m. 3 1-5s.

500 yards—Held by Detroit A. C., March 30; won by Claire Galligan, Women's Swimming Ass'n of New York; Olga Dorfner, Philadelphia Turngemeinde, second; Charlotte Boyle, Women's Swimming Ass'n of New York, third; Thelma Darby, Independent A. C., fourth. Time, 7m. 44 3-5s.

220 yards—Held by Central Y. M. C. A., Brooklyn, N. Y., April 12; won by Claire Galligan, Women's Swimming Ass'n of New York; Charlotte Boyle, Women's Swimming Ass'n of New York, second; Gertrude Artelt, Philadelphia Turngemeinde, third. Time, 3m. 3 4-5s.

50 yards—Held by Idora Swimming Club, Oakland, Cal., April 28; won by Charlotte Boyle, Women's Swimming Ass'n of New York; Dorothy Burns, Los Angeles A. C., second; Claire Galligan, Women's Swimming Ass'n of New York, third. Time, 31 1-5s.

150-yard back stroke—Held by Idora Swimming Club, Oakland, Cal., May 5; won by Dorothy Burns, Los Angeles A. C.; Leila Dunkam, Stockton Swimming Club, second; Charlotte Boyle, Women's Swimming Ass'n of New York, third. Time, 2m. 32 1-5s.

200-yard breast stroke—Held by Pittsburgh A. A., April 19; won by Mabel Arklie, Philadelphia Turngemeinde; Ruth Smith, A. C. of Columbus, second; Eleanor Smith, A. C. of Columbus, third; Nevol Taylor, Pittsburgh A. A., fourth. Time, 3m. 27s. 150-yard back stroke, bath (20), 7 turns, 2m. 34s., Ruth Smith, Columbus A. C., Pittsburgh, Pa., April 9, 1913; 100-yard breast stroke, bath (20), 4 turns, 1m. 32 2-5s., Ruth Smith, Columbus A. C., Columbus A. C. Bath, Pittsburgh, Pa., April 9, 1918; 200-yard breast stroke, bath (20), 9 turns, 3m. 26s., Eleanor Smith, Columbus A. C., Columbus A. C. Bath, Pittsburgh, Pa., April 9, 1918; bath (25), 7 turns, 3m. 27s., Mabel Arklie, Philadelphia, Pa., Pittsburgh A. A. Bath, Pittsburgh, Pa., April 19, 1918; plunge for distance, 54 feet, Olga Dorfner, Philadelphia Turngemeinde, Germantown, Philadelphia, Pa., April 14, 1917.

A. A. U. RECORDS.

American records are recognized over the following distances, if made over a course not less than 60 feet and not more than 220 yards in length; 50 yards, 100 yards, 120 yards, 150 yards, 200 yards, 220 yards, 300 yards, 440 and 500 yards, for swimming on the back; 100 yards and 150 yards, for swimming the breast stroke; 100 and 200 yards, for relay racing club teams of 4 or 5 men, each man to swim 50 and 100 yards; and over the following distances if made over a course

not less than 220 feet and not more than 220 yards in length; 880 yards, 1,000 yards and one mile. For plunging, one minute time limit. In addition to distances mentioned above, all records over distances in metres, if made under record conditions of the International Swimming Federation, are acknowledged as American records. Figures in parentheses indicate length of course in yards unless stated otherwise. 50 yards, bath (100 feet), 1 turn, 23 2-5s., Duke P. Kahanamoku, San Francisco, Cal., August 6, 1913; 50 yards, open tidal salt water, straightaway, 23s., Duke P. Kahanamoku, Honolulu Bay, Honolulu, H. T., June 11, 1915 (swimmer was not aided by the tide); 100 yards, bath (75 yards, salt water), 1 turn, 54 2-5s., Duke P. Kahanamoku, Honolulu, Sutro Baths, San Francisco, Cal., July 17, 1915; bath (20), 4 turns, 54s., Perry McGillivray, Chicago, Ill., February 3, 1916; open tidal salt water, straightaway, 53s., Duke P. Kahanamoku, Hui Nalu, Honolulu, Honolulu Harbor, H. T., September, 5, 1917 (swimmer was not aided by the tide); 120 yards, bath (25), 4 turns, 1m. 10s., C. M. Daniels, New York City, December 9, 1908; bath (20), 5 turns, 1m. 8 2-5s., Perry McGillivray, Illinois A. C., Illinois A. C. Bath, Chicago, Ill., January 8, 1914; 150 yards, bath (25) 5 turns, 1m 29 4-5s., H. E. Vollmer, New York City, January 10, 1916; 200 yards, bath (20), 9 turns, 2m. 7 2-5s., H. J. Hebner, Illinois A. C., Illinois A. C. Bath, Chicago, Ill., January 8, 1914; bath (25), 7 turns, 2m. 8s., Norman Ross, Olympic Club, San Francisco, New York A. C. Bath, New York City, March 27, 1917; bath (75), 2 turns (salt water), 2m. 13 1-5s., Duke P. Kahanamoku, Hui Nalu, Honolulu, H. T., Sutro Baths, San Francisco, Cal., July 4, 1914; 220 yards, bath (25), 8 turns, 2m. 23 2-5s., H. E. Vollmer, New York City, April 10, 1916; bath (20), 10 turns, 2m. 21s., H. J. Hebner, Illinois A. C., Illinois A. C. Bath, Chicago, Ill., January 8, 1914; bath (100 ft.), 6 turns, 2m. 21 3-5s., Norman Ross, Stanford University, Olympic Club Bath, San Francisco, November 24, 1916; open tidal salt water (100), 2 turns, 2m. 24 1-5s., Perry McGillivray, Illinois A. C., Chicago, Honolulu Harbor, H. T., February 24, 1917; 300 yards, bath (25), 11 turns, 3m. 28s., T. H. Cann, New York A. C., New York A. C. Bath, New York City, March 14, 1917; bath (20), 14 turns, 3m. 26 1-5s., Perry McGillivray, Illinois A. C. Bath, Chicago, Ill., February 4, 1915; 440 yards, bath (25), 17 turns, 5m. 16 2-5s., Norman Ross, Olympic Club, San Francisco, Detroit A. C., Bath, Detroit, Mich., March 31, 1917; open tidal salt water (100), 4 turns, 5m. 17s., Ludy Langer, Los Angeles A. C., Honolulu Harbor, H. T., February 24, 1917; 500 yards, bath (25), 19 turns, 6m. 5 3-5s., Norman Ross, Olympic Club, San Francisco; Detroit A. C. Bath, Detroit, Mich., March 31, 1917; open salt water (100), 4 turns, 6m. 11 2-5s., Ludy Langer, Honolulu, H. T., September 2, 1916; 880 yards, bath (75, salt water), 11 turns, 11m. 46 2-5s., Ludy Langer, Los Angeles A. C., Sutro Baths, San Francisco, Cal., July 3, 1914; open tidal salt water (100), 8 turns, 11m. 27 3-5s., Norman Ross, Olympic Club, San Francisco, Honolulu Harbor, H. T., September 6, 1917; 1,000 yards, open salt water (100), 9 turns, 13m. 7 2-5s., Ludy Langer, Honolulu, H. T., September 4, 1916; 1 mile, open tidal salt water (110), 15 turns, 24m. 10s., Norman Ross, Olympic Club, San Francisco, Coronado Tent City, Cal., July 4, 1917; 100 metres bath (25), 4 turns, 1m. 2 4-5s., C. M. Daniels, New York, April 15, 1910; 200 metres, bath (100 ft.), 6 turns, 2m. 21 3-5s., Norman Ross, Stanford University, Olympic Club Bath, San Francisco, Cal., November 24, 1916; 300 metres, bath (25), 13 turns, 3m. 55 2-5s., H. E. Vollmer, New York City, July 18, 1916; 500 metres, bath (25), 21 turns, 6m. 51 3-5s., H. E. Vollmer, New York City, July 18, 1916. Swimming on the back—100 yards, bath (25), 3 turns, 1m. 8 2-5s., H. J. Hebner, Crystal Bath, St. Louis, Mo., April 1, 1911, and Russell Dean, New York City, March 15, 1916; 100 yards, backstroke, open tidal salt water, straightaway, 1m. 8 1-5s., Harold Kruger, H. Y. B. C., Honolulu, Honolulu Harbor, H. T., September 5, 1917; 400 yards, 4 men, 100 yards each, bath (20), 3m. 42 3-5s., Illinois A. C. team (A. C. Raithel, 58s.; Wm. Vosburgh, 57 2-5s.; H. J. Hebner, 55s.; Perry McGillivray, 55 1-5s.), Chicago, Ill., April 27, 1916; 4 men, each 100 yards, bath (25), 3m. 52 4-5s., Illinois A. C. team (A. C. Raithel, 58 3-5s.; Wm. Vosburgh, 59 1-5s.; Perry McGillivray, 57s.; H. J. Hebner, 58s.), New York A. C. Bath, New York City, May 4, 1914; 4 men, open still water, 100-yard course, 3m. 57 1-5s., Illinois A. C. team (H. J. Hebner, 1m.; M. R. Mott, 1m. 2s.; A. C. Raithel, 57 1-5s.; Perry McGillivray, 58s.), Broad Ripple Pool, Indianapolis, Ind., July 31, 1914; relay racing, 500 yards, 5 men, 100 yards each, bath (20), 4m. 40 3-5s., Illinois A. C. team (A. C. Raithel, 55s.; Wm. Vosburgh, 57 2-5s.; H. J. Hebner, 55s.; Perry McGillivray, 55 1-5s.; D. L. Jones, 58s.), Chicago, Ill., April 27, 1916; 5 men, 100 yards each, bath (25), 4m. 53 3-5s., New York A. C. team (J. C. Wheatley, 59 4-5s.; H. E. Vollmer, 57s.; Walter Ramme, 58 4-5s.; N. T. Nerich, 59 1-5s.; H. O'Sullivan, 58 4-5s.), New York A. C. Bath, New York City, April 8, 1915; plunging, 1m. time limit, bath, 80 feet, F. B. Willis, Philadelphia, Pa., March 9, 1912.

LADIES' RECORD.

100 yards, bath (20), 4 turns, 1m. 7 3-5s., Olga Dorfner, Philadelphia Turngemeinde Bath, Philadelphia, Pa., April 16, 1917; 100 yards, open tidal salt water, straightaway, 1m. 7 4-5s., Dorothy G. Burns, Los Angeles A. C., Los Angeles, Cal., Honolulu Harbor, H. T., September 5, 1917.

AMATEUR SWIMMING RECORDS MADE 1918—MEN.

120-yard open still salt water (100), 1 turn, 1m. 7 2-5s., Duke P. Kahanamoku, Hui Nalu Club, Honolulu, H. T., Bronx Exposition Pool, New York City, August 12, 1918; 200-yard bath (20), 9 turns, 2m. 6 4-5s., Norman Ross, Olympic Club, San Francisco, Cal., Illinois A. C. Bath, Chicago, Ill., April 4, 1918; 220-yard bath (20), 10 turns, 2m. 20 1-5s., Norman Ross, Olympic Club, San Francisco, Cal., Illinois A. C. Bath, Chicago, Ill., April 4, 1918; open still water, straightaway, 2m. 21 1-5s., Perry McGillivray, Great Lakes Naval Station, Lincoln Park Lagoon, Chicago, Ill., July 13, 1918; 300-yard bath (20), 14 turns, 3m. 16 3-5s., Norman Ross, Olympic Club, San Francisco, Cal., Illinois A. C. Bath, Chicago, Ill., April 4, 1918; 400-yard bath (20), 21 turns, 5m. 8 4-5s., Norman Ross, Olympic Club, San Francisco, Cal., Illinois A. C. Bath, Chicago, Ill., April 10, 1918; open still water, straightaway, 5m. 25s., W. L. Wallen, Great Lakes Naval Station, Lincoln Park Lagoon, Chicago, Ill., July 14, 1918; 500-yard bath (20), 24 turns, 5m. 53 2-5s., Norman Ross, Olympic Club, San Francisco, Cal., Illinois A. C. Bath, Chicago, Ill., April 10, 1918; 100-metre, open still salt water (100), 1 turn, 1m. 1 2-5s., Duke P. Kahanamoku, Hui Nalu Club, Honolulu, H. T., Bronx Exposition Pool, New York City, August 9, 1918; open tidal salt water, 1m. 4-5s., Duke Kahanamoku, Hui Nalu Club, Honolulu, H. T., Inlet Terrace Lagoon, Belmar, N. J., September 2, 1918; 100-yard back stroke, open still salt water, straightaway, 1m. 10 2-5s., Harold Kruger, Hui Nalu Club, Honolulu, H. T., Neptune Beach Pool, Alameda, Cal., June 8, 1918; 150-yard back stroke, bath (25), 5 turns, 1m. 48 1-5s., Perry McGillivray, Great Lakes Naval Training Station, at Detroit A. C. Bath, Detroit, Mich., March 30, 1918; open tidal salt water (75), 1 turn, 1m. 54 4-5s., Harold Kruger, Hui Nalu Club, Honolulu, H. T., Inlet Terrace Lagoon, Belmar, N. J., September 2, 1918; 100-metre back stroke, open still water, straightaway, 1m. 17 1-5s., Harold Kruger, Hui Nalu Club, Honolulu, H. T., Lincoln Park Lagoon, Chicago, Ill., July 13, 1918; 200-yard (100), open tidal water, 2m. 11 2-5s., Duke Kahanamoku, Honolulu, H. T., at Inlet Terrace Lagoon, Belmar, N. J., August 17, 1918.

WOMEN'S RECORDS.

100-yard straightaway, open still water, 1m. 6 2-5s., Olga Dorfner, Philadelphia Gymnasium Soc., at Neptune Beach Pool, Alameda, Cal., July 20, 1918; 200-yard open still water (100), 2 turns, 2m. 56 2-5s., Olga Dorfner, Philadelphia Gymnasium Soc., at Neptune Beach Pool, Alameda, Cal., July 21, 1918; 880-yard open still water (100), 8 turns, 13m. 46 2-5s., Frances Cowells, at Neptune Beach Pool, Alameda, Cal., August 26, 1918; 400-yard relay, team of 4 each to swim 100 yards, bath (20), 5m. 6s., Philadelphia Turners Team (Olga Dorfner, M. Arkile, Ellz. Becker, Helen Pennypacker), Philadelphia Turners Bath, Philadelphia, Pa., April 27, 1918; 100-yard back stroke bath (20), 4 turns, 1m. 37 1-5s., Ruth Smith, Columbus A. C., Columbus A. C. Bath, Pittsburgh, Pa., April 9, 1918.

AMERICAN INTERCOLLEGIATE RECORDS.

40 yards, bath (20), 19s., W. C. Earle, Chicago University, at Annapolis, February 21, 1916; 50 yards, bath (25), 25 1-5s., S. E. Hoadley, Yale, at New Haven, December 11, 1914; 100 yards, bath (25), 56 2-5s., Herbert Vollmer, Columbia, at New York, February 18, 1916; 220 yards, bath (100 feet), 2m. 31s., Eben Cross, Princeton, at Princeton, February 20, 1914; 440 yards, bath (20), 5m. 47 4-5s., R. Simonson, Northwestern, at Evanston, Ill., March 17, 1916. Relay racing—160 yards, bath (20), 1m. 20s., Chicago University (Earle, Meine, O'Connor, Pavlicek), at Annapolis, February 21, 1916; 200 yards, bath (25), 1m. 42 1-5s., Yale (L. A. Ferguson, C. N. Schlaet, R. Mayer and R. Thomas), at New Haven, Ct., February 28, 1917; 800 feet, bath (100 feet), 2m. 30s., Yale (Mayer, Sumners, Marr, Roberts), at Princeton, February 27, 1914; 400 yards, bath (20), 4m. 1 2-5s., Yale (Mayer, Rosener, Schlaet, Ferguson), at Chicago, April 23, 1916. Back stroke—150 yards, bath (20), 1m. 50 2-5s., C. B. Pavlicek, Chicago University, at Chicago, February 22, 1916. Breast stroke—200 yards, bath (20), 2m. 45 2-5s., Herbert Taylor, Wisconsin University, at Madison, Wis., March, 1915. Plunge for distance—One minute time limit, 78 feet. Carl G. Lehman, Pennsylvania, at Philadelphia, February 7, 1916; for speed—bath (60), 18 4-5s., J. C. Redmond, Chicago University, at Chicago, February 26, 1916.

NATIONAL INTERSCHOLASTIC CHAMPIONSHIPS.

Held at University of Pennsylvania, Philadelphia, January 28; won by Brooklyn Polytechnic Institute with 21 points. Individual events (finals only): 800-foot relay race (selected on times made in trial heats)—Won by Poly Prep of Brooklyn; West Philadelphia High School second team, second; Mercersburg, third. Time, 2m. 40s. 50 yards—Won by Leo Giebel, Berkeley-Irving, New York; Genthner, Poly Prep, Brooklyn, second; Holt, West Philadelphia, third; Davis, Mercersburg, fourth. Time, 26 1-5s. (Equals interscholastic record made by Ted Cann in 1915). 100 yards—Won by Jelliffe, Poly Prep, Brooklyn; Genthner, Poly Prep, second; Chase, Berkeley-Irving, third; tie between Crowell, West Philadelphia High, and Cooper, Lawrenceville, for fourth place. Time, 1m. 2s. 500 yards—Won by Leo Giebel, Berkeley-Irving; Greene, West Philadelphia High School, second; Phillips, Mercersburg, third; Simonds, Lawrenceville, fourth. Time, 6m. 48 2-5s. Fancy diving—Won by Reid, Mercersburg; Mayer, Central High School of New Jersey, second; Luke, Lawrenceville, third; Maxwell, Lawrenceville, fourth. Plunge for distance—Won by Schuredt, Western High School, Detroit; Hahn, Rutgers Prep., second; Monroe, Mercersburg, third; Sherman, Marquand School of Brooklyn, fourth. Distance of winner, 79 feet. (New interscholastic record; former mark, 68 feet, made by Hitchkiss, Lawrenceville.)

Co.

PULITZER FREE SCHOLARSHIPS.

By the will of the late Joseph Pulitzer, provision was made for the perpetuation of the plan of scholarship aid to deserving graduates of the Public High Schools of the City of New York, which had been established by Mr. Pulitzer in 1889 and maintained by him until his death. This aid is an allowance, to successful competitors, of $250 for each of the four years of a course in any first-class college in the United States which they may choose. Successful competitors who choose Columbia University will receive in addition to the allowance free tuition in Columbia College, or in the Schools of Mines, Engineering and Chemistry, Architecture or Journalism. Those who enter any other college of the first rank will receive the annual allowance, but must provide their own tuition fees.

The method of selection is as follows: Any boy who is a member of the graduating class of any of the Public High Schools of the City of New York and who desires to compete will be required to obtain from his principal a certificate attesting to his eligibility under the philanthropic phase of the plan, and one from his parents or guardian, stating the facts that make them unable to give him a college education without the help of a scholarship. Blanks for these purposes may be obtained from the principal. The applicant will then be required to take the June examinations of the College Entrance Examination Board at Columbia University in enough subjects to complete the entrance requirements of the college or technical school he purposes to enter. A candidate may present himself for examination as he prefers at one or two series of the examinations of the Board subject to the following conditions: (1) That at each series of examinations at which a candidate presents himself all the subjects must be offered for which certification has been made by the candidate's school on the application to the Board. (2) While a candidate may, for admission to college, take examination on any given subject more than once, the first mark received by him therein shall be the mark used in computing his relative standing in the Pulitzer scholarship contest. (3) A candidate who graduates in the winter must take his final examinations in the next succeeding month of June. If he takes his examinations in two series, the preliminary examinations must be taken in the month of June next preceding graduation. (4) A candidate who graduates in the summer must take his final examinations in the month of June in the year of his graduation. If he takes his examinations in two series, the preliminary examinations must be taken in the month of June next preceding his final examinations.

When the results of the college entrance examinations have been ascertained, the committee will make up a list of the applicants who have passed the best examinations, and from this list, after a close investigation of need for material assistance and probability of future value to the community, will select the requisite number to fill such vacancies as exist in the full quota of forty scholarships. They will not, in any case, be awarded upon scholarship alone.

PULITZER PRIZES AND TRAVELING SCHOLARSHIPS, 1918.

[Awarded at commencement, Columbia University, 1918, upon decision of the juries respectively, as confirmed by the Advisory Board of the School of Journalism, consisting of Nicholas Murray Butler, President of the University; Solomon B. Griffin, Springfield (Massachusetts), *Republican;* John Langdon Heaton, *The World*, New York; George S. Johns, St. Louis *Post-Despatch;* Victor Fremont Lawson, Chicago *Daily News;* Charles Ransom Miller, New York *Times;* Edward Page Mitchell, New York *Sun;* Ralph Pulitzer, *The World*, New York; Melville Elijah Stone, New York *Associated Press;* Charles H. Taylor, Boston *Globe*, and Samuel Calvin Wells, Philadelphia *Press.*]

A. Prizes in Journalism: Jury—Director Talcott Williams of the School of Journalism; Prof. W. B. Pitkin, Prof. R. C. E. Brown, Prof. J. T. Grady, and R. E. MacAlarney. (1) For the best and most suggestive paper on the future development and improvement of the School of Journalism, or for any one idea that will promise great improvement in the operation of the School, $1,000. No award.

(2) For the most disinterested and meritorious public service rendered by any American newspaper during the year, a gold medal costing $500. Awarded to the New York *Times*, for printing, in full, valuable documents affecting the issues of the war.

(3) For the best history of the services rendered to the public by the American press during the preceding year, $1,000. Awarded to Minna Lewinson and Henry Beetle Hough, 1918 Journalism.

(4) For the best editorial article written during the year, the test of excellence being clearness of style, moral purpose, sound reasoning and power to influence public opinion in the right direction, $500. Awarded to the Louisville *Courier-Journal*, for the editorial article "Vae Victis!" published April 7, 1918, and the editorial "War Has Its Compensation," published April 10, 1918.

(5) For the best example of a reporter's work during the year; the test being strict accuracy, terseness, the accomplishment of some public good commanding public attention and respect, $1,000. Awarded for the series of articles published in the New York *Evening Post* exposing abuses in and leading to reform of the New Jersey State prison by Harold A. Littledale.

B. Prizes in Letters—(1) For the American novel published during the year which shall best present the wholesome atmosphere of American life, and the highest standard of American manners and manhood, $1,000. Jury—Robert Grant, Chairman; W. M. Payne, W. L. Phelps. Awarded to "His Family," by Ernest Poole, published by the Macmillan Company, New York, 1917.

(2) For the original American play, performed in New York during the year, which shall best represent the educational value and power of the stage in raising the standard of good morals, good taste and good manners, $1,000. Jury—Augustus Thomas, Chairman; Richard Burton, Hamlin Garland. Awarded to "Why Marry," by Jesse Lynch Williams.

(3) For the best book of the year upon the history of the United States, $2,000. Jury—Barrett Wendell, Chairman; J. H. Finley, W. C. Ford. Awarded to "A History of the Civil War, 1861-1865," by James Ford Rhodes, published by the Macmillan Company, New York, 1917.

(4) For the best American biography teaching patriotic and unselfish services to the people, illustrated by an eminent example, excluding, as too obvious, the names of George Washington and Abraham Lincoln, $1,000. Jury—Paul E. More, Chairman; Edward Channing, Ripley Hitchcock. Awarded to "Benjamin Franklin, Self-Revealed," by William Cabell Bruce, published by G. P. Putnam's Sons, New York, 1917.

C. Travelling Scholarships—(1) Three travelling scholarships to graduates of the School of Journalism, who shall have passed their examinations with the highest honor and are otherwise most deserving, to enable each of them to spend a year in Europe, to study the social, political and moral conditions of the people, and the character and principles of the European press. No awards. (The war making it impossible to carry out the conditions at present.)

(2) An annual scholarship to the student of music in America who may be deemed the most talented and deserving, in order that he may continue his studies with the advantage of European instruction, on the nomination of a jury composed of members of the teaching staff of the Department of Music in Columbia University and of the teaching staff of the Institute of Musical Art. Jury—Prof. D. G. Mason, Prof. W. H. Hall, Frank Damrosch, of the Institute of Musical Art. Awarded to Samuel Gardner.

(3) An annual scholarship to an art student in America, who shall be certified as the most promising and deserving by the National Academy of Design, with which the Society of American Artists has been merged. Awarded by the National Academy of Design to Dushan M. Rusitch, a student of the National Academy of Design Schools.

College fraternities, having been put under a temporary ban by the war, are omitted from this year's ALMANAC. These orders have lost many officers and members in the fighting, and the usual organization statistics are not available.

COLLEGE ALUMNI IN WAR.

Edward G. Riggs has made a study of the number of college graduates who had entered the service of the United States up to July 1, 1918. Out of the living alumni, aggregating 396,619, those in service numbered 64,890, or 16.36 per cent. The figures for the larger universities were as follows:

COLLEGE.	No. Living	No. in S'rvice	Per Cent.	COLLEGE.	No. Living	No. in S'rvice	Per Cent.	COLLEGE.	No. Living	No. in S'rvice	Per Cent.	COLLEGE.	No. Living	No. in S'rvice	Per Cent.

SOBRIQUETS OR BY-NAMES OF CITIES IN THE UNITED STATES.

Albany—The Capital City.
Atlanta—The Gate City of the South.
Baltimore—The Monumental City.
Birmingham—Birmingham the Beautiful.
Boston—The Hub, Bean Town, Athens of America.
Brooklyn—The City of Churches.
Buffalo—The Queen City of the Lake.
Charleston, S. C.—The Palmetto City.
Chicago—The Windy City and Garden City.
Cincinnati—The Queen City and Porkopolis.
Cleveland—The Forest City.
Dallas—The City of the Hour.
Dayton—The Gem City.
Denver—The City of the Plains.
Des Moines—The City of Certainties.
Detroit—The City of the Straits.
Duluth—The Zenith City of the Unsalted Sea.
Galveston—The Oleander City.
Hannibal, Mo.—The Bluff City.
Hartford—Insurance City and Charter Oak City.
Indianapolis—The Railroad City.
Jacksonville—The Gateway City.
Kansas City, Mo.—The Heart of America.
Keokuk, Iowa—The Gate City.
Little Rock—The City of Roses.
Los Angeles—The Metropolis of the West and The City of the Angels.
Louisville—The Falls City.
Lowell—The City of Spindles.
Lynn—The City of Shoes.
Madison, Wis.—The Lake City.
Memphis—The Bluff City.
Milwaukee—Milwaukee the Bright Spot and The Cream City.
Minneapolis—The Flour City.
Nashville—The City of Rocks.
Newark—Newark Knows How.
New Bedford—The Whaling City.
New Haven—The City of Elms.
New Orleans—The Crescent City.
New York—The Empire City, Gotham, The Metropolis.
Omaha—The Gate City of the West.
Paterson—The Silk City and the Lyons of America.
Philadelphia—The City of Brotherly Love and The Quaker City.
Pittsburgh—The Iron City and The Smoky City.
Portland, Me.—The Forest City.
Portland, Ore.—The Rose City.
Providence—The Gateway of Southern New England.
Reading—The Pretzel City.
Rochester—The Flour City.
St. Joseph—The City Worth While.
St. Louis—The Mound City.
St. Paul, Minn.—The Saintly City and The Gem City.
Salt Lake City—The City of the Saints.
San Francisco—The Golden Gate City.
Savannah, Ga.—The Forest City of the South.
Scranton—The Electric City.
Seattle—The Queen City.
Springfield, Ill.—The Flower City.
Springfield, Mass.—The City of Homes.
Syracuse—The Salt City and the Central City of the Empire State.
Toledo—The Corn City.
Troy—The Collar City.
Washington—The City of Magnificent Distances.
Worcester—The Heart of the Commonwealth.

STATISTICS OF FIRE DEPARTMENTS IN UNITED STATES.

According to a bulletin of the Census Bureau, there are in the United States (the data were collected in 1917), 37,091 firemen in paid departments—5,913 in New York; 2,060 in Chicago; 1,208 in Philadelphia; 1,094 in Boston; and 821 in St. Louis. Total number of pumping engines—1,720, of which 401 were motor engines; chemical engines, 167; hose wagons, 2,447; ladder trucks, 1,001; water towers, 62; horses, 7,535; autos, 948; wagons, 1,124; fire boats, 44; fire stations, 2,733. The fire boats are distributed as follows: New York, 10; Chicago, 6; Philadelphia, 1; Boston, 3; Cleveland, 2; Detroit, 2; Baltimore, 2; Buffalo, 3; San Francisco, 2; Milwaukee, 4; Washington, 1; Seattle, 2; Portland, Ore., 2; Portland, Me., 1; Mobile, 1; Galveston, 1; Wilmington, N. C., 1.

CRIMES AND PENALTIES.

WHILE the penalties for homicide are not precisely uniform throughout the various States of the Union, except for the continuance or the abolishment of capital punishment, they are similar. With regard to other serious crimes, likewise, differences are more seeming than real. Felonies, such as manslaughter, arson, burglary, robbery and larceny, are in some States subdivided into degrees, first, second, third and even fourth; while in others there is a single general classification. Where there is no subdivision into degrees, however, the modifying of penalties by reason of attending circumstances, results in the same effect as though there were degrees.

CRIMES AGAINST THE UNITED STATES.

Treason—Whoever, owing allegiance to the United States, levies war against them, or adheres to their enemies, giving them aid and comfort, is guilty of treason. The penalty upon conviction is imprisonment for not less than 5 years, fine of not less than $10,000, or death. Misprision of treason consists in general of having knowledge of, concealing and not disclosing the treason of others. The penalty is imprisonment for not more than 7 years, and fine of not more than $1,000, or both fine and imprisonment. Rebellion or insurrection is the inciting, setting on foot, assisting or engaging in armed resistance to the execution of the laws by two or more. The penalty on conviction is imprisonment for not more than 10 years, fine of not more than $10,000, or both.

CRIMES AGAINST THE STATES, PROVIDED FOR IN THE VARIOUS STATE PENAL CODES.

Murder in the First Degree may be generally defined to be the unlawful, intentional and premeditated killing of a human being, or such a killing resulting from the commission or attempt to commit one of the graver crimes, such as arson, burglary, rape or robbery.

Murder in the Second Degree is such a killing without premeditation, or resulting from the attempt to commit some lesser crime.

The penalty for murder in the first degree by the Federal Statutes is death by hanging. Hanging is also the penalty in Connecticut, Delaware, Florida, Georgia, New Mexico, Hawaii and the District of Columbia. Death by hanging or life imprisonment in Alabama, California, Colorado, Idaho, Iowa, Louisiana, Maryland, Mississippi, Montana, New Hampshire, West Virginia and Wyoming, Alaska and Porto Rico. In Illinois, hanging or imprisonment, not less than 14 years to life. In Texas hanging, or any term of imprisonment not less than 5 years. Death by electricity in Arkansas, Massachusetts, Nebraska, New Jersey, New York, North Carolina and Pennsylvania. Death by electricity or life imprisonment in Indiana, Kentucky, Ohio, Oklahoma and South Carolina. Life imprisonment in Arizona, Kansas, Maine, Michigan, Minnesota, North Dakota, Oregon, Rhode Island, South Dakota, Tennessee, Washington, Wisconsin. In Nevada and in Utah the penalty may be death or life imprisonment; if death, the convicted person may choose between hanging or shooting.

Murder in the second degree is punished in the Federal Constitution by imprisonment for not less than 10 years to life. The same penalty, not less than 10 years up to life is imposed in the States of Arizona, Idaho, Iowa, Nebraska, Nevada, Rhode Island, Utah. Not less than 10 (the statutes not mentioning life imprisonment) is the penalty in Alabama, California, Kansas, Missouri, Montana, Washington and Porto Rico. Life imprisonment is the penalty in Connecticut, Delaware, Florida, Georgia, Indiana, Michigan, Minnesota, Ohio, Oregon, Vermont. The statutes of Illinois, Kentucky, Louisiana, Mississippi, Oklahoma, South Carolina and Texas have no second degree murder classification. In Arkansas the penalty is from 5 to 21 years; Maryland, 5 to 18; Michigan and New Hampshire, any term of years to life; no minimum term mentioned. New Jersey, not over 30; New Mexico, 3 or more; New York, not less than 20 up to life; North Carolina, 2 to 30; North Dakota, 10 to 30; Pennsylvania, not over 20; Tennessee, 10 to 20; Virginia and West Virginia, 5 to 18; Wisconsin, 14 to 25; Wyoming, not less than 20 up to life; Alaska, not less than 15; Hawaii, 20 up to life; District of Columbia, not less than 20 up to life.

In Colorado the death sentence is not imposed where the conviction is had on circumstantial evidence, nor on one under 18 years of age. In Delaware the jury may recommend commutation of the death sentence to imprisonment for life.

Manslaughter may be defined as a killing either unintentionally resulting from the careless or unlawful doing of some otherwise lawful act or from the commission of some unlawful act of comparatively trivial character or intentionally in the heat of passion and without premeditation.

Penalties for manslaughter vary, scarcely any two States fixing precisely the same. Many of the States do not subdivide into first and second. Where there is but the single heading the penalties are as follows: California (not over 10), Connecticut (not over 10 years and fine of $1,000), Delaware (1-10 and $500 to $5,000), Florida (not over 20 or $5,000), Idaho (not over 10), Illinois (any term up to life fixed by the Division of Pardons and Paroles), Indiana (2-21), Iowa (not over 8 and $1,000), Louisiana) not over 20 and $2,000), Maine (not over 20 and $1,000, or both), Maryland (not over 10 or $500), Massachusetts (not over 20), Michigan (15 or not over $1,000), Mississippi (not over 20 and $500), Montana (not over 10), Nebraska (1-10), Nevada (not over 10), New Jersey (not over 10), New Mexico (1-10), North Carolina (4 months to 20 years), Ohio (1-20), Oregon (1-15 and $5,000), Rhode Island (not over 20), South Carolina (2-30), Texas (2-5, Vermont (not less than 1 up to life or $1,000), Virginia (1-15, Washington (not over 20 and fine), Wyoming (1-20), Alaska (1-15), District of Columbia (not over 15, or $1,000, or both). Where two degrees are specified the penalty for mansiaughter in the first is: Alabama (1-10), Arizona (not over 10), Arkansas (2-7), Colorado (1-8), Georgia (1-20), Kansas (5-21), Kentucky (2-21), Minnesota (5-20), Missouri (not less than 5), New Hampshire (not over 30), New York (not over 20), North Dakota (5-15), Oklahoma (not less than 4), Pennsylvania (not over 12 and $1,000), South Dakota (not less than 4), Tennessee (2-10), Utah (1-10), West Virginia (1-5), Wisconsin (5-10), Hawaii (10-20), Porto Rico (not over 10). And for second degree: In Alabama (not over 1 and $500), Georgia (1-3), Kansas (3-5), Kentucky (1-6), Minnesota (1-15), Missouri (3-5), New Hampshire (not over 10 or $1,000, or both), New York (not over 15 or $1,000, or both), North Dakota (1-15), Oklahoma (2-4), Pennsylvania (not over 2 and $1,000), South Dakota (2-4), Tennessee (1-15), Utah (not over 1), West Virginia (court fixes penalty), Wisconsin (4-7), Hawaii (5-10), Porto Rico (not over 10).

Assault with Intent to Kill—Under Federal Statutes, assault with intent to kill or to commit a rape is punishable by imprisonment for not more than 20 years, while assault with intent to commit a felony other than murder or rape is punishable by not more than 5 years' imprisonment and a fine of not over $3,000. In Iowa, assault with intent to kill is punishable by 10 years' imprisonment; not over 10 in Kansas, Massachusetts, Missouri, New York and Oklahoma; from 1 to 10, North Dakota, Oregon, Virginia; not less than 10 in Porto Rico; 1 to 14, California, Colorado, Idaho, Illinois, Nevada, Wyoming; 1-20, Maine, Rhode Island and Utah; Alabama (2-20), Arizona (5 up to life), Arkansas (1-21), Connecticut (10-30), Delaware (not over 3), Florida (not over 20), Georgia and Maryland (2-10), Indiana (2-14 and $2,000), Kentucky (1-5), Louisiana (not over 2 and $1,000), Michigan (any term to life or $8,000), Minnesota (5-10 and not over $100), Mississippi (not over 5 or $1,000), Montana (5-10), Nebraska and Texas (2-15), New Hampshire (not over 20), New Jersey (not over 7 or $200, or both), New Mexico (6 months to 3 years or $1,000), North Carolina (fine or imprisonment, or both), Ohio and Alaska (1-15), Pennsylvania (not over 7 and $1,000), South Dakota (not over 5), Tennessee (3-21), Vermont (not over 10 and $1,000), Washington (not less than 5), West Virginia (2-10), Wisconsin (1-5 or $1,000), Hawaii (not over 5 and a fine), District of Columbia (not over 15). In Texas, an assault with a dagger incurs a double penalty. In Iowa, assault with intent to commit a rape (not more than 20).

Rape—In Federal Courts, rape is punishable with death by hanging. While many States have death

as the extreme penalty, in few is it the same one. Arkansas and North Carolina (death by electricity), Alabama, Delaware and Louisiana (hanging), Florida and Mississippi (hanging or life imprisonment), Kentucky (electrical execution or life), Georgia (hanging or 1-20), Missouri (hanging or not less than 5), Oklahoma (electrical execution or not less than 5), Oklahoma (electrical execution or not less than 15), South Carolina (electrical execution or 5-40), Tennessee (electrical execution or not less than 10 to life), Texas (hanging or not less than 5 to life), Virginia (electrical execution or 5-20), West Virginia (hanging or 7-20), District of Columbia (hanging or 5-30). Many of the States do not inflict the death penalty. Arizona (5 to life), California (not over 50), Colorado (3 to life), Connecticut (not over 20), Idaho (not less than 5 to life), Illinois (1-life), Indiana (2-21), Iowa (any term to life), Kansas (5-21), Maine (any term of years), Maryland) hanging or 18 months-21 years), Massachusetts and Michigan (any term to life), Minnesota (7-30), Montana (not less than 5), Nebraska (3-20), Nevada (not less than 20 up to life), New Hampshire (not over 30), New Jersey (not over 15 or $5,000, or both), New Mexico (5-20), New York (10-20), North Dakota (not less than 1), Ohio and Oregon (3-20), Pennsylvania (not over 15 and $1,000), Rhode Island (not less than 10 up to life), South Dakota (not less than 10), Utah and Washington and Porto Rico (not less than 5), Vermont (not over 20 or $2,000, or both), Wisconsin (1-30), Wyoming (not less than 1 up to life), Alaska (3-20), Hawaii (up to life and $1,000). The rape of a daughter, sister or female under 12 is punished in Alaska by life imprisonment. In Indiana rape of female under 12, life imprisonment. In Nevada rape accompanied with extreme violence may be punished by death or imprisonment not less than 20 years in jury's discretion.

Arson—where classified in degrees—though the number and exact definitions of degrees varies greatly—is in general classified with reference to two conditions, first, the character of the building burned, whether a dwelling house or structure likely to contain a human being; and, second, whether the crime is committed by day or night. Thus the most serious offense is the burning of an inhabited dwelling by night, and the least serious, the burning of an uninhabited structure by day. Often intermediate degrees are recognized, such as burning a dwelling by day or an uninhabited building by night. The Federal Statutes for arson in the first degree impose a penalty of not more than 20 years, and for the second degree, not more than 20 years and a fine of not more than $5,000. Some States punish arson in the first degree with death. These are: Alabama (hanging or not less than 10), Delaware (hanging), Louisiana (hanging or 1 to 10), Maryland (hanging or not over 20), Mississippi (hanging or life imprisonment), North Carolina, South Carolina and Virginia (death by electricity), Vermont (any term to life or death by electricity), Hawaii (hanging or life imprisonment). The imprisonment which may be imposed for arson in the first degree takes a wide range—New York (not over 40), Iowa (30), New Hampshire (not over 30), Oklahoma (10-30), Florida and Michigan (any term up to life), Georgia (1 to life), Idaho (2 to life), Illinois (1-20), Indiana (2-21), Kansas (10-21), Kentucky (5-12), Maine (1-20), Minnesota and North Dakota (not less than 10), Nebraska (1-20), New Jersey (not over 15 or $2,000, or both), New Mexico (2-20), Ohio (not over 20), Oregon, West Virginia and Alaska (10-20), Texas (5-20), Utah (2-15), Wisconsin (3-14), Wyoming (1-21), South Dakota and Porto Rico (not less than 10), Arizona and California (not less than 2), Arkansas (2-10), Colorado and District of Columbia (1-10), Connecticut (not over 10), Missouri, Montana and Washington (not less than 5). The penalties for arson in the second degree are as varied as those for the first. In the Federal Courts, not more than 20 and $5,000. California (1-25), Colorado (not over 2 and $1,000), Delaware (1-10 and $500 to $5,000), Iowa (10-20), Kansas (7-10), Louisiana (1-20), Maine (any term of years), Maryland (2-20), Minnesota (7-15), New Hampshire (not over 20), New Mexico (1-15), New York (not over 25), North Dakota (7-10), Oregon (5-15), Pennsylvania (not over 10 and $2,000), South Dakota (7-10), Tennessee (2-21), Vermont (not over 10 or $1,000), Virginia (5-18), Washington (not over 10 or $5,000), Alaska (5-15), Hawaii (life or any number of years), Alabama and Oklahoma (2-10), Arizona, Idaho, Montana, Utah and Porto Rico (1-10), Arkansas (6 months and fine), Massachusetts and Mississippi (not over 10), Missouri (not less than 3), Nevada (1-3 and fine), South Carolina (in discretion of the court), Wisconsin (3-10).

Burglary—The classification of burglary or house breaking depends on substantially the same elements as those of arson, namely, the building entered, whether a dwelling or other building, and whether the offense was committed by day or night. Burglary in the first degree is punished in North Carolina by death of electricity; Virginia (electricity or 5-18), Delaware (hanging or not over 14), Florida and Iowa (any term up to life), Maine (any term of years), Massachusetts (life imprisonment or not less than 10), Ohio (life or 5-30), Rhode Island and South Carolina (not less than 5 up to life), Alabama, Georgia and Illinois (1-20), Arkansas, California, Idaho, Montana, Alaska and Porto Rico (1-15), Connecticut, Michigan and Hawaii (not over 20), Indiana (10-20), Kansas (10-20), Mississippi (7-15), Nevada and Wyoming (1-14), New Hampshire (not over 30), New Mexico (3-12), Oklahoma (7-20), Oregon, Tennessee and Wisconsin (5-15), Pennsylvania (not over 10 and $10,000), Texas (2-12), Utah (25-40), Vermont (not over 15 or $1,000), District of Columbia (not over 15), West Virginia (2-15), Minnesota, New York, North Dakota, South Dakota (not less than 10), Missouri and Washington (not less than 5), Arkansas (3-7), Colorado and Nebraska (1-10), Kentucky (2-10), Maryland, (3-10). Burglary by means of dynamite or other explosives is punished in Colorado by imprisonment from 25 to 40 years; in Wisconsin (15-40), and in Wyoming (not over 20). Quite a number of States have no heading of second degree burglary. These are Alabama, Arkansas, Colorado, Kentucky, Louisiana, Maryland, Michigan, Nebraska, New Jersey, Rhode Island, South Carolina, West Virginia, and Wyoming, also the District of Columbia. The penalties where it is specified do not show as much variance as in the first degree. Connecticut, Florida, Iowa, Massachusetts (not over 20), Delaware, Georgia and Utah (1-20), Minnesota, Mississippi, New York, North Carolina and Hawaii (not over 10), Maine (1-10), Arizona, California, Idaho, Montana, Nevada and New Hampshire (not over 5), Texas (not less than 5), North Dakota and New Mexico (1-5), Oregon, South Dakota, Tennessee and Virginia (3-10), Indiana (2-14), Kansas (5-10), Missouri (not less than 2), Ohio (1-15), Oklahoma (2-7), Pennsylvania (not over 10 and $500), Vermont (not over 10 or $1,000), Washington (not over 15), Wisconsin (3-8), Alaska (2-5), Porto Rico (not over 2).

Robbery may be generally defined as the theft of property from the person or immediate presence of the victim, accomplished by force or fear. Where degrees of robbery are recognized, the distinction is generally determined by whether the thief be armed or unarmed, though some States also distinguish the second from the first degree, where the theft is accomplished by means of threats of future rather than immediate injury. In the following synopsis, degrees are not considered. Federal Statutes fix the penalty for robbery at not more than 15 years. Alabama punishes robbery by death (hanging or not less than 10), Virginia (electrical execution or 5-18), Massachusetts, Michigan and Hawaii (any number of years to life), Maine (any term of years), Idaho, Rhode Island and Texas (5 to life), Oregon and Utah (3 to life), Illinois (1 to life), Oklahoma (not less than 10), New York and South Dakota (10-20), Kansas (10-21), Arizona, Nevada and Washington (not less than 5), North Carolina (5-60), Minnesota (5-20), Tennessee (5-15), Indiana (5-14 and $1,000), West Virginia (5-10), Arkansas (3-21), Nebraska, New Mexico and Wisconsin (3-15), Colorado (3-14), Maryland (3-10), Kentucky and South Carolina (2-10), Georgia and Iowa (2-20), Montana and Porto Rico (1-20), Ohio and Alaska (1-15), Wyoming (1-14), North Dakota (1-10), California (not less than 1), New Hampshire (not over 30), Vermont (not over 20 and $1,000), Florida (not over 20), New Jersey (not over 15 or $1,000, or both), Louisiana (not over 14), Delaware (not over 12), Connecticut (not over 7), Pennsylvania (not over 5 and $1,000), District of Columbia (6 months to 15 years). In Nevada train robbery and in Texas robbery by means of deadly weapons may be punished with death. Train robberies in Territories are punishable by imprisonment not more than 20 years and a fine of not more than $5,000.

Grand Larceny is simply theft of property above a fixed value, generally $25 to $50—more States also classify as grand larceny theft of property from the person of the victim, irrespective of value, though,

of course, accomplished without the force or fear which constitutes the crime of robbery. In the Federal Courts, grand larceny is punishable by not more than 10 years' imprisonment and a fine of not more than $10,000. Wisconsin (1-25), Alabama and Georgia (1-20), Maryland (1-15), Idaho, Indiana, Montana and Nevada (1-14), New Mexico, Oregon, Utah, Virginia, Alaska, Porto Rico and District of Columbia (1-10), Tennessee, Texas and West Virginia (2-10), Nebraska and Ohio (1-7), Arkansas, Kentucky, Maine and North Dakota (1-5), Hawaii (not over 20), Washington (not over 15), Louisiana, New York, North Carolina and Wyoming (not over 10), Kansas and Missouri (not over 7), New Jersey (not over 7 or $2,000, or both), Connecticut, Iowa, Massachusetts, Mississippi, New Hampshire, Oklahoma and South Dakota (not over 5), Florida and Rhode Island (not over 5 or $1,000), Michigan (not over 5 or $5,000), Pennsylvania (3 and $500), Delaware (not over 3), South Carolina (3 months to 10 years). Special penalties are imposed in certain States for horse and cattle stealing; in Arkansas for stealing horse or mule (1-15); in Missouri and New Hampshire, larceny of horse or cattle (not over 7); in Texas horse theft (5-10); in Georgia there are various grades of larceny of horses, cattle, etc. In Connecticut the punishment for larceny of over $2,000 (not over 20). In North Carolina, habitual offenders receive longer terms.

Forgery in general means the false making, imitating or counterfeiting or alteration of a genuine signature or written instrument. There are numerous Federal Statutes defining and imposing penalties for alteration of public records and documents. These do not come within the purview of this synopsis, being no one general classification. Counterfeiting is punished by imprisonment of not more than 15 years and a fine of not more than $5,000. There is some uniformity but not a great deal in the various State penalties for forgery. North Dakota (not less than 10), North Carolina (4 months to 10 years), Oklahoma (7-20), Kentucky (5-15), Tennessee (3-15), Arkansas (2-21), Oregon and Alaska (2-20), Mississippi and New Mexico (2-15), Indiana (2-14 or $1,000), Alabama, Georgia and West Virginia (2-10), Texas (2-7), Nebraska, Ohio and Utah (1-20), Montana (1-15), Nevada and Wyoming (1-14), Maryland, Virginia, Porto Rico and District of Columbia (1-10), Wisconsin (1-7), South Carolina (1-7), Kansas (not over 21), Minnesota, New York and Washington (not over 20), Michigan (not over 14), Florida, Iowa, Maine, Massachusetts, Missouri, South Dakota (not over 10), Pennsylvania and Vermont (not over $1,000), Rhode Island (not over 10, or $1,000, or both), Hawaii (not over 10 and $500), New Hampshire (not over 7), New Jersey (not over 7 or $2,000, or both), Connecticut (not over 5).

Bigamy—A person who, having a husband or wife living, marries another, is guilty of bigamy. Under Federal Statutes, polygamy (or bigamy) in the Territories is punished by imprisonment for not more than 5 years and a fine of not more than $500. Five years' imprisonment is the most general maximum penalty in the States for bigamy and fines are quite commonly imposed. Some of the States, however, have a more severe extreme penalty and some a lesser maximum. Kentucky (3-9), Virginia (3-8), Tennessee (2-21), Arkansas (3-7), New Mexico and District of Columbia (2-7), Alabama and Texas (2-5), Indiana (2-5 or $1,000), Georgia (1-10), Nebraska, Ohio and Alaska (1-7), North Dakota, West Virginia and Wyoming (1-5), Illinois, Nevada and Rhode Island (1-5 and $1,000), Louisiana (1-5 and $500), Wisconsin (1-5 and fine), Oregon (1-4), Mississippi (not over 10), California (not over 10 and $5,000), Arizona (not over 10 and $2,000), New Jersey (not over 10 or $1,000, or both), Delaware (not over 6 and $2,000), Connecticut, Iowa, Kansas, Massachusetts, Missouri, New York, Oklahoma, South Dakota and Washington (not over 5), Idaho (not over 5 and $2,000), Minnesota and Vermont (not over 5 and $1,000), Florida, Maine, Michigan and Utah (not over 5 or $500), Porto Rico (not over 3 or $2,000), Montana (not over 3 and $1,000), New Hampshire (not over 3 and $500), Pennsylvania (not over 2 and $1,000), Hawaii (not over 2 or $500).

Perjury under the various State codes usually means false testimony on a material point given in an action or proceeding at law. The following are the penalties imposed in accordance with this usual definition. In the Federal Courts (not more than 5 and not more than $2,000), Iowa (10 up to life), Oklahoma (5-20), Georgia (4-10), Ohio and Oregon (3-10), Indiana (2-21 or $50 and $1,000), Minnesota, Texas and District of Columbia (2-10), Wisconsin (2-5), South Dakota (1-20), Arkansas and Tennessee (1-15), Arizona, California, Colorado, Idaho, Illinois, Montana, Nebraska, Nevada and Wyoming (1-14), North Dakota, Utah, Alaska and Porto Rico (1-10), New Mexico (1-7), Kentucky (1-5), West Virginia (1 year and $1,000), North Carolina (4 months to 10 years), Florida, New Hampshire, Massachusetts, Rhode Island and Hawaii (not over 20), Michigan and Washington (not over 15), Vermont (not over 15 and $1,000), Maine, Maryland, Mississippi and New York (not over 10), Delaware (not over 10 and $2,000), Kansas, Missouri and South Carolina (not over 7), New Jersey (not over 7 or $2,000, or both), Pennsylvania (not over 7 and $500), Connecticut and Louisiana (not over 5), Virginia (not over 1 and $1,000). In many of the States severer penalties than those given above are imposed, varying with the character of the action or the results of the false testimony. Thus in Colorado and Texas perjury which causes conviction in a capital case is punished by death. In capital cases, irrespective of results, the penalty is: In Alaska (2-20), Oregon (5-20), Kansas (not less than 7), Maine, Mississippi and Missouri (not less than 10), Massachusetts and Michigan (any term up to life), Wisconsin (3-15). In cases of felony not necessarily capital: Alabama (3-20), New York (not more than 20), North Dakota (not less than 10), Virginia (2-10), West Virginia (1-10).

Where crimes are divided into several degrees, it is generally within the province of the jury, in convicting, to fix the degree of the crime, and in almost every case in which a crime is punishable by death or imprisonment it is the province of the jury to determine the punishment, except upon a plea of guilty, when the duty devolves upon the court.

NOTE—Within the parentheses, after the figures "years" is understood; where two figures are given, separated by a hyphen, as 1-7, the provision should be understood as "not less than one year nor more than seven;" where a sum of money is given, the provision should be understood as meaning a fine of not exceeding the sum mentioned.

PENALTIES FOR USURY.

Penalties for usury differ in various States. California, misdemeanor with jail term, $500 fine or both; Colorado, Maine, Massachusetts (except on loans of less than $1,000), have no provisions on the subject. Loss of *principal and interest* is the penalty in Arkansas and New York. Loss of principal in Delaware and Oregon.

Loss of interest in Alabama, Arizona, District of Columbia, Florida, Idaho, Illinois, Iowa, Louisiana, Michigan, Minnesota, Mississippi, Nebraska, New Jersey, North Carolina (double amount if paid), North Dakota (double amount if paid), Porto Rico, South Carolina, South Dakota, Virginia, Washington (double amount if paid), Wisconsin, Hawaii, and Wyoming. In Alaska, Montana, Oklahoma, Texas, Vermont, double the amount of interest collected.

Loss of excess of interest in Connecticut, Georgia, Indiana, Kansas, Kentucky, Maryland, Missouri, Nevada, New Hampshire (three times), Ohio, Pennsylvania, Tennessee, Vermont, and West Virginia. Loss of principal and interest in Rhode Island, also fine or imprisonment. In New Mexico, fine and forfeiture of double amount collected.

By the Federal act No. 103, the period of military service is to be excluded from the computation of time limited for the bringing of an action by or against persons in the service. This applies to all the courts, Federal, State or district, in the country, and to causes of action accruing prior to or during the service and to limitations established before or after the passage of the act.

ADMINISTRATION OF DECEASED PERSONS' ESTATES.

THESE statutes have been revised for THE ALMANAC by one of the largest law firms in New York City making a specialty in their practice of the inheritance laws. All the data has been carefully brought up to date.

INHERITANCE TAX LAWS.

The following is a synopsis of several of the laws of the various States affecting the administration of the estate of a deceased person:

1. Who to Administer.—(a) If the deceased leaves a will, the duty of administration falls upon the executor. If no executor is named, or in the event of the death or refusal of the executor to act, the Court will grant administration under the will to some suitable person, generally selected from those most largely interested under the provisions of the will, such as the residuary legatees, if any. (b) If the deceased died intestate, letters of administration are granted to the following persons in practically all the States:

First—To the surviving husband or widow.
Second—To one or more of the next of kin entitled to share in the estate.
Third—If none of the above consent to act, to one of the creditors of the estate, except in localities where there is provided by law a Public Administrator, who is preferred to creditors.

In practically all the States an administrator is required to give bond for the faithful performance of his duties in double the value of the estate to be administered.

In most of the States, if so provided by the will, no bond is required of an executor, except that in some States an executor is required to give a bond to cover the probable amount of the debts of the estate, and in practically all the States, in the discretion of the Court, for cause shown, an executor may be required to give a bond.

2. Claims of Creditors.—The procedure in the several States in presenting creditors' claims against the estate varies very considerably. In the majority of the States the executor or administrator is required promptly to give public notice to creditors to present their claims to him, and the creditors are required so to present their claims supported by an affidavit that the same are justly due and owing from the estate, above any offsets or counter claims, within a period limited generally to six months or a year. The law of each State should be consulted for more specific details. Most of the States direct a final closing of the estate by the executor or administrator within a year or eighteen months after his appointment, though the time limit may be extended by the Probate Court if conditions require it.

3. The following table contains an analysis of the laws of the several States, covering:

(1) The inheritance or succession tax upon property received either by intestate laws, last will, or by gift or transfer, designed to take effect at death, excepting legacies for religious, charitable or educational purposes, which are tax exempt in most of the States. In the great majority of the States no distinction as to tax is made between real estate and personal property.

(2) The various classes of estate obligations given priority over other claims in case of the insolvency of the estate.

STATE.	Inheritance Tax.	Preferred Obligations.
Alabama.....	None.	1. Funeral expenses. 2. Administration expenses. 3. Expenses of last sickness. 4. Taxes. 5. Wages of servants or employés.
Arizona.....	To grandfather, grandmother, parents, husband, wife, child, brother, sister, son-in-law, or daughter-in-law, lineal descendant, or adopted child, 1%; $5,000 exempt to each beneficiary above named. Estates less than $10,000 exempt. To uncle, aunt, nephew, niece or descendant thereof, 2%; $2,000 exempt to each beneficiary named. Estate less than $5,000 exempt. To others, 3% up to $10,000; 4% from $10,000 to $20,000; 5% from $20,000 to $50,000; 6% above $50,000. $500 exempt.	No statutory provision.
Arkansas.....	On amounts not exceeding $5,000 the rate is 1% to parents, husband or wife, child or adopted child, lineal descendant, brother, sister, son-in-law or daughter-in-law. To all others the rate on the same amount is 3%. $3,000 passing to widow or minor child and $1,000 passing to the other immediate relatives mentioned is exempt. The exemption to others more remote is $500. On amounts in excess of $5,000 the primary rates (1% and 3% respectively) are increased as follows: From $5,000 to $10,000, twice the primary rates; from $10,000 to $30,000, 3 times the primary rates; from $30,000 to $50,000, 4 times; $50,000 to $100,000, 5 times; $100,000 to $500,000, 6 times; $500,000 to $1,000,000, 7 times; above $1,000,000, 8 times.	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages of servants. 4. Judgments which are liens on land of deceased.
California.....	(a) To husband, wife, descendants, ancestors, adopted children or issue thereof, 1% up to $25,000; 2% from $25,000 to $50,000; 4% from $50,000 to $100,000; 7%, $100,000 to $200,000; 10%, $200,000 to $500,000; 12%, $500,000 to $1,000,000; 15% above $1,000,000. $24,000 is exempt to widow or minor child; to others in this paragraph $10,000 is exempt. (b) To	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages due within sixty days. 4. Debts preferred by U. S. laws. 5. Judgments, mortgages and other liens.

STATE.	Inheritance Tax.	Preferred Obligations.
California..... *Continued.*	brothers, sisters, or their descendants, or to a son-in-law or daughter-in-law 3% up to $25,000; upon the increasing amounts in the preceding paragraph the rates are 6%, 9%, 12%, 15%, 20%, and 25%. $2,000 exempt from tax. (c) To uncles, aunts, or their descendants, 4% up to $25,000; upon the same increasing amounts the rates are 8%, 10%, 15%, 20%, 25%, and 30%. $1,000 exemption. (d) To others more remote in blood, 5% up to $25,000; the rates increase as above up to $500,000 as follows: 10%, 15%, 20%, and 25%, above $500,000 the rate is 30%. $500 exemption.	
Colorado.....	To parents, husband or wife, child or descendant, brother, sister, son- or daughter-in-law, or adopted child, $10,000 exempt. Rates on excess 2% up to $100,000; 3%, $100,000 to $200,000; 4%, above $200,000. To uncle, aunt, nephew, niece or their descendants, $500 exempt. Rates on excess 3% up to $20,000; 4%, $20,000 to $50,000; 5%, $50,000 to $100,000; 6%, above $100,000. To all others above $500: On $500 to $10,000, tax is 3%; $10,000 to $20,000, 4%; $20,000 to $50,000, 5%; $50,000 to $500,000, 6%; above $500,000, 10%.	1. Moneys held in a fiduciary capacity. 2. Administration expenses. 3. Expenses for funeral and last sickness. 4. Allowances to widow and orphans.
Connecticut....	To husband, wife, parent, grandparents, descendants, adopted parent, adopted child or its descendants, 1%, $10,000 to $50,000; 2%, $50,000 to $250,000; 3%, $250,000 to $1,000,000; 4% above $1,000,000. To brothers, sisters, or their descendants, stepchild, son-in-law or daughter-in-law, 3%, $3,000 to $25,000; 5%, $25,000 to $50,000; 6%, $50,000 to $250,000; 7%, $250,000 to $1,000,000; 8% above $1,000,000. To others more remote in blood, 5%, $500 to $50,000; 6%, $50,000 to $250,000; 7%, $250,000 to $1,000,000; 8% above $1,000,000.	1. Funeral and administration expenses. 2. Expenses of last sickness. 3. Taxes. 4. Wages within three months. 5. Other preferred claims by State laws.
Delaware.....	To grandparents, parents, husband or wife, child or descendant, son- or daughter-in-law, or adopted child, $3,000 exempt. Rates on excess, 1% up to $30,000; 2%, $30,000 to $100,000; 3%, $100,000 to $200,000; 4%, above $200,000. To brother, sister, uncle, aunt, great-uncle, great-aunt or their descendants, $1,000 exempt. Rates on excess 2% up to $25,000; 3%, $25,000 to $100,000; 4%, $100,000 to $200,000; 5% above $200,000. To others more remote 5% up to $25,000; 6%, $25,000 to $100,000; 7%, $100,000 to $200,000; 8%, above $200,000.	1. Funeral expenses. 2. Expenses of last sickness. 3. Wages to servants and laborers. 4. Rent (not over one year). 5. Judgments. 6. Obligations of record. 7. Obligations under seal. 8. Contracts for payment of money or delivery of goods.
District of Columbia....	None.	1. Judgments or decree of Court. 2. Other debts.
Florida.....	None.	1. Administration expenses. 2. Funeral expenses. 3. Expenses of last sickness. 4. Judgments and debts due to State.
Georgia.....	To parents, husband, wife, child, or adopted child, lineal descendant, brother, or sister, or daughter-in-law the tax is 1%. $5,000 exempt. To all others, 5%.	1. Year's support of family. 2. Expenses of funeral and last sickness. 3. Administration expenses. 4. Taxes. 5. Fiduciary obligations. 6. Judgments, mortgages and other liens. 7. Rent. 8. Liquidated demands.
Idaho.....	Tax on estates less than $25,000 at following rates: (a) To husband or wife, lineal issue or ancestor, adopted child or its issue, 1%; exempt to widow or minor child, $10,000; to others of Class A, exempt, $4,000. (b) To brother or sister, or their descendants, or wife or widow of son, or husband of daughter, 1½%; exempt, $2,000. (c) To uncles, aunts or descendants, 3%; exempt, $1,500. (d) To great-uncles, great-aunts or descendants, 4%; exempt, $1,000. (e) To more distant relatives or strangers in blood, 5%; exempt, $500. On larger estates than $25,000 the above rates are multiplied as follows: $25,000 to $50,-	1. Funeral expenses. 2. Expenses of last sickness. 3. Debts preferred by U. S. laws. 4. Judgments and mortgages.

STATE.	Inheritance Tax.	Preferred Obligations.
Idaho..... *Continued.*	000, 1½ times above; $50,000 to $100,000, 2 times above; $100,000 to $500,000, 2½ times above; $500,000 and upward, 3 times above.	
Illinois..... United States...	The Federal Tax is imposed on the estate as a whole, not on the shares of the several legatees, irrespective of the relationship of the beneficiaries to the decedent. $50,000 of each estate is exempt from tax. The rates on the excess are as follows: Not exceeding $50,000, 2%; $50,000 to $150,000, 4%; $150,000 to $250,000, 6%; $250,000 to $450,000, 8%; $450,000 to $1,000,000, 10%; $1,000,000 to $2,000,000, 12%; $2,000,000 to $3,000,000, 14%; $3,000,000 to $4,000,000, 16%; $4,000,000 to $5,000,000, 18%; $5,000,000 to $8,000,000, 20%; $8,000,000 to $10,000,000, 22%; exceeding $10,000,000, 25%.	

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE.

THE following is a synopsis of the laws of the various States providing for the distribution of the personal estate of a deceased after the payment of funeral expenses and other debts where there is no will:

In many of the States the widow and children are entitled to receive a small portion of the estate, generally varying from $100 to $500, before the claims of creditors are paid. Aside from such exempt portion of the estate, the property to be distributed to the widow or relatives is that remaining after all creditors' claims have been satisfied.

The following is the plan of distribution of a male's property. The same rules apply to a female's estate, except in some States, where the rights of a husband in the estate of his deceased wife differ from those of a wife in the estate of her deceased husband, which will be shown in a separate table.

I. In all States where the deceased leaves a child or children, or descendants of any deceased child, and no widow, the children or descendants take the entire estate, to the exclusion of all other relatives. The children take equal shares, and in most States the descendants of a deceased child together take the share of their parent, except where the descendants are all in equal degree to the deceased (all grandchildren, no children surviving), when they share equally and do not take their proportionate share of their parent's interest.

No statement is given in this synopsis of the law of Louisiana, which, being founded on the provisions of the French code and Roman law instead of the English common law, which is the underlying principle in the other States, differs in many respects from the principles followed in the other States, especially on the question of the rights of a husband and wife in each other's property and in the property acquired by the husband and wife during their married life. The provisions of the law of Indiana are also not included, for the reason that for an accurate statement of its provisions a reading of the entire statute is necessary, together with the decisions of the Indiana courts construing its provisions, which would occupy too much space for a statement here.

II. (a) If deceased leaves a widow, and no children or descendants, the widow takes all. This is the rule in Alabama, Arizona, Colorado, Florida, Georgia, Illinois, Kansas, Minnesota, Mississippi, New Jersey, New Mexico, Ohio, Oregon, Tennessee, Texas, Washington, West Virginia and Wisconsin.

(b) In the following States the widow takes one-half, the residue being taken by the other relatives in the manner and proportion in which they take the entire estate when the deceased leaves neither widow nor descendants (given below); Arkansas, California, Delaware, District of Columbia, Idaho, Iowa, Kentucky, Maine, Maryland, Missouri, Montana, Nebraska, Nevada, North Carolina, Oklahoma, Rhode Island, Texas, Washington, West Virginia and Wisconsin.

(c) In Massachusetts, North Dakota, Pennsylvania and Utah the widow takes the entire estate up to $5,000 and one-half of the residue.

(d) In Connecticut the widow takes the entire estate up to $2,000 and one-half of the residue.

(e) In New York, if there be a father or mother of deceased surviving, the widow takes one-half; if there be no father or mother, but a brother or sister, nephew or niece surviving, the widow takes $2,000 and one-half residue; if there be no parent, brother, sister, nephew or niece, the widow takes all. The residue after the widow's share passes in each case in accordance with the provisions applying where no widow or issue survive.

(f) In New Hampshire the widow takes $1,500, and, if the estate exceeds $3,000, one-half of the residue.

(g) In Wyoming the widow takes the entire estate up to $20,000 and three-fourths of the residue (if brother, sister or parent survive, otherwise all to widow).

(i) In Michigan the widow takes the entire estate up to $3,000 and one-half of the residue (if brother, sister or parent survive, otherwise all to widow).

(j) In Vermont the widow takes entire estate if not exceeding $2,500; if more than $2,500, widow takes that sum and one-half of residue.

III. (a) When the deceased leaves a widow and children, or descendants, the widow takes one-third and the children share equally in the residue in the following States: Arizona, Arkansas, Connecticut, Delaware, District of Columbia, Illinois, Iowa, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Ohio (one-half if less than $400), Pennsylvania, Rhode Island, South Carolina, Texas, Vermont, Virginia and West Virginia.

(b) In the following States, if there be but one child, the widow takes one-half and the child one-half; if two or more children or their descendants, the widow takes one-third, as above, and the children or their descendants the residue: California, Florida, Idaho, Michigan, Montana, Nevada, North Dakota, Oklahoma, South Dakota and Utah.

(c) In the following States the widow takes one-half and the children, or descendants, the residue: Colorado, Kansas, Kentucky, Oregon, Washington and Wyoming.

(d) In the following States the widow takes the same share as each of the children: Mississippi, Missouri, Tennessee and Wisconsin.

(e) In North Carolina, if there are less than three children, the widow takes one-third and the children the residue; if there are three or more children, the widow takes the same share as each of the children.

(f) In Alabama, if there is but one child, the widow takes one-half and the child one-half; if there are more than one child and less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

(g) In Georgia, if there are less than five children, the widow takes the same share as each of the children; if there are five or more children, the widow takes one-fifth and the children or their descendants share equally in the residue.

In Nebraska if widow is not the parent of all the children of the deceased and there be more than one child, widow takes one-fourth and children the residue. If widow is parent of all children of the deceased, she takes one-half if there be but one child and the child the residue; if there be more than one child the widow takes one-third and the children the residue.

(h) In New Mexico, the widow takes one-half of the estate acquired during marriage, otherwise than by gift (by purchase, for example) and the children or their descendants share equally in the residue; the widow also takes one-fourth of the estate acquired before marriage, or by gift or legacy during marriage, the children or their descendants taking the residue.

IV. (a) When the deceased leaves no widow, children or descendants, the parents take the entire estate in equal shares in the following States: Alabama, Arizona, California, Colorado, Connecticut, Idaho, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, New Hampshire, North Carolina, Oklahoma, Pennsylvania, Texas, Utah, Vermont, Washington, Wisconsin and Wyoming.

In all of the States just mentioned, except Alabama, Arizona, Maine, and Texas, if one parent is dead, the surviving parent takes the entire estate, to the exclusion of brothers and sisters. In Alabama, Arizona, Maine, and Texas the surviving parent takes one-half and the brothers and sisters, or their descendants, take the residue.

In all of them, if both parents are dead, the brothers and sisters and their descendants take the entire estate.

(b) In the following States the father, if living, takes the entire estate; if the father is dead, then to the mother and brothers and sisters, or their descendants equally; and if both parents are dead, then to the brothers and sisters, or their descendants: Florida, New York, Oregon, Rhode Island, South Dakota, Tennessee, Virginia, and West Virginia.

(c) In the following States the father, if living, takes the entire estate; if the father is dead, then to

DISTRIBUTION OF INTESTATE'S PERSONAL ESTATE—*Continued.*

the mother, and if both parents are dead, then to the brothers and sisters of their descendants: Arkansas, District of Columbia and North Dakota.

(d) In the following States the parents, if living, and the brothers and sisters, or their descendants, take the entire estate, sharing equally: Georgia, Illinois, Mississippi, Missouri, New Jersey and South Carolina.

(e) In Delaware, Ohio and Maryland (where the property did not descend to intestate from either parent), the brothers and sisters, or their descendants, take the entire estate in preference to the parents, who only inherit if there are no brothers or sisters or lawful issue of any deceased brothers or sisters.

DISTRIBUTION OF FEMALE'S ESTATE.

In the following States, if the deceased was a married woman, the rights of her surviving husband in her personal estate differ from the rights of a widow in the estate of her deceased husband as shown in the above synopsis.

(a) In Delaware, District of Columbia, North Carolina, Rhode Island, and Virginia the husband takes the entire personal estate, whether there is any issue of the marriage or not.

(b) In New York, if there are no children or descendants of children, the husband takes the entire estate.

(c) In Florida, Georgia, and Pennsylvania, if there are no children or descendants, the husband takes the entire estate; if there are children, the husband takes the same share as each child.

(d) In Ohio the husband takes the entire estate if there are no children or descendants; if there are children or descendants, they take the entire estate.

(e) In Alabama the husband takes one-half of the estate, the children, or descendants, taking the residue.

(f) In North Carolina, where surviving husband is not also the father of all the children of decedent, if there be one child the husband takes one-half and the child one-half; if there be more than one child, husband takes child's share.

ACKNOWLEDGMENT OF DEEDS.

AN ACKNOWLEDGMENT is the act of declaring the execution of an instrument before an officer authorized to certify to such declaration. The officer certifies to the fact of such declaration, and to his knowledge of the person so declaring. Conveyances or deeds of land to be entitled to be recorded must first be acknowledged before a proper officer. Most of the States have forms of acknowledgments, which should be followed.

Acknowledgments may be taken in general by Notaries Public, Justices of the Peace, Judges or Clerks of Courts of the higher grades, Registers, Masters in Chancery, Court Commissioners, Town Clerks, Mayor and Clerks of incorporated cities, within their respective jurisdictions.

The requisites to a valid deed are the same in general as other contracts, but the appointment of an attorney to execute a deed for another person must in general be executed with the same formalities requisite to the deed itself.

SEALS or their equivalent (or whatever is intended as such) are necessary in Alaska, Connecticut, Delaware, District of Columbia, Florida, Idaho, Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Oregon, Pennsylvania, South Carolina, Vermont, Virginia, West Virginia, Wisconsin, Wyoming. In almost all the States deeds by corporations must be under seal. FORMS are prescribed or indicated by the statutes of most of the States except Connecticut, Florida, Louisiana. SEPARATE ACKNOWLEDGMENT by wife is required in Alaska, Arkansas, Delaware, District of Columbia, Florida, Georgia, Idaho, Kentucky, Louisiana, Montana, Nevada, New Jersey, North Carolina, Oregon, Pennsylvania, South Carolina, Tennessee, Texas. ONE WITNESS to the execution of deeds is required in District of Columbia, Maine (customary), Maryland, Nebraska, New Jersey (usual), Oklahoma, Utah, Wyoming. TWO WITNESSES to the execution of deeds are required in Arkansas, Connecticut, Florida, Georgia, Louisiana, Michigan, Minnesota, New Hampshire, Ohio, Oregon. South Carolina, Texas, Vermont, Wisconsin.

PROMISSORY NOTES AND CHECKS.

Negotiable instruments, the common forms of which are promissory notes, checks, or other bills of exchange, while having the same general requisites as other contracts, have certain distinct features. The purpose of the law is to facilitate as much as possible their free passing from hand to hand like currency. The assignment of an ordinary contract leaves the assignee in no different position for enforcing his rights than that of his assignor, but one who takes a negotiable instrument from a prior holder, without knowledge of any defences to it, before its maturity, and gives value for it, holds it free of any defences which might have been set up against his predecessors, except those defects that were inherent in the instrument itself.

To be negotiable an instrument must be in writing and signed by the maker (of a note) or drawer (of a bill or check).

It must contain an unconditional promise or order to pay a sum certain in money.

Must be payable on demand, or at a fixed future time.

Must be payable to order or to bearer.

In a bill of exchange (check) the party directed to pay must be reasonably certain.

Every negotiable instrument is presumed to have been issued for a valuable consideration, and want of consideration in the creation of the instrument is not a defence against a bona-fide holder.

An instrument is negotiated, that is completely transferred, so as to vest title in the purchaser, if payable to bearer, or indorsed simply with the name of the last holder, by mere delivery, if payable to order by the indorsement of the party to whom it is payable and delivery.

One who transfers an instrument by indorsement warrants to every subsequent holder that the instrument is genuine, that he has title to it, and that if not paid by the party primarily liable at maturity, he will pay it upon receiving due notice of non-payment.

To hold an indorser liable the holder upon its non-payment at maturity must give prompt notice of such non-payment to the indorser and that the holder looks to the indorser for payment. Such notice should be sent within twenty-four hours.

When an indorser is thus compelled to pay he may hold prior parties through whom he received the instrument liable to him by sending them prompt notice of non-payment upon receiving such notice from the holder.

One who transfers a negotiable instrument by delivery, without indorsing it, simply warrants that the instrument is genuine, that he has title to it, and knows of no defence to it, but does not agree to pay it if unpaid at maturity.

The maker of a note is liable to pay it if unpaid at maturity without any notice from the holder or indorser.

Notice to one of several partners is sufficient notice to all.

When a check is certified by a bank the bank becomes primarily liable to pay it without notice of its non-payment, and when the holder of a check thus obtains its certification by the bank, the drawer of the check and previous indorsers are released from liability, and the holder looks to the bank for payment.

A bona-fide holder of a negotiable instrument, that is, a party who takes an instrument regular on its face, before its maturity, pays value for it and has no knowledge of any defences to it, is entitled to

hold the party primarily liable responsible for its payment, despite any defences he may have against the party to whom he gave it, except such as rendered the instrument void in its inception. Thus, if the maker of a note received no value for it, or was induced to issue it through fraud or imposition, they do not defeat the right of a bona-fide holder to compel its payment from him.

The following States have enacted a similar Negotiable Instrument Law: Alabama, Arizona, Colorado, Connecticut, Dist. of Columbia, Florida, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maryland, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Rhode Island, Tennessee, Utah, Virginia, Washington, and Wisconsin—and the same general rules apply in all the States.

LAW OF CONTRACTS.

A contract is an agreement of two or more parties by which reciprocal rights and obligations are created. One party acquires a right, enforceable at law, to some act or forbearance from the other, who is under a corresponding obligation to thus act or forbear.

Generally speaking, all contracts which are made between two competent parties, for a proper consideration without fraud and for a lawful purpose, are enforceable at law.

To the creation of a valid contract there must be:

1. Precise agreement. The offer of one party must be met by an acceptance by the other, according to the terms offered.

2. There must be a consideration. Something of value must either be received by one party or given up by the other.

3. The parties must have capacity to contract. The contracts of insane persons are not binding upon them. Married women are now generally permitted to contract as though single, and bind their separate property. The contracts of an infant are generally not binding upon him unless ratified after attaining his majority. The contracts of an infant for "necessaries" may be enforced against him to the extent of the reasonable value of the goods furnished. It is incumbent upon one seeking thus to hold an infant to show that the goods furnished were in fact necessary to the infant, and that he was not already supplied by his parents or guardians.

4. The party's consent must not be the result of fraud or imposition, or it may be avoided by the party imposed upon.

5. The purpose of the parties must be lawful. Agreements to defraud others, to violate statutes, or whose aim is against public policy, such as to create monopolies or for the corrupt procurement of legislative or official action, are void, and cannot be enforced by any party thereto.

Contracts in general are equally valid whether made orally or in writing, with the exception of certain classes of contracts, which in most of the States are required to be attested by a note or memorandum in writing, signed by the party or his agent sought to be held liable. Some of the provisions, which are adopted from the old **English Statute of Frauds**, vary in some States, but the following contracts very generally are required to be thus attested by some writing:

Contracts by their terms not to be performed within a year from the making thereof.

A promise to answer for the debt, default, or miscarriage of another person.

Contracts made in consideration of marriage, except mutual promises to marry.

Promise of an executor or administrator to pay debts of deceased out of his own property.

Contracts for the creation of any interest or estate in land, with the exception of leases for a short term, generally one year.

Contracts for the sale of goods above a certain value, unless a portion of the price is paid or part of the goods delivered. The required value of the goods sold varies in different States from $30 to $200. In a number of the States no such provision exists.

In many of the States declarations or conveyances of trust estates.

In many States representations as to the character, credit, or responsibility of another person.

Partial performance of the contract is generally held to dispense with the necessity for a writing.

If the damages liable to result from the breaking of a contract are uncertain the parties may agree upon a sum to which either may be entitled as compensation for a breach, which will be upheld by the courts, but if the sum so fixed is not designed as a fair compensation to the party injured, but as a penalty to be inflicted, it will be disregarded.

A party is generally excused for the failure to perform what he has agreed only by the act of God or the public enemy, except in cases involving a personal element in the work to be performed, such as the rendition of services, when the death or sickness of the party contracting to perform them is a valid excuse, or contracts for the performance of work upon a specified object, when its destruction without the fault of the party sought to be held liable is a sufficient excuse.

ARREST IN CIVIL ACTION.

WHILE imprisonment for debt as it formerly existed in English and American law, by which a debtor might be arrested and imprisoned for mere inability to pay his creditor, no longer exists in the United States, the statutes of the majority of the States provide for the arrest of a defendant in a civil action under varying conditions. A large number of States determine the right of arrest by the character of the claim on which suit is brought, allowing in it actions for fraud or the injuries known in the law as "torts," such as an injury to the person or property, conversion or embezzlement, libel, slander, or the like.

In the following States no civil arrest is allowed: Arizona, District of Columbia, Florida, Maryland, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, Tennessee, and Texas.

In the following States the right to arrest depends upon the nature of claim in suit: In actions for fraud or torts, Connecticut; for fraud, libel, slander, or violent injury to person or property, Delaware; for fraud only, Iowa and Kansas; only after verdict of jury, finding malice, fraud, or wilful deceit, Colorado; for torts, breach of promise to marry, misconduct or embezzlement in office or professional capacity, Michigan, Pennsylvania, and New York (also for fine or penalty or to recover property concealed from Sheriff).

In the following States arrest is only allowed against a defendant about to remove from State or about to conceal, transfer, or remove his property to avoid plaintiff's claim or defraud creditors, irrespective of the nature of the claim: Indiana, Kentucky, Louisiana, New Hampshire, Utah, Virginia. In New Hampshire tax collector may also arrest person for non-payment of poll tax if not sufficient property upon which to make distress.

In the following States arrest is allowed in contract actions where the defendant is about to depart from the State or conceal or remove his property, and also in actions for fraud or torts of various kinds, though the provisions are not identical: Arkansas (fraud only), California, Idaho, Illinois, Maine, Massachusetts, Montana, Nevada, New Jersey, North Carolina, North Dakota, Oregon, South Carolina, South Dakota, Vermont, Washington, West Virginia (fraud only), Wisconsin.

In Georgia arrest only allowed against attorneys, Sheriffs or other officers of the court for failure to pay over money collected and in certain circumstances against defendant who conceals property from Sheriff. The drawer of a check on which, on presentation to the bank, payment is refused is guilty of a mis-

ARREST IN CIVIL ACTION—*Continued.*

demeanor. Criminal prosecution cannot be instituted, however, until after an expiration of thirty days and not then if the drawer makes good the invalid check.

In Wyoming (only after judgment) in actions for fraud, or money lost at gambling, or where defendan has removed or concealed property to avoid judgment.

In Rhode Island, allowed in all actions except to recover debt or taxes.

In Ohio, when an affidavit is filed showing: About to remove property to defraud creditors, convert property into money for same purpose, conceal property or rights in action fraudulently, assigned or disposed of property with intent to defraud creditors. Fraudulently contracted the debt, or incurred the obligation. Money or property sought to be recovered was in gambling on a bet or wager.

WILLS.

A WILL OR TESTAMENT is a final disposition of a person's property, to take effect after his death. A codicil is an addition or alteration in such disposition. All persons are competent to make a will except idiots, persons of unsound mind, and infants. In many States a will of an unmarried woman is deemed revoked by her subsequent marriage. A nuncupative or unwritten will is one made *orally* by a soldier in active service, or by a mariner while at sea.

In most of the States a will must be in writing, signed by the testator, or by some person in his presence, and by his direction, and attested by witnesses, who must subscribe their names thereto in the *presence* of the testator. The form of wording a will is immaterial as long as its intent is clear.

AGE at which persons may make wills is in most of the States 21 years. Males and females are competent to make wills at 18 years in the following States: California, Connecticut, Idaho, Montana, Nevada, North Dakota, Oklahoma, South Dakota, Utah and the Hawaiian Islands; and in the following States only females at 18 years: Colorado, District of Columbia, Illinois, Maryland, Missouri, Washington, Wisconsin.

In the following States persons of 18 years may dispose of personal property only: Alabama, Arkansas, Missouri, Oregon, Rhode Island, Virginia, West Virginia; in Georgia any one over 14 years and in Louisiana any one over 16 years is competent to make a will. In Colorado, persons of 17 years, and in New York males of 18 and females of 16 years may dispose of personalty. WITNESSSES—Most of the States require two witnesses, except in Connecticut (3), Maine (3), Massachusetts (3), New Hampshire (3), South Carolina (3), Vermont (3).

THE BANKRUPTCY LAW.

EXTRACTS FROM THE UNITED STATES BANKRUPTCY ACT OF JULY 1, 1898, AS AMENDED BY SUBSEQUENT ACTS.

SEC. 4. WHO MAY BECOME BANKRUPTS.—(*a*) Any person who owes debts, except a corporation, shall be entitled to the benefits of this act as a voluntary bankrupt.

(b) Any natural person, except a wage-earner, or a person engaged chiefly in farming or the tillage of the soil, any unincorporated company, and any corporation engaged principally in manufacturing, trading, printing, publishing, mining, or mercantile pursuits, owing debts to the amount of one thousand dollars or over, may be adjudged an involuntary bankrupt upon default or an impartial trial, and shall be subject to the provisions and entitled to the benefits of this act. Private bankers, but no national banks or banks incorporated under State or Territorial laws, may be adjudged involuntary bankrupts.

The bankruptcy of a corporation shall not release its officers, directors, or stockholders, as such, from any liability under the laws of a State or Territory or of the United States.

SEC. 7. DUTIES OF BANKRUPTS.—(*a*) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or a Judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt, by his creditors or other persons, to evade the provisions of this act, coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee; (8) prepare, make oath to, and file in court within ten days, unless further time is granted, after the adjudication if an involuntary bankrupt, and with the petition if a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof, its money value in detail, and a list of his creditors, showing their residences, if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee, and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind, and whereabouts of his property, and, in addition, all matters which may affect the administration and settlement of his estate; but no testimony given by him shall be offered in evidence against him in any criminal proceedings.

Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than one hundred and fifty miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a Judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town, or village of his residence.

Act of March 3, 1911 (Judicial Code) 36 Stat. 1134, as follows:

SEC. 24. Original jurisdiction in district courts.

"SEC. 130. The Circuit Courts of Appeals shall have the appellate and supervisory jurisdiction conferred upon them by the act entitled 'An act to establish a uniform system of bankruptcy throughout the United States,' approved July first, eighteen hundred and ninety-eight, and all laws amendatory thereof, and shall exercise the same in the manner therein prescribed."

SEC. 252 states the appellate jurisdiction of the Supreme Court conferred upon it by the Bankruptcy Act of July 1, 1898.

SEC. 4, Act of January 28, 1915, as follows:

"That the judgments and decrees of the Circuit Courts of Appeals in all proceedings and cases arising under the Bankruptcy Act and in all controversies arising in such proceedings and cases shall be final, save only that it shall be competent for the Supreme Court to require by *certiorari*, upon the petition of any party thereto, that the proceeding, case, or controversy be certified to it for review and determination, with the same power and authority as if taken to that court by appeal or writ of error; but *certiorari* shall not be allowed in any such proceeding, case, or controversy unless the petition therefor is presented to the Supreme Court within three months from the date of such judgment or decree."

By act of Congress, approved March 2, 1917, section 17 of the Bankruptcy Law of 1898 was amended by adding to debts not affected by a discharge those "for breach of promise of marriage accompanied by seduction."

NATIONAL WOMEN'S TRADE UNION LEAGUE OF AMERICA.

President—Mrs. Raymond Robins. *Vice-President*—Miss Melinda Scott. *Secretary-Treasurer*—Miss Emma Steghagen. Headquarters, 139 North Clark Street, Chicago, Ill.

The officers of the New York society are: *President*—Rose Schneiderman. *Treasurer*—Jessie H. Childs. *Secretary*—Mrs. Maud Swartz. Headquarters, 7 East Fifteenth Street, New York City.

MARRIAGE AND DIVORCE LAWS.

Marriage Licenses—Required in all the States and Territories except Alaska. California and New Mexico require both parties to appear and be examined under oath, or submit affidavit.

Marriage, Prohibition of—Marriages between whites and persons of negro descent are prohibited and punishable in Alabama, Arizona, Arkansas, California, Colorado, Delaware, Florida, Georgia, Idaho, Indiana, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, Oregon, South Carolina, Tennessee, Texas, Utah, Virginia, and West Virginia. The causes for absolute divorce given in the table are in addition to adultery, which is a primary cause in every State except South Carolina. Marriages between whites and Indians are void in Arizona, North Carolina, Oregon, and South Carolina; and between whites and Chinese in Arizona, California, Mississippi, Oregon, and Utah. Marriage between first cousins is forbidden in most of the States, as is the marriage of an epileptic or imbecile.

States.	Residence Required.	Causes for Absolute Divorce.
Alabama	1-3 years.	Abandonment two years, crime against nature, habitual drunkenness, violence, pregnancy of wife by other than husband at marriage, physical incapacity, imprisonment for two years for felony, if husband becomes addicted to cocaine, morphine or similar drugs. New ground for divorce: To the wife, when the wife without support from the husband has lived separate and apart from the bed and board of the husband for five years next preceding the filing of the bill and she has actually resided in this State during all of said period. Acts 1915, held to authorize granting of divorce to wife only upon lapse of five years from and after date of its enactment. Divorce statutes are generally held not to be retrospective.
Alaska	2 years.	Felony, physical incapacity, desertion two years, cruelty, habitual drunkenness.
Arizona	1 year.	Felony, physical incapacity, desertion one year, excesses, cruelty, neglect to provide one year, pregnancy of wife by other than husband at marriage, conviction of felony prior to marriage unknown to other party, habitual drunkenness.
Arkansas	1 year.	Desertion one year, felony, habitual drunkenness one year, cruelty, former marriage existing, physical incapacity.
California	1 year.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony.
Colorado	1 year.	Desertion one year, physical incapacity, cruelty, failure to provide one year, habitual drunkenness or drug fiend one year, felony, former marriage existing.
Connecticut	3 years.	Fraudulent contract, wilful desertion three years, with total neglect of duty, habitual drunkenness, cruelty, imprisonment for life, infamous crime involving violation of conjugal duty and punishable by imprisonment in State prison, seven years' absence without being heard from.
Delaware	1 year.	Desertion two years, habitual drunkenness for two years, cruelty, bigamy, felony followed by a continuous imprisonment for at least two years—and at the discretion of the Court, fraud, want of age, neglect to provide three years. "When at the time the cause of action arose, either party was a bona fide resident of the State, and has continued so to be down to the time of the commencement of the action; except that no action for absolute divorce shall be commenced for any cause other than adultery, or bigamy, unless one of the parties has been for the two years next preceding the commencement of the action, a bona fide resident of this State."
D. of Columbia	3 years.	Marriages may be annulled for former existing marriage, lunacy, fraud, coercion, physical incapacity, and want of age at time of marriage
Florida	2 years.	Cruelty, violent temper, habitual drunkenness, physical incapacity, desertion one year, former marriage existing, relationship within prohibited degrees.
Georgia	1 year.	Mental and physical incapacity, desertion three years, felony, cruelty, force, duress, or fraud in obtaining marriage, pregnancy of wife by other than husband at marriage, relationship within prohibited degrees.
Hawaii	2 years.	Desertion one year, felony, leper, cruelty, habitual drunkenness.
Idaho	6 months.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony, insanity.
Illinois	1 year.	Desertion two years, habitual drunkenness two years, former existing marriage, cruelty, felony, physical incapacity, attempt on life of other party; divorced party cannot marry for one year.
Indiana	2 years.	Abandonment two years, cruelty, habitual drunkenness, failure to provide two years, felony, physical incapacity.
Iowa	1 year.	Desertion two years, felony, habitual drunkenness, cruelty, pregnancy of wife by other than husband at marriage, unless husband has illegitimate child or children living of which wife did not know at time of marriage. The marriage may be annulled for the following causes existing at the time of the marriage: Insanity, physical incapacity, former existing marriage, consanguinity.
Kansas	1 year.	Abandonment one year, cruelty, fraud, habitual drunkenness, gross neglect of duty, felony, physical incapacity, pregnancy of wife by other than husband at marriage, former existing marriage.
Kentucky	1 year.	Separation five years, desertion one year, felony, physical incapacity, loathsome disease, habitual drunkenness one year, cruelty, force, fraud or duress in obtaining marriage, joining religious sect believing marriage unlawful, pregnancy of wife by other than husband at marriage or subsequent unchaste behavior, ungovernable temper.
Louisiana	1 year.	Felony, habitual drunkenness, excesses, cruelty, public defamation of other party, abandonment, attempt on life of other party, fugitive from justice.
Maine	1 year.	Cruelty, desertion three years, physical incapacity, habits of intoxication by liquors, opium, or other drugs, neglect to provide, insanity under certain limitations.
Maryland	2 years.	Abandonment three years, unchastity of wife before marriage, physical incapacity, any cause which renders the marriage null and void *ab initio*.
Massachusetts	3-5 years.	Cruelty, desertion three years, habits of intoxication by liquors, opium or other drugs, neglect to provide, physical incapacity, imprisonment for felony, uniting for three years with religious sect believing marriage unlawful.
Michigan	1 year.	Felony, desertion two years, habitual drunkenness, physical incapacity, and in the discretion of the Court for cruelty or neglect to provide.

STATES.	Residence Required.	Causes for Absolute Divorce.
Minnesota.....	1 year.	Desertion one year, habitual drunkenness one year, cruelty, physical incapacity, imprisonment for felony.
Mississippi.....	1 year.	Felony, desertion two years, consanguinity, physical incapacity, habitual drunkenness by liquor, opium or other drugs, cruelty, insanity at time of marriage, former existing marriage, pregnancy of wife by other than husband at marriage.
Missouri.....	1 year.	Felony, absence one year, habitual drunkenness one year, cruelty, indignities, vagrancy, former existing marriage, physical incapacity, conviction of felony prior to marriage unknown to other party, wife pregnant by other than husband at marriage.
Montana.....	1 year.	Cruelty, desertion, neglect one year, habitual drunkenness one year, felony, innocent party may not remarry within two years and guilty party within three years of the divorce.
Nebraska.....	1 year.†	Abandonment two years, habitual drunkenness, physical incapacity, felony, failure to support two years, cruelty, imprisonment for more than 3 years.
Nevada.....	6 months.	Desertion one year, felony, habitual drunkenness, physical incapacity, cruelty, neglect to provide one year.
New Hampshire	1 year.	Cruelty, felony, physical incapacity, absence three years, habitual drunkenness three years, failure to provide three years, treatment endangering health or reason, union with sect regarding marriage unlawful, wife separate without the State ten years, not claiming marital rights, husband absent from United States three years intending to become citizen of another country without making any provision for wife's support.
New Jersey....	2 years.	Desertion two years, cruelty. No divorce may be obtained on grounds arising in another State unless they constituted ground for divorce in the State where they arose. The marriage may be annulled for the following causes existing at the time of the marriage: Want of legal age, former existing marriage, consanguinity, physical incapacity, idiocy. In other cases, an action may be begun if the overt act was committed here.
New Mexico...	1 year.	Abandonment, cruelty, neglect to provide, habitual drunkenness, felony, physical incapacity, pregnancy of wife by other than husband at marriage.
New York.....	(‡)	Adultery only. The marriage may be annulled for such causes as rendered the relationship void at its inception.
North Carolina.	2 years.	Pregnancy of wife by other than husband at marriage, physical incapacity, husband and wife living apart for ten years and having no issue.
North Dakota..	1 year.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony. The marriage may be annulled for the following causes existing at the time of the marriage: Former existing marriage, insanity, physical incapacity, force or fraud inducing the marriage, or want of age.
Ohio.....	1 year....	That either party had a husband or wife living at the time of the marriage from which the divorce is sought, wilful absence of either party from the other for three years, adultery, impotency, extreme cruelty, fraudulent contract, any gross neglect of duty, habitual drunkenness for three years, the imprisonment of either party in a penitentiary under sentence thereto. The petition for divorce under this clause must be filed during the imprisonment of the adverse party. The procurement of a divorce without this State, by a husband or wife, by virtue of which the party who procured it is released from the obligations of the marriage, while they remain binding upon the other party.
Oklahoma.....	1 year.	Abandonment one year, cruelty, fraud, habitual drunkenness, felony, gross neglect of duty, physical incapacity, former existing marriage, pregnancy of wife by other than husband at marriage.
Oregon.....	1 year.	Felony, habitual drunkenness one year, physical incapacity, desertion one year, cruelty or personal indignities rendering life burdensome.
Pennsylvania...	1 year.	Former existing marriage, desertion two years, personal abuse or conduct rendering life burdensome, felony, fraud, relationship within prohibited degrees, physical incapacity and lunacy.
Porto Rico.....	1 year.	Felony, habitual drunkenness, abandonment one year.
Rhode Island...	2 years.	Cruelty, desertion five years, habitual drunkenness, excessive use of morphine, opium or chloral, neglect to provide one year, gross misbehavior, living separate ten years, physical incapacity. Either party civilly dead for crime or prolonged absence. The marriage may be annulled for causes rendering the relationship originally void or voidable.
South Carolina.	.....	No divorces granted.
South Dakota..	1 year.	Cruelty, desertion one year, neglect one year, habitual drunkenness one year, felony. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age, former existing marriage, insanity, physical incapacity, force or fraud inducing marriage.
Tennessee.....	2 years.	Former existing marriage, desertion two years, felony, physical incapacity, attempt on life of other party, refusal of wife to live with husband in the State and absenting herself two years, pregnancy of wife by other than husband at marriage; at the discretion of the Court for cruelty, indignities, abandonment or neglect to provide, habitual drunkenness.
Texas.....	1 year.	Abandonment three years, physical incapacity, cruelty, excess or outrages rendering life together insupportable, felony.
Utah.....	1 year.	Desertion one year, physical incapacity, habitual drunkenness, felony, cruelty, permanent insanity.
Vermont.....	1 year.	Imprisonment three years, intolerable severity, desertion three years, neglect to provide, absence seven years without being heard from.
Virginia.....	1 year.	Insanity at marriage, felony, desertion three years, fugitive from justice two years, pregnancy of wife by other than husband at marriage, wife a prostitute, or either party convicted of felony before marriage unknown to other, physical incapacity.
Washington....	1 year.	Abandonment one year, fraud, habitual drunkenness, refusal to provide, felony, physical incapacity, incurable insanity, cruelty or indignities rendering life burdensome, other cause deemed sufficient by the Court.

† Two years for causes arising out of State. ‡ Actual residence.

MARRIAGE AND DIVORCE LAWS—*Continued.*

STATES	Residence Required.	Causes for Absolute Divorce.
West Virginia..	1 year.	Desertion three years, felony, physical incapacity, pregnancy of wife by other than husband at marriage, husband a licentious character or wife a prostitute unknown to other party, either party convicted of felony before marriage unknown to other. The marriage may be annulled for the following causes existing at the time of the marriage: Former existing marriage, consanguinity, insanity, physical incapacity, miscegenation, want of age.
Wisconsin.....	2 years.	Felony (imprisonment three years), desertion one year, cruelty, physical incapacity, habitual drunkenness one year, separation five years. In the discretion of the Court for cruelty or neglect to provide. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age or understanding, consanguinity, force or fraud inducing marriage; where marriage was contracted with former marriage existing the second marriage is void without any divorce proceedings.
Wyoming.....	1 year.	Felony, desertion one year, habitual drunkenness, crucity, neglect to provide one year, husband a vagrant, physical incapacity, indignities rendering condition intolerable, pregnancy of wife by other than husband at marriage, either party convicted of felony before marriage unknown to other. The marriage may be annulled for the following causes existing at the time of the marriage: Want of age, force or fraud. The marriage is void without divorce proceedings: Consanguinity, insanity, former existing marriage.

AGES AT WHICH MARRIAGE IS VALID.

Males (age without parents consent), 21 years in every State except Idaho, Michigan, New Hampshire, North Carolina and South Carolina, where it is 18 years; and Tennessee, where it is 14 years.

Males (age with parents consent), 14 years in Kentucky, Louisiana, Maryland, Mississippi, New Hampshire and Virginia; 16 years in Arkansas, Iowa, North Carolina, Texas and Utah; 17 years in Alabama, Georgia and Kansas; 18 years in Arizona, California, Hawaii, Idaho, Illinois, Indiana, Maine, Massachusetts, Michigan, Minnesota, Montana, Nebraska, Nevada, North Dakota, Ohio, Oklahoma, Oregon, Porto Rico, Rhode Island, South Dakota, Washington, West Virginia, Wisconsin, Wyoming. There is no definite age provision in Connecticut, District of Columbia, Missouri, New Jersey, New Mexico, Pennsylvania, South Carolina and Vermont; 21 years elsewhere.

Females (age without parents consent), 12 years in Tennessee; 16 years in Maryland, New Hampshire; 21 years in Florida, Kentucky, Louisiana, Pennsylvania, Porto Rico, Rhode Island, Virginia, West Virginia and Wyoming; 18 years in the other States.

Females (age with parents consent), 12 years in Kentucky, Louisiana, Maryland, Mississippi, Virginia; 13 years in New Hampshire; 14 years in Alabama, Arizona, Arkansas, Georgia, Iowa, Maine, North Carolina, Rhode Island, South Carolina, Texas, Utah; 15 years in California, Hawaii, Kansas, Minnesota, North Dakota, Oklahoma, South Dakota, Washington and Wisconsin; 16 years in Illinois, Indiana, Massachusetts, Michigan, Montana, Nebraska, Nevada, Ohio, Oregon, Porto Rico, West Virginia and Wyoming; 18 years in Idaho. In States not named there is no definite provision, or no law.

The lowest age at which a single female can make a valid contract, except marriage, is 18 years in Arkansas, California, Colorado, Hawaii, Idaho, Illinois, Iowa, Kansas, Minnesota, Montana, Nebraska, Ohio, Oklahoma, Oregon, South Dakota, Vermont and Washington; 21 years in the other States.

The lowest age at which a married female can make a valid contract, except marriage, is 14 years in Arizona, Iowa, Texas; 16 years in Nebraska, Oregon, Porto Rico; 18 years in Alabama, Alaska, Arkansas, California, Hawaii, Idaho, Illinois, Indiana, Kansas, Minnesota, Montana, Ohio, Oklahoma, South Dakota, Utah, Vermont, Washington; 21 years in the other States.

NATIONAL ACADEMY OF SCIENCES.

THERE are 172 living members, comprising investigators in every department of science. The geographical distribution of members, embracing all parts of the United States, corresponds closely with the educational and scientific facilities of different sections of the country. The National Academy has often been called into the service of the Government. Committees appointed in accordance with acts of Congress at the request of joint commissions and committees of Congress, of the President of the United States, and of the various Departments of the National Government, have reported on a great variety of subjects. From time to time trust funds have been established, the incomes of which are devoted to the award of medals or to grants for research. The will of Alexander Dallas Bache, first President of the Academy, directed that the residue of his estate, after the death of his wife, should be paid over to the National Academy of Sciences for the "prosecution of researches in physical and natural science by assisting experimentalists and observers." In all more than $120,000 has been disbursed by the Academy in direct aid of scientific research. In addition, the late Mrs. Henry Draper has left to the Academy a bequest of $25,000, the income of which is to be used for publication or other purposes.

Officers: *President*—Chas. D. Walcott, Smithsonian Institution, Washington, D. C. *Vice-President*—A. A. Michelson, Chicago University. *Home Secretary*—Arthur L. Day, Geophysical Laboratory, Washington, D. C. *Foreign Secretary*—George E. Hale, Solar Observatory Office, Pasadena, Cal. *Treasurer*—Whitman Cross, U. S. Geological Survey, Washington, D. C. *National Research Council, Chairman*—Geo. E. Hale, Washington, D. C.

FARMERS' NATIONAL CONGRESS, U. S. A.

President—John H. Kimble, R. F. D. 2, Port Deposit, Md. *Vice-Presidents*—O. G. Smith, Kearney, Neb.; L. B. Strayer, Rock Island, Ill.; John W. Barger, Waverly, O. *Treasurer*—D. K. Unsicker, Wright, Ia. *Secretary*—J. H. Patten, 204 Second St., S. E., Washington, D. C., and Belton, S. C. *Assistant Secretaries*—Mrs. Florence R. S. Phillips, Tallahassee, Fla.; J. C. Dennison, Vermilion, S. D.; Andrew Kimball, Fletcher, Ariz. *Legislative Agent*—J. H. Kimble, Port Deposit, Md.

The Farmers' National Congress, a pioneer national agricultural body, was organized in 1881 to voice by resolution the wishes of the farmers of the country on questions related to agriculture.

The membership of the congress is composed of delegates from each State appointed preferably by the Governors of the respective States, but should a Governor for any reason fail or refuse to make appointments, a certificate of appointment by the Secretary of the State Board of Agriculture or State Agricultural Society, or by the State Vice-President of the congress, is sufficient. The number of delegates from each State is unlimited.

The congress has devoted thirty-eight years of aggressive effort in behalf of the American farmers, and has been of material service in securing much valuable legislation for the agricultural interests of the country. The congress has been a power in urging and a strong influence in securing such beneficial legislation as rural free mail delivery, interstate commerce commission, oleomargarine laws, free denatured alcohol, postal savings banks, river and harbor improvements and inland waterways appropriations, pure food laws, parcel post, etc.

Labor Laws of 1918.

(Compiled by the American Association for Labor Legislation and revised for THE ALMANAC by the Secretary, John B. Andrews.)

There was no addition in 1918 to the legislation by the States prohibiting boycotting, blacklisting, picketing or intimidation.

The States having laws prohibiting *blacklisting* in terms are Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Florida, Illinois, Indiana, Iowa, Kansas, Minnesota, Mississippi (applies to telegraph operators only), Missouri, Montana, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, Texas, Utah, Virginia, Washington and Wisconsin.

Boycotting and picketing by peaceful and lawful means are declared legal by a Federal statute.

A number of States have laws concerning *intimidation*, conspiracy against workingmen and interference with employment, viz.: Alabama, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho (applies to mine employés only), Illinois, Kansas, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nevada, New Hampshire, New Jersey, New York, North Dakota, Oklahoma, Oregon, Pennsylvania, Porto Rico, Rhode Island, South Dakota, Texas, Utah, Vermont, Washington, West Virginia and Wisconsin.

In the following States it is unlawful for an employer to exact any agreement, either written or verbal, from an employé not to join or become a member of a labor organization as a condition of employment: California, Colorado, Connecticut, Idaho, Indiana, Louisiana, Massachusetts, Minnesota, Mississippi (applies to telegraph operators only), Nevada, New Jersey, Oregon, Pennsylvania, Porto Rico, South Carolina, Utah and Wisconsin.

THE EIGHT-HOUR DAY.

The eight-hour day in one form or another and more particularly on public works has been established by statute in Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Maine, Minnesota, Mississippi Missouri, Montana, Nebraska, Nevada, New Jersey, New Mexico, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Philippines, Porto Rico, South Dakota, Tennessee, Texas, Utah, Washington, West Virginia, Wisconsin and Wyoming.

Massachusetts has excluded certain public farm workers from the customary hour restrictions. Virginia extended the Ten-Hour law to women in laundries and to workers in offices and canneries. Mississippi gave Saturday half-holiday to its women during the summer.

United States—A day's work for all laborers, workmen and mechanics who may be employed by the United States, or by any contractor or sub-contractor upon any of the public works of the United States, including dredging and rock excavation in river and harbor work, is limited to eight hours. In case of national emergency the President may suspend the Eight-Hour law on public work provided time and one-half be paid for overtime.

After January 1, 1917, eight hours shall be deemed a day's work and the measure of a day's work for the purpose of reckoning the compensation for services of employés of carriers engaged in interstate and foreign commerce by steam railway.

OTHER 1918 LEGISLATION.

Employment—Compulsory work laws similar to those enacted in 1917 by Maryland and West Virginia were passed by Delaware, Georgia, Kentucky, Louisiana, Massachusetts, New Jersey, New York, Rhode Island and South Dakota. Maryland created a legislative committee to confer with the War and Navy Departments for securing agricultural labor, and Montana asked Congress to enact laws for assignment of labor. Regulation of private employment agencies was in Louisiana and New Jersey lodged with the Department of Labor and New Jersey created a migrant welfare and employment bureau. New York authorized a public employment office for negroes. The United States made provision for placement of vocationally rehabilitated persons and appropriated a revolving fund for furnishing transportation to war laborers. South Carolina passed four statutes dealing with county road work or commutation thereof.

New Jersey—The law regulating private fee-charging employment agencies is rewritten placing their supervision in the Department of Labor instead of with the municipal authorities. The fees are left at $25 in cities of less than 50,000 but are raised to $50 in cities of 50,000, to $70 in cities of 100,000 and to $100 in cities of 150,000, and a bond of $1,000 is required in addition. The law no longer specifies the fees which agencies may charge, but requires them to file their schedule of fees with the Commissioner of Labor for approval. The age at which applications may be received is raised from fourteen to sixteen years. The penalty of imprisonment is abrogated. (In effect March 4, 1918.)

A migrant welfare and employment bureau is created within the Department of Labor, consisting of a bureau chief at $2,500 a year and necessary assistants under the civil service. The bureau is to investigate living conditions among migrants, to instruct them in sanitation and sanitary living, to endeavor to procure proper housing facilities and to assist in securing suitable employment. (In effect March 4, 1918.)

New York—The sum of $5,000 is appropriated to establish an additional employment office in the locality which in the opinion of the Industrial Commission will best serve the interests of the negro population. (In effect July 1, 1918.)

United States—The Vocational Rehabilitation Act, in addition to providing for suitable courses of vocational rehabilitation for those disabled in the war, appropriates $45,000 for the placement and supervision after placement of vocationally rehabilitated persons. The board is directed to utilize, with the approval of the Secretary of Labor, the facilities of the Department of Labor in placing rehabilitated persons in suitable or gainful occupations. An additional $55,000 is appropriated for studies, investigations and reports regarding vocational rehabilitation of disabled persons and their placement in suitable or gainful occupations. (Public 178, 65th Congress, 2d session. In effect June 27, 1918.) An appropriation of $250,000 is to be used as a revolving fund until June 30, 1918, "to enable the Secretary of Labor to advance to wage-earners transportation to such places as may be deemed necessary for the purpose of securing employment in connection with the prosecution of the war." (Public 109, 65th Congress, 2d session. In effect March 28, 1918.) This is made available for 1919. (Public 181, 65th Congress, 2d session. In effect July 1, 1918.)

SAFETY AND HEALTH.

Child Labor: *Kentucky*—The Child Labor Act is amended requiring children, even if over sixteen years, to apply for employment certificates in person. The requirements concerning evidence of age are made more stringent. The penalty for violating the act is extended to apply to making false statements or presenting false evidence in connection with employment certificates, but no employer is to be prosecuted who has relied on such certificate in good faith. An inspector who finds that the age given on a certificate is incorrect is to suspend the certificate and notify the Commissioner of Agriculture and Labor, who will either revoke the certificate or annul the suspension. (In effect June 17, 1918.)

Maryland—The age at which children may be given vacation employment certificates or may be permitted to work in canning or packing establishments is raised from twelve to fourteen years. In case a birth certificate or passport is unavailable, any satisfactory documentary evidence of age is made acceptable. The State Board of Labor and Statistics is empowered, upon written recommendation of a super-

intendent of education, to issue temporary permits to children over fourteen who are mentally unable to make progress in school. (In effect June 1, 1918.)

New Jersey—The act regulating age, employment, safety, health and work hours of children in mercantile establishments is amended to cover "any employment other than in factories, workshops, mills, places where the manufacture of goods of any kind is carried on, mines, quarries or in agricultural pursuits." Children under fourteen are no longer permitted to work in mercantile establishments outside of school hours. Children under sixteen may not work in such establishments without an age and schooling certificate, nor for more than eight hours in any one day. Weekly hours are reduced from fifty-eight to forty-eight. The provision permitting evening work one day a week and at Christmas time is abolished and a prohibition of Sunday work for children under sixteen inserted in its stead. No child under sixteen may be employed in a mercantile establishment in any employment that is dangerous or detrimental to health, or in handling or working around substances which are poisonous or give off dust, fumes or gases, or on a scaffolding or around any construction work. Persons employing minors under sixteen are no longer required to keep birth records on file, but must keep on file age and schooling certificates. The owner of any business habitually violating the act is defined as "keeping a disorderly house." Maximum penalty, $1,000 or three years' imprisonment, or both, for each offense. (In effect July 4, 1918.) No fee may be charged for searching and transcribing birth records to be used by children for the purpose of obtaining employment. (In effect March 4. 1918.)

New York—It is made unlawful to permit a female under twenty-one to work in telegraph and messenger employments. Women over twenty-one may not be permitted to work as messengers more than six days or fifty-four hours a week, or between 10 P. M. and 7 A. M. Sections of the Labor law concerning time for meals, posting of notices and washing and toilet facilities are made applicable to this group of women also. (In effect May 2, 1918.) The age at which one may apply for license as master, pilot or engineer is reduced from twenty-one to eighteen years for steam vessels of 100 tons' burden or under. (In effect April 12, 1918.) It is permissible to employ children between fourteen and sixteen during July and August in connection with any mercantile establishment or business office in cities or villages on their obtaining a "summer vacation permit." To obtain such a permit a child must comply with all the requirements for an employment certificate, except filing a school record, and must have attended school for not less than 130 days during the twelve months prior to his fourteenth birthday or to his application, and the employer must state the character of work to be required. The permit must be returned within three days if the child does not obtain employment, within three days after termination of employment, or within three days after August 31 at the latest. Failure to return the permit, or employing a child on such permit except during July and August, is a misdemeanor. Returned permits must be preserved for a year and, if a child is still physically fit, may be renewed the following year. (In effect May 11, 1918.)

Virginia—The age for employment in mines and quarries is raised from fourteen to sixteen years. The prohibition against employing children under fourteen during school hours or after seven in the evening in the distribution, transmission or sale of merchandise is removed. On the other hand, canneries, theatres and places of amusement are added to the list of employments prohibited for children under fourteen. The hours during which children under sixteen must not be employed are changed from between 9 P. M. and 7 A. M. to between 7 P. M. and 6 A. M. The requirements for proof of age are made more strict. The age at which girls may be employed as messengers is raised from fourteen to eighteen, and the age at which they may be employed between 10 P. M. and 5 A. M. is raised from eighteen to twenty-one. Violation is made a misdemeanor and the fine made collectible "for each offense." Packing of fruits and vegetables between July and November is no longer exempted, nor may children between twelve and fourteen be exempted by the courts. (In effect July 1, 1918.)

Wisconsin—The age at which boys may be permitted to engage in street trades is raised from sixteen to seventeen years, except in those localities where compulsory schooling ends at sixteen years. (In effect March 8, 1918.) The section of the Child Labor law which requires minors with working permits to attend evening school is repealed, but attendance at evening or vocational school for four hours a week is made a condition of employment for "illiterate" minors over seventeen. (In effect March 2, 1918.)

Messenger work was prohibited for women under twenty-one in New York, and the minimum age for masters' licenses on small steamers was reduced from twenty-one to eighteen. Rhode Island and Virginia prohibited common drinking cups, and the former prohibited use of the suction shuttle; Porto Rico postponed the time of going into effect of the act regulating weights which may be carried. Amendments were made in the structural requirements for factories in New York State and in the city of Cranston (Rhode Island), and Virginia required exhaust hoods on grinding or buffing wheels. New York called for vestibuled cabs on locomotives, and the United States required certificated lifeboat men on vessels under the Seamen's act. Massachusetts empowered the Board of Labor and Industries to require facilities for warming food in large establishments. New Jersey provided for zoning of factories and Louisiana required seats for female elevator operators. Texas enacted sanitary regulations for women in certain industries.

Factory Laws: *New Jersey*—The law requiring establishments manufacturing bakery products, candy, ice cream and other foodstuffs to be licensed by the Department of Labor is amended to make licenses expire one year from date of issuance unless renewed. (In effect February 6, 1918.)

New York—The definition of "floor area" for factories conducted in buildings more than one story in height is given wider application by removing the clause "as used in this section." As special provisions for exits from floor areas in excess of 5,000 feet are no longer permitted, they now become subject to the same rules as smaller areas. No permits for increased occupancy may be granted after July 1, 1918. The commission may permit stairways and landings inside exterior enclosed fireproof stairways less than 100 feet high to be made of combustible material. Stairways with "winders" are no longer permitted as a required means of exit. In buildings with fireproof roof slabs the fireproof stairway enclosure need not extend above the roof. Stairway enclosures must be ventilated by windows in the exterior walls or by skylights. Exterior windows within twenty-five feet of a non-fireproof structure must be fireproofed and skylights must be made of wire glass or protected by wire. Stairways serving as required exits need be extended to the roof only when safe egress may be had therefrom or in buildings of more than five stories. Officers issuing permits for the construction or alteration of factory, storage or mercantile buildings must immediately forward notice of their issuance and other required information to the Department of Labor. When the spirit of the Labor law is observed, public safety secured and the occupancy not in excess of required stipulation, the Commission may permit in lieu of a fire-alarm system and fire drills an automatic sprinkler system having an approved adequate source of water supply. The Fire Commissioner in New York City, and elsewhere the Industrial Commission, may issue permits permitting smoking in protected portions of a factory or in special classes of occupancy. Factory rooms and all other parts of the building and premises must be kept "in proper repair." "Ceilings and walls" are for the first time required to be kept clean, sanitary, safe and in proper repair. (In effect May 11, 1918.)

Transportation: *New York*—The Railroad law is amended making it unlawful to use any locomotive engine not equipped with a vestibuled cab. (In effect January 1, 1919.)

United States—The act regulating officering and manning of vessels is amended to include in the requirements certificated lifeboat men. A schedule of the minimum number of deck officers with which a vessel may navigate is also enacted. It is made unlawful to permit an officer to take charge of the deck watch immediately after leaving port, unless such officer has had at least six hours off duty within the preceding twelve hours. In any twenty-four hours no licensed officer may be required to do duty more than

LABOR LAWS OF 1918—*Continued.*

nine hours in port or more than twelve hours at sea, except in an emergency. Penalty, $100. (Public 147, 65th Congress, 2d session. In effect May 11, 1918.)

Building Zones: *New Jersey*—In cities of the first and second class the Common Council or governing commission may regulate the height and bulk of buildings erected in the future and the area of yards, courts and other open spaces. They may also district the city as to location of trades, industries and other buildings designed for specified uses, and impose regulations, which shall be uniform for each district, designed to promote the public health, safety and general welfare. Where any ordinance or regulation under this act differs from existing ordinances or from the building code or Tenement House law as to height of buildings, percentage of lot which may be occupied, and width, depth and size of courts or yards, the ordinance or regulation most strict in its requirements shall govern. (In effect February 27, 1918.)

Workmen's Compensation—The establishment of a division for rehabilitating industrial cripples under the Massachusetts Industrial Accident Board signifies a new departure in the constructive phase of social insurance. The addition of Virginia in 1918 made thirty-eight States, in addition to Alaska, Hawaii and Porto Rico, which have compensation acts, besides the Federal Government's law for its own million civilian employees and the War Risk Insurance act. (See "Workmen's Compensation Laws" in index.)

Social Insurance: *Massachusetts*—The trustees of the General Insurance Guaranty Fund may expend $5,000 to promote old age annuities and the organization of mutual benefit associations among employees in industrial plants in order to afford them an opportunity to insure against sickness and disability. The trustees are given authority as agents or solicitors for this purpose. (In effect, May 29, 1918.) A pension of $6 a week is provided for scrub women who have been employed by Suffolk County fifteen years, and have become incapacitated or are sixty years old. (In effect May 15, 1918.)

New Jersey—Counties may retire on half wages any employee seventy-nine years of age who has been continuously employed for twenty-five years. (In effect March 1, 1918.)

New York—A commission of seven, including the Superintendent of Insurance, is created to inquire into retirement pensions, allowances and annuities for State and municipal officers and employees. (In effect May 1, 1918.) The Common Council of Jamestown is authorized to establish a pension fund for all city officers and employees except policemen. Beneficiaries must be sixty years of age, and in the city's employ for thirty years in the aggregate and for ten years immediately preceding receipt of pension. For employees who have served eight years without compensation, the necessary aggregate need be only twenty years. Pensions are not to exceed one-half regular pay, and may be terminated upon hearing after ten days' notice to the beneficiary. (In effect May 7, 1918.)

Wages: *Kentucky*—Persons performing labor in the repair of motor vehicles are given a lien on the vehicles for the work done and materials furnished. (In effect June 17, 1918.)

Louisiana—The requirement of bonds to protect persons performing labor or furnishing materials for construction or repair of public buildings is regulated. (In effect August 23, 1918.)

Maryland—Bonds for the faithful performance of contracts with the State or any of its agencies must include an obligation to pay debts for labor and materials, but liability to the State or its agencies under such bonds shall be given preference over liability for labor and materials. Suit on such bonds must be instituted within one year from completion of the contract. (In effect June 1, 1918.)

Massachusetts—The Lien law is extended to persons furnishing or performing labor under written contract subsequent to the date of the original contract. (In effect June 30, 1918.)

Mississippi—Contractors doing work for the State or any of its subdivisions must give bond for prompt payment for labor and material. Suit may be brought at any time within one year after completion or abandonment of the contract. (In effect March 28, 1918.) Procedure for recovery of unpaid wages of labor from contractors is modified. (In effect March 28, 1918.)

New Jersey—A bond, in addition to the usual bond, in an amount at least equal to the contract price, shall be required of contractors and subcontractors for the payment for all labor performed and materials furnished in constructing public buildings, works or improvements. Any one to whom money is due for labor or material shall file a statement of the amount due within eighty days after acceptance of the work contracted for, and if it is not paid within sixty days thereafter suit may be brought at any time within a year after the date of acceptance. (In effect February 16, 1918.) The Municipal Mechanics' Lien law is re-enacted with revisions. (In effect March 5, 1918.)

Surplus products of institutional labor may be sold in the open market under such terms and conditions that they shall not compete unfairly with the product of free labor. Convict labor shall not be used on public improvements in conjunction with free labor or to take the place of free labor locked out or on strike. (In effect July 4, 1918.)

If a court sets aside the dismissal of a municipal officer or employee as illegal, such officer or employee shall be entitled to recover his salary for the period of illegal dismissal. (In effect February 27, 1918.)

South Carolina—Failure to perform a labor contract is no longer prima facie evidence that such contract was violated fraudulently with malicious intent to injure the other party. (In effect March 26, 1918.)

Virginia—The law making it larceny to enter into a contract of employment with the intent to defraud is amended to include oral contracts, and also provides that prosecutions must be commenced within sixty days after a breach of contract. (In effect June 21, 1918.)

Syndicalism—Acts against sabotage and syndicalism were passed or amended in Arizona, Montana, Nebraska, North Dakota, and South Dakota, and Montana urged Congressional action in addition. In Massachusetts the Board of Conciliation and Arbitration must give notice of hearings. The Foundation for the Promotion of Industrial Peace was directed to return certain funds it could not use.

Minimum Wage—Minimum rates of pay for various public employees were established or increased by Maryland (road laborers), Massachusetts (laborers in Worcester), New York (lower paid civilian employees of the State), and the United States (postal clerks, printers, Treasury Department mechanics, Botanical Garden laborers, and general civilian employees of the Government and of the District of Columbia). Louisiana established a commission to investigate minimum wages for women and children.

New York—During the war the salaries of civilian full-time employees of the State are to be increased 10 per cent., providing it does not make their total compensation more than $1,500. Special provisions are made for piece-work, hour, and per diem employees. (In effect July 1, 1918.)

NATIONAL COMMITTEE FOR MENTAL HYGIENE.

Organized 1909. Incorporated 1916. Chief purposes—To work for the conservation of mental health and for improvement in the treatment of those suffering from nervous or mental diseases and mental deficiency and for the prevention of any of these disorders; to conduct or to supervise surveys of the care of those suffering from mental diseases or mental deficiency; to co-operate with other agencies which deal with any phases of these problems; to enlist the aid of the Federal Government and to help organize and aid affiliated State and local societies or committees for mental hygiene.

President—Dr. Lewellys F. Barker, Baltimore, Md. *Vice-Presidents*—Dr. Charles W. Eliot, Combridge, Mass., Dr. Walter B. James, New York and Dr. William H. Welch, Baltimore, Md. *Treasurer*—Otto T. Bannard, New York. *Chairman Executive Committee*—Dr. William L. Russell, White Plains, N. Y. *Chairman Finance Committee*—Dr. Walter B. James, New York. *Chairman War Work Committee*—Dr. Charles L. Dana, New York. *Chairman Committee on Mental Deficiency*—Dr. Walter E. Fernald, Waverley, Mass. Executive Officers: *Medical Director*—Dr. Thomas W. Salmon. *Associate Medical Director*—Dr. Frankwood E. Williams. *Secretary*—Clifford W. Beers, 50 Union Square, New York. General offices, 50 Union Square, New York City.

WORKMEN'S COMPENSATION LAWS OF STATES AND TERRITORIES.

Note—Injuries covered as a rule are personal injuries arising out of and in course of employment **not due to wilful intention to injure self or another, or to intoxication.** Maine adds unless habit of intoxication was known to the employer. Colorado, Massachusetts, Michigan, Oregon, Pennsylvania, Washington, Wisconsin, and Wyoming do not specify intoxication as an exception. Illinois, Montana, and Ohio make no exception, neither wilful injury nor intoxication. Delaware, Indiana, Kansas, Louisiana, South Dakota, Oklahoma, Virginia, and Vermont make an exception also of employee's failure to use reasonable safety appliances. Delaware, Hawaii, Idaho, and New York include diseases contracted as insured against. Kentucky excepts results of pre-existing diseases. Arizona covers injuries caused by failure of employer or his agents to exercise due care or to comply with any law affecting the employment. Utah includes injuries occurring outside of the State, and injuries caused by the wilful act of a third person directed against an employee because of his employment. Oklahoma does not cover fatal injuries.

ALASKA, 1915.

Administrative System—The courts. **Security for Compensation**—Attachment pending action, or employer may deposit cash or bond with court. **Employments Covered**—Elective, as to mining operations having five or more employees. **Waiting Period**—Two weeks. **Medical and Surgical Provisions**—Only in fatal cases involving no dependents, maximum, $150. **Compensation for Disability; Total, (a) Temporary: (b) Permanent**—(a) 50% of wages during disability, maximum, 6 months. (b) $3,600; $1,200 additional for wife, and $600 for each child under 16; if single, $600 for each dependent parent, maximum, $6,000. **Partial, (a) Temporary**—(a) 50% of wages; maximum period, 6 months; maximum amount, $4,800. If permanent, lump sums proportioned to number of dependents, ranging from $120 to $3,000, less payments for temporary disability. **Death Benefits; (a) Dependents, (b) No Dependents**—(a) $3,000 to widow or minor orphan; $600 to each child under 16 and to dependent parents, maximum, $6,000; if single, $1,200 to each dependent parent. (b) $150 for burial; $150 for other expenses between death and burial.

ARIZONA, 1912.

Adm. Sys.—Agreement; arbitration; reference to Attorney-General; courts. **Sec. for Comp.**—A judgment is collectible without relief from valuation or appraisement laws, and has same preference as unpaid wages or claim for personal services. **Employ.**—All especially dangerous employments. Elective as to other industries. "Especially dangerous" as specified in law include building and running of railroads, mining, using, making, or working near explosives; places where power machinery is used; working on derricks and scaffolds, etc. **Wait.**—Two weeks. **Med. and Surg.**—In fatal cases where there are no dependents the reasonable expenses of medical attendance and burial. **Comp. for Dis.; Total**—A semi-monthly payment equal to one-half the wage decrease. Fifty per cent. of semi-monthly earnings during time unable to work at any gainful occupation. The total for partial or total disability caused by a single injury not to exceed $4,000. **Death Ben.; (a) Depen.**—(a) To persons wholly dependent, a lump sum equal to 2,400 times one-half the daily wages or earnings of the deceased; not to exceed $4,000. payments to children to cease at 18 years of age. See under column for medical and surgical provisions for death cases where there are no dependents.

CALIFORNIA, 1918.

Adm. Sys.—State Industrial Accident Commission. Subject to limited review by the courts. **Sec. for Comp.**—Insurance is required. Policies inure directly to benefit of employee, who also has first lien on amounts due employer. Self-insurers may be required to give bond or deposit securities. Claims or awards have same preference as those for wages. **Employ.**—All excepting agriculture and domestic service, which may come under the act by joint election. **Wait.**—Ten days. **Med. and Surg.**—Such medical, surgical, and hospital treatment as may reasonably be required to cure and relieve. In case of death, the reasonable expense of burial, not exceeding $100. **Compen. for Dis.; Total, (a) Temp.: (b) Perm.**—(a) 65% of average weekly earnings during such disability. (b) When the degree of disability reaches or exceeds 70%, after the expiration of 240 weeks, a further benefit varying from 10 to 40% of the weekly earnings is payable during the remainder of life. **Part., (a) Temp.: (b) Perm.**—(a) 65% of weekly loss of wages during such disability. (b) 55% of average weekly earnings for periods varying from 4 to 240 weeks, according to the degree of the disability. In case of permanent incapacity or death a lump sum may be substituted for benefits, to equal the present value of the benefits computed at 6%. Average weekly earnings shall be considered as not less than $6.41, nor more than $32.05. **Death Ben.:** To persons wholly dependent, three times the annual earnings of the deceased; not less than $1,000, nor more than $5,000, payable at least monthly in instalments equal to 65% of the wages. Payments to children to cease at 18 years of age unless mentally or physically incapacitated. If only partial dependents survive, three times the annual contribution of the deceased to their support, subject to same limitations as above. Disability payments and burial expenses to be considered as parts of above totals.

COLORADO, 1917.

Adm. Sys.—Industrial Commission, with limited appeal to the courts. **Sec. for Comp.**—Insurance is required. Insurers are primarily liable to a workman or his beneficiaries. Notice to employer is notice to insurer. Claims are not assignable, and payments are exempt from attachment or execution. **Employ.**—All except interstate commerce and domestic and agricultural labor in which four or more are employed in which employers elect to come under the act, but lose no defences if they do not. Public service under State, municipalities, school or irrigation district, etc. **Wait.**—Two weeks. **Med. and Surg.**—Medical and surgical assistance for first 30 days not more than $100 in value. In death cases where there are no dependents, $75 for funeral expenses. **Compen. for Dis.; Total**—Fifty per cent. of weekly wages during continuance, $5 minimum, $8 maximum; full wages if less than $5. **Part.**—Fifty per cent. of the weekly wage decrease, $8 maximum. Total not to exceed $2,080. Special schedule for specified injuries, 50% of weekly wages for periods ranging from 4 to 208 weeks. Facial disfigurements may be compensated for in an amount not exceeding $500. Payments may be commuted to a lump sum after 6 months. **Death Ben.**—To persons wholly dependent 50% of the weekly wages for 6 years, $8 maximum; total not to exceed $2,500, nor to be less than $1,000. If death occurs during receipt of disability benefits any unaccrued and unpaid remainder goes to dependents; if only partial, dependents.

CONNECTICUT, 1914.

Adm. Sys.—Compensation Commissioners. Appeals from findings and awards to the Superior Court of the county. **Sec. for Comp.**—Employer must furnish proof of solvency and financial disability, file security, or insure in approved stock or mutual companies or associations. Payments are not assignable, are exempt from execution, and have same preference as wage debts. **Employ.**—All industries in which five or more persons are employed, in absence of contrary election by employer. **Wait.**—Seven days. **Med. and Surg.**—Medical and surgical aid and hospital service during such time as needed. $100 for burial expenses. **Compen. for Dis.: Total**—For total disability a weekly compensation equal to one-half the employee's earnings, not more than $14 nor less than $5 weekly, or for longer than 520 weeks. **Part.: (a) Temp.; (b) Perm.**—(a) A weekly compensation equal to one-half the wage loss, but not more than $14 per week or for longer than 312 weeks. (b) For specified injuries one-half the average weekly earnings for fixed periods in lieu of all other payments. Lump sum payments may be approved by the commissioner,

provided they equal the value of the compensations. **Death Ben.**—To persons wholly dependent, a weekly compensation equal to one-half the earnings of the deceased employee. If only partial dependents survive, a weekly compensation determined according to the measure of dependence, not exceeding one-half the earnings of the deceased employee. Compensation shall in no case be more than $14, nor less than $5 weekly, and shall not continue longer than 312 weeks. A widow's or widower's dependence ceases upon remarriage, and a child's upon reaching 18 years of age, unless physically or mentally incapacitated. If a widow or dependent widower dies during the term of benefit payments, subsequent payments go to other dependents, if any.

DELAWARE, 1918.

Adm. Sys.—Industrial Accident Commission of three, whose award is final, unless appeal is taken to the Supreme Court of the county within 10 days. **Sec. for Comp.**—Insurance in a stock or mutual company, or deposit of security, indemnity or bond. **Employ.**—All except domestic servants, farm and casual laborers, outworkers, State officers, and servants and employees in interstate or foreign commerce. **Wait.**—Fourteen days. **Med. and Surg.**—Medical care up to $25 during waiting period; $100 for burial. **Compen. for Dis.; Total**—Fifty per cent. of wages for 270 weeks, and thereafter 20%. **Death Ben.**—For a dependent widow or widower, 25% of wages, with additional percentages up to 60%, in proportion to the number of dependents and children under 16.

HAWAII, 1917.

Adm. Sys.—Industrial Accident Boards for each county; appeals to courts. **Sec. for Comp.**—Payments are preferred the same as wage claims. Employees have direct recourse to insuring company. Insolvency of employer does not release insurer. **Employ.**—All public and all industrial employment for pecuniary gain. **Wait.**—Seven days. **Med. and Surg.**—Reasonable surgical, medical and hospital services during disability, not exceeding $150; $100 funeral expenses if death within 6 months. **Compen. for Dis.; Total**—Sixty per cent. of weekly wages, $3 minimum, $18 maximum, for not longer than 312 weeks; total not to exceed $5,000. If wages are less than $3, full wages will be paid unless disability is permanent, when $3 will be paid. **Partial**—Fifty per cent. of wage decrease, $12 maximum, not over 312 weeks; total not to exceed $5,000. Fixed awards for specified injuries in lieu of all other benefits. Payments may be commuted to one or more lump sums in any case. **Death Ben.**—To widow or dependent widower alone, 40% of average weekly wages; if one or two dependent children, 50%; if three or more, 60%; 30% to one or two orphans; 10% additional for each child in excess of two; total not to exceed 50%. If no consort or child, but other dependents, 25% to 40%. Payments to widow to cease on death or remarriage, and to widower on termination of disability or remarriage; to children reaching 16, unless incapable of self-support, then to 18; to other beneficiaries on termination of disability. No payments except to children for more than 312 weeks. Wages not less than $5 nor over $36.

IDAHO, 1918.

Adm. Sys.—Industrial Accident Board of three. Awards final, unless appeal is taken to the District Court within 30 days. **Sec. for Comp.**—Private employers must either insure in the State Insurance Fund or deposit security in form of a surety fund or guaranty contract. **Employ.**—All public and private carried on for pecuniary gain. Employees injured outside the State are covered, as well as those hired outside the State if they would be entitled under law of State where hired. Agricultural, domestic and casual employees, outworkers, employees of charitable organizations and members of employer's family, although excluded, may be included by agreement. **Wait.**—Seven days. **Med. and Surg.**—Medical care for a reasonable time, charges being limited to those which prevail in community for similar treatment of persons of a like standard of living. In death case, $100 for burial, and if there are no dependents employer must pay $1,000 to Industrial Administration Fund. **Compen. for Dis.: Total**—Fifty-five per cent. of average weekly wages for 400 weeks, and $6 per week thereafter. **Death Ben.**—To dependent widow or widower, 45% of average weekly wages, with additional percentages up to 55%, in proportion to the number of dependents and children under 18.

ILLINOIS, 1917.

Adm. Sys.—Disputes determined by the Industrial Board through an arbitrator or arbitration committee, subject to review by the board. Questions of law may be reviewed by the courts. **Sec. for Comp.**—Awards constitute liens on all property of employer within the county paramount to all other claims, except wages, taxes, mortgages or trust deeds. Injured employees are subrogated to right of insolvent employer to insurance. **Employ.**—Building trades; construction, excavating and electrical work; transportation; mining and quarrying; work with or about explosives, molten metals, injurious gases or vapors or corrosive acids, and all enterprises in which the law requires protective devices. Other employers may elect, but forfeit no defenses if they do not. **Wait.**—Six days. **Med. and Surg.**—Medical and surgical aid for not over 8 weeks, not over $200. If no dependents, a burial benefit not over $150. **Compen. for Dis.; Total**—Fifty per cent. of employee's weekly earnings, $6 minimum, $12 maximum, during disability, or until payments equal a death benefit; thereafter, if the disability is permanent, a sum annually equal to 8% of a death benefit, not less than $10 per month. **Partial**, (b) **Perm.**—(b) 50% of loss of earning capacity, not more than $12 per week. For certain specific injuries (mutilations, etc.), a benefit of 50% of weekly wages for fixed periods, in addition to temporary total disability. The basis of 50% is to be increased 5% for each child under 16 years of age, maximum 65%. The minimum of $6 per week is to be increased for each such child, the total not to exceed $750. The maximum of $12 is to be increased $1 for each child, the total not to exceed $15. For serious and permanent disfigurement, not causing incapacity and not otherwise compensated, a sum not exceeding one-fourth the death benefits. No payments are to extend beyond 8 years, except in case of permanent total incapacity. **Death Ben.**—To persons wholly dependent, a sum equal to 4 years' earnings, not less than $1,650 (to a widow with one child under 16, $1,750 if two or more children, $1,850), nor more than $3,500 (to a widow with one child under 16, $3,750, and it two or more children, $4,000). If only dependent collateral heirs survive, such a percentage of the above sum as the support rendered the last two years was of the earnings of deceased. Lump sum payments for either death or disability may be substituted by the Industrial Board for periodic payments.

INDIANA, 1917.

Adm. Sys.—Industrial Board, with appeals to courts on questions of law. **Sec. for Comp.**—Contracts of insurance must enure directly to benefit of persons entitled to payments under an award. Payments have same preference and priority as unpaid wages, and are exempt from claims of creditors. Insurance required, or proof of financial ability to meet payments. **Employ.**—All except interstate and foreign commerce, for which Federal laws make provision; railroad employees engaged in train service, and domestic and agricultural labor, unless employer makes contrary election; compulsory as to State and its municipalities. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital services for first 30 days, and longer at option of employer; employee must accept unless otherwise ordered by Industrial Board; $100 for funeral expenses, if death from the injury occurs within 300 weeks. **Compen. for Dis.: Total**—Fifty-five per cent. of wages for not more than 500 weeks. **Partial**—Fifty per cent. of wage loss for not more than 300 weeks. For certain specified injuries, 55% of wages for designated periods ranging from 15 to 200 weeks. Wage basis and total amounts are limited as for death benefits. Any payments may be commuted to a lump sum after 26 weeks. **Death Ben.**—To persons wholly dependent, 50% of weekly wages; to those partially dependent, amounts proportionate to decedent's contribution to their support. Term of payment

limited to 300 weeks. Payments cease on remarriage of widow or dependent widowers, or on children attaining the age of 18 years, unless mentally or physically disabled for earning. Wages are to be considered as not above $24 nor less than $10 weekly, no total to exceed $5,000.

IOWA, 1917.

Adm. Sys.—Committees of Arbitration, with the Industrial Commissioner as Chairman; limited appeals to courts. **Sec. for Comp.**—Employers must insure in approved companies or mutual associations, furnish proof of financial ability, deposit security or contract with employees. Claim for compensation is first lien. If insured is incapable, insurer must settle direct with beneficiary. **Employ.**—All industries except agriculture and domestic service, in absence of contrary election by employer. Compulsory as to State and municipalities. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable surgical, medical and hospital services, and supplies for first 4 weeks, not exceeding $100. Reasonable expenses of last sickness, and burial not to exceed $100. **Compen. for Dis.: Total, (a) Temp.: (b) Part.**—(a) 50% of wages, not more than $10 nor less than $6 (unless wages are less than $6, then full wages), for not more than 300 weeks. (b) The same as for temporary disability, to be paid for a period of not more than 400 weeks. **Partial, (b) Perm.**—(b) Specified maimings—50% of average weekly wages for fixed periods, beginning with the date of injury. Payments for total temporary and total permanent disability for fifth, sixth, and seventh weeks are 83⅓% of the weekly earnings. If disability continues beyond those dates, but only 50% after the seventh week. Lump sum payments may be substituted on approval of the Industrial Commissioner and an order of the court. **Death Ben.**—To persons wholly dependent, a weekly payment equal to 50% of the wages, but not more than $10 nor less than $5 per week, for 300 weeks. If only partial dependents survive, such a proportion of the above as the amounts contributed by the employee to such partial dependents bear to his annual earnings. If employee was a minor whose earnings were received by the parent, a sum to the parent equal to two-thirds of the amount provided for persons wholly dependent. If the spouse dies during compensation period, unpaid benefits go to other dependents if any; if she remarries and there are no dependent children, payments cease.

KANSAS, 1917.

Adm. Sys.—Disputes not settled by agreement may be referred to arbitration, subject to an appeal to the courts. **Sec. for Comp.**—Lump sums awarded by the court may be secured by order of the court by a bond. If employer was insured, insurer is subrogated to the rights and duties of the employer. Claims and awards are not assignable or subject to execution, etc. **Employ.**—Railways, factories, quarries, electrical, building or engineering work, laundries, natural gas plants, county and municipal work, employments requiring the use of dangerous explosive or inflammable materials, if employing five or more, and mines; employers in other industries and those employing less than five persons may also elect. **Wait.**—One week. **Med. and Surg.**—On demand, medical, surgical and hospital treatment, not over $150 in value, for not more than 50 days. If no dependents, a reasonable expense for burial, not exceeding $150. **Compen. for Dis.: Total**—Payments during incapacity, after the first week, equal to 60% of the earnings, not less than $6 nor more than $15 per week. **Partial**—Sixty per cent. of wage loss during incapacity, after first week. Lump sums equal to 50% of the wages for specified periods are to paid for designated injuries in lieu of all other compensation. No payments for total or partial disability shall extend for over 8 years. After 6 months lump sum payments may be substituted at the employer's option, the sum to be agreed upon or determined by the court. **Death Ben.**—To persons wholly dependent, a sum equal to 3 years' earnings of the deceased, not less than $1,400 nor more than $3,800. For non-resident alien beneficiaries (except in Canada) the maximum is $750. If only partial dependents survive, a sum proportionate to the injury to such dependents. Compensation ceases upon the marriage of any dependent or when a minor becomes 18, unless physically or mentally incapable of wage earning.

KENTUCKY, 1916.

Adm. Sys.—Workmen's Compensation Board, a member thereof, or a referee appointed by it. Limited appeals to courts. **Sec. for Comp.**—Employers accepting act must insure in a stock or mutual company or the State Employees' Insurance Association, or give proof of financial ability. Policies must provide for direct liability to beneficiaries. Self-insurers must furnish bond or other security. Benefits have same priority as wages and are not subject to assignment or attachment. **Employ.**—All except domestic service and farm labor where three or more are employed; excepted industries may become subject to act by joint application of employers and employees. **Wait.**—Seven days. **Med. and Surg.**—Medical, surgical and hospital aid for 90 days, unless another period is fixed by the board, not to exceed $100. Reasonable burial expenses, not over $75. **Compen. for Dis.; Total**—Sixty-five per cent. of average weekly wages for 8 years, not over $12 nor less than $5; total not to exceed $5,000. **Partial**—Sixty-five per cent. of the weekly wage loss, not to exceed $12, for not more than 335 weeks; total not to exceed $4,000. Compensation periods are fixed for specified injuries. Lump sums may be awarded after six months, if approved by the board. **Death Ben.**—To persons wholly dependent, 65% of the average weekly earnings, not more than $12 nor less than $5 per week for 335 weeks; total not to exceed $4,000. If only partial dependents survive, a proportion of the amount for total dependency, determined by the degree of dependence. If no dependents, $100 to the personal representative. Payments to a widow or widower cease on remarriage, and to a child on reaching the age of 16, unless incapacitated for wage earning. Payments thus terminated go to other beneficiaries, if any.

LOUISIANA, 1915.

Adm. Sys.—Disputes are settled by Judges of the courts in simple, summary procedure. **Sec. for Comp.**—Insurance not required. Policies must give claimants right to direct payment. Compensation payments have same preference as wage debts. **Employ.**—Hazardous trades, businesses or occupations in absence of contrary election; extensive list, and others may be so adjudged or brought within act by voluntary agreement. Compulsory as to State employees, its municipalities and public boards. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical, surgical, and hospital service, not over $100. $100 expenses of last sickness and burial. **Compen. for Dis.; Total**—Fifty per cent. of the weekly wages, $3 minimum, $10 maximum, for not more than 400 weeks. **Partial**—Fifty per cent. of the wage loss, not over $10, for not more than 400 weeks. Fixed schedule for specified injuries for periods from 10 to 150 weeks. Payments in any case may be commuted to a lump sum on agreement of the parties and approved by the courts. **Death Ben.**—To widow or dependent widower alone, 25% of weekly wages, 40% if one child, 50% if two or more. If one child alone, 25%, 40% for two, 50% for three or more. For one dependent parent, 25%; for two, 50%. If one brother or sister, 25%, and 10% for each other. The total in no case to exceed 50%, $3 minimum, $10 maximum, for not over 300 weeks. Payment to any beneficiary ceases on death or marriage; to children on reaching the age of 18, unless mentally or physically incapacitated.

MAINE, 1917.

Adm. Sys.—Industrial Accident Commission; appeals to courts on questions of law. **Sec. for Comp.**—Insurance required unless employer gives proof of solvency and makes deposit or bond to secure payments. Claims have same preference as wages debts. **Employ.**—All except agricultural and domestic labor, and seamen in interstate or foreign commerce, in which more than five are employed, if employer elects. Abrogation of defenses does not affect cutting, hauling, driving, or rafting of logs. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical and hospital services during first two weeks, not over $30, unless by agreement or order of commission a larger amount is provided for. If no dependents, not

over $200 for last sickness and burial. **Compen. for Dis.; Total**—Fifty per cent. of the wages, for not more than 500 weeks, $4 minimum, $10 maximum, total not to exceed $3,000. **Partial**—Fifty per cent. of the weekly wage loss, not over $10, for not more than 300 weeks. For specified injuries causing permanent partial disability, 50% of the wages for various fixed periods, then compensation on basis of wage loss, if any, for not more than 300 weeks in all. Lump sum payments may be approved by the commission, after weekly payments, for not less than six months. **Death Ben.**—To persons wholly dependent, 50% of weekly wages for 300 weeks, $4 minimum, $10 maximum. If only partial dependents survive, amounts proportionate to their degree of dependency for 300 weeks. If only one wholly dependent and more than one partly dependent, payments are to be divided according to the relative extent of dependency. Payments to children cease at age of 18, unless mentally or physically incapacitated for earning a living.

MARYLAND, 1914.

Adm. Sys.—Industrial Accident Commission, with appeal to the courts. **Sec. for Comp.**—Insurance in State fund, stock, or mutual company, or proof of financial ability is required. Policies must permit action by commission to secure payments to persons entitled. Payments not assignable, nor subject to execution or attachment. **Employ.**—Extra hazardous (enumerated list); others by joint election of employer and employees. Farm and domestic labor, country blacksmiths and wheelwrights are excluded. **Wait.**—Two weeks. **Med. and Surg.**—Medical, surgical, etc., not over $150. Funeral expenses not over $75. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages, $5 minimum, $12 maximum for not over eight years, total not to exceed $5,000. If wages are less than $5, full wages will be paid. **Partial**—Fifty per cent. of weekly wage loss, $12 maximum, total not over $3,000; specific periods for specified maimings. Where the injured employee is a learner, with prospect of increase of wages, this fact may be considered in fixing awards. Payments may, in the discretion of the commission, be made in part or in whole in lump sums. **Death Ben.**—To persons wholly dependent, 50% of the weekly wages for eight years, not more than $4,250 nor less than $1,000. To persons partly dependent, 50% of the weekly wages for such portion of eight years as the commission may fix, amount not to exceed $3,000. If no dependents, funeral expenses only. Payments to widow close on remarriage, and to children on reaching the age of 16, unless mentally or physically incapacitated.

MASSACHUSETTS, 1917.

Adm. Sys.—On request of either party, Industrial Accident Board calls for a committee of arbitration, whose decision is subject to review by the Industrial Accident Board. **Sec. for Comp.**—Employer must become a subscriber of the State Employees' Insurance Association or insure in some authorized liability insurance company. All risks must be insured in approved companies. Payments are not subject to assignment, attachment or execution. **Employ.**—All industries, if the employer so elects. The State shall, and any county, city, town or district accepting this act, may compensate its laborers, workmen and mechanics. **Wait.**—Ten days. **Med. and Surg.**—Reasonable medical and hospital services, and medicines as needed, for the first two weeks, and in unusual cases, for a longer period, in the discretion of the board. Reasonable expenses of burial, not over $100. If dependents survive, this sum shall be deducted from the compensation payable. **Comp. for Dis.; Total**—A sum equal to two-thirds the average weekly wages, not less than $5 nor over $14 per week, not exceeding 500 weeks nor $4,000. **Partial**—Two-thirds the wage loss, not over $10 per week and for not longer than 500 weeks. In specified injuries (mutilations, etc.), two-thirds the weekly wages, not exceeding $10 nor less than $5 per week, for fixed periods, in addition to other compensation. Lump sum payments may be substituted in whole or part, after payments for injury or death have been made for not less than six months. **Death Ben.**—To persons wholly dependent, weekly payment equal to two-thirds the average weekly wages of the deceased employee, not less than $5 nor more than $10, for a period of 500 weeks, the total not to exceed $4,000. If only partial dependents survive, a sum proportionate to the portion of the earnings contributed to their support by the deceased employee. Children cease to be dependents at 18, unless mentally or physically incapacitated from earning a living.

MICHIGAN, 1917.

Adm. Sys.—Either party may request Industrial Accident Board to appoint a committee of arbitration, whose decisions are subject to review by the board. The Supreme Court may review questions of law. **Sec. for Comp.**—Employers must insure with the State or in approved companies, or furnish proof of financial ability. Claims are a first lien on all property of employer. **Employ.**—All industries if employer elects; compulsory as to the State and its municipalities, public boards, etc. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical and hospital services for the first three weeks. If no dependents, the reasonable expense of the last sickness and burial, not exceeding $200. **Comp. for Dis.: Total**—A weekly payment equal to one-half the earnings, not less than $4 nor more than $10 per week, nor for a period longer than 500 weeks from the date of the injury, and not exceeding $4,000. **Partial**—A weekly payment equal to one-half the wage loss, not over $10 per week nor for longer than 300 weeks. For certain specified injuries (mutilation, etc.), 50% of average weekly earnings for fixed periods. Payments begin with the fifteenth day after the injury, but if the disability continues for eight weeks or longer, compensation is computed from the date of the injury. After six months lump sums may be substituted for weekly payments. **Death Ben.**—To persons wholly dependent, a weekly payment equal to one-half the deceased workman's earnings, not less than $4 nor more than $10 per week for a period of 300 weeks. If only partial dependents survive such proportion of the above as the amount of previous contributions bears to such earnings.

MINNESOTA, 1917.

Adm. Sys.—Judge of the District Court determines dispute in a summary manner, subject to review by Supreme Court on questions of law. **Sec. for Comp.**—Employers may insure or maintain co-operative schemes. Insured workmen have an equitable lien on any policy falling due. Claims have same preference as unpaid wages. **Employ.**—All excepting common carriers by steam railroad and farm and domestic service, in absence of contrary election by employers. **Wait.**—One week. **Med. and Surg.**—Reasonable medical and surgical treatment, not exceeding 90 days nor $100, unless ordered in exceptional cases, when limit is $200. $100 funeral expenses. **Comp. for Dis.: Total**—Sixty per cent. of wages. **Partial, (a) Temp.; (b) Perm.**—(a) 60% of the wage loss. (b) For specified permanent partial disability (mutilations, etc.), 50% of the earnings for fixed period. Payments for death may not be more than $11 per week, and for disability not more than $12, nor less than $6.50, unless wages are less than $6.50, when amount of wages is paid. Payments may not extend beyond 300 weeks, except for permanent total disability, when the maximum is 400 weeks, with payments of not more than $6.50 per week thereafter for 150 weeks, the total not to exceed $5,000. Lump sums may be substituted for periodical payments, but in case of compensation for death, permanent total disability, or certain maimings, the consent of the court must be obtained. **Death Ben.**—To a widow alone, 35% of monthly wages of deceased, increasing to 60% if four or more children; to a dependent husband alone, 25%; to a dependent orphan, 40%, with 10% additional for each additional orphan, with a maximum of 60% to the dependent parent or parents, if no dependent widow, widower, or children, 30% if one parent and 40% if both survive; if none of the foregoing, but a brother, sister, grandparent, mother-in-law, or father-in-law is wholly dependent, if but one such relative, 25%, or if more than one, 30%, divided equally. If only partial dependents survive, that proportion of benefits provided for actual dependents which contributions bore to wages earned. Payments

continue for not more than 300 weeks, and cease upon marriage or when sixteen, unless mentally or physically incapacitated.

MONTANA, 1915.

Adm. Sys.—Proceedings to determine disputes must be instituted before the Board and not elsewhere; limited appeals to courts. **Sec. for Comp.**—Employer may carry his own insurance on proof of financial ability; may insure in any company in State, or may contribute to State fund. Liabilities under act are first lien upon any deposit, and on other property pro-rata with other lienable claims. **Employ.**—All inherently hazardous works and occupations, including manufactures, construction work, transportation and repair of means thereof, and any hazardous occupations not enumerated, in which employers elect, but not including agricultural, domestic or casual labor. **Wait.**—Two weeks. **Med. and Surg.**—Medical and hospital services during first two weeks, not over $50, unless there is a hospital contract. $75 for funeral expenses, if death occurs within six months. **Comp. for Dis.: Total,** (a) **Temp.**; (b) **Perm.**—(a) 50% of wages during disability, $10 maximum, $6 minimum, unless wages are less than $6, when full wages will be paid, for not more than 300 weeks. (b) Same scale as above for 400 weeks, then $5 per week, while disability continues. **Partial.** (a) **Temp.**; (b) **Perm.**—(a) 50% of wage loss, wages and benefits not to exceed $10 nor fall below $6, unless wages were less than $6; payments to continue not more than 150 weeks for permanent cases, and 50 weeks where disability is temporary. (b) For maimings, compensation of same scale and limits as in total temporary, for terms ranging from 3 to 200 weeks. **Death Ben.**—To widow, widower, child, or children under 16, or invalid child over 16, 50% of wages of the deceased if residents of the United States, if not, 25%, unless otherwise required by treaty. To major dependents (father or mother), in case there are no beneficiaries, 40%. To minor dependents (brothers or sisters actually dependent), if no beneficiary or major dependent, 30%. Non-resident alien dependents receive nothing unless required by treaty. Terms of payments may not exceed 400 weeks, $10 maximum, $6 minimum; if wages less than $6, then full wages. Payments cease on remarriage of widow or widower, or when child, brother, or sister reaches the age of 16, unless an invalid.

NEBRASKA, 1917.

Adm. Sys.—Compensation Commissioner; appeal to District Court of county, with further appeal to Supreme Court. **Sec. for Comp.**—Employer must insure or give proof of financial ability. Policies must inure directly to beneficiaries. Awards have same preference as wage claims. **Employ.**—All industries, except domestic service, agriculture, and interstate or foreign commerce in absence of contrary election. Exempt employees may make affirmative election. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital service during first 21 days, not over $200. Time may be extended in cases of dismemberment or major operations. A reasonable sum, not over $100, for expenses of last sickness and burial. **Comp. for Dis.: Total**—66⅔% of the weekly wages, not less than $6 nor more than $12 per week for 300 weeks; thereafter, while disability lasts, 45%, not less than $4.50 nor more than $9. If weekly wages are less than minimum, full wages are paid. **Partial**—66⅔% of loss of earning capacity, not over $12 per week nor for more than 300 weeks. For certain specified injuries (mutilations, etc.), 66⅔% of wages for fixed periods in lieu of other payments, $12 maximum, $6 minimum, unless wages are less than $6, when full wages are to be paid. Payments begin with the eighth day, but if disability continues six weeks or more compensation is computed from date of injury. Lump sums may be substituted for periodic payments, but if for death or permanent disability, the approval of the court must be obtained. **Death Ben.**—To persons wholly dependent, 66⅔% of the employee's wages, not less than $6 nor more than $12; not exceeding 350 weeks; if wages were less than $6, full wages. If only partial dependents survive, a proportion of the above corresponding to the relation the contribution of deceased to their support bore to his wages. Compensation to children ceases when they reach 16, unless mentally or physically incapacitated from earning.

NEVADA, 1917.

Adm. Sys.—Industrial Commission. **Sec. for Comp.**—Employers must insure in State Insurance Fund. State management of fund and collection of premiums by the State. Payments not assignable, exempt from attachment, etc. **Employ.**—All except domestic and farm labor, provided the employer elects; compulsory as to the State and its municipalities. **Wait.**—Seven days. **Med. and Surg.**—Reasonable medical, surgical, and hospital aid for 90 days, but may be extended to one year by the Industrial Commission. Burial expenses not to exceed $125. **Comp. for Dis.: Total**—One-half the average monthly wages, not less than $20 nor more than $70 for twelve months, and not over $60 thereafter. **Partial**—One-half the loss of earning capacity, not more than $40 per month for not more than sixty months; wages in excess of $140 need not be considered. For certain specific injuries (mutilations, etc.), a monthly payment equal to one-half the monthly wages, not less than $20 nor more than $60 for fixed periods, in addition to payments for temporary total disability. No compensation is payable for the first week of disability, but if it continues three weeks or longer compensation is paid from the date of the injury. The Industrial Commission may permit the substitution of lump sums for monthly payments in an amount not exceeding $5,000. **Death Ben.**—To widow or dependent widower, 30% of the average wages, with 10% additional for each child under eighteen years of age, total not to exceed 66⅔%. If only children survive, they receive 15% each, the total not to exceed 66⅔%. If there are none of the foregoing dependent parents may receive 25% of the average monthly wage during dependency; if dependent brothers or sisters under eighteen, 20% for one and 30% if more than one, other cases according to the facts. Payments to a widow or dependent widower cease on remarriage, but the widow shall receive two years' benefits in a lump sum. Payments to children cease at eighteen, unless incapable. Payments to non-resident aliens 60% of above. No excess of wages over $120 per month considered. No lump sum settlements allowed for widow, children, or the wholly dependent.

NEW HAMPSHIRE, 1912.

Adm. Sys.—Disputes settled by agreement or action in equity. **Sec. for Comp.**—No provision for insurance. Employer must satisfy Commissioner of Labor of financial ability or file a bond. Payments have same preferences as claims for unpaid wages, or for personal services. **Employ.**—Industries dangerous to life or limb, including operation and maintenance of steam and electric roads, work in shops, mills, factories, etc., employing five or more; work about quarries, mines, foundries. **Wait.**—Two weeks. **Med. and Surg.**—If no dependents, expenses of medical care and burial not in excess of $160. **Comp. for Dis.: Total**—Beginning with the fifteenth day, a sum not exceeding 50% of average weekly earnings. **Partial**—A sum not in excess of 50% of loss of earning capacity. In no case is compensation to exceed $10 a week, nor run for a longer period than 300 weeks. The court may determine the amount of lump sums payable as a substitute for weekly payments. **Death Ben.**—To persons wholly dependent, a sum equal to 150 times the average weekly earnings of deceased, not to exceed $3,000. If only partial dependents survive, such proportion of the above as corresponds to the portion of wages contributed to their support.

NEW JERSEY, 1914.

Adm. Sys.—Judge of Court of Common Pleas settles disputes in summary manner, subject to review on questions of law in Supreme Court. Workmen's Compensation Bureau by amendment of 1918. **Sec. for Comp.**—Employers must furnish proof of financial ability or insure. Policies must be for benefit of employees. Right of compensation has same preference as claim for unpaid wages. **Employ.**—All employments in absence of contrary election. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical and hospital services for first two weeks, not over $50. Expense of last sickness and of burial, not exceeding

$100 for burial. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) 50% of wages, payable during disability, but not beyond 300 weeks. (b) 50% of wages during such disability, not beyond 400 weeks. **Partial, (b) Perm.**—(b) For certain specific injuries (mutilations, etc.), 50% of wages during fixed periods. All weekly payments are subject to the same rule as to maximum and minimum as for death benefits. A lump sum payment may be substituted at the discretion of the Court of Common Pleas. **Death Ben.**—To one dependent, 35% of the wages of the deceased, and for each additional dependent 5% additional, the total not to exceed 60%, payable for not more than 300 weeks. Compensation not to be less than $5 nor more than $10 per week, unless the earnings are less than $5, when full wages are paid. Payments to widows cease on remarriage, to orphans at eighteen, unless mentally or physically deficient.

NEW MEXICO, 1917.

Adm. Sys.—District courts. **Sec. for Comp.**—Employer must file bond or certificate of guarantee, mutual, or other insurance, unless he can satisfy the Judge he is solvent. **Employ.**—Extra hazardous (enumerated), where four or more are employed, or where work is carried on upon a derrick, scaffolding, pole, or other structure ten or more feet above the surface of the ground; others by election. **Wait.**—Twenty-one days. **Med. and Surg.**—Medical care up to $50, during "waiting" period of 21 days. $50 for funeral expenses. **Comp. for Total Dis.**:—Fifty per cent. of earnings for 520 weeks. Compensation is increased 50% if caused by employer's failure to provide safety devices provided by law, and decreased 50% if caused by the employees' failure to observe a statutory regulation concerning safety, or to use a safety device provided. **Death Ben.**—To a dependent widow or widower; 40% of earnings, 5% additional for each child up to 60%, and proportionate amounts for other dependents.

NEW YORK, 1918.

Adm. Sys.—State Industrial Commission, with limited appeals to the courts. **Sec. for Comp.**—Employer must give proof of financial ability, or must insure in State fund or mutual or stock company. Policies must inure directly to beneficiary. Payments have same preference as unpaid wages. **Employ.**—All industries employing four or more employees, except domestic service and agricultural pursuits. **Wait.**—Two weeks. **Med. and Surg.**—Medical and surgical treatment and hospital services for sixty days, costs to be approved by the commission. $100 for funeral expenses. **Comp. for Dis.: Total**—66⅔% of wages during continuance. **Partial**—66⅔% of wage loss. For specified permanent partial disabilities (mutilations, etc.), 66⅔% of wages for fixed periods, separate provision for disfigurements. The foregoing payments may not be less than $5 nor more than $15 per week, except for certain maimings the maximum may be $20. Payments begin on the fifteenth day, but if the disability continues for more than forty-nine days compensation is allowed from the beginning. **Death Ben.**—To a widow or dependent widower alone, 30% of wages of deceased, 10% additional for each child under eighteen; dependent orphans under eighteen receive 15% each, and dependent parents, brothers, or sisters, 15% each; aggregate payments in no case to exceed 66⅔%. Payments to widow or widower cease on death or remarriage; payments to children, brothers and sisters at eighteen, and to parents when dependence ceases. In computing the above benefits no wages in excess of $100 monthly are considered.

OHIO, 1917.

Adm. Sys.—Industrial Commission; limited appeal to civil courts. **Sec. for Comp.**—State Insurance Fund. Employers must insure or give proof of ability to pay benefits. Non-insurers must give bond or security. Insurance is under State control. Claims have same preference as on tax judgments. **Employ.**—All employing five or more regularly; also establishments employing less than five, if employer elects to pay premiums. **Wait.**—One week. **Med. and Surg.**—Medical, hospital, etc., not over $200, but more may be allowed in case of necessity. Burial expenses not to exceed $150. If no dependents, medical and hospital services, not over $200, and burial expenses as above. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) Weekly payments of 66⅔% of average weekly wages during disability, not less than $5 nor more than $12; but not for longer than six years, nor exceeding $3,750. (b) A weekly payment as above, continuing until death. **Partial, (a) Temp.; (b) Perm.**—(a) 66⅔% of loss of earning capacity during continuance, but not exceeding $12 per week, or a total of $3,750. (b) In certain specified injuries (mutilations, etc.), 66⅔% of wages for fixed periods, with the same maximum and minimum limitations as noted above, in addition to payments during temporary total disability. In all cases, if wages are less than prescribed minimum, then total wages are paid as compensation; an expected increase in wages may be given consideration. **Death Ben.**—To persons wholly dependent, 66⅔% of the average weekly earnings of the deceased for eight years, not less than $2,000 nor more than $5,000. If only partial dependents survive, a proportionate sum to continue for all or such portion of the period of eight years as the Industrial Commission may determine in each case, not exceeding a maximum of $5,000.

OKLAHOMA, 1915.

Adm. Sys.—Industrial Commission. Appeals to the Supreme Court. **Sec. for Comp.**—Insurance companies or fund systems must be approved by the commission. Claims cannot be assigned, and payments are exempt from levy, execution, etc. **Employ.**—"Hazardous" (enumerated list and general clause), in which more than two are employed; agriculture, stock raising, retail stores, and interstate railways not included; work by State or municipalities is included. **Wait.**—Two weeks. **Med. and Surg.**—Necessary medical, surgical, or other treatment for first fifteen days. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(a) 50% of average weekly wages for not more than 300 weeks. (b) 50% of average weekly wages for not more than 500 weeks. **Partial, (b) Perm.**—(b) 50% of wage loss for not more than 300 weeks; for specified injuries, 50% of weekly wages for fixed periods in lieu of other compensation. Payments may not exceed $10 per week nor be less than $6, unless wages were less than $6, when full wages will be paid. Periodical payments may be commuted to lump sums, and aliens who are non-residents may have payments commuted to lump sums equal to one-half of the value of the present worth.

OREGON, 1916.

Adm. Sys.—State Accident Industrial Commission. Review by Circuit Court. Appeals from Circuit Court as in other civil cases. **Sec. for Comp.**—Insurance under State control. State gives subsidy, employer deducts 1% from employee's daily earnings, and contributes this and a percentage of monthly payroll. **Employ.**—All hazardous occupations, factories, mills, and workshops using machinery; mines, quarries, wharves and docks, dredges, engineering, telephone, telegraph, electric light, etc. All in absence of contrary election. **Med. and Surg.**—Transportation, medical, surgical, and hospital expenses, not exceeding $250. Burial expenses not to exceed $100. **Comp. for Dis.: Total, (a) Temp.; (b) Perm.**—(b) Monthly payments as follows: If unmarried, $30; if with wife or invalid husband, but no child under sixteen, $35; if husband is not an invalid, $30: if married or a widow or widower with a child or children under sixteen, $6 additional for each child until sixteen, total monthly payments not to exceed $50. (a) Above payments apply during disability, increased 50% for first six months, but in no case to exceed 60% of monthly wages. **Partial, (a) Temp.; (b) Perm.**—(a) A proportionate amount, corresponding to loss of earning power for not exceeding two years. (b) For certain specified injuries (mutilations, etc.), monthly payments of $25 per month payable for fixed periods, less any time for which compensation was paid for total disability. A lump sum at the option of the injured person is provided in some cases. Partial lump sum payments to any beneficiary may be substituted at the discretion of the commission. **Death Ben.**—To widow or invalid widower, a monthly payment of $30, and to each child under sixteen (daughters

eighteen), $6 a month, the total monthly not to exceed $50. To orphans under sixteen (daughters eighteen), a monthly payment of $15 each, the total not to exceed $50. To other dependents, there being none of the foregoing, a monthly payment to each of 50% of the average support received during the preceding year, but not to exceed $30 a month in all. To parents of an unmarried minor, a monthly payment of $25, until such time as he would have been twenty-one, after which time compensation shall be paid according to average support. Payments to widow or widower until death or remarriage. On remarriage of widow a lump sum of $300. Payments to a male child cease at sixteen, to a female at eighteen, unless an invalid.

PENNSYLVANIA, 1916.

Adm. Sys.—Workmen's Compensation Board. Appeal to courts. **Sec. for Comp.**—Employers must insure in State Fund, a stock or mutual company, or give proof of financial ability. Agreements are filed with a prothonotary, if approved becomes a lien as a judgment. A separate act provides for direct payments to beneficiaries. **Employ.**—All, unless employer elects to contrary. Agricultural and domestic employees are excluded. **Wait.**—Fourteen days. **Med. and Surg.**—Reasonable medical, surgical, and hospital expenses for first fourteen days, cost not to exceed $25, unless major surgical operation is necessary, when $75 is the maximum. $100 funeral expenses. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages for 500 weeks, $5 minimum, $10 maximum, total not to exceed $4,000; if wages are less than $5, full wages will be paid. **Partial**—Fifty per cent. of weekly wage loss, $10 maximum, for not over 300 weeks; fixed periods for specified injuries, $5 minimum, $10 maximum, full wages if less than $5. Payments may be computed to lump sum. **Death Ben.**—Forty per cent. of weekly wages to widow or dependent widower, 5% additional for each child, total not to exceed 60%; if no parent, 25%; if one or two children, 10% additional for each child in excess of two, total not to exceed 60% if no consort or child under sixteen, but dependent parent, brothers, or sisters, 15% to 25% of wages. Payments cease on death, remarriage of widow or widower, or child, brother or sister at sixteen, not to continue beyond 300 weeks, unless for children under sixteen, when 15% will be paid for one, and 10% additional for each additional child, total not to exceed 50%. Basic wages are not less than $10 nor more than $20 weekly.

PORTO RICO, 1917.

Adm. Sys.—Workmen's Relief Commission, with limited appeals to the courts. **Sec. for Comp.**—A Workmen's Relief Trust Fund is administered by the Treasurer of the Island. Rights not assignable, nor subject to attachment. **Employ.**—All employing five or more, except domestic service and agricultural work without mechanically driven machinery, and common carriers by railroad. **Med. and Surg.**—Necessary medical attendance and such medicines and necessary food as the Workmen's Relief Commission may prescribe; food supplies granted to be deducted from the award. Burial expenses not exceeding $40. **Comp. for Dis.: Total**, (a) **Temp.**; (b) **Perm.**—(a) An amount equal to three-quarters of the weekly wages, not less than $3 nor more than $7, for not more than 104 weeks. (b) The sum of $1,500, and an amount equal to three-quarters of the weekly wages, not less than $3 nor more than $7, for a maximum of 208 weeks. **Partial**, (b) **Perm.**—(b) Payment is to be made proportionate to permanent total, following payments under temporary total disability. The time and manner of payments are to be determined by the Workman's Relief Commission. **Death Ben.**—Any balance of the sums the deceased workman would have received if the injuries had not proved fatal. Benefits may be apportioned among the dependent legal heirs by the Workmen's Relief Commission.

RHODE ISLAND, 1917.

Adm. Sys.—Any party interested may petition Superior Court. Appeals to the Supreme Court. **Sec. for Comp.**—Employer must insure, give proof of financial ability, or furnish security or bond. Insurers directly liable to claimants. Beneficiaries have first lien. **Employ.**—All except domestic service and agriculture, if employer elects. Defenses in suits for damages not abrogated unless more than five persons employed. **Wait.**—Two weeks. **Med. and Surg.**—Necessary medical and surgical care and hospital services for the first two weeks. If no dependents, the expense of the last sickness and burial, not over $200. **Comp. for Dis.: Total**—A weekly payment equal to one-half the wages, not less than $4 nor more than $10 per week, for not more than 500 weeks. **Partial**—A weekly payment equal to one-half the loss of earning power, not exceeding $10 per week, for not longer than 300 weeks. For certain specified injuries (mutilations, etc.), in addition to above, one-half the wages, weekly payments to be not less than $4 nor more than $10 per week, for fixed periods. Payments begin on the fifteenth day, but if incapacity extends beyond four weeks they begin with date of injury. Lump sum payments may be substituted by order of the Superior Court after compensation has been paid for six months for either death or injury. **Death Ben.**—To persons wholly dependent, a weekly payment equal to one-half the average weekly earnings, not less than $4 nor more than $10 per week, for a period of 300 weeks. If only partial dependents survive, a sum proportionate to the amount which the annual contributions bear to the annual earnings of the deceased, for not over 300 weeks. Payments to children cease on their reaching eighteen unless physically or mentally incapacitated.

SOUTH DAKOTA, 1917.

Adm. Sys.—Industrial Commissioner. Arbitration Committee, one representative of each side and the Industrial Commissioner. **Sec. for Comp.**—Insurance required unless employer can furnish proof of financial ability, when security may be required. **Employ.**—All except domestic, farm and casual laborers, and employees in interstate and foreign commerce. **Wait.**—Fourteen days. **Med. and Surg.**—Medical care up to $100, for four weeks. If no dependents, $150 for burial. **Comp. for Total Dis.**—Fifty per cent. of earnings up to a maximum of $3,000, or four times average annual earnings. **Death Ben.**—In death cases practically the same as for total disability.

TEXAS, 1917.

Adm. Sys.—Industrial Accident Board. Appeals to courts. **Sec. for Comp.**—Employers must insure. Compensation is payable directly by the insurance association. Benefits are unassignable, and exempt from garnishment attachment, etc. **Employ.**—All except domestic and farm labor, railways operated as common carriers, and vessels in interstate and foreign commerce. **Wait.**—One week. **Med. and Surg.**—Medical and hospital care for first two weeks and hospital care for two additional weeks if necessary. If no beneficiaries or creditors, expenses of last illness and a funeral benefit not over $100. **Comp. for Dis.: Total**—Sixty per cent. of average weekly wages, not less than $5 nor more than $15, for not more than 401 weeks. **Partial**—Sixty per cent. of loss of earning power, not over $15 per week nor more than 300 weeks. For certain specified injuries (mutilations, etc.), an additional compensation equal to 60% of the average weekly wages for fixed periods, not less than $5 nor more than $15 per week, in lieu of all other compensation. A lump sum payment may be substituted for weekly payments in cases of death or total permanent disability, subject to the approval of the Industrial Accident Board. **Death Ben.**—To the legal beneficiary a weekly payment equal to 60% of his wages, not less than $5 nor more than $15, for a period of 360 weeks, distributed according to law governing property distribution.

UTAH, 1917.

Adm. Sys.—Industrial Commission. **Sec. for Comp.**—Employers must insure or be liable to respond in damages. **Employ.**—Public and private employers of four or more. Agricultural, domestic and casual laborers, elected officials, and employees in interstate and foreign commerce are excluded. **Wait.**—Ten

days. **Med. and Surg.**—Medical care up to $200. $150 for burial. **Comp. for Total Dis.**—Fifty-five per cent. of average weekly wages for five years, and 40% thereafter. **Death Ben.**—Dependents are paid 55% of wages for a maximum period of six years.

VERMONT, 1917.

Adm. Sys.—Commissioner of Industries. Appeal to courts. **Sec. for Comp.**—Insurance required unless deposit of security or proof of financial responsibility. Employees have direct recourse to insurer. Compensation rights are preferred claims. **Employ.**—All industrial establishments in which more than ten are employed, commerce as far as permissible under Federal laws, domestic and casual labor excluded. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital service for fourteen days, not over $100. $100 for funeral expenses if death within two years. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages for not more than 260 weeks, $3 minimum, $12.50 maximum, total not to exceed $4,000. If wages less than $3, full wages will be paid. **Partial**—Fifty per cent. of wage decrease, maximum $10, for not more than 260 weeks. For certain specified injuries, 50% of weekly wages, but no more than $10 for designated periods running from 4 to 170 weeks. Payments may be commuted to one or more lump sums in any case. **Death Ben.**—To dependent widow or widower, 33⅓% of weekly wages, 40% if there be one or two children, 45% if more than two; if no parent, 25% to one or two children, 10% additional for each child in excess of two, total not to exceed 40%; if no consort or child under eighteen, and dependent parent, grandparent, or grandchild, 15% to 25%. Payments to widow cease on death or remarriage; to widower on remarriage or cessation of dependency; to children on reaching eighteen, unless incapable, in no case to exceed 260 weeks or $3,500. Payments to other classes end in 208 weeks at most. Basic wages not less than $5 weekly.

VIRGINIA, 1918.

Adm. Sys.—State Commission of three. **Sec. for Comp.**—Policies inure directly to employee. Claims or awards have same preference as those for wages. **Employ.**—All except domestic service and farm labor, and steam railroads; includes public employment. **Wait.**—Fourteen days. **Med. and Surg.**—Medical and surgical aid by employers for thirty days. Funeral expenses not over $100. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages, maximum $10, minimum $5, total for disability not over 500 weeks or $4,000. **Partial, (a) Temp.; (b) Perm.**—(b) Act has schedule for permanent partial, loss of thumb so much, index finger so much, and so on. (a) 50% of weekly loss during disability, not more than $10 nor over 300 weeks. **Death Ben.**—Not more than 300 weeks or $4,000. 50% of average weekly wages to dependents.

WASHINGTON, 1917.

Adm. Sys.—Industrial Insurance Department. Review by Superior Court. Appeals from Superior Court as in other civil cases. **Sec. for Comp.**—Accident fund, under State control. **Employ.**—All extra-hazardous employment, including mills, factories, workshops where machinery is used; blast furnaces, mines, quarries, and wharves, engineering, logging, lumbering, building trades, telegraph, telephone, and electric lights, etc. Railroads doing interstate business are excluded. **Wait.**—Eight days. **Med. and Surg.**—Proper and necessary medical and surgical services, and hospital care if injuries temporary; if permanent, until awards are made on basis of nature of disability. Expenses of burial not over $75. **Comp. for Dis.: Total**, (a) **Temp.**; (b) **Perm.**—(b) If unmarried, $20 per month; if with a wife or invalid husband, but no child under sixteen, $25 per month; if husband not an invalid, $15 per month; if married or a widow or widower with a child or children under sixteen, $5 additional for each child, total not to exceed $35; if so helpless as to require attendant, $20 per month, in addition to other benefits. (a) Payments as for (b) during disability, increased by 50% for first six months, but in no case to exceed 60% of monthly wages. **Partial, (a) Temp.; (b) Perm.**—(a) Payment as for total disability continues in proportion to loss of earning power, provided this exceeds 5%. (b) For specified permanent partial disabilities, lump sums ranging from $500 to $2,000; others to be compensated proportionately; if the injured person is a minor, the parents receive an additional sum equal to 10% of the award to the injured person. Monthly payments may be converted into a lump sum, payment not over $4,000, in case of death or permanent total disability. No benefits are to be paid for the first eight days, unless the disability continues for more than thirty days. **Death Ben.**—To widow or invalid widower, a monthly payment of $20; to each child under sixteen, $5 per month, total not over $35; if no parent, $10 to each child under sixteen, total not to exceed $35. To other dependents, if none above survive, a monthly payment equal to 50% of the average amount previously contributed, total not to exceed $20. To the parent or parents of unmarried minor, a monthly payment of $20, until he would have been twenty-one. Payments to widow or widower continue until death or remarriage, and to a child until sixteen. If a widow remarries she receives a lump sum of $240.

WEST VIRGINIA, 1915.

Adm. Sys.—Compensation Commissioner; limited appeal to Supreme Court. **Sec. for Comp.**—Insurance through a State fund. Employers of approved ability may carry own risks, giving bond. Payments only to beneficiaries, and exempt from claims of creditors, attachment or execution. **Employ.**—All except domestic or agricultural labor, if the employer becomes a member of the State Insurance Fund. **Wait.**—One week. **Med. and Surg.**—Medical, nurse and hospital services, not over $150 ($300 in special cases). Reasonable funeral expenses, not over $75. **Comp. for Dis.: Total**—For permanent total disability (85% or above); 50% of the average weekly wages during life. **Partial, (a) Temp.; (b) Perm.**—(a) 50% of loss of earning capacity, not more than $10 per week nor exceeding 26 weeks, except that for certain ununited fractures, etc., may be fifty-two weeks. (b) 50% of wages for periods varying with degree of disability (from 10 to 70%), from 30 to 210 weeks; from 70 to 85% disability, 40% of wages for life. Lump sum payments may be substituted for periodic payments in case of either injury or death. **Death Ben.**—To widow or invalid widower, $20 per month and $5 per month additional for each child under the age of legal employment, total not to exceed $35 per month. To orphan child or children, $10 each per month until fifteen, total not over $30 per month. To other persons wholly dependent, if no widow, widower, or child, 50% of average monthly support received from deceased during preceding year, not exceeding $20 per month for six years. If deceased was a single minor, to a dependent parent 50% of earnings, not over $6 per week until he would have become twenty-one. If only partial dependents survive, compensation computed. Payments to widow or widower cease on remarriage, and to children at fifteen. If widow or widower remarry within two years, to be paid 20% of balance of 10 years.

WISCONSIN, 1917.

Adm. Sys.—Industrial Commission; limited review by the courts. **Sec. for Comp.**—Employer must give proof of financial ability or insure. Claims have preference, are non-assignable, and exempt from attachment or execution. Commission may require deposits, purchase of annuities, or the giving of bonds. **Employ.**—All, if the employer elects. Election is presumed where there are three or more employees, except as to agriculture and railroads. **Wait.**—One week. **Med. and Surg.**—Medical, surgical, and hospital treatment for ninety days, and for such additional time as will in judgment of commission lessen the period of compensation. Artificial limbs supplied. Reasonable expense of burial, up to $100. **Comp. for Dis.: Total**—Sixty-five per cent. of average weekly earnings. **Partial**—Sixty-five per cent. of loss of earning power. For certain specific injuries (mutilations, etc.), a sum equal to 65% of average weekly earnings for fixed periods, ranging from 6 to 320 weeks, which include the time for healing.

For serious permanent disfigurement, a lump sum may be allowed, not over $750. Payments begin with the eighth day, but if disability continues for twenty-eight days, benefits are payable for first seven days. In case of temporary or partial disability, aggregate compensation not over four years' earnings; for permanent total disabilities payments are limited—nine to fifteen years, according to age of injured person. Lump sum payments may be substituted at any time after six months. **Death Ben.**—To persons wholly dependent, a sum equal to four years' earnings, but which when added to any prior compensation will not exceed six years' earnings. If only partial dependents survive, a sum not to exceed four times the amount provided for their support during the preceding year. All payments are to be made in weekly instalments equal to 66⅔% of the average weekly earnings. Dependence of children ceases at eighteen, unless physically or mentally incapacitated.

WYOMING, 1917.

Adm. Sys.—Disputes settled by District Courts of the counties, with appeal to the Supreme Court of the State. **Sec. for Comp.**—Insurance in State fund required. Insurance under State control. Payments not assignable, nor subject to attachment, execution, etc. **Employ.**—Extra-hazardous (enumerated list), in which three or more are employed, interstate railroads excepted; use of explosives and work ten feet above ground included. **Wait.**—Ten days. **Med. and Surg.**—None. $50 for funeral expenses, unless other arrangement exists under agreement. **Comp. for Dis.: Total** (a) **Temp.**; (b) **Perm.**—(b) Lump sum of $1,400 if single, $1,600 if wife or invalid husband, and a sum equal to $60 per year for each child until sixteen years old, total for children not to exceed one and one-half times the sum allowed the injured workman. (a) $18 per month if single, $24 if married, and $5 per month for each child under sixteen, total monthly payment not over $35, and aggregate not to exceed the amount payable if the disability were permanent. **Partial** (b) **Perm.**—(b) Fixed lump sums for specified injuries, others in proportion. No payments for first ten days unless the disability continues for more than thirty days. **Death Ben.**—Lump sum payment of $1,200 to widow or invalid widower, and an additional sum equal to $60 per year until sixteen for each child, total for children not to exceed one and one-half times the payments to surviving spouse. If there are dependent parents and no spouse and no child under sixteen, a sum equal to 50% of one year's contribution, not exceeding $500. Payments to non-resident aliens, beneficiaries are limited to 33⅓% of the above amounts, and only the widow and children under sixteen are considered.

UNITED STATES, 1916.

Adm. Sys.—United States Employees Compensation Commission. **Sec. for Comp.**—No provision for insurance. Payments made from special compensation fund. **Employ.**—All civilian employments of the United States Government and the Panama Railroad. **Wait.**—Three days. **Med. and Surg.**—Reasonable medical, surgical, and hospital services and supplies. $100 burial expenses, and transportation of bodies of residents of the United States dying away from home, if relations desire it. **Comp. for Dis.: Total**—66⅔% of the monthly pay during continuance of the disability. **Partial**—66⅔% of the difference in wage earning capacity due to such disability. Payments are subject to the same maximum and minimum amounts as in case of death. Payments on account of death, or permanent disability, may be computed to a lump sum. **Death Ben.**—To widow or dependent widower alone, 35% of the monthly wages, with 10% additional for each child, total not to exceed 66⅔%. To dependent parents, 25% if one, 40% if both are dependent. If there is a widow, widower, or child, the parents' rights are subordinate, and the total awards may not exceed 66⅔%. Other dependent relatives receive benefits in smaller amounts, subject to claims of foregoing. Payments to widow or widower terminate on death or remarriage, to a child on marriage, reaching eighteen. Payments to other beneficiaries in no case extend beyond eight years. All payments subject to maximum of $66.67 per month, and minimum of $33.33, unless actual earnings are less, when compensation will equal earnings.

WIDOWED MOTHERS' PENSIONS.

(For tabulated provisions of the various acts prior to 1917, see Almanac of that year.)

The Maine law provides: Cities and towns shall aid necessitous mothers, capable of bringing up children, at home. Aid in money or supplies not to exceed $10 per month for one child under 14, $4 for each additional child. State Board consists of State Board of Charities and Correction, Municipal Board of Overseers of Poor, unless towns provide special board. Applications made to Municipal Board, which investigates and reports to State Board, which decides. Deserted wives must first proceed against husbands. Towns and cities furnishing aid reimbursed by State to extent of one-half. Five years' residence in State requisite.

The Texas law, approved by Governor, March 29, 1917, provides: Widow, bona fide resident of State 5, of county 2 years, mother of child under 16, presents verified petition to County Commissioners (County Judge acts as chairman), containing data in detail as to death of husband, births of children, residences for 5 years, when and where married, what property she or children possess (including future or contingent interests), names and residences of husband's relatives. If board concludes, after examination, that widow may become a county charge, orders, not more than $12 per month for one child, $18 for two, $4 for each additional. Board may revoke order and cancel relief for cause. Its action in all cases final.

COMPULSORY WORK LEGISLATION IN THE UNITED STATES AND CANADA.

(By the United States Department of Labor.)

The adoption of laws looking toward the useful employment of all the working forces of the population as a war emergency measure has received its most influential indorsement by the act of the Legislature of New York, whose bill on this subject was approved by Governor Whitman on May 13, 1918. West Virginia was the first State to enact a law of this type, except for a Kansas enactment that refusal to accept employment should be included in the definition of "vagrancy," followed by Maryland in the same year (1917), while in 1918 New Jersey, Kentucky, Massachusetts, Rhode Island, Delaware, and New York took similar steps. An order in council, April 4, 1918, brings the Dominion of Canada under similar regulation. Habitual idleness or refusal to accept obtainable work is included in the definitions of "sedition" in Nebraska.

The New York statute applies to all able-bodied males between the ages of 18 and 50, requiring them to "be habitually and regularly engaged in some lawful, useful, and recognized business, profession, occupation, trade or employment until the termination of the war." Such employment must continue for at least 36 hours per week, noncompliance with the law being punishable by a fine of $100 or three months' imprisonment, or both. Loitering in the streets, saloons, poolrooms, stores, etc., is considered prima facie evidence of violation of the act. Persons out of employment by reason of labor disputes and students are exempt from the operation of the law, but a claim of sufficient income for self-support and the support of dependents will not suffice. The Governor's approval was accompanied by a memorandum stating that the object of the measure was to require contributions by all able-bodied males toward a remedying of the conditions due to the present shortage of labor. Some doubt as to constitutionality was admitted, yet the measure was held to be justified if it would produce any advantage, however small, in view of the conditions involved in the prosecution of the war. Another point mentioned was the protection of the State against undesirable persons who might enter it to escape the operations of the law of New Jersey.

Chief Federal and State Legislation of 1918.

(The War Revenue act, and the Agricultural Appropriation law with its Federal Prohibition "rider," will be found, separately, elsewhere.)

Note—Except where the full text of laws is given, free use is made in the following pages of the report of the Committee on Noteworthy Changes in Statute Law. Thomas I. Parkinson, chairman, presided at the meeting of the American Bar Association at Cleveland in August, 1918; the others on the committee were W. H. Loyd, D. R. Richberg, J. J. Sullivan, and J. N. Teal.

FEDERAL ENACTMENTS.

Moratorium-Stay Laws—The Federal act (No. 103, approved, March 8, 1918) applies to proceedings in all the courts, Federal, State or district, in the country. It was enacted in pursuance of the war power, for the purpose of protecting persons in the service "from harassment and injury to their civil rights during their term of service and to enable them to devote their entire energy to the military needs of the nation." It does not interfere with the commencement of actions by or against persons in the service. It does not exempt such persons from civil process or as a matter of right grant a stay either of action or of execution. Instead, it confers upon the courts wide discretionary powers to protect the civil rights of those persons in the service whose ability to prosecute or defend an action to comply with certain continuing contractual liabilities, or to satisfy a judgment, is materially affected by such service. The benefits of the act may, in the discretion of the court, be extended to sureties and guarantors of persons in the service. Provision is made for certificates by the War and Navy Departments which are *prima facie* evidence of service and the time of its beginning and ending. The act expires six months after the end of the war.

Many of the States have enacted statutes providing for a moratorium. The Maryland law, passed in 1917, authorizes the Government to declare successive legal holidays with the same effect as Sundays on commercial transactions and legal rights and duties. The so-called moratorium laws enacted in the other States, and the act of Congress, are laws for the protection of the civil rights of persons in military service. Mississippi (Sp. 1917, Ch. 36), Montana (Sp. 1918, Ch. 8) and New Jersey (Ch. 128) are practically duplicates of an early form of the Federal act before its amendment and final passage. The principal differences between these State acts and the Federal act are the omission from the former of the insurance provisions and the provisions extending protection to guarantors and sureties.

Statute of Limitations—The Federal act provides that the period of military service is to be excluded from the computation of time limited for the bringing of an action by or against persons in the service. This applies to causes of action accruing prior to or during the service and to limitations established before or after the passage of the act. Provisions tolling the statutes of limitations are contained in most of the State acts and in Maryland (1917, Ch. 19).

Rent—The Federal act postpones for three months the landlord's summary remedies without resort to a court by eviction or distress where the rent does not exceed 50 dollars and the premises are occupied as a dwelling by the dependents of persons in the service. In States where summary remedies to secure possession are available they may be used by the landlord where the rent exceeds $50 per month; but where, as in New York, eviction involves court proceedings, such proceedings might be stayed. Except in Maryland, where actions for rent are expressly excepted from the stay provisions, the State acts do not contain special provision for rent cases.

Instalment Contracts—The Federal act takes from a conditional vendor or a lessor his summary remedies to resume possession for failure to pay instalments due under the contract. Possession may be only resumed under order of the court and may be made dependent on the return of instalment payments already made. Proceedings to recover the remaining instalments may be stayed or the court may make other equitable disposition.

Mortgages—The Federal act makes the mortgagee's summary remedies subject to an order of court and provides for a stay of proceedings on the mortgage. This provision applies only to "obligations originating prior to the date of the approval of this act" and then only to mortgages upon property owned by a person in the service when he enters the service as well as at the time of application for the stay.

Insurance—Under the Federal act, an application by the insured when filed by the insurer constitutes an acceptance of the provisions of this act and entitles the policy to the benefits of the act. Certain policies may not be brought within this act: For example, those for more than $5,000 and those containing a provision making them voidable if the insured enters the military service. Policies brought within the act may not be lapsed or forfeited for nonpayment of premium during service or for one year thereafter, but the United States guarantees the insurer against loss. This is accomplished by requiring the insurer to report monthly the amount of premiums on policies brought within the act, overdue 30 days, and by requiring the Secretary of the Treasury to deposit with the insurer registered United States bonds as security for the defaulted premiums. These bonds are to be held until final settlement, which is to take place one year after the end of the war. The United States is given a lien on any policy which it thus protects. If the insured does not within one year after the end of his service pay his defaulted premiums, the policy is to be void, the insurer must pay the cash value and out of it pay the defaulted premiums. If on final settlement the insurer shows a loss of premiums, the United States is to pay the amount of the loss, whereupon the bonds deposited with the insurer are to be returned.

Taxes—The Federal act prohibits without leave of court any proceeding to enforce payment of a tax or assessment on real property owned and occupied for dwelling or business purposes by a person in the service or his dependents, provided ability to pay the tax is materially affected by the service. Proceedings in such cases may be stayed until six months after the end of the war. In case of sale for taxes, a right to redeem in addition to that given by the laws of the States is granted for a period of six months after the end of service. These tax provisions apply only to taxes on real estate.

Administrative Proceedings—The Federal act protects men in the service from the loss of any rights subject to the public land laws.

Federal Farm Loan Board—The report of the Federal Farm Loan Board having disclosed a lack of funds available for farm loans, Congress (No. 95) authorized the treasury to purchase in each of the fiscal years ending June 30, 1918, and 1919, 100 million dollars of the bonds issued by any Federal land bank. The provision of Federal funds to enable the land banks to make advances to farmers was said to be essential to replace foreign, and to some extent private, loans withdrawn because of conditions due to the war.

Third and Fourth Liberty Bond Acts—They increased to $20,000,000,000 the sum total of bonds authorized, fixing the maximum interest rate at 4¼ per cent. The Third Loan act provides that such bonds shall not enjoy the privilege of conversion if future issues be put out at a higher rate of interest, but they are to be accepted at par in payment of Federal, estate or inheritance taxes. It authorizes the Secretary of the Treasury to purchase annually not exceeding one-twentieth of any series of such bonds outstanding (except the unconverted 3½s) at such price and on such terms as he prescribes, but at an average price for all purchases in any year not exceeding par. The Fourth Loan act adds: "Notwithstanding the provisions of the Second Liberty Bond act, as amended by the Third Liberty Bond act, or of the War Finance Corporation act, bonds and certificates of indebtedness of the United States payable in any foreign money or foreign moneys, and bonds of the War Finance Corporation payable in any foreign money or foreign moneys

exclusively or in the alternative, shall, if and to the extent expressed in such bonds at the time of their issue, with the approval of the Secretary of the Treasury, while beneficially owned by a nonresident alien individual, or by a foreign corporation, partnership, or association, not engaged in business in the United States, be exempt both as to principal and interest from any and all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority. Any incorporated bank or trust company designated as a depositary by the Secretary of the Treasury under the authority conferred by section eight of the Second Liberty Bond act, as amended by the Third Liberty Bond act, which gives security for such deposits as, and to amounts, by him prescribed, may, upon and subject to such terms and conditions as the Secretary of the Treasury may prescribe, act as a fiscal agent of the United States in connection with the operations of selling and delivering any bonds, certificates of indebtedness or war savings certificates of the United States."

War Finance Corporation Act—In this act (No. 121) Congress created a corporation for a term not exceeding 10 years and ending six months after the end of the war, with a capital stock of 500 million dollars subscribed and owned entirely by the United States. The corporation is managed by a board of directors consisting of the Secretary of the Treasury and four directors appointed by the President with the consent of the Senate. It is authorized to make advances to banks, bankers and trust companies on loans made by them to, or bonds purchased by them from, any person or corporation "conducting an established and going business in the United States whose operations shall be necessary or contributory to the prosecution of the war." The corporation's advances shall not exceed 75 per cent. of the face value of such loans or of its estimate of the then value of such bonds. The bank borrowing from the corporation must turn over to it the securities held by the bank as collateral for the loans or purchases upon which the corporation makes advances. If, in addition to turning over all such collateral, the borrowing bank deposits with the corporation additional securities valued at 33 per cent. of the amount advanced by the corporation, the amount so advanced may be equal to 100 per cent. of the bank's loan or purchase. The corporation is authorized in its discretion to make advances to savings banks and institutions, but must require collateral valued at 133 per cent. of the amount of the advance and of interest at least 1 per cent. in excess of the prevailing Federal Reserve Bank discount rate. The corporation is authorized to make direct advances to establish business concerns "whose operations shall be necessary or contributory to the prosecution of the war," where they are unable to obtain funds or reasonable conditions from the banks. Such direct loans to business shall not exceed 12½ per cent. of the corporation's authorized capital and bonds ($437,500,000), which is almost equal to the authorized capital. Aggregate advances to any one person or corporation are not to exceed 10 per cent. of the corporation's capital; but this does not apply to advances to railroads. The corporation is also authorized to issue not exceeding three billion dollars in five-year bonds, which are to have "a first and paramount floating charge on all the assets of the corporation."

This War Finance Corporation act also created "a Capital Issues Committee," with power to "investigate, pass upon and determine whether it is compatible with the national interest" that any issue over $100,000 should be offered for sale. Jurisdiction did not extend to ordinary borrowing, but only to sales of securities. The committee took the place of a similarly named committee of the Federal Reserve Board. Issues authorized by the committee are in no way guaranteed by the United States.

Silver-Melting Law—This act (No. 139) authorizes the melting of 350,000,000 silver dollars in the treasury and the sale and export of the resulting bullion to settle our commercial trade balances, especially in the Orient. As the silver dollars are converted into bullion, silver certificates now circulating must be retired. To prevent the contraction in currency which this retirement of silver certificates would involve, this law authorizes an equivalent issue of Federal Reserve notes which are in turn to be retired as new silver dollars are coined and deposited in the treasury as the basis for the issuance of future silver certificates. By providing for the purchase by the United States at one dollar an ounce of practically all silver produced in this country, this law also has the effect of fixing the price of silver. The silver so purchased may likewise be used for the settlement of adverse trade balances for coinage and for commercial purposes.

Importation of Mexican Workmen—Because of an announced shortage in unskilled labor the Secretary of Labor, William B. Wilson, issued an order (June 20) permitting Mexicans to enter temporarily the United States to engage in agricultural pursuits, in railroad section maintenance, and in lignite coal mining be exempt from the head tax, literacy test and contract labor provisions of previous rulings. This supplemented a previous order by which Porto Rican laborers were to be brought into this country for work on Government contracts. The Federal Employment Service was put in charge of the distribution of Mexican labor, and branch offices were opened at all Mexican ports of entry. Special examiners familiar with the Mexican language and labor conditions in that country were assigned to assist local immigration inspectors. The law provides that if an alien fails, after admission, to accept employment in the stipulated occupations of agriculture, maintenance of way on railroads or lignite coal mining, or, after entering on such employment, abandons it for some other occupation or remains idle for over two weeks except by reason of illness or other disability, it is provided that he shall be immediately arrested and deported under the regular warrant procedure. It is further provided that all Mexican laborers at the time of their admission shall open a postal savings account at their port of entry. Employers shall then withhold from the workman's wages 25 cents for each day's service, which will be deposited to his credit in the local postal savings bank, available to him, with interest, when he leaves the country. After the aggregate withheld for each workman totals $100 only $1 a month will be held and deposited to his credit in like manner.

Webb Act to Promote United States Export Trade by Combination (Approved April 10, 1918).—This act, which amends the Sherman and Clayton Anti-Trust laws and to that extent limits the powers of prosecution of the Federal Trade Commission, says as follows: *Be it enacted* by the Senate and House of Representatives of the United States of America in Congress assembled, That the words "export trade" wherever used in this act mean solely trade or commerce in goods, wares or merchandise exported or in the course of being exported from the United States or any territory thereof to any foreign nation; but the words "export trade" shall not be deemed to include the production, manufacture or selling for consumption or for resale, within the United States or any territory thereof, of such goods, wares or merchandise, or any act in the course of such production, manufacture, nor selling for consumption or for resale. The words "trade within the United States" wherever used in this act, mean trade or commerce among the several States or in any territory of the United States, or in the District of Columbia, or between any such territory or territories and any State or States or the District of Columbia, or between the District of Columbia and any State or States. The word "association" wherever used in this act means any corporation or combination, by contract or otherwise, of two or more persons, partnerships or corporations.

Section 2—Nothing contained in the act entitled "An act to protect trade and commerce against unlawful restraints and monopolies," approved July 2, 1890, shall be construed as declaring to be illegal an association entered into for the sole purpose of engaging in export trade and actually engaged solely in such export trade by such association, provided such association, agreement or act is not in restraint of trade within the United States, and is not in restraint of the export trade of any domestic competitor of such association: And provided further, That such association does not, either in the United States or elsewhere, enter into any agreement, understanding or conspiracy or do any act which artificially or intentionally, enhances or depresses prices with the United States of commodities of the class exported by such association, or which substantially lessens competition within the United States or otherwise restrains trade therein.

Section 3—Nothing contained in section seven of the act entitled "An act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914, shall be construed to forbid the acquisition or ownership by any corporation on the whole or any part of the stock

or other capital of any corporation organized solely for the purpose of engaging in export trade, and actually engaged solely in such export trade, unless the effect of such acquisition or ownership may be to restrain trade or substantially lessen competition with the United States.

Section 4—The prohibition against "unfair methods of competition" and the remedies provided for enforcing said prohibition contained in the act entitled "An Act to create a Federal Trade Commission, to define its powers and duties, and for other purposes," approved September 26, 1914, shall be construed as extending to unfair methods of competition used in export trade against competitors engaged in export trade, even though the acts constituting such unfair methods are done without the territorial jurisdiction of the United States.

Section 5—Every association now engaged solely in export trade, within sixty days after the passage of this act, and every association entered into hereafter which engages solely in export trade, within thirty days after its creation, shall file with the Federal Trade Commission a verified written statement setting forth the location of its offices or places of business and the names and addresses of all its officers and of all its stockholders or members, and if a corporation, a copy of its certificate or articles of incorporation and by-laws, and if unincorporated a copy of its articles or contract of association, and on January 1 of each year thereafter it shall make a like statement of the location of its offices or places of business and the names and addresses of all its officers and of all its stockholders or members and of all amendments to and changes in its articles or certificate of incorporation or in its articles or contract of association. It shall also furnish to the commission such information as the commission may require as to its organization, business, conduct, practices, management, and relation to other associations, corporations, partnerships, and individuals. Any association which shall fail so to do shall not have the benefit of the provisions of section 2 and section 3 of this act, and it shall also forfeit to the United States the sum of $100 for each and every day of the continuance of such failure, which forfeiture shall be payable into the Treasury of the United States, and shall be recoverable in a civil suit in the name of the United States brought in the district where the association has its principal office, or in any district in which it shall do business. It shall be the duty of the various district attorneys, under the direction of the Attorney General of the United States, to prosecute for the recovery of the forfeiture. The costs and expenses of such prosecution shall be paid out of the appropriation for the expenses of the courts of the United States.

Whenever the Federal Trade Commission shall have reason to believe that an association or any agreement made or act done by such association is in restraint of trade within the United States or in restraint of the export trade of any domestic competitor of such association, or that an association either in the United States or elsewhere has entered into any agreement, understanding, or conspiracy, or done any act which artificially or intentionally enhances or depresses prices within the United States of commodities of the class exported by such association, or which substantially lessens competition within the United States or otherwise restrains trade therein, it shall summon such association, its officers, and agents to appear before it, and thereafter conduct an investigation into the alleged violations of law. Upon investigation, if it shall come to be that the law has been violated, it may make to such association recommendations for the readjustment of its business, in order that it may thereafter maintain its organization and management and conduct its business in accordance with law. If such association fails to comply with the recommendations of the Federal Trade Commission, said commission shall refer its findings and recommendations to the Attorney General of the United States for such action thereon as he may deem proper. For the purpose of enforcing these provisions the Federal Trade Commission shall have all the powers, so far as applicable, given it in "An Act to create a Federal Trade Commission, to define its powers and duties, and for other purposes."

The Solicitor of the Department of Commerce has given an official opinion to the effect that the Webb law frees "all associations engaged in the 'export trades' as defined in section 1 and not engaged in the import trade from all statutory restraints which may interfere with their competition with those engaged in supplying the market of the world outside the territorial jurisdiction of the United States, but not from such statutory restraints as may affect their domestic trade or their competition with domestic competitors in the foreign trade." He holds, further, that the act "does not apply to associations whose business may be confined to trade within the United States and its territorial possessions, such as the Philippines, Porto Rico, Hawaii, and Alaska, nor to associations engaged in the import trade, whether also engaged in the export trade or not."

Extension of Clause in Clayton Act—Congress by resolution (No. 20) has deferred until January, 1919, the taking effect of section 10 of the Clayton act. That section prohibited any common carrier dealing in the securities or commercial articles of, or making any contract exceeding $50,000 annually with, any corporation or association if any director or officer of the carrier is also a director or officer of such corporation or association or has any substantial interest in the contract.

Railroad Control Law—By rider attached to the Appropriation act (August 29, 1916), the President was authorized "to take possession and assume control of any system or systems of transportation or any part thereof and to utilize the same to the exclusion, so far as may be necessary, of all other traffic thereon for the transfer or transportation of troops, war material and equipment, or for such other purposes connected with the emergency as may be needful or desirable." This provision was aimed at the emergency on the Mexican border and the threatened railway strike, but was not limited to that. The railroads were placed under Government control by an executive proclamation, December 28, 1917. Congress enacted the Railroad Control law (No. 107), in March, 1918, authorizing the President to contract with the companies for the payment of an annual sum not exceeding a specified maximum, to be determined for each road by the average annual railway operating income during the three years ending June 30, 1917. The Government will pay all taxes, State or Federal, assessed during the period of Federal control, except the excess profits tax and the corporate income tax. These latter must be paid by the company out of the payments made to it by the Government. With respect to the effect of Government control on State taxation of the railroads, the act expressly provides that it shall not affect "existing laws or powers of the States in relation to taxation." A provision inserted in conference limiting increased State taxes on railroads under Government control to the percentage of increase of the State taxes on other property in the State was dropped from the bill just before its final passage.

The President is authorized to initiate rates, but they are required to be "reasonable and just" and they are subject to review by the Interstate Commerce Commission. The act directs the commission to consider when reviewing the President's rates the circumstances caused by war conditions and the need for additional railroad revenues. The law contemplates suits against the companies on both tort and contract liabilities arising from operation of the roads and provides that in such suits the company shall not make defense on the ground that it is an agency of the Federal Government. Federal control is to continue during the war and not exceeding one year and nine months after the ratification of the treaty of peace.

Congress (No. 138) authorizes the Government to take control of street and interurban railroads necessary for the transportation of shipyard employees.

Sedition (Espionage)—Congress (No. 150) amends Section 3 of the Espionage act to include those who wilfully utter, print, write or publish (a) disloyal, profane, abusive or scurrilous language about our Government, constitution, military forces or their uniforms or flag, or (b) language intended to incite or encourage resistance to the United States or promote the cause of its enemies, or (c) language advocating curtailment of production of things necessary to the prosecution of the war with the intent to cripple such prosecution, or (d) who wilfully display the flag of a foreign enemy, or (e) who advocate or defend any of

the above acts. Violators are subject to $10,000 fine or imprisonment for not more than 20 years. A Government employee or official is also to be dismissed at once "by the authority having power to appoint a successor." The postmaster may stop and return seditious mail.

The Espionage act, passed by Congress in 1917, and published in full in the 1918 Almanac, forbids going upon or flying over military or naval places, vessels or buildings to obtain information to be used to injure United States or to advantage of foreign nation, forbids the obtaining or making of sketches, photographs or copies of plans, places, buildings, code or signal books, instruments or appliances relating to national defence or offense, or wilfully or through gross neglect permitting copies, etc. to be made; or plans, documents, etc., to be removed from proper custody; forbids the delivery, transmitting or communicating of information of movements, numbers, amount, disposition, etc., of armed forces, ships, aircraft or war materials; the wilful making or conveying of false reports, causing or trying to cause insubordination, the obstructing of recruiting. Penalties for violations run from fines up to $20,000, imprisonment 2 to 30 years, to death. The Secretary of the Treasury (in Canal Zone, Governor of Panama Canal) is authorized to make rules and regulations, with approval of President, governing anchorage and movements of vessels in United States ports, to inspect and place guards on, or take full possession and control of them. Interference may be punished by forfeiture of vessel and cargo. Injuring vessels engaged in foreign commerce, and interference with foreign commerce by fire or explosives, punished by fines up to $10,000, or imprisonment up to 20 years. To enforce neutrality vessels may be detained or clearances refused, and persons belonging to armed forces of belligerents may be interned. Arms, munitions or war and other articles intended for export, attempted to be taken out in violation of law, may be seized and condemned. Claimants and owners may institute proceedings for restoration, conforming as near as may be to proceedings in admiralty, except that either party may demand the trial of issues of fact by jury. The President may by proclamation declare certain exports in time of war unlawful.

The making of untrue statements in relation to controversies between United States and foreign Governments to influence measures of conduct of foreign Government of or United States to injury of United States; falsely assuming or pretending to be diplomatic, consular or other foreign official, or acting as agent of foreign Government without notice to Secretary of State; conspiracies by persons within United States jurisdiction to destroy property belonging to and within foreign countries with which United States is at peace, or to destroy railroads, canals or bridges—punished by fines, imprisonment or both. Foreign Government, as used in this act, includes any Government, faction or body of insurgents within a country with which the United States is at peace, whether such Government, faction or body of insurgents has or has not been recognized by the United States as a Government.

Applicants for passports must submit written application, verified, containing true recitals of all facts required by law to be given. Making false statements to procure passports, using passports issued to or designed for another, or in violation of its conditions or restrictions; delivering a passport to any person for use by another than one intended for; forging, counterfeiting, mutilating or altering, intending to use same—all punished by fine, imprisonment, or both. Wrongfully affixing seal of any executive department, bureau, commission or office of United States; knowingly using document, certificate, instrument or commission on which seal has been wrongfully affixed; and forging, counterfeiting, mutilating or altering official seals or naval, military or official passes or permits, using one issued to another, or impersonating another, or knowingly permitting such use, punished by fine or imprisonment.

Search warrants may be issued by a Judge of United States District Court, a Judge of a State or Territorial Court of record, or by United States Commissioner for district wherein property sought is located: cannot be issued but upon probable cause supported by affidavit, naming or describing the person and particularly describing the property and place to be searched; can only be served by an officer named in its direction, who, if refused admittance, may break in; becomes void unless served within ten days of date; may be issued to obtain possession of property of papers intended to be used to violate any rights or obligations of United States under any treaty or law of nations. Letters, circulars, pamphlets, etc., advocating treason, insurrection or forcible resistance to the laws, or in violation of any provision of this act, declared non-mailable. Attempting to use the mails for the sending of non-mailable matter punishable by fine up to $5,000, imprisonment up to 5 years, or both.

What Constitutes Seditious Publication—The Postmaster-General, by order of the President, announces that under the war acts and the Constitution it is unlawful for any person, firm, corporation, or association, to mail, or to transport, or carry, or otherwise publish or distribute during the present war any printed or other matter—

(1) Advocating or urging treason, insurrection, or forcible resistance to any law of the United States.

(2) Any matter conveying false reports or false statements intended to interfere with the operation or success of the military or naval forces of the United States, or to promote the success of its enemies.

(3) Any matter intended to cause insubordination, disloyalty, mutiny, or refusal of duty in the military or naval forces of the United States.

(4) Any matter intended to obstruct the recruiting or enlistment service of the United States, to the injury of the service of the United States.

(5) Any matter, the circulation or publication of which involves the violation of any of the numerous other criminal provisions of the espionage act, but which are not of special interest to publishers.

(6) Any matter printed in a foreign language containing any news item, editorial, or other printed matter respecting the Government of the United States, or of any nation engaged in the present war, its policies, international relations, the state or conduct of war, or any matter relating thereto, unless the publisher or distributor thereof, on or before offering the same for mailing, or in any manner distributing it to the public, has filed with the postmaster at the place of publication, in the form of an affidavit, a true and complete translation of the entire article, containing such matter proposed to be published, and has caused to be printed on each copy thereof, in plain type in the English language, at the head of such item, editorial, or other matter, the words, "True translation filed with the postmaster at ———, on ——— (the name of the post-office where the translation was filed, and the date of filing thereof), as required by Section 19 of the act of October 6, 1917."

(7) Any matter referred to in the preceding paragraph for which publishers have been granted a permit to circulate, free of restrictions named therein, but which does not bear at the head thereof in plain type in the English language the words:

Published and distributed under permit No. — (here giving the number of the permit), authorized by the act of October 6, 1917, on file at the post-office of ——— (here giving the name of the office of publication).

Sabotage—Congress (No. 135) imposes a maximum punishment of $10,000 fine and 30 years imprisonment on any person who with intent to or with reason to believe that his act may injure or obstruct the United States (or any other nation at war with a nation with which the United States is at war) in prosecuting the war, wilfully injures or destroys (a) any article "intended for, adapted to or suitable fur use" by the United States in connection with the war; (b) or any place where such articles are being produced, stored or transported; (c) or any military or naval station; (d) or any means of transportation, including ships at sea; or (e) any plant or equipment furnishing water, light, heat, power or facilities of communication to any of the places above mentioned. Like punishment is imposed on any person who with similar intent wilfully makes or attempts to make in a defective manner any war material, tools, machines, etc., used in the production of war materials. The act says: "The words 'war material,' as used herein shall include arms, armament, ammunition, live stock, stores of clothing, food, foodstuffs, or fuel; and shall also include

supplies, munitions, and all other articles of whatever description, and any part or ingredient thereof, intended for, adapted to, or suitable for the use of the United States, or any associate nation, in connection with the conduct of the war. The words 'war premises,' as used herein, shall include all buildings, grounds, mines, or other places wherein such war material is being produced, manufactured, repaired, stored, mined, extracted, distributed, loaded, unloaded or transported, together with all machinery and appliances therein contained; and all forts, arsenals, navy yards, camps, prisons, or other military or naval stations of the United States, or any associate nation. The words 'war utilities,' as used herein, shall include all railroads, railways, electric lines, roads of whatever description, railroad or railway fixture, canal, lock, dam, wharf, pier, dock, bridge, building, structure, engine, machine, mechanical contrivance, car, vehicle, boat, or aircraft, or any other means of transportation whatsoever, whereon or whereby such war material or any troops of the United States, or of any associate nation, are being or may be transported either within the limits of the United States or upon the high seas; and all dams, reservoirs, aqueducts, water and gas mains and pipes, structures and buildings, whereby or in connection with which water or gas is being furnished, or may be furnished, to any war premises or to the military or naval forces of the United States, or any associate nation, and all electric light and power, steam or pneumatic power, telephone and telegraph plants, poles, wires, and fixtures and wireless stations, and the buildings connected with the maintenance and operation thereof used to supply water, light, heat, power, or facilities of communication to any war premises or to the military or naval forces of the United States, or any associate nation." The act authorizes the Postmaster-General, when satisfied that any person is using the mails in violation thereof, to order mail addressed to such person returned as "undeliverable."

The Department of Justice said when the act was passed: "Practically speaking, the whole industrial and agricultural resources of the United States, all of its transportation and shipping facilities, all of its public utilities and all parts thereof and all products of industry and agriculture and all parts thereof suitable for war use fall within the protection of this act. Nor is it necessary in a prosecution under this act to prove that the person guilty of injuring or destroying any war material or war premises or war utilities intended to interfere with the prosecution of the war. It is sufficient to prove that he had reason to believe that his act might injure, interfere with or obstruct the United States or one of the allies in preparing for or carrying on the war. As the entire material resources of the United States are engaged, directly or indirectly, in the prosecution of the war, every one has reason to believe that any injury or destruction of any of these resources may injure, interfere with or obstruct the preparations for or the carrying on of the war. The fact that the act of injury or destruction, therefore, was not committed to benefit the enemy or for the purposes of hampering the prosecution of the war, will furnish no excuse in a prosecution under this act. For the first time, the United States, through its Department of Justice, is by this act furnished with an effective weapon against all wilful acts of destruction or injury which directly or indirectly weaken or retard the preparations for the war or the actual conduct of the war."

Places of Postal Employees in Service Protected—Postal employees enlisted or enlisting in military service are permitted to resume positions upon honorable discharge. Postmasters of second, third and fourth class procuring enlistments in army, navy or Marine Corps, are allowed $5 for each recruit accepted. Mailing letters threatening life of or injury to President punishable by fine up to $1,000, imprisonment up to 5 years, or both.

Age of Naval Cadets Lowered—Congress (No. 148) amended the naval regulations so that "hereafter all candidates for admission to the Naval Academy must be not less than sixteen years of age nor more than twenty years of age on April 1 of the calendar year in which they enter the academy: *Provided*, That the foregoing shall not apply to candidates for midshipmen designated for entrance to the academy in 1918."

Alien Enemies (Women Included)—Congress (No. 131) amended existing law providing for the regulation and internment of alien enemies by dropping from it words limiting its application to males, thereby subjecting alien enemy women to the same treatment as men.

Congress (No. 154) authorizes the President, by proclamation to declare that the public safety requires further restriction on the entry or departure of persons to or from this country. Thereupon it shall become unlawful for any alien to enter or depart except as provided in rules prescribed by the President, or for any citizen to enter or depart without a passport. It is also made unlawful to assist any person to enter or depart contrary to law or the rules prescribed by the President, or to use any forged, false or expired permit to secure such entry or departure. This law is especially aimed at passage over the Mexican border, it is said. On April 19, 1918, the President by proclamation, put the amendment in effect, and alien women were directed to register.

Naturalization of Aliens—Congress (No. 144) amends the naturalization laws by providing for the speedy naturalization of aliens serving in the army and navy. Under this law a petition for naturalization may be filed without proof, either of preliminary declaration of intention or of the required five years' residence. Special provision is also made for the granting of citizenship to aliens serving in our merchant marine and for the resumption of citizenship by our citizens who have lost their citizenship by service in any of the Allied armies. This law also makes provision for carrying on the work of training aliens for citizenship by the Bureau of Naturalization. For fuller data see "Naturalization Laws" in index.

Enemy Property—A rider on the urgent deficiencies appropriation bill (No. 109) amends the trading with the enemy act by giving to the custodian of alien property the powers, with respect to the sale and management of enemy property transferred, assigned or delivered to him, of an absolute owner thereof. Property sold by the custodian, except where the President, giving the reasons, orders otherwise, shall be sold at public auction to the highest bidder. Sales shall be made only to citizens and any person purchasing for an undisclosed principal or for resale to a person not a citizen or for the benefit of any person not a citizen is guilty of a misdemeanor, punishable by a fine not exceeding $10,000 or imprisonment not exceeding 10 years, or both, and the property is forfeited to the United States.

Higher Civil War Pensions—The 1918 amendment to the general pension act of May 11, 1912, says: "From and after the passage of this act the rate of pension for any person who served ninety days or more in the military or naval service of the United States during the Civil War, now on the roll or hereafter to be placed on the pension roll and entitled to receive a less rate than hereinafter provided, shall be $30 per month. In case such a person has reached the age of seventy-two years and served six months, the rate shall be $32 per month; one year, $35 per month; one and a half years, $38 per month; two years or over, $40 per month: *Provided*, That this act shall not be so construed as to reduce any pension under any act, public or private: *Provided further*, That no pension attorney, claim agent, or other person, shall be entitled to receive any compensation for presenting any claim to the Bureau of Pensions under this act, except in applications for original pension by persons who have not heretofore received a pension."

New Housing Laws—A resolution of Congress (Res. No. 31), takes away during the war the right of the landlord to evict and recover possession of leased premises in the District of Columbia, so long as the tenant pays the rent under an existing lease and commits no nuisance or waste. This resolution which applies to the lease of a room as well as a building, makes existing leases continuous at the option of the tenant until further action by Congress, or the end of the war.

Congress (No. 102), to provide housing accommodations for shipyard employees, authorizes the Emergency Fleet Corporation to hire or construct buildings or to make loans to stimulate the erection of such buildings. This act carries an appropriation of $50,000,000. Among the limitations on the use of this

fund is one which prohibits the cost-plus-contract, unless the contract fixes the reasonable cost, and provides that in case of increase in cost, the percentage of profit shall decrease as the cost increases.

Congress (No. 149) made further provision for government housing of its employees residing in the District of Columbia, and for the families of workers engaged in essential industries. This act appropriates $60,000,000 to be used by the President for the acquisition or construction of houses "and of community utilities." Ten million dollars of this amount can be used only in the District of Columbia and it is stipulated that this amount shall be so used to take care, so far as possible, of the alley population of the District. This bill also contains the prohibition of the cost-plus-contract. The President is authorized to build or buy and equip houses, to make loans for the building of housing accommodations by private persons and lease or sell, with the minimum requirement that no property acquired under this act shall be "given away nor shall rents be furnished free."

The Federal Control, or Overman, Act—This law, which was the cause of a long struggle in Congress, is known as No. 152, and was passed, and signed by President Wilson, May 20, 1918. It authorizes the President, during the war and "in matters related to the conduct of the war," to redistribute in his discretion the powers, duties and functions of existing Federal executive agencies. Except for aircraft production, the President is not authorized to create any new agency or to abolish an existing agency, but is limited to the transfer from one to another of the existing departments, bureaus, commissions, etc., of any or all of their powers, duties, personnel and funds. Such transfers, if made, become ineffective six months after the end of the war and thereupon the statutory organization and functions of the executive agencies are to be restored. The purpose of the act is to remove statutory restrictions on the power of the President to organize the executive branch of the Government in such way as he deems most efficient for the conduct of the war. The full text is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled: For the national security and defense, for the successful prosecution of the war, for the support and maintenance of the Army and Navy, for the better utilization of resources and industries, and for the more effective exercise and more efficient administration by the President of his powers as Commander in Chief of the land and naval forces the President is hereby authorized to make such redistribution of functions among executive agencies as he may deem necessary, including any functions, duties, and powers hitherto by law conferred upon any executive department, commission, bureau, agency, office, or officer, in such manner as in his judgment shall seem best fitted to carry out the purposes of this act, and to this end is authorized to make such regulations and to issue such orders as he may deem necessary, which regulations and orders shall be in writing and shall be filed with the head of the department affected and constitute a public record: *Provided*, That this act shall remain in force during the continuance of the present war and for six months after the termination of the war by the proclamation of the treaty of peace, or at such earlier time as the President may designate: *Provided further*, That the termination of this act shall not affect any act done or any right or obligation accruing or accrued pursuant to this act and during the time that this act is in force: *Provided further*, That the authority by this act granted shall be exercised only in matters relating to the conduct of the present war.

"Section 2—In carrying out the purposes of this act the President is authorized to utilize, co-ordinate, or consolidate any executive or administrative commissions, bureaus, agencies, offices, or officers now existing by law, to transfer any duties or powers from one existing department, commission, bureau, agency, office, or officer to another, to transfer the personnel thereof or any part of it either by detail or assignment, together with the whole or any part of the records and public property belonging thereto.

"Section 3—The President is further authorized to establish an executive agency which may exercise such jurisdiction and control over the production of aeroplanes, aeroplane engines, and aircraft equipment as in his judgment may be advantageous; and, further, to transfer to such agency, for its use, all or any moneys heretofore appropriated for the production of aeroplanes, aeroplane engines, and aircraft equipment.

"Section 4—For the purpose of carrying out the provisions of this act, any moneys heretofore and hereafter appropriated for the use of any executive department, commission, bureau, agency, office, or officer shall be expended only for the purposes for which it was appropriated under the direction of such other agency as may be directed by the President to perform and execute said function.

"Section 5—Should the President, in redistributing the functions among the executive agencies as provided in this act, conclude that any bureau should be abolished and it or their duties and functions conferred upon some other department or bureau or eliminated entirely, he shall report his conclusions to Congress with such recommendations as he may deem proper.

"Section 6—All laws or parts of laws conflicting with the provisions of this act are to the extent of such conflict suspended while this act is in force. Upon the termination of this act all executive or administrative agencies, departments, commissions, bureaus, offices, or officers shall exercise the same functions, duties, and powers as heretofore or as hereafter by law may be provided, any authorization of the President under this act to the contrary notwithstanding."

When Senator Lee S. Overman of North Carolina introduced the bill in the Senate he said President Wilson had sent the bill to him and had requested the authority that was conferred in the measure, adding: "Everybody has been making criticism about the red tape in the departments. The President wishes to cut it. Let us give him the scissors with which to do so." In the Senate attempts were made to keep one or another big branch of the Government out of the scope of the bill. An amendment moved by Smith (Georgia) to exempt the Federal Reserve Board on a roll call was rejected by a vote of 41 to 37, with 17 not voting. The same Senator's amendment to exempt the Interstate Commerce Commission was lost by the roll call vote of 42 to 35, not voting 18. The amendment of Gallinger (New Hampshire) to exclude the Government Printing Office from the operation of the proposed law was defeated by the vote of 44 to 28, with 23 not voting. The Harding (Ohio) amendment to restrict the proposed powers exclusively to war matters failed, by the vote of 43 to 30, with 22 not voting. Cummins (Iowa) then moved to withhold two functions of the Interstate Commerce Commission, namely the valuation of railroad property and the fixing of rates, but this, too, was lost by the vote of 43 to 31, with 21 not voting. The Sterling (South Dakota) amendment designed to restrict the President to the co-ordination of subdivisions or bureaus likewise went down to defeat, 46 to 24, with 25 not voting.

On the same day, April 29, 1918, the bill passed the Senate by the following vote:

Yeas—63. Ashurst, Baird, Bankhead, Beckham, Borah, Chamberlain, Colt, Culberson, Curtis, Fall, Fletcher, Frelinghuysen, Gerry, Guion, Hale, Hardwick, Henderson, Jones (New Mexico), Jones (Washington), Kellogg, King, Kirby, Lenroot, Lewis, McCumber, McKellar, McLean, McNary, Martin, Myers, Nelson, New, Norris, Nugent, Overman, Page, Phelan, Pittman, Pomerene, Saulsbury, Shafroth, Sheppard, Shields, Simmons, Smith (Arizona), Smith, (Georgia) Smith (Maryland), Smith (South Carolina), Smoot, Swanson, Thomas, Thompson, Tillman, Townsend, Trammell, Underwood, Vardaman, Walsh, Warren, Watson, Weeks, Williams, Wolcott.

Nays—13. Brandegee, Cummins, Dillingham, Francе, Gallinger, Harding, Johnson (California), Knox, Poindexter, Reed, Sherman, Sterling, Sutherland.

Not Voting—19. Calder, Fernald, Goff, Gore, Gronna, Hitchcock, Hollis, James, Johnson (South Dakota), Kendrick, Kenyon, La Follette, Lodge, Owen, Penrose, Ransdell, Robinson, Smith (Michigan), Wadsworth.

The Overman bill was taken up in the House on May 14 under a unanimous consent agreement for five hours of general discussion. Gillett (Massachusetts) told the House that the bill proposed to abrogate

the powers of Congress and give them over to the President. Chairman Webb of the Judiciary Committee, in charge of the bill, announced that the President had told him there was no intention of reducing the functions of the Interstate Commerce Commission. The roll call on the Walsh (Massachusetts) amendment exempting that body from the operation of the law showed 88 members for it and 213 against it. The bill was then, May, 14, put to a vote and was carried by the following:

Yeas—294. Alexander, Almon, Anderson, Ashbrook, Aswell, Austin, Ayres, Bacharach, Baer, Bankhead, Barnhart, Beakes, Bell, Beshlin, Black, Blackmon, Bland, Blanton, Booher, Bowers, Brand, Britten, Browne, Browning, Brumbaugh Buchanan, Burnett, Burroughs, Byrnes (So. Carolina), Byrns (Tennessee), Candler (Mississippi), Cannon, Cantrill, Caraway, Carlin, Cary, Chandler (New York), Church, Clark (Pennsylvania), Claypool, Cleary, Collier, Connally (Texas), Cooper (West Virginia), Cooper (Wisconsin), Cox, Crago, Cramton, Crisp, Crosser, Currie (Michigan), Dale (Vermont), Dallinger, Decker, Delaney, Dempsey, Dent, Denton, Dewalt, Dickinson, Dixon, Donovan, Doolittle, Doremus, Doughton, Dowell, Drane, Dunn, Dyer, Eagle, Edmonds, Ellsworth, Elston, Emerson, Esch, Fairfield, Farr, Ferris, Fisher, Flood, Flynn, Fordney, Francis, Freeman, French, Fuller (Massachusetts), Gallagher, Gandy, Gard, Garner, Garrett (Tennessee), Garrett (Texas), Glynn, Godwin (North Carolina), Goodall, Goodwin (Arkansas), Gordon, Gould, Graham (Illinois), Gray (New Jersey), Green (Iowa) Greene (Massachusetts), Greene (Vermont), Gregg, Hadley, Hamilton (New York), Hamlin, Hardy, Harrison (Mississippi), Harrison (Virginia), Haskell, Hastings, Haugen, Hawley, Hayden, Helm, Helvering, Hensley, Hicks, Hilliard, Holland, Hollingsworth, Houston, Huddleston, Hull (Iowa), Hull (Tennessee), Igoe, Ireland, Johnson (Kentucky), Johnson (Washington), Jones, Juul, Kearns, Keating, Kennedy (Iowa), Kennedy (Rhode Island), Kincheloe, King, Kinkaid, Kitchin, Kraus, Kreider, Langley, Larsen, Lazaro, Lea (California), Lee (Georgia) Lehlbach, Linthicum, Littlepage, Lobeck, London, Lonergan, Lundeen, McAndrews, McArthur, McClintic, McCormick, McCulloch, McKenzie, McKeown, McKinley, McLaughlin (Michigan), McLemore, Madden, Magee, Maher, Mansfield, Mapes, Martin, Mays, Meeker, Merritt, Moon, Moore (Pennsylvania), Moores (Indiana), Morgan, Mott, Neely, Nelson, Nichols (Michigan), Nolan, Norton, Oldfield, Oliver (Alabama) Oliver (New York), Osborne, O'Shaunessy, Overmyer, Overstreet, Padgett, Paige, Park, Parker (New York), Peters, Phelan, Platt, Pou, Pratt, Purnell, Quin, H. T. Rainey, J. W. Rainey, Raker, Ramsey, Ramseyer, Randall, Rankin, Rayburn, Reed, Riordan, Robbins, Roberts, Rogers, Romjue, Rose, Rowe, Rowland, Rubey, Rucker, Sabath, Sanders (Indiana), Sanford, Schall, Scott (Iowa), Scott (Michigan), Sells, Shackleford, Shallenberger, Sherely, Shouse, Siegel, Sims, Sinnott, Slemp, Small, Smith (Michigan), C. B. Smith, Snell, Snook, Stafford, Steagall, Steele, Steenerson, Stephens (Mississippi), Stephens (Nebraska), Sterling (Pennsylvania), Stiness, Sullivan, Sumners, Sweet, Tague, Talbott, Taylor (Arkansas), Taylor (Colorado), Temple, Thomas, Thompson, Tillman, Tilson, Tinkham, Treadway, Van Dyke, Venable, Vestal, Vinson, Voigt, Volstead, Waldow, Walker, Walsh, Walton, Wason, Watkins, Watson (Virginia), Webb, Welling, Welty, Whaley, Wheeler, White (Maine), White (Ohio), Williams, Wilson (Illinois), Wilson (Louisiana), Wingo, Wise, Wood (Indiana), Woods (Iowa), Woodyard, Wright, Young (North Dakota), Young (Texas), Zihlman.

Nays—2. Gillett, Sterling (Illinois).

Answered "Present"—3. Anthony, La Follette, Longworth.

Not Voting—131. Barkley, Borland, Brodheck, Butler, Caldwell, Campbell (Kansas), Campbell (Pennsylvania), Carew, Carter (Massachusetts), Carter (Oklahoma), Chandler (Oklahoma), Clark (Florida), Classon, Coady, Connelly (Kansas), Cooper (Ohio), Copley, Costello, Curry (California), Dale (New York), Darrow, Davidson, Davis, Denison, Dies, Dill, Dillon, Dominick, Dooling, Drukker, Dupre, Eagan, Elliott, Estopinal, Evans, B. L. Fairchild, G. W. Fairchild, Fess, Fields, Focht, Foss, Foster, Frear, Fuller (Illinois), Gallivan, Garland, Glass, Good, Graham (Pennsylvania), Gray (Alabama), Griest, Griffin, Hamill, Hamilton (Michigan), Hayes, Heaton, Heflin, Heintz, Hersey, Hood, Howard, Humphreys, Husted, Hutchinson, Jacoway, James, Johnson (South Dakota), Kahn, Kehoe, Kelley (Michigan), Kelly (Pennsylvania), Kettner, Key (Ohio), Kiess (Pennsylvania), Knutson, La Guardia, Lesher, Lever, Little, Lufkin, Lunn, McFadden, McLaughlin (Pennsylvania), Mann, Mason, Miller (Minnesota), Miller (Washington), Mondell, Montague, Morin, Nicholls (South Carolina), Olney, Parker (New Jersey), Polk, Porter, Powers, Price, Ragsdale, Reavis, Robinson, Rodenberg, Rouse, Russell, Sanders (Louisiana), Sanders (New York), Saunders (Virginia), Scott (Pennsylvania), Scully, Sears, Sherwood, Sisson, Slayden, Sloan, Smith (Idaho), Smith T. F., Snyder, Stedman, Stevenson, Strong, Swift, Switzer, Templeton, Timberlake, Towner, Vare, Ward, Watson (Pennsylvania), Wilson (Texas), Winslow, Weaver.

Soon after the Overman bill became a law the President reorganized the Aircraft Board and the War Industries Board and made them independent of the National Council of Defense.

Payment of Claims for Military Operations—In order to provide for the payment of claims by Europeans for damages done by American military forces, Congress (No. 133) provides that such claims may be paid when approved by an officer designated by the President. These claims shall not be approved unless payable under the law or practice governing the military forces of the country in which they occur. Claims by "an enemy or an ally of an enemy" are not to be paid. Neither enemy nor ally of enemy is defined by the act.

Corporate Contributions to War Purposes—Congress (No. 153) authorized national banks to contribute to the American National Red Cross.

Daylight Saving—Congress (No. 106) directs the Interstate Commerce Commission to divide the United States into five zones and prescribes a standard time for each which is to govern the movement of interstate commerce and all questions of time in statutes, regulations, etc., affecting any branch of the Government of the United States or any matter subject to the jurisdiction of the United States. The daylight saving is accomplished by a requirement that the standard time be advanced one hour beginning 2 A. M. the last Sunday in March and retarded one hour beginning 2 A. M. the last Sunday in October annually. This is not a war measure; it is not limited to the period of the war. It affects questions of private right only in so far as they are subject to the Federal jurisdiction. It does not attempt to control local questions of time in those States where, as in New York, the statutes contain a definition of time. In order to supplement the Federal act, New York (112) changed its definition of standard time to accord to the new Federal law.

United States Shipping Board Act Amended—This amendment (No. 202) to the original act of 1917 mainly perfects and clarifies powers already exercised by the President through the Shipping and War Trade Boards and the expert control sections of the Espionage act. The President may require approval (by himself or through such agencies as he may determine) of charters of American vessels or of foreign vessels under charter to American citizens. It authorizes the President to make war zone safety devices, rules and regulations, and confers important additional powers over drydocks, wharves, warehouse equipment, terminal railways, etc.

By another amendment the original act is made to read: "The controlling interest in a corporation shall not be deemed to be owned by citizens of the United States (a) if the title to a majority of the stock thereof is not vested in such citizens free from any trust or fiduciary obligation in favor of any person not a citizen of the United States; or (b) if the majority of the voting power in such corporation is not vested in citizens of the United States; or (c) if through any contract or understanding it is so arranged that the majority of the voting power may be exercised, directly or indirectly, in behalf of any person who is not a citizen of the United States; or (d) if by any other means whatsoever control of the corporation is conferred

upon or permitted to be exercised by any person who is not a citizen of the United States." A fine of $5,000 or prison for 5 years are maximum penalties for violation of the act.

Spanish War Pensions—This act provides for widows and minor children of officers and enlisted men who served 90 days or more in the war with Spain, the Philippine insurrection, or in China. The law specifies a minimum of 90 days' service running from date of enlistment to the date of discharge. Grants widow without means of support other than her daily labor and an actual net income not exceeding $250 per year, $12 per month during widowhood, and $2 per month for each child under 16, until 16 unless insane, idiotic or otherwise permanently incapable. No proof is required that death of enlisted man was result of his army or navy service.

New Draft Law Registration—Congress, by Public Resolution No. 30, approved May 20, 1918, required the registration, as by the Selective Service law of May 18, 1917, of all males who had attained the age of 21 since the original registration day, June 5, 1917. The President, by proclamation, fixed the day as June 5, 1918, in continental United States. By a further public resolution and presidential proclamation, August 24, 1918, was set as the second day of registration, in 1918, of males reaching 21. Congress, then passed, and the President approved on August 31, 1918, a further amendment to the Selective Service act, embracing within its terms all males between the ages of 18 and 45. The President, the same day, by proclamation, fixed Thursday, September 12, 1918, as the day of registration. Statistics of the various drafts and registrations will be found elsewhere in THE ALMANAC.

Vocational Rehabilitation—This act, approved June 27, 1918, provides for the giving of vocational education and instruction to honorably discharged soldiers and sailors (i. e., United States Military or Naval forces) who are unable to resume their former occupations or to carry on gainful occupations because of disability occasioned in such a way as to entitle them to "War Risk Insurance" compensation. Where vocational rehabilitation is feasible the Federal Board for Vocational Education prescribes such course or courses as it deems suitable in the particular case. During such course the person pursuing it is to receive monthly compensation equal to his monthly pay for the last month of his active service, or equal to what he would be entitled to receive as War Risk Insurance, whichever amount is greater. If an enlisted man at the time of his discharge, his family is to receive compulsory allotment, family allowance, etc., his compensation being treated as his monthly pay.

War Risk Insurance—Congress extended the time for applying for the insurance, changed the rates of allowance to dependents, allowed changes in beneficiaries, when attested, in writing, limited the fees of attorneys to $3 in preparing and executing papers for claimants, and provided fine and imprisonment for soliciting or receiving any other fees.

IMPORTANT LEGISLATION IN THE VARIOUS STATES.

Moratorium Acts—Those of Mississippi, Montana and New Jersey were briefly referred to under the same topic under Federal Legislation. Massachusetts (Ch. 342), grants as a matter of right a writ of review of judgments. Nebraska (Sp. 1918, 8), prevents judgments by default and provides for discretionary stays at any stage of any proceeding against men in the service. The other State acts contain no provision in this regard. Wisconsin (1917, Ch. 409) exempts from civil process for three years from entry into the service and requires a stay of suits pending at the time of the passage of the act. Iowa (Ch. 380) exempts from contractual payments and from execution. This act does not prevent the commencement of action, but requires the trial to be continued until six months after the war. Texas (Sp. 1917, Ch. 5) relieves a defendant in the service from the necessity of answering in civil cases until after the war, and (Ch. 4) requires all sales of real property in foreclosure to be confirmed by the court. Oregon (1917, Ch. 275) postpones foreclosure of mortgages and execution of judgment until 60 days after the war. Maine (1917, Ch. 273) requires a stay of actions against persons in the service unless the court thinks that a continuance would do "great injustice." This act also provides for a continuance in cases brought by persons in the service. Except in actions for rent, wages or money due in a fiduciary character, Maryland (Sp. 1917, Chs. 22 and 23) authorized a stay of action or execution of application if the court deems it in the interest of justice and if the applicant give bond or comply with other conditions imposed by the court. This is effective for six months after the end of the war unless the court rescinds it and orders proceedings resumed. A stay is authorized in the discretion of the court by Massachusetts (1917, Ch. 342, Sec. 19) if the defendant is in the service and absent from the State. North Dakota (Ch. 10) declares void any proceeding to recover debt or foreclose a lien taken against a person in the service; but in order to prevent depreciation permits the court to order the sale of property subject to a lien, upon the entry of a bond to protect an owner in the service. South Dakota (Ch. 55) exempts persons in the service from any payment under a contract, expressly excepting a life insurance policy. This act also suspends execution, and foreclosure.

Sedition-Espionage—The Montana act is like the Federal. Nebraska (Sp. 1918, 5) contains a detailed definition of sedition and extensive provision for its punishment.

New Jersey (Ch. 44) makes it "a high misdemeanor" to incite insurrection or sedition or to advocate hostility to or subversion of the Federal or State Government, or to be a member of an organization for, or attend a meeting for the purpose of, encouraging such hostility. This act is limited to promotion of insurrection or hostility to Government. Texas (Sp. 1918, H. B. 15) punishes the uttering or printing of seditious language. Seditious language is described as that which is disloyal, abusive or calculated to bring into disrepute the United States, its military forces or flag, or its entry or continuance in the war. It is provided that the suspended sentence law shall not apply to convictions under this act. It is made the "duty" of any person who hears or knows of any violation of this act to report to an officer having power to arrest any violation of this act of which such person knows. Treason is punished by life imprisonment and disqualification to hold public office by South Dakota (Sp. 1918, Ch. 64.) It is defined to "consist in levying war against the State, or in adhering to its enemies, or in giving them aid or comfort." No person is to be convicted except on the testimony of two witnesses to the same overt act or confession in open court. At the same session (Ch. 65) it was made a crime to fail immediately to disclose knowledge of the commission of the crime of treason. Advocating or advising any person in the State who is of military age not to enlist is penalized by Wisconsin (Sp. 1918, Ch. 13) and by New Jersey (Ch. 36). Such advice, if oral, is punishable only if uttered in a public place or at a meeting of more than five persons. Advice or advocacy, oral or written, of non-assistance in the prosecution of the war is punishable under any circumstances. Maryland (Ch. 281) enacts the uniform law penalizing improper use of the flag. Georgia (1917, No. 164) is a similar law, and Montana (Ch. 12) and the Texas sedition law, *supra*, increase the penalty imposed by existing law for abuse of the flag.

Montana (Sp. 1918, Ch. 7) makes it a felony to teach or advocate or justify criminal syndicalism or sabotage. The same penalty is imposed on any who helps to organize or becomes a member of any organization which teaches, advocates or "suggests" criminal syndicalism or sabotage. It is likewise made a felony to participate voluntarily or be present in any meeting, the purpose of which is to advocate, teach or suggest these crimes. The owner or person who knowingly permits such a meeting to be held on his premises is made guilty of a misdemeanor. Syndicalism, as defined by the act, is the advocacy of any resort to violence as a means of enforcing reforms. Sabotage, as defined, is the unlawful destruction of property. South Dakota (Ch. 38) punishes destruction or attempt to destroy life or property by the use

of any liquid, chemical, mechanical apparatus, current or other device in pursuance of the doctrine of criminal syndicalism.

North Dakota (Sp. 1918, Ch. 12) punishes "sabotage in the first degree" by imprisonment from one year to life. This crime is defined as the setting on fire directly or by means of chemical or mechanical apparatus or sun-glass or electric current of food for man or beast or buildings or cars where food is stored; or poisoning work or food-producing animals in order to hinder the owner's food-producing operations. An attempt at sabotage in the first degree, the hindering of harvesting or threshing of crops by injury to machinery through placing foreign substance in the grain to be harvested or threshed, or destruction of property in order to hinder the United States in prosecuting the war, constitute sabotage in the second degree. The penalty for this crime is again imprisonment only, though limited to 20 years.

New York (Ch. 337) makes it a felony punishable by 5-25 years imprisonment to injure or destroy military stores, raw materials for the production of such stores, buildings or vessels used by military forces or materials for the construction or operation of such buildings or vessels, buildings or machines used for the production of military stores, railroads or railroad equipment, highways, canals or bridges. By Montana (Sp. 1918, Ch. 2) the possession of firearms is lawful only if the owner has obtained a license from the county sheriff. All sales of firearms must be registered with the county clerk. Chapter 6 makes it a felony to manufacture, sell or give away Maxim silencers, bombs, explosive compounds, inflammable materials, or instruments with the intent that they shall be used for destruction of life or property. An accessory shall be deemed a principal for purposes of punishment, and mere possession is presumptive evidence of intent to use unlawfully. New Jersey (Ch. 97) makes it a misdemeanor for any person not a citizen to act as private or public detective. A number or recent State laws are intended to control the possession of firearms by alien enemies. Kentucky (S. B.6) punishes the possession by a subject of a nation with which the United States is at war of any firearm or explosive or the ingredients thereof. The forbidden article shall be confiscated on conviction and become the property of the State. Any police officer may summarily arrest, and if he suspects premises under the control of an alien, he may enter and search.

Work-or-Fight—Laws imposing a duty to engage in useful work started with the enactment in Kansas (1917, Ch. 167) of a law defining vagrancy to include refusal to accept employment. West Virginia (Sp. 1917, Ch. 12) expressly declared it to be the duty of every able-bodied male, except students and strikers, to work at least 36 hours a week. Failure to comply with this requirement was made a misdemeanor, punishable by 60 days' public work. Each week of idleness constituted a separate offense. Kentucky (H. B. 393) defines and punishes vagrancy, but includes mere idleness only when the accused is without means of support. Kentucky (S. B. 155) follows closely the West Virginia law, but its enforcement provisions are more stringent. Under it, inability to obtain work is in no case a defense. Summary convictions are authorized and the right to appeal is dependent on security not to violate the law pending the appeal. Maryland (Sp. 1917, Ch. 33) requires the registration of able-bodied men between 18 and 50 who are not usefully employed and authorizes the Governor to assign them to some public or private employment. Failure to register or to do the work assigned is punished by fine or imprisonment. Students and strikers are excepted, but the possession of means of support is no defense to failure to work. The hours and wages of persons assigned to work are to be those usual in similar employments. Massachusetts (286), New Jersey (Ch. 55), New York (Ch. 625), Rhode Island (Ch. 1661) and Delaware, likewise impose a duty to work on able-bodied men when by proclamation the Governor declares such employment essential for the protection of the public welfare during the war. While requiring every one to work, these laws, recognizing the possibility of inability to secure employment, provide that persons who have applied to a designated public agency for employment are not to be prosecuted pending their assignment, and that if such agency be unable to secure employment it shall issue a certificate to that effect, which likewise protects against prosecution. These acts also except strikers and students, but include all other male persons found in the State. South Dakota (Ch. 62) grants to the State Council of Defense power to "impress" into public or private employment all unemployed persons. General authority is given to the Council to make rules to carry out the purpose of the act, and violation of these rules is made a criminal offense. Habitual idleness or refusal to accept obtainable work is included in this definition of sedition in Nebraska (Sp. 1918, 5) and punished as such.

Absent Voting by Soldiers and Sailors—Though many of the laws authorizing absent voting are limited to voters in the military service, some are applicable to all voters absent from their residence districts. By a recent decision of the Adjutant-General their vote cannot be taken if it causes serious interference with military efficiency. He authorized State officers to apply for permission to take the vote of men in the service within the United States. Maryland and Rhode Island submitted constitutional amendments authorizing the Legislature to provide for the taking of the vote of men in the service. At the same time, in anticipation of the adoption of this constitutional amendment, the Maryland Legislature passed an act providing for the taking of this vote.

State Councils of Defense—State Councils of Defense to co-ordinate war activities within the State and to co-operate with the National Council have been created in practically all the States.

In general the powers of these State Councils are confined to advice and co-operation with public officials. In many cases they have, however, power to investigate and compel the production of evidence concerning the safety or welfare of the State or its war resources. The Council is required in Delaware to enroll and assign to labor the idle and unemployed; in Maryland, to organize public labor exchanges; in Montana, to control solicitation of funds for patriotic and war purposes; in North and South Dakota, to promote food production and distribution of farm labor; and in Minnesota, to do anything not inconsistent with the laws of the State for the protection of public safety and private property, including removal of public officers for non-performance of their duties. Similar is the power given the Governor in New Mexico (Sp. 1917, Ch. 3) and New Jersey (1917, Ch. 126) to provide for the public safety and for this purpose "to exercise any and all power which in his judgment may be convenient or necessary."

Suspension of Public Contracts—New York (Ch. 413) provides for the suspension, during the war, of all contracts for construction or repair of State or County highways, and Chapter 586 provides for revision of contracts for the construction of rapid transit railways in New York City.

Food Production and Preservation—Appropriations to encourage generally production of food are contained in Rhode Island (Res. H. 628) and Massachusetts (Sp. 63). The purchase of farm machinery to be operated for or leased to farmers is authorized in Massachusetts (90), and a State Board is authorized to maintain plants along the coast for the buying, selling and storing of fish in New Jersey (143). This board is also given control over pound-net fishing, including the refusal of the catch, with a view to rendering the supply of fish available at reasonable prices. New Jersey (53) authorizes municipalities to purchase, store and sell at wholesale or retail food and fuel. This act is to become inoperative six months after the signing of the Treaty of Peace concluding this war.

Corporate Contributions to War Purposes—Corporations have been authorized, out of their surplus or assets, to make contributions for war relief purposes in Massachusetts (196), New Jersey (173), New York (240) and Rhode Island (1662). Congress (No. 153) also authorized contributions by National banks to the American National Red Cross. The Massachusetts act limits such contributions in any year to 5 per cent. of the net profits of the preceding year, and provides that any stockholder who objects in writing is entitled to have his share of such contribution paid to him within six months after the contribution is made.

State Aid to Men in the Service—Provision for allowances by the State and its municipalities to residents in the military service is contained in Massachusetts (Ch. 92 and Ch. 108). New Jersey (Ch.

70 and Ch. 151) provide that the tenure of a position in the public service shall not be affected by military service and that leaves of absence shall be granted until honorably discharged from the service, and Chapters 15 and 16 provide for compensation to State or municipal employés supplementing their pay in the military service. Massachusetts (230) provides for the training of disabled soldiers and sailors by the State Board of Education and for co-operation with Federal officials in carrying out a rehabilitation scheme.

Massachusetts "True Name" Hotel Law—This act, in effect July 1, provides that landlords of hotels and lodging houses must keep a register in which every person who rents a room must write his true name and place of residence, and the true name and residence of every other occupant of the room. Landlords who violate the law or close their eyes to its violation, may be fined from $100 to $500, and costs, or punished with ninety days imprisonment, or both. Landlords who habitually close their eyes to violations may be fined from $500 to $1,000, or imprisoned from six months to a year, or both. Hirers of rooms not observing the law may be fined from $10 to $15. Occupants of rooms must see that the provisions of the act are complied with. Ignorance of the law is no defense.

CONGRESS TURNS THE WIRES OVER TO WILSON.

(Public Resolution No. 38, 65th Congress, H. J. Res. 309. Approved, July 16, 1918.)

JOINT resolution to authorize the President, in time of war, to supervise or take possession and assume control of any telegraph, telephone, marine cable, or radio system or systems or any part thereof, and to operate the same in such manner as may be needful or desirable for the duration of the war, and to provide just compensation therefor.

"*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled*, That the President during the continuance of the present war is authorized and empowered, whenever he shall deem it necessary for the national security or defense, to supervise or to take possession and assume control of any telegraph, telephone, marine cable, or radio system or systems, or any part thereof, and to operate the same in such manner as may be needful or desirable for the duration of the war, which supervision, possession, control, or operation shall not extend beyond the date of the proclamation by the President of the exchange of ratifications of the treaty of peace: *Provided*, That just compensation shall be made for such supervision, possession, control, or operation, to be determined by the President; and if the amount thereof, so determined by the President, is unsatisfactory to the person entitled to receive the same, such person shall be paid seventy-five per centum of the amount so determined by the President and shall be entitled to sue the United States to recover such further sum as, added to said seventy-five per centum, will make up such amount as will be just compensation therefor, in the manner provided for by section twenty-four, paragraph twenty, and section one hundred and forty-five of the Judicial Code: *Provided further*, That nothing in this act shall be construed to amend, repeal, impair, or affect existing laws or powers of the States in relation to taxation or the lawful police regulations of the several States, except wherein such laws, powers, or regulations may affect the transmission of Government communications, or the issue of stocks and bonds by such system or systems."

The President took possession and assumed control, by a proclamation dated July 22, 1918, in which he named Postmaster-General Burleson as Federal Supervisor of the wires. They were actually taken over by Mr. Burleson at 12 o'clock, midnight, July 31, 1918.

INTERNATIONAL LAW, AND THE WELFARE OF NATIONS.

ON April 27, 1918, the Executive Council of the American Society of International Law, headed by Elihu Root, adopted the following statement: "The only great question of international law to-day is whether that law shall continue to exist. Upon that subject the American Society of International Law reaffirms the clear and unvarying support of the United States for the rule of law, expressed in the recognition of international law in the Federal Constitution, in the decisions of its highest court and in the utterances of its chief magistrates and statesmen. Mr. Webster, while Secretary of State, made this announcement:

" 'Every nation, on being received, at her own request, into the circle of civilized governments, must understand that she not only attains rights of sovereignty and the dignity of national character, but that she binds herself to the strict and faithful observance of all those principles, laws, and usages which have obtained currency among civilized states, and which have for their object the mitigation of the miseries of war.'

"President Cleveland, in his special message of 1893, addressed to the Congress of the United States, said: 'The law of nations is founded upon reason and justice, and the rules of conduct governing individual relations between citizens or subjects of a civilized state are equally applicable as between enlightened nations. The considerations that international law is without a court for its enforcement and that obedience to its commands practically depends upon good faith instead of upon the mandate of a superior tribunal only give additional sanction to the law itself and brand any deliberate infraction of it not merely as a wrong, but as a disgrace. A man of true honor protects the unwritten word which binds his conscience more scrupulously, if possible, than he does the bond a breach of which subjects him to legal liabilities, and the United States, in aiming to maintain itself as one of the most enlightened nations, would do its citizens a gross injustice if it applied to its international relations any other than a high standard of honor and morality.'

"The council would call attention to the fact that the entire diplomatic and consular service of all nations operates under the control and protection of international law. That, therefore, all the vast interests within the charge of these agencies must be left unserved and unadministered if the beneficent provisions of international law are abandoned or disregarded. They further venture to call attention to the fact that more than two-thirds of the surface of the globe is covered by the high seas, that no law is current thereon except international law; that noble branch of law, which President Wilson, on April 2, 1917, addressing the Congress of the United States, declared had its 'origin in the attempt to set up some law which would be respected and observed upon the seas, where no nation had right of dominion and where lay the free highways of the world.' 'By painful stage after stage,' he said, 'has that law been built up with meagre enough results indeed after all was accomplished that could be accomplished, but always with a clear view at least of what the heart and conscience of mankind demanded.' To say no more than has been said as to international relations upon land if this one law and common rule which guards the traffic of the seas is allowed to lapse in that vast and preponderant domain, no measure of right and justice, no rule of humanity or restraint will remain, only the desolating condition which the vulgate ascribes to hell, Ubi nullus ordo sed sempiternus horror inhabitat. Therefore, those just and wise doctrines by which international relations are guided, humanized, and controlled, cannot be debilitated or abandoned. Therefore, they must be taught by our scholars, learned by our rising youth, declared and defined by our courts, announced by our Congress, enlarged by our treaties, and enforced by our Chief Executive. Therefore, at need, our army upon the land and our navy upon the sea, with a spirit and devotion which have never declined, must maintain and defend them, not for the good of this nation or this time alone, but for the good of all nations and all men, now and forevermore."

UNITED STATES SUPREME COURT'S OPINION ON NEWSPAPER CONTEMPT.

(Rendered at the October Term, 1918.)

This was the case in which the judge of the Federal District Court, at Toledo, O., fined, for contempt, the daily News-Bee, and its editor, Negley D. Cochran, because they had published editorials and cartoons adverse to the court, which had issued a preliminary injunction, in 1914, restraining the city from compelling 3-cent fares on the lines of the Toledo Railways and Light Company. The paper and its editor appealed from the contempt decision, but lost their case in the Supreme Court of the United States, which, after giving a history of the controversy, said, through Chief Justice White:

"In view of the gravity of the subject we proceed to consider and dispose of the elaborate arguments pressed (by the defendant paper). They are all embraced by the three following propositions: First, that there was a total want of power in the court to treat the matters charged in the information as a contempt and punish it accordingly as a result of the provisions of Section 268 of the Judicial Code (embodying the text of the Act of March 2, 1831, 4 Stat. 487); second, that irrespective of the prohibitions of that act, there was a want of power to abridge the freedom of the press by punishing as for a summary contempt comments made by a newspaper upon matters of public concern; and third, that whatever be the view of the two former propositions, as there was an entire absence of proof sustaining the ultimate inferences of fact upon which the court based its conclusion, such conclusion was wholly erroneous as a matter of law. We dispose of the propositions under separate headings.

"1. *Section 268 of the Judicial Code and as forerunner, the Act of* 1831. It is essential to recall the situation existing at the time of the adoption of the Act of 1831 in order to elucidate its provisions. In *Marshall* v. *Gordon*, 243 U. S. 521, the power of Congress to summarily punish for contempt came under consideration and it was there pointed out that the enlarged legislative power on that subject which prevailed in England prior to the separation, whether based upon the commingling of legislative and judicial authority or upon any other cause, was necessarily in this country greatly restricted and changed by the effect of the adoption of the Constitution and the operation of the division of powers and the guarantees and limitations which that instrument embodied. Considering this condition in the light of the colonial legislation on the subject and the previous State constitutions, it was pointed out that it had come to be established, either by express constitutional or legislative provisions or by inevitable implications resting upon the very existence of government, that while the limitations as to mode of accusation of crime and methods of trial had fundamentally changed the situation which had previously existed, such change had not deprived the legislative power of the right, irrespective of its authority by legislation to provide for the trial and punishment of criminal acts, in addition to summarily deal by way of contempt proceedings with wrongful acts obstructing the legislative power in the performance of its duty. This authority, it was held was but an incident of the powers conferred and indeed that its exertion in ultimate analysis was a means of securing the effective operation of the constitutional limitations as to mode of accusation and methods of trial. It was pointed out that the authority thus recognized automatically inhered in the government created by the Constitution, was sanctioned by a long line of judicial decisions and by State and Federal practice, although the legislative power, doubtless as a mere consequence of a reminiscence of what had gone before and momentarily forgetful of the limitations resulting from the Constitution, had sometimes exerted authority in excess of that which it was decided was really possessed.

"While the *Marshall* case concerned the exercise of legislative power to deal with contempt, the fundamental principles which its solution involved are here applicable to the extent that they may not be inapposite because of the distinction between legislative and judicial power. Indeed the identity of the constitutional principles applicable to the two cases subject to the differences referred to was pointed out on pages 542 and 543, where it was said: 'So also when the difference between the judicial and legislative powers are considered and the divergent elements which in the nature of things enter into the determination of what is self-preservation in the two cases, the same result is established by the statutory provisions dealing with the judicial authority to summarily punish for contempt, that is, without resorting to the modes of trial required by constitutional limitations or otherwise for substantive offenses under the criminal law. Act of March 2, 1831, 4 Stat. 487.' The pertinent provision of Section 268 of the Judicial Code is as follows: 'The said courts [United States courts] shall have power . . . to punish, by fine or imprisonment, at the discretion of the court, contempt of their authority: *Provided*, That such power to punish for contempts shall not be construed to extend to any cases except the misbehavior of any person in their presence, or so near thereto as to obstruct the administration of justice . . .' Clarified by the matters expounded and the ruling made in the *Marshall* case, there can be no doubt that the provision conferred no power not already granted and imposed no limitations not already existing. In other words, it served but to plainly mark the boundaries of the existing authority resulting from and controlled by the grants which the Constitution made and the limitations which it imposed. And this is not at all modified by conceding that the provision was intended to prevent the danger by reminiscence of what had gone before of attempts to exercise a power not possessed, which, as pointed out in the *Marshall* case, had been sometimes done in the exercise of legislative power. The provision, therefore, conformably to the whole history of the country, not minimizing the constitutional limitations ,nor restricting or qualifying the powers granted, by necessary implication recognized and sanctioned the existence of the right of self-preservation, that is, the power to restrain acts tending to obstruct and prevent the untrammeled and unprejudiced exercise of the judicial power given by summarily treating such acts as a contempt and punishing accordingly. The test therefore is the character of the act done and its direct tendency to prevent and obstruct the discharge of judicial duty,—a conclusion which necessarily sustains the view of the statute taken by the courts below and brings us to the second question, which is:

"2. The asserted inapplicability of the statute under the assumption that the publications complained of related to a matter of public concern and were safeguarded from being made the basis of contempt proceedings by the assuredly secured freedom of the press. We might well pass the proposition by because to state it is to answer it, since it involves in its very statement the contention that the freedom of the press is the freedom to do wrong with impunity and implies the right to frustrate and defeat the discharge of those governmental duties upon the performance of which the freedom of all, including that of the press, depends. The safeguarding and fructification of free and constitutional institutions is the very basis and mainstay upon which the freedom of the press rests and that freedom therefore does not and cannot be held to include the right virtually to destroy such institutions. It suffices to say that however complete is the right of the press to state public things and discuss them, that right, as every other right enjoyed in human society, is subject to the restraints which separate right from wrong-doing. The contention so earnestly pressed that the express provision found in a statute enacted in Pennsylvania in 1809 following the impeachment proceedings against Judge Peck dealing with the extent of the power to base a contempt proceeding upon a newspaper publication should be by implication read into the Act of 1831, and by filtration implied in Section 268, Judicial Code, we think is answered by its mere statement since, if it be conceded for argument's sake only that the provision in the Pennsylvania statute relied upon had the significance now attributed to it and that the Pennsylvania statute was the model of the Act of 1831, the omission from that act of the provision referred to as it existed in the Pennsylvania law is the strongest possible evidence of the purpose not to enact such provision.

"3. *The contention that there was no evidence whatever to justify attributing to the publications the con-*

U. S SUPREME COURT'S DECISION ON NEWSPAPER CONTEMPT—*Continued.*

sequence of obstruction and therefore no legal basis for the conclusion of guilt and resulting right to impose penalties. It is to be observed that our power in disposing of this objection is not to test divergent contentions as to the weight of the evidence but simply to consider the legal question whether the evidentiary facts found had any reasonable tendency to sustain the general conclusions of fact based upon them by the courts below. Considering the subject in this aspect again we are constrained to say that the contention on the face of the record is too plainly devoid of merit to require any detailed review. Indeed we are of opinion that the court below was right in saying concerning the ultimate conclusions of fact upon which its action was based that it was 'difficult to see how any other findings could have been made.' True, it is urged that although the matters which were made the basis of the findings were published at the place where the proceedings were pending and under the circumstances which we have stated in a daily paper having a large circulation, as it was not shown that they had been seen by the presiding judge or had been circulated in the court room, they did and could form no basis for an inference of guilt. But the situation is controlled by the reasonable tendencies of the acts done and not by extreme and substantially impossible assumptions on the subject. Again it is said there is no proof that the mind of the judge was influenced or his purpose to do his duty obstructed or restrained by the publications and therefore there was no proof tending to show the wrong complained of. But here again not the influence upon the mind of the particular judge is the criterion but the reasonable tendency of the acts done to influence or bring about the baleful result is the test. In other words, having regard to the powers conferred, to the protection of society, to the honest and fair administration of justice and to the evil to come from its obstruction, the wrong depends upon the tendency of the acts to accomplish this result without reference to the consideration of how far they may have been without influence in a particular case. The wrongdoer may not be heard to try the power of the judge to resist acts of obstruction and wrongdoing by him committed as a prelude to trial and punishment for his wrongful acts."

Justices Holmes and Brandeis dissented, holding the paper and its editor were liable not to summary contempt but simply to an indictment proceeding, Justice Holmes saying: "In England, I believe, the usual course is to proceed in the regular way by indictment. I mention this fact and the later statute only for their bearing upon the meaning of the exception in our law. When it is considered how contrary it is to our practice and ways of thinking for the same person to be accuser and sole judge in a matter which, if he be sensitive, may involve strong personal feeling, I should expect the power to be limited by the necessities of the case 'to insure order and decorum in their presence' as it is stated in *Ex parte Robinson*, 19 Wall. 505. See Prynne, Plea for the Lords, 309, cited in McIlwain, The High Court of Parliament and Its Supremacy, 191. And when the words of the statute are read it seems to me that the limit is too plain to be construed away. To my mind they point and point only to the present protection of the Court from actual interference, and not to postponed retribution for lack of respect for its dignity—not to moving to vindicate its independence after enduring the newspaper's attacks for nearly six months as the Court did in this case. Without invoking the rule of strict construction I think that 'so near as to obstruct' means so near as actually to obstruct—and not merely near enough to threaten a possible obstruction. 'So near as to' refers to an accomplished fact, and the word 'misbehavior' strengthens the construction I adopt. Misbehavior means something more than adverse comment or disrespect.

"But suppose that an imminent possibility of obstruction is sufficient. Still I think that only immediate and necessary action is contemplated, and that no case for summary proceedings is made out if after the event publications are called to the attention of the judge that might have led to an obstruction although they did not. So far as appears that is the present case. But I will go a step farther. The order for the information recites that from time to time sundry numbers of the paper have come to the attention of the judge as a daily reader of it, and I will assume, from that and the opinion, that he read them as they came out, and I will assume further that he was entitled to rely upon his private knowledge without a statement in open court. But a judge of the United States is expected to be a man of ordinary firmness of character, and I find it impossible to believe that such a judge could have found in anything that was printed even a tendency to prevent his performing his sworn duty. I am not considering whether there was a technical contempt at common law but whether what was done falls within the words of an act intended and admitted to limit the power of the Courts. The chief thing done was to print statements of a widespread public intent to board the cars and refuse to pay more than three cents even if the judge condemned the ordinance, statements favoring the course, if you like, and mention of the city officials who intended to back it up. This popular movement was met on the part of the railroad by directing its conductors not to accept three cent fares but to carry passengers free who refused to pay more; so that all danger of violence on that score was avoided, even if it was a danger that in any way concerned the Court. The newspaper further gave one or two premature but ultimately correct intimations of what the judge was going to do, made one mistaken statement of a ruling which it criticised indirectly, uttered a few expressions that implied that the judge did not have the last word and that no doubt contained innuendoes not flattering to his personality.

"Later there was an account of a local socialist meeting at which a member, one Quinlivan, spoke in such a way that the judge attached him for contempt and thereupon, on the same day that the decree was entered in the principal case, the paper reported as the grounds of the attachment that Quinlivan had pronounced Judge Killits to have shown from the first that he was favorable to the railroad, had criticised, somewhat ignorantly a ruling said to put the burden of proof on the city, and had said that Killits and his press were unfair to the people, winding up 'impeach Killits.' I confess that I cannot find in all this or in the evidence in the case anything that would have affected a mind of reasonable fortitude, and still less can I find there anything that obstructed the administration of justice in any sense that I possibly can give to those words. In the elaborate opinion that was delivered by Judge Killits to justify the judgment it is said 'In this matter the record shows that the Court endured the News-Bee's attacks upon suitors before it and upon the Court itself, and carried all the embarrassment inevitable from these publications, for nearly six months before moving to vindicate its independence.' It appears to me that this statement is enough to show that there was no emergency, that there was nothing that warranted a finding that the administration of justice was obstructed, or a resort to this summary proceeding, but that on the contrary when the matter was over, the judge thought that the 'consistently unfriendly attitude against the Court, and the fact that the publications tended to arouse distrust and dislike of the Court,' were sufficient to justify this information and a heavy fine. They may have been, but not, I think, in this form of trial.

"I would go as far as any man in favor of the sharpest and most summary enforcement of order in Court and obedience to decrees, but when there is no need for immediate action contempts are like any other breach of law and should be dealt with as the law deals with other illegal acts. Action like the present in my opinion is wholly unwarranted by even color of law."

SUPREME COURT CHILD LABOR LAW.

THE decision of the United States Supreme Court, rendered in October, 1918, by Justice Day, and concurred in by Chief Justice White, and by Justices Day, Van Devanter, Pitney and McReynolds—five out of nine—was as follows: 'A bill was filed in the United States District Court for the Western District of North Carolina, by a father in his own behalf and as next friend of his two minor sons, one under the age of fourteen years and the other between the ages of fourteen and sixteen years, employees in a cotton mill at Charlotte, North Carolina, to enjoin the enforcement of the act of Congress intended to prevent interstate commerce in the products of child labor. 39 Stat. 675, ch. 432. The district court held that the act was unconstitutional and entered a decree enjoining its enforcement. This appeal brings the case here. The first section of the act states: 'That no producer, manufacturer, or dealer shall ship or deliver for shipment in interstate or foreign commerce any article or commodity the product of any mine or quarry, situated in the United States, in which within thirty days prior to the time of the removal of such product therefrom children under the age of sixteen years have been employed or permitted to work, or any article or commodity the product of any mill, cannery, workshop, factory, or manufacturing establishment, situated in the United States, in which within thirty days prior to the removal of such product therefrom children under the age of fourteen years have been employed or permitted to work, or children between the ages of fourteen years and sixteen years have been employed or permitted to work more than eight hours in any day, or more than six days in any week, or after the hour of seven o'clock post-meridian, or before the hour of six o'clock ante-meridian.' Other sections of the act contain provisions for its enforcement and prescribe penalties for its violation.

"The attack upon the act rests upon three propositions: First, it is not a regulation of interstate and foreign commerce; Second, it contravenes the Tenth Amendment to the Constitution; Third, it conflicts with the Fifth Amendment to the Constitution. The controlling question for decision is: Is it within the authority of Congress in regulating commerce among the States to prohibit the transportation in interstate commerce of manufactured goods, the product of a factory in which, within thirty days prior to their removal therefrom, children under the age of fourteen have been employed or permitted to work, or children between the ages of fourteen and sixteen years have been employed or permitted to work more than eight hours in any day, or more than six days in any week, or after the hour of seven o'clock P. M., or before the hour of six o'clock A. M.? The power essential to the passage of this act, the government contends, is found in the commerce clause of the Constitution which authorizes congress to regulate commerce with foreign nations and among the States. In *Gibbons* v. *Ogden*, 9 Wheaton 1, Chief Justice Marshall, speaking for this court, and defining the extent and nature of the commerce power, said, 'It is the power to regulate, that is to prescribe the rule by which commerce is to be governed.' In other words, the power is one to control the means by which commerce is carried on, which is directly the contrary of the assumed right to forbid commerce from moving and thus destroying it as to particular commodities. But it is insisted that adjudged cases in this court establish the doctrine that the power to regulate given to Congress incidentally includes the authority to prohibit the movement of ordinary commodities and therefore that the subject is not open for discussion. The cases demonstrate the contrary. They rest upon the character of the particular subjects dealt with and the fact that the scope of governmental authority, State or national, possessed over them is such that the authority to prohibit is as to them but the exertion of the power to regulate.

"The first of these cases is *Champion* v. *Ames*, 188 U. S. 321, the so-called *Lottery Case*, in which it was held that Congress might pass a law having the effect to keep the channels of commerce free from use in the transportation of tickets used in the promotion of lottery schemes. In *Hipolite Egg Co.* v. *United States*, 220 U. S. 45, this court sustained the power of Congress to pass the Pure Food and Drug Act, which prohibited the introduction into the states by means of interstate commerce of impure foods and drugs. In *Hoke* v. *United States*, 227 U. S. 308, this court sustained the constitutionality of the so-called 'White Slave Traffic Act,' whereby the transportation of a woman in interstate commerce for the purpose of prostitution was forbidden. In that case, we have said, having reference to the authority of Congress, under the regulatory power, to protect the channels of interstate commerce: 'If the facility of interstate transportation can be taken away from the demoralization of lotteries, the debasement of obscene literature, the contagion of diseased cattle or persons, the impurity of foods and drugs, the like facility can be taken away from the systematic enticement to and the enslavement in prostitution and debauchery of women, and, more insistently, of girls.' In *Caminetti* v. *United States*, 242 U. S. 470, we held that Congress might prohibit the transportation of women in interstate commerce for the purposes of debauchery and kindred purposes. In *Clark Distilling Co.* v. *Western Maryland Railway Co.*, 242 U. S. 311, the power of Congress over the transportation of intoxicating liquors was sustained. In the course of the opinion it was said: 'The power conferred is to regulate and the very terms of the grant would seem to repel the convention that only prohibition of movement in interstate commerce was embraced. And the cogency of this is manifest since if the doctrine were applied to those manifold and important subjects of interstate commerce as to which Congress from the beginning has regulated, not prohibited, the existence of government under the Constitution would be no longer possible.' And concluding the discussion which sustained the authority of the government to prohibit the transportation of liquor in interstate commerce, the court said: '. . . the exceptional nature of the subject here regulated is the basis upon which the exceptional power exerted must rest and affords no ground for any fear that such power may be constitutionally extended to things which it may not, consistently with the guarantees of the Constitution, embrace.' In each of these instances the use of interstate transportation was necessary to the accomplishment of harmful results. In other words, although the power over interstate transportation was to regulate, that could only be accomplished by prohibiting the use of the facilities of interstate commerce to effect the evil intended. This element is wanting in the present case. The thing intended to be accomplished by this statute is the denial of the facilities of interstate commerce to those manufacturers in the States who employ children within the prohibited ages. The act in its effect does not regulate transportation among the States, but aims to standardize the ages at which children may be employed in mining and manufacturing within the States. The goods shipped are of themselves harmless. The act permits them to be freely shipped after thirty days from the time of their removal from the factory. When offered for shipment, and before transportation begins, the labor of their production is over, and the mere fact that they were intended for interstate commerce transportation does not make their production subject to Federal control under the commerce power.

"Commerce 'consists of intercourse and traffic . . . and includes the transportation of persons and property, as well as the purchase, sale and exchange of commodities.' The making of goods and the mining of coal are not commerce, nor does the fact that these things are to be afterwards shipped, or used in interstate commerce, make their production a part thereof. *Delaware, Lackawanna & Western R. R. Co.* v. *Yurkonis*, 238 U. S. 439. Over interstate transportation, or its incidents, the regulatory power of Congress is ample, but the production of articles, intended for interstate commerce, is a matter of local regulation. 'When the commerce begins is determined, not by the character of the commodity, nor by the intention of the owner to transfer it to another State for sale, nor by his preparation of it for transportation, but by its actual delivery to a common carrier for transportation, or the actual commencement of its transfer to another State.' (Mr. Justice Jackson in *In re Green*, 52 Fed. 113.) This principle has been recognized often in this court. *Coe* v. *Errol*, 116 U. S. 517; *Bacon* v. *Illinois*, 227 U. S. 504, and cases cited. If it were otherwise, all manufacture intended for interstate shipment would be brought under Federal control

to the practical exclusion of the authority of the States, a result certainly not contemplated by the framers of the Constitution when they vested in Congress the authority to regulate commerce among the States. *Kidd* v. *Pearson*, 128 U. S. 1, 21. It is further contended that the authority of Congress may be exerted to control interstate commerce in the shipment of child-made goods because of the effect of the circulation of such goods in other States where the evil of this class of labor has been recognized by local legislation, and the right to thus employ child labor has been more rigorously restrained than in the State of production. In other words, that the unfair competition, thus engendered, may be controlled by closing the channels of interstate commerce to manufacturers in those States where the local laws do not meet what Congress deems to be the more just standard of other States.

"There is no power vested in Congress to require the States to exercise their police power so as to prevent possible unfair competition. Many causes may co-operate to give one State, by reason of local laws or conditions, an economic advantage over others. The Commerce Clause was not intended to give to Congress a general authority to equalize such conditions. In some of the States laws have been passed fixing minimum wages for women, in various employments. Business done in such States may be at an economic disadvantage when compared with States which have no such regulations; surely, this fact does not give Congress the power to deny transportation in interstate commerce to those who carry on business where the hours of labor and the rate of compensation for women have not been fixed by a standard in use in other States and approved by Congress. The grant of power to Congress over the subject of interstate commerce was to enable it to regulate such commerce, and not to give it authority to control the States in their exercise of the police power over local trade and manufacture. The grant of authority over a purely Federal matter was not intended to destroy the local power always existing and carefully reserved to the States in the Tenth Amendment to the Constitution. Police regulations relating to the internal trade and affairs of the States have been uniformly recognized as within such control. 'This,' said the court in *United States* v. *Dewitt*, 9 Wall. 41, 45, 'has been so frequently declared by this court, results so obviously from the terms of the Constitution, and has been so fully explained and supported on former occasions, that we think it unnecessary to enter again upon the discussion.' *See Keller* v. *United States*, 213 U. S. 138, 144, 145, 146. Cooley's Constitutional Limitations, 7th Ed. p. 11.

"In the judgment which established the broad power of Congress over interstate commerce, Chief Justice Marshall said (9 Wheaton 203): 'They [inspection laws] act upon the subject before it becomes an article of foreign commerce, or of commerce among the States, and prepare it for that purpose. They form a portion of that immense mass of legislation, which embraces everything within the territory of a State, not surrendered to the General Government; all of which can be most advantageously exercised by the States themselves. Inspection laws, quarantine laws, health laws of every description, as well as laws for regulating the internal commerce of a State, and those which respect turnpike roads, ferries, etc., are component parts of this mass.' And in *Dartmouth College* v. *Woodward*, 4 Wheaton 518, 629, the same great judge said: 'That the framers of the Constitution did not intend to restrain the States in the regulation of their civil institutions, adopted for internal government, and that the instrument they have given us is not to be so construed may be admitted.' That there should be limitations upon the right to employ children in mines and factories in the interest of their own and the public welfare, all will admit. That such employment is generally deemed to require regulation is shown by the fact that the brief of counsel states that every State in the Union has a law upon the subject, limiting the right to thus employ children. In North Carolina, the State wherein is located the factory in which the employment was had in the present case, no child under twelve years of age is permitted to work. It may be desirable that such laws be uniform, but our Federal Government is one of enumerated powers; 'this principle,' declared Chief Justice Marshall in *McCulloch* v. *Maryland*, 4 Wheat. 316, 'is universally admitted.'

"A statute must be judged by its natural and reasonable effect. *Collins* v. *New Hampshire*, 171 U. S. 30, 33, 34. The control by Congress over interstate commerce cannot authorize the exercise of authority not entrusted to it by the Constitution. *Pipe Line Case*, 234 U. S. 548, 560. The maintenance of the authority of the States over matters purely local is as essential to the preservation of our institutions as is the conservation of the supremacy of the Federal power in all matters entrusted to the Nation by the Federal Constitution. In interpreting the Constitution it must never be forgotten that the Nation is made up of States to which are entrusted the powers of local government. And to them and to the people the powers not expressly delegated to the National Government are reserved. *Lane County* v. *Oregon*, 7 Wall 71, 76. The power of the States to regulate their purely internal affairs by such laws as seem wise to the local authority is inherent and has never been surrendered to the general Government. *New York* v. *Miln*, 11 Peters, 102, 139; *Slaughter House Cases*, 16 Wall. 36, 63; *Kidd* v. *Pearson*, *supra*. To sustain this statute would not be in our judgment a recognition of the lawful exertion of congressional authority over interstate commerce, but would sanction an invasion by the Federal power the control of a matter purely local in its character, and over which no authority has been delegated to Congress in conferring the power to regulate commerce among the States.

"We have neither authority nor disposition to question the motives of Congress in enacting this legislation. The purposes intended must be attained consistently with constitutional limitations and not by an invasion of the powers of the States. This court has no more important function than that which devolves upon it the obligation to preserve inviolate the constitutional limitations upon the exercise of authority Federal and State to the end that each may continue to discharge, harmoniously with the other, the duties entrusted to it by the Constitution. In our view the necessary effect of this act is, by means of a prohibition against the movement in interstate commerce of ordinary commercial commodities to regulate the hours of labor of children in factories and mines within the States, a purely State authority. Thus the act in a two-fold sense is repugnant to the Constitution. It not only transcends the authority delegated to Congress over commerce but also exerts a power as to a purely local matter to which the Federal authority does not extend. The far reaching result of upholding the act cannot be more plainly indicated than by pointing out that if Congress can thus regulate matters entrusted to local authority by prohibition of the movement of commodities in interstate commerce, all freedom of commerce will be at an end, and the power of the States over local matters may be eliminated, and thus our system of government be practically destroyed. For these reasons we hold that this law exceeds the constitutional authority of Congress. It follows that the decree of the district court must be affirmed."

The dissenting opinion of the minority of the United States Supreme Court, read by Justice Holmes, and concurred in by Brandeis, McKenna and Clarke, said: "The single question in this case is whether Congress has power to prohibit the shipment in interstate or foreign commerce of any product of a cotton mill situated in the United States in which within thirty days before the removal of the product children under fourteen have been employed more than eight hours in a day or more than six days in any week, or between seven in the evening and six in the morning. The objection urged against the power is that the States have exclusive control over their methods of production and that Congress cannot meddle with them, and taking the proposition in the sense of direct intermeddling I agree to it and suppose that no one denies it. But if any act is within the powers specifically conferred upon Congress, it seems to me that it is not made any less constitutional because of the indirect effects that it may have, however obvious it may be that it will have those effects, and that we are not at liberty upon such grounds to hold it void. The first step in my argument is to make plain what no one is likely to dispute—that the statute in question is within the power expressly given to Congress if considered only as to its immediate effects and that if invalid it is so only upon some collateral ground. The statute confines itself to prohibiting the carriage of certain goods in interstate or foreign commerce. Congress is given power to regulate such commerce in

DECISION U. S. SUPREME COURT UPSETTING CHILD LABOR LAW——*Continued.*

unqualified terms. It would not be argued to-day that the power to regulate does not include the power to prohibit. Regulation means the prohibition of something, and when interstate commerce is the matter to be regulated I cannot doubt that the regulation may prohibit any part of such commerce that Congress sees fit to forbid. At all events it is established by the *Lottery Case* and others that have followed it that a law is not beyond the regulative power of Congress merely because it prohibits certain transportation out and out. *Champion* v. *Ames*, 188 U. S. 321, 355, 359, *et seq.* So I repeat that this statute in its immediate operation is clearly within the Congress's constitutional power. The question then is narrowed to whether the exercise of its otherwise constitutional power by Congress can be pronounced unconstitutional because of its possible reaction upon the conduct of the States in a matter upon which I have admitted that they are free from direct control. I should have thought that that matter had been disposed of so fully as to leave no room for doubt. I should have thought that the most conspicuous decisions of this court had made it clear that the power to regulate commerce and other constitutional powers could not be cut down or qualified by the fact that it might interfere with the carrying out of the domestic policy of any State.

"The manufacture of oleomargarine is as much a matter of State regulation as the manufacture of cotton cloth. Congress levied a tax upon the compound when colored so as to resemble butter that was so great as obviously to prohibit the manufacture and sale. In a very elaborate discussion the present Chief Justice excluded any inquiry into the purpose of an act which apart from that purpose was within the power of Congress. *McCray* v. *United States*, 195 U. S. 27. As to foreign commerce see *Weber* v. *Freed*, 239 U. S. 325, 329; *Brolan* v. *United States*, 236 U. S. 216, 217; *Butfield* v. *Stranahan*, 192 U. S. 470. Fifty years ago a tax on State banks the obvious purpose and actual effect of which was to drive them, or at least their circulation, out of existence was sustained, although the result was one that Congress had no constitutional power to require. The court made short work of the argument as to the purpose of the act. 'The judicial cannot prescribe to the legislative departments of the Government limitations upon the exercise of its acknowledged powers.' *Veazie Bank* v. *Fenno*, 8 Wall. 533. So it well might have been argued that the corporation tax was intended under the guise of a revenue measure to secure a control not otherwise belonging to Congress, but the tax was sustained, and the objection so far as noticed was disposed of by citing *McCray* v. *United States*. *Flint* v. *Stone Tracy Co.*, 220 U. S. 107. And to come to cases upon interstate commerce, notwithstanding *United States* v. *E. C. Knight Co.*, 156 U. S. 1, the Sherman Act has been made an instrument for the breaking up of combinations in restraint of trade and monopolies, using the power to regulate commerce as a foothold, but not proceeding because that commerce was the end actually in mind. The objection that the control of the States over production was interfered with was urged again and again but always in vain. *Standard Oil Co.* v. *United States*, 221 U. S. 1, 68, 69. *United States* v. *American Tobacco Co.*, 221 U. S. 106, 184. *Hoke* v. *United States*, 227 U. S. 308, 321, 322. See finally and especially *Seven Cases of Eckman's Alterative* v. *United States*, 239 U. S. 510, 514, 515. The pure food and drug act, which was sustained in *Hipolite Egg Co.* v. *United States*, 220 U. S. 45, with the intimation that 'no trade can be carried on between the States to which it [the power of Congress to regulate commerce] does not extend,' 57, applies not merely to articles that the changing opinions of the time condemn as intrinsically harmful but to others innocent in themselves, simply on the ground that the order for them was induced by a preliminary fraud. *Weeks* v. *United States*, 245 U. S. 618. It does not matter whether the supposed evil precedes or follows the transportation. It is enough that in the opinion of Congress the transportation encourages the evil. I may add that in the cases on the so-called White Slave Act it was established that the means adopted by Congress as convenient to the exercise of its power might have the characetr of police regulations. *Hoke* v. *United States*, 227 U. S. 30, 323. *Caminetti* v. *United States*, 242 U. S. 470, 492. In *Clark Distilling Co.* v. *Western Maryland Ry. Co.*, 242 U. S. 311, 328, *Leisy* v. *Hardin*, 135 U. S. 100, 108, is quoted with seeming approval to the effect that 'a subject matter which has been confided exclusively to Congress by the Constitution is not within the jurisdiction of the police power of the State unless placed there by congressional action.' I see no reason for that proposition not applying here.

"The notion that prohibition is any less prohibition when applied to things now thought evil I do not understand. But if there is any matter upon which civilized countries have agreed—far more unanimously than they have with regard to intoxicants and some other matters over which this country is now emotionally aroused—it is the evil of premature and excessive child labor. I should have thought that if we were to introduce our own moral conceptions where in my opinion they do not belong this was pre-eminently a case for upholding the exercise of all its powers by the United States. But I had thought that the propriety of the exercise of a power admitted to exist in some cases was for the consideration of Congress alone and that this court always had disavowed the right to intrude its judgment upon questions of policy or morals. It is not for this court to pronounce when prohibition is necessary to regulation if it ever may be necessary—to say that it is permissible as against strong drink but not as against the product of ruined lives. The act does not meddle with anything belonging to the States. They may regulate their internal affairs and their domestic commerce as they like. But when they seek to send their products across the State line they are no longer within their rights. If there were no Constitution and no Congress their power to cross the line would depend upon their neighbors. Under the Constitution such commerce belongs not to the States but to Congress to regulate. It may carry out its views of public policy whatever indirect effect they may have upon the activities of the States. Instead of being encountered by a prohibitive tariff at her boundaries, the State encounters the public policy of the United States, which it is for Congress to express.

"The public policy of the United States is shaped with a view to the benefit of the nation as a whole. If, as has been the case within the memory of men still living, a State should take a different view of the propriety of sustaining a lottery from that which generally prevails, I cannot believe that the fact would require a different decision from that reached in *Champion* v. *Ames*. Yet in that case it would be said, with quite as much force as in this, that Congress was attempting to intermeddle with the State's domestic affairs. The national welfare as understood by Congress may require a different attitude within its sphere from that of some self-seeking State. It seems to me entirely constitutional for Congress to enforce its understanding by all the means at its command."

The office of the Supreme Keeper of Records and Seal is at Minneapolis, Minn. The next biennial convention of the Supreme Lodge will be held at Minneapolis, Minn, beginning August 3, 1920.

Total membership, 712,547.

TEXT OF U. S. SUPREME COURT'S UPHOLDING OF DRAFT LAW.

Following is the full text of the decision of the Supreme Court of the United States, January 7, 1918, upholding the constitutionality of the Selective-Service Act of 1917.

Mr. Chief Justice White delivered the opinion of the court, saying:

"We are here concerned with some of the provisions of the act of May 18, 1917, entitled 'An act to authorize the President to increase temporarily the Military Establishment of the United States.' The law, as its opening sentence declares, was intended to supply temporarily the increased military force which was required by the existing emergency, the war then and now flagrant. The clauses we must pass upon and those which will throw light on their significance are briefly summarized. The act proposed to raise a National Army, first, by increasing the regular force to its maximum strength and there maintaining it; second, by incorporating into such army the members of the National Guard and National Guard Reserve already in the service of the United States (act of Congress of June 5, 1916), and maintaining their organizations to their full strength; third, by giving the President power in his discretion to organize by volunteer enlistment four divisions of infantry; fourth, by subjecting all male citizens between the ages of twenty-one and thirty to duty in the National Army for the period of the existing emergency after the proclamation of the President announcing the necessity for their service; and fifth, by providing for selecting from the body so called, on the further proclamation of the President, 500,000 enlisted men, and a second body of the same number should the President in his discretion deem it necessary. To carry out its purposes the act made it the duty of those liable to the call to present themselves for registration on the proclamation of the President so as to subject themselves to the terms of the act and provided full Federal means for carrying out the selective draft. It gave the President in his discretion power to create local boards to consider claims for exemption for physical disability or otherwise made by those called. The act exempted from subjection to the draft designated United States and State officials as well as those already in the military or naval service of the United States, regular or duly ordained ministers of religion and theological students under the conditions provided for, and while relieving from military service in the strict sense the members of religious sects as enumerated whose tenets excluded the moral right to engage in war, nevertheless subjected such persons to the performance of service of a noncombatant character to be defined by the President.

The President's Proclamation.

"The proclamation of the President calling the persons designated within the ages described in the statute was made and the plaintiffs in error who were in the class and under the statute were obliged to present themselves for registration and subject themselves to the law failed to do so and were prosecuted under the statute for the penalties for which it provided. They all defended by denying that there had been conferred by the Constitution upon Congress the power to compel military service by a selective draft and if such power had been given by the Constitution to Congress, the terms of the particular act for various reasons caused it to be beyond the power of and repugnant to the Constitution. The cases are here for review because of the constitutional questions thus raised, convictions having resulted from instructions of the courts that the legal defenses were without merit and that the statute was constitutional. The possession of authority to enact the statute must be found in the clauses of the Constitution giving Congress power 'to declare war; * * * to raise and support armies, but no appropriation of money to that use shall be for a longer term than two years; * * * to make rules for government and regulation of the land and naval forces.' (Art. I, Sec. 8.) And of course the powers conferred by these provisions like all other powers given carry with them as provided by the Constitution the authority 'to make all laws which shall be necessary and proper for carrying into execution the foregoing powers.' (Art. I, Sec. 8.)

State and Federal Citizenship.

"As the mind can not conceive an army without the men to compose it, on the face of the Constitution the objection that it does not give power to provide for such men would seem to be too frivolous for further notice. It is said, however, that since under the Constitution as originally framed State citizenship was primary and United States citizenship but derivative and dependent thereon, therefore the power conferred upon Congress to raise armies was only coterminous with United States citizenship and could not be exerted so as to cause that citizenship to lose its dependent character and dominate State citizenship. But the proposition simply denies to Congress the power to raise armies which the Constitution gives. That power by the very terms of the Constitution, being delegated, is supreme. (Art. VI.) In truth the contention simply assails the wisdom of the framers of the Constitution in conferring authority on Congress and in not retaining it as it was under the Confederation in the several States. Further it is said, the right to provide is not denied by calling for volunteer enlistments, but it does not and can not include the power to exact enforced military duty by the citizen. This, however, but challenges the existence of all power, for a governmental power which has no sanction to it and which therefore can only be exercised provided the citizen consents to its exertion is in no substantial sense a power. It is argued, however, that although this is abstractly true, it is not concretely so because as compelled military service is repugnant to a free government and in conflict with all the great guarantees of the Constitution as to individual liberty, it must be assumed that the authority to raise armies was intended to be limited to the right to call an army into existence counting alone upon the willingness of the citizen to do his duty in time of public need; that is, in time of war. But the premise of this proposition is so devoid of foundation that it leaves not even a shadow of ground upon which to base the conclusion. Let us see if this is not at once demonstrable. It may not be doubted that the very conception of a just government and its duty to the citizen includes the reciprocal obligation of the citizen to render military service in case of need and the right to compel it. (Vattel, Law of Nations, Book III., ch. I, 2.) To do more than state the proposition is absolutely unnecessary, in view of the practical illustration afforded by the almost universal legislation to that effect now in force.

"In England it is certain that before the Norman Conquest the duty of the great military body of the citizens was recognized and enforcible. (Blackstone, Book I., c. 13.) It is unnecessary to follow the long controversy between Crown and Parliament as to the branch of the Government in which the power resided, since there never was any doubt that it somewhere resided. So, also, it is wholly unnecessary to explore the situation for the purpose of fixing the sources whence in England it came to be understood that the citizen or the force organized from the militia as such could not, without their consent, be compelled to render service in a foreign country, since there is no room to contend that such principle ever rested upon any challenge of the right of Parliament to impose compulsory duty upon the citizen to perform military duty wherever the public exigency exacted, whether at home or abroad. This is exemplified by the present English service act. (Military service act, January 27, 1916, amended by the military service act of May 25, 1916.)

Applied to the Colonies.

"In the colonies before the separation from England there can not be the slightest doubt that the right to enforce military service was unquestioned and that practical effect was given to the power in many cases. Indeed the brief of the Government contains a list of colonial acts manifesting the power and its enforcement in more than two hundred cases. And this exact situation existed also after the separation. Under the Articles of Confederation it is true Congress had no such power, as its authority was absolutely limited to making calls upon the States for the military forces needed to create and maintain the army, each State being bound for its quota as called. But it is indisputable that the States in response to the calls made upon them met the situation when they deemed it necessary by directing enforced military service on the part of the citizens. In fact, the duty of the citizen to render military service and the power to compel him against his consent to do so was expressly sanctioned by the constitutions of at least nine of the States, an

illustration being afforded by the following provision of the Pennsylvania Constitution of 1776. 'That every member of society hath a right to be protected in the enjoyment of life, liberty, and property, and therefore is bound to contribute his portion toward the expense of that protection, and yield his personal service when necessary, or an equivalent thereto.' While it is true that the States were sometimes slow in exerting the power in order to fill their quotas—a condition shown by resolutions of Congress calling upon them to comply by exerting their compulsory power to draft and by earnest requests by Washington to Congress that a demand be made upon the States to resort to drafts to fill their quotas. That fact serves to demonstrate instead of to challenge the existence of the authority. A default in exercising a duty may not be resorted to as a reason for denying its existence.

"When the Constitution came to be formed it may not be disputed that one of the recognized necessities for its adoption was the want of power in Congress to raise an army and the dependence upon the States for their quotas. In supplying the power it was manifestly intended to give it all and leave none to the States, since besides the delegation to Congress of authority to raise armies the Constitution prohibited the States, without the consent of Congress, from keeping troops in time of peace or engaging in war. (Art. I., Sec. 10.) To argue that, as the State authority over the militia prior to the Constitution embraced every citizen, the right of Congress to raise an army should not be considered as granting authority to compel the citizen's service in the army, is but to express in a different form the denial of the right to call any citizen to the army. Nor is this met by saying that it does not exclude the right of Congress to organize an army by voluntary enlistments, that is, by the consent of the citizens, for if the proposition be true, the right of the citizen to give consent would be controlled by the same prohibition which would deprive Congress of the right to compel unless it can be said that although Congress had not the right to call because of State authority, the citizen had a right to obey the call and set aside State authority if he pleased to do so. And a like conclusion demonstrates the want of foundation for the contention that although it be within the power to call the citizen into the army without his consent, the army into which he enters after the call is to be limited in some respects to services for which the militia, it is assumed, may only be used, since this admits the appropriateness of the call to military service in the army and the power to make it and yet destroys the purpose for which the call is authorized, the raising of armies to be under the control of the United States.

Fallacy of the Arguments.

"The fallacy of the argument results from confounding the constitutional provisions concerning the militia with that conferring upon Congress the power to raise armies. It treats them as one while they are different. This is the militia clause: 'The Congress shall have power * * * to provide for calling forth the militia to execute the laws of the Nation, suppress insurrections, and repel invasions: to provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States, respectively, the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress.' (Art. 1., Sec. 8.) The line which separates it from the army power is not only inherently plainly marked by the text of the two clauses, but will stand out in bolder relief by considering the condition before the Constitution was adopted and the remedy which it provided for the military situation with which it dealt. The right on the one hand of Congress under the Confederation to call on the States for forces and the duty on the other of the States to furnish when called, embraced the complete power of government over the subject. When the two were combined and were delegated to Congress all governmental power on that subject was conferred, a result manifested not only by the grant made but by the limitation expressly put upon the States on the subject. The army sphere therefore embraces such complete authority. But the duty of exerting the power thus conferred in all its plentitude was not made at once obligatory but was wisely left to depend upon the discretion of Congress as to the arising of the exigencies which would call it in part or in whole into play. There was left therfore under the sway of the States undelegated the control of the militia to the extent that such control was not taken away by the exercise by Congress of its power to raise armies. This did not diminish the military power or curb the full potentiality of the right to exert it but left an area of authority requiring to be provided for (the militia area) unless and until by the exertion of the military power of Congress that area had been circumscribed or totally disappeared. This, therefore, is what was dealt with by the militia provision. It diminished the occasion for the exertion by Congress of its military power beyond the strict necessities for its exercise by giving the power to Congress to direct the organization and training of the militia (evidently to prepare such militia in the event of the exercise of the army power), although leaving the carrying out of such command to the States. It further conduced to the same result by delegating to Congress the right to call on occasions which were specified for the militia force, thus again obviating the necessity for exercising the army power to the extent of being ready for every conceivable contingency. This purpose is made manifest by the provision preserving the organization of the militia so far as formed when called for such special purposes although subjecting the militia when so called to the paramount authority of the United States. But because under the express regulations the power was given to call for specified purposes without exerting the army power, it cannot follow that the latter power when exerted was not complete to the extent of its exertion and dominant. Because the power of Congress to raise armies was not required to be exerted to its full limit but only as in the discretion of Congress it was deemed the public interest required, furnishes no ground for supposing that the complete power was lost by its partial exertion. Because, moreover, the power granted to Congress to raise armies in its potentiality was susceptible of narrowing the area over which the militia clause operated, affords no ground for confounding the two areas which were distinct and separate to the end of confusing both the powers and thus weakening or destroying both.

Powers Exerted From Beginning.

"And upon this understanding of the two powers the legislative and executive authority has been exerted from the beginning. From the act of the first session of Congress carrying over the army of the Government under the Confederation to the United States under the Constitution (act of September 29, 1789) down to 1812 the authority to raise armies was regularly exerted as a distinct and substantive power, the force being raised and recruited by enlistment. Except for one act formulating a plan by which the entire body of citizens (the militia) subject to military duty was to be organized in every State (act of May 8, 1792), which was never carried into effect, Congress confined itself to providing for the organization of a specified number distributed among the States according to their quota to be trained as directed by Congress and to be called by the President as need might require. (Acts of May 9, 1794; February 28, 1795; June 24, 1797; March 3, 1803; April 18, 1806; March 30, 1808; April 10, 1812.) When the War of 1812 came the result of these two forces composed the army to be relied upon by Congress to carry on the war. Either because it proved to be weak in numbers or because of insubordination developed among the forces called and manifested by their refusal to cross the border (Upton, Military Policy of the United States, pp. 99, et seq.), the Government determined that the exercise of the power to organize an army by compulsory draft was necessary, and Mr. Monroe, the Secretary of War (Mr. Madison being President), in a letter to Congress recommended several plans of legislation on that subject. It suffices to say that by each of them it was proposed that the United States deal directly with the body of citizens subject to military duty and call a designated number out of the population between the ages of eighteen and forty-five for service in the army. The power which it was recommended be exerted was clearly an unmixed Federal power, dealing with the subject from the sphere of the authority given to Congress to raise armies and not from the sphere of the right to deal with the militia as such, whether organized or unorganized. A bill was introduced giving effect to the plan. Opposition developed, but we need not stop to consider it because it sub-

stantially rested upon the incompatibility of compulsory military service with free government, a subject which from what we have said has been disposed of. Peace came before the bill was enacted.

During the Mexican War.

"Down to the Mexican War the legislation exactly portrayed the same condition of mind which we have previously stated. In that war, however, no draft was suggested, because the army created by the United States immediately resulting from the exercise by Congress of its power to raise armies, that organized under its direction from the militia and the volunteer commands which were furnished, proved adequate to carry the war to a successful conclusion. So the course of legislation from that date to 1861 affords no ground for any other than the same conception of legislative power which we have already stated. In that year when the mutterings of the dread conflict which was to come began to be heard and the proclamation of the President calling a force into existence was issued it was addressed to the body organized out of the militia and trained by the States in accordance with the previous acts of Congress. (Proclamation of April 15, 1861.) That force being inadequate to meet the situation, an act was passed authorizing the acceptance of 500,000 volunteers by the President to be by him organized into a national army. (Act of July 22, 1861.) This was soon followed by another act increasing the force of the militia to be organized by the States for the purpose of being drawn upon when trained under the direction of Congress (act of July 29, 1861), the two acts when considered together presenting in the clearest possible form the distinction between the power of Congress to raise armies and its authority under the militia clause. But it soon became manifest that more men were required. As a result the act of March 3, 1863, was adopted entitled 'An act for enrolling and calling out the national forces and for other purposes.' By that act, which was clearly intended to directly exert upon all the citizens of the United States the national power which it had been proposed to exert in 1814 on the recommendation of the then Secretary of War, Mr. Monroe, every male citizen of the United States between the ages of twenty and forty-five was made subject by the direct action of Congress to be called by compulsory draft to service in a national army at such time and in such numbers as the President in his discretion might find necessary. In that act, as in the one of 1814, and in this one, the means by which the act was to be enforced were directly Federal and the force to be raised as a result of the draft was therefore typically national as distinct from the call into active service of the militia as such. And under the power thus exerted four separate calls for draft were made by the President and enforced, that of July, 1863, of February and March, 1864, of July and December, 1864, producing a force of about a quarter of a million men. (Historical report, enrolment branch, Provost Marshal General's Bureau, March 17, 1866.) It is undoubted that the men thus raised by draft were treated as subject to direct national authority and were used either in filling the gaps occasioned by the vicissitudes of war in the ranks of the existing national forces or for the purpose of organizing such new units as were deemed to be required. It would be childish to deny the value of the added strength which was thus afforded. Indeed in the official report of the Provost Marshal General, just previously referred to in the reference, reviewing the whole subject it was stated that it was the efficient aid resulting from the forces created by the draft at a very critical moment of the civil strife which obviated a disaster which seemed impending and carried that struggle to a complete and successful conclusion.

The National Guard Act.
